A MAN

WHO IS UNACQUAINTED WITH THE GEOGRAPHY OF THIS COUNTRY, WILL SEE BY EXAMINING THIS MAP, THAT THE

CHICAGO, ROCK ISLAND & PACIFIC R. R.

IS THE GREAT CONNECTING LINK BETWEEN THE EAST AND THE WEST!

Its main line runs from Chicago to Council Bluffs, but Omaha, passing through Joliet, Ottawa, La Salle, Geneseo, Moline, Rock Island, Davenport, West Liberty, Iowa City, Marengo, Brooklyn, Grinnell, and Des Moines, (the capital of Iowa) with branches from Bureau Junction to Peoria; Milton Junction to Muscatine, Washington, Fairfield, Eldon, Belknap, Centreville, Princeton, Trenton, Gallatin, Cameron, Leavenworth and Atchison; Washington to Sigourney, Oskaloosa and Knoxville; Keokuk to Farmington, Bonaparte, Bentonsport, Independent, Eldon, Ottumwa, Eddyville, Oskaloosa, Pella, Monroe, and Des Moines; Des Moines to Indianola and Winterset; Atlantic to Audubon and Avoca to Harlan. This is positively the only Railroad which owns, controls and operates a through line between Chicago and Kansas.

This Company own and control their Sleeping Cars, which are inferior to none, and give you a double berth between Chicago and Council Bluffs, Leavenworth, or Atchison for Two Dollars and Fifty Cents; and a section for Five Dollars, while all other lines charge between the same points, Three Dollars for a double berth, and Six Dollars for a section.

What will please you most will be the pleasure of enjoying your meals, while passing over the beautiful prairies of Illinois and Iowa, in one of our magnificent Dining and Restaurant Cars that accompany through Express Trains. You get an entire meal, good as is served in any first-class hotel, for twenty-five cents; or you can order what you like, and pay for what you get.

Appreciating the fact that a majority of the people prefer separate apartments for different purposes, and the enormous passenger business of this line warranting it, we are pleased to announce that this Company runs its PALACE SLEEPING CARS for Sleeping purposes, and its PALACE DINING CARS for Eating purposes. One other great feature of our Palace Cars is a SMOKING SALOON where you can enjoy your "Havana" at all hours of the day.

Magnificent Iron Bridges span the Mississippi and Missouri rivers at all points crossed by this line, and transfers are avoided at Council Bluffs, Leavenworth and Atchison, connections being made in Union depots.

THE PRINCIPAL R. R. CONNECTIONS OF THIS GREAT THROUGH LINE ARE AS FOLLOWS:

Correspondence.

Particulars of a Fatal Accident.

HOLDEN, Millard County, July 10, 1879.

Editors Deseret News:

By request of the parents, allow me through your columns to give a detailed account of a sad accident which occurred here on Tuesday, July 1st.

Henry Teeples deceased was the son of Sidney Nicholas Teeples, born July 16, 1864, at Goshen, Utah County, U. T.

He was at the time of the accident assisting his grandfather haul lucerne hay, putting it into a log barn, and while unloading, tied the lines by the window where the hay was thrown into. In the meantime the nigh horse managed to get his bridle off, but the boy did not notice it (the bridle) until he had emptied the wagon. At this moment he jumped from the wagon to put on the bridle, which he succeeded in doing, when the horses made a sudden start, breaking the line about 12 inches from where the check joins, and they springing, caught him around the neck, dislocating it, carrying him about ten feet the first jump, as could be seen from the tracks. His grandfather as quick as possible followed up and found him lying on the ground insensible, about 25 yards from the barn. Every possible means were used to bring him to life, but all to no avail, life was extinct.

He was a boy who bore a good reputation, very truthful and obedient to his parents, and was beloved by all who knew him. The news of his demise cast a gloom over the settlement and the programme for the glorious Fourth was entirely omitted, everything was sad and lonely during the day.

At the funeral exercises appropriate remarks were made by Elder Jno. Ellett and Father Gourley, of Goshen, (his grandfather), when he was conveyed to the vehicle by 6 young men from the ages of 12 to 15, followed immediately by 6 young ladies, about the same age, when the procession formed in line numbering 22 wagons. Great sympathy was shown the bereaved ones.

Yours very truly, BENJ. BENNETT.

Sitting for Your Portrait.

How came it that a photograph, which ought to present the sitter in a thoroughly easy and natural pose, often exhibits him in a constrained and awkward attitude? This is generally the fault of the photographer, who, with very vague notions of effect and art, usually places his subject, doubtless with the best intentions, in a most uncomfortable position. The head is fixed against an iron stand, the hands disposed in any but an ordinary way; the body is, so to speak, distorted, the eyes are directed in a stolid gaze, and then elaborate instructions are issued—all ending in the discomfiture of the sitter, who is nevertheless requested to "look pleasant." Dr. Thomas Buzzard suggests a remedy by which the painfully-strained appearance that frequently follows from the photographer's instructions to look at a certain spot might be got rid of. His method is to take a piece of paper and to draw upon it a circle of, say, four inches diameter, on which he places at the usual intervals the Roman figures of a clock dial. The paper is to be nailed to a post, and when the sitting begins the eyes are fixed upon the figure XII., then upon I., II., III., and so on, the gaze moving leisurely from one one figure to another. In this way great relief is obtained, and a subject can sit for a considerable time without any sense of fatigue. For children, a disc with a single aperture towards its edge may be made to revolve in the direction of the hands of a clock in front of another disc prepared with pictures, one picture being displayed at a time, and each in turn. This hint will no doubt be found useful, though it is only fair to state that the high-class excellence of several photographer's work shows that they, at any rate, have nothing to learn in taking a portrait.

