Cheap Clear Statistics.

Statistics recently taken of the different church clocks of Toledo and Brooklyn make rather interesting reading. In so many of the cemeteries in the world, as we have repeatedly stated, the sleeping all back, for centuries, are crowded and interesting. In New York there are 141 sound quartets, as upwards made up of men, and also, there are 1,000 [illegible] in the city, and there are fifty-four [illegible] which support a [illegible] in a good quartet.

In seven-seven churches there are [illegible] and 10 [illegible] have [illegible] organs, twenty not by the wind or by a colored [illegible]. Twenty-eight churches are [illegible] of [illegible] [illegible] in the [illegible] [illegible] [illegible]