No Money to Waste.

A Detroiter, who has the reputation of being hard pay, was waited on the other day by a man who began:

"Mr. Blank, I hold your note for $75. It is long past due, and I wanted to see what you would do about it."

"My note? Ah, yes, yes, this is my note. For value received I promise to pay, and so forth. Have you been to the note shavers with this?"

"I have, but none of them would have it."

"Wouldn't, eh? And you tried the banks?"

"Yes, sir, but they wouldn't look at it."

"Wouldn't, eh? And I suppose you went to a justice to see about suing it."

"I did, but he said a judgment wouldn't be worth a dollar."

"Did, eh? And now what proposition do you wish to make?"

"This is your note for $75. Give me $5 and you can have it.

"Five dollars! No, sir! no, sir! I have no money to throw away sir!"

"But it is your note."

"True, sir, very true, but I'm not such an idiot as to throw away money on worthless securities, no matter who signs them. I deal only in first-class paper, sir, and when that note has a negotiable value I will be pleased to discount it. Good day, sir—looks like settled weather again."

AN INGENIOUS INVENTION.—An invention has been patented in Germany which, should its practical application prove feasible, will add very greatly to the power of musketry fire. The invention consists of an apparatus, described as very simple in design and construction, by which an ordinary breech-loading rifle can, whenever it may be desired, be temporarily converted into a repeating arm. The apparatus holds ten cartridges, and can be carried by the soldier in his pocket. When necessary it can be fitted on the rifle in a moment, when the ten rounds can be fired just as rapidly as the same number of cartridges can be discharged from any magazine rifle.—*New York Sun.*

"Ha! ha! there is blood on the moon," he cried, striking an attitude in imitation of the tragedian he had seen at the theatre the night before. "What, ho! ye black and midnight hag," when his mother suddenly walked into the bedroom and spoiled the whole first act with a trunk strap.

The maddest man this side of a hornet's nest was in Louisville, yesterday. He is a gentleman, a scholar and a scientist. For the last three months he has been devoting himself to the preparation of an exhaustive essay on "Antidotes for Rabies," and yesterday an announcement appeared in a paper that he had nearly ready his "Antidote for Babies."

Right Time to Operate in Stocks.

By recent communication with prominent stock operators, we learn that now is a favorable time to take advantage of the stock market, by the new combination method of Messrs. Lawrence & Co., the New York bankers, who have been so remarkably successful heretofore. This system is founded on correct rules of finance and is universally approved by the shrewdest operators. The orders of thousands of customers are massed into an immense capital, and operated as a great whole, dividing profits *pro rata* every month. In this way any customer can invest from $10 to $10,000 with equal proportionate success, and at the same time gain all the advantages of largest capital and best skill in manipulating the market. This firm's new circular has "two unerring rules for success" [and full explanations. $50 will make $250, or 5 per cent; $500 will return $3,000, and so on, according to the market. Stocks and bonds wanted. Deposits received. Apply to Lawrence & Co., Bankers, 57 Exchange Place, New York City. 11

Catarrhal POISON

Wei De Meyer's Treatise on Catarrh, explains the following important facts:

1. That Catarrhal Colds become a poisonous infection, at first local, and finally constitutional.

2. That, being Constitutional, the infection is beyond the reach of mere local remedies.

3. That whatever impurities exist in the nostrils, are necessarily swallowed into the stomach and inhaled into the lungs, thus poisoning the digestive, the respiratory and the genito-urinary organs.

4. That Catarrhal virus follows the mucous membrane and causes Weak Eyes, Deafness, Dyspepsia, Chronic Diarrhœa, Bronchitis, Leucorrhœa and Consumption.

5. That Smokes, Douches, Inhalations and Insoluble Snuffs, taken into the nostrils and throat, cannot possibly remove infectious inflammation from the organs named.

6. That an antidote for Catarrh must possess an inoculative affinity for, and the capacity of being absorbed by the purulent mucous wherever located.

Acting upon these theories, Dr. Wei De Meyer has found a remedy for Catarrhal diseases, which proves to be infallible. His Treatise, with overwhelming proofs and full explanations of the most important medicinal discovery since vaccination, is sent free and Post-paid to anybody. Wei De Meyer's Catarrh Cure is not yet in the hands of all Druggists. Where not thus procurable, it will be delivered to any address at $1.50 a package. To Clubs, six packages for $7.50. To the trade, liberal terms.
