DESERET EVENING NEWS.

Thursday, . . . . July 23, 1868.

## LOCAL AND OTHER MATTERS.

CORRESPONDENTS writing for publication are requested to write on one side of the paper only.

No notice can be taken of anonymous communications. Correspondents' names must in every instance accompany their communications, not necessarily for publication, but as a guarantee of reliability.

### THE TWENTY-FOURTH OF JULY.

To-morrow twenty-one years will have been completed since the Pioneers reached this Valley and camped on the site of this City. Within that brief period what wonderful changes have been wrought! Yesterday we received a call from Dr. Meeks, of Harrisburg, Washington county. He first came to this city, in 1847, and from here went with the first company to Parowan, where he continued to reside until six years ago, when he moved over the rim of the basin to his present place of residence. He is now in this city on a visit, and he says he feels himself an almost complete stranger here. It is hard to realize that this is the same ground, on three blocks of which, in the old and north and south forts, all the people then resided. It is with hundreds of the old settlers, who have been absent from the city, as it is with him, when they revisit the city the improvements which have been made strike them forcibly, and they can realize the progress which has been made by contrasting the present with the past.

The Twenty-fourth of July is a truly memorable day in our history, and with the 6th of April should always be kept in bright remembrance by our people. We shall not publish the DESERET EVENING NEWS to-morrow, as we wish to honor the day by observing it as a holiday.

THEATRICAL.—The Management of our Theatre presents a very interesting programme for the great Anniversary of our Pioneers. In the afternoon "Cinderella," with all its gorgeous scenery, dances, songs, magic changes and popular fairy tale, will be given for the children, families and strangers. In the evening, the amusing, popular musical drama of the "Pearl of Savoy," with Madame Sheller in one of her finest parts, and a powerful cast will form the attraction. "The Pearl of Savoy" is a play that has always been popular with our Theatre-goers. It has given as much satisfaction as any of the plays produced in Salt Lake City. It contains music, dances, comic and tragic scenes and strong effects. This evening there will be no performance.

WORSE AND WORSE.—By Deseret Telegraph we learn that at St. George, to-day, the thermometer stands at 112°

BAD FIX.—The county affairs at Cheyenne are said to be in rather a bad fix. They have but one county Comissioner, no Coroner, and if the injuries sustained by the Sheriff when the trains collided a few days ago, shall prove fatal, it is thought the people would be left in rather a deplorable condition. The Cheyenne *Leader* pathetically asks, "Has the Probate Judge any power to fill vacancies?"

THE EMIGRATION.—We have been favored with the following telegram received by President B. Young, from H. S. Eldredge, Esq.:

Laramie, July 22, '68.

About 500 [emigrants] arrived at three p. m. Generally healthy; all in camp ready to weigh up and re-load.

H. S. ELDREDGE.

RECOVERED.—G. B. Lang, the boy who was dragged several blocks along the street last Sunday by a horse at full gallop, and who so miraculously escaped with his life is now almost entirely recovered from his injuries.

THE RAILROAD.—We understand that Sharp & Young purpose making a commencement upon the 1100 feet of tunnelling which is in their contract. It is a pleasing circumstance that notwithstanding the amount of blasting, &c., that has been done out at Weber and Echo, We have not yet had to record a solitary accident of a calamitous nature. We trust we will not have to do so in the future.

"HOPPERS" ON THE WING—Yesterday those interesting insects the locusts or grasshoppers were on the wing by millions, their course being southerly. In the evening all kinds of vegetation in the southern portion of our city was literally covered with them, and unless they take a speedy flight many gardens and lots that now look well will be completely cleaned out to satisfy the insatiate appetites of these pests. We hear that several fields of corn, potatoes and sugar cane at Big Cottonwood and vicinity have been completely devoured, Fortunately the wheat is too far advanced to suit the appetites of the rapacious creatures. They are larger than any that have been seen in this locality this season. Millions of them are passing over the city to-day.

INSURANCE.—We have received from Messrs. Walker Bros. a very handsome lithograph, about twenty-one inches by fifteen, of the office of the Pacific Insurance Company, San Francisco. At one side of the engraving is a representation of the office of the Union Insurance Company, for both of which Messrs. Walker Bros. are agents. The engraving is a splendid specimen of the lithographic art, and was executed by Hatch & Co., of 111 Broadway, Trinity Building, New York.

SHOWERY.—There continues to be a perceptable atmospheric change gradually growing in this western region. Who, when this part of the country was first settled, could have imagined that we would, in so short a space of time, enjoy such a genial, refreshing and even drenching showers as we have had during the last four or five years? Coloradoans are being treated to a little of the same kind of weather as will be seen by the following which we clip from the Denver *News* of the 14th inst.

"The late shower, or rather rain, was a phenomenon for Colorado. It commenced about 3 o'clock p. m., and rained hard, regular States fashion, for about ten hours, continuing to drizzle drozzle, drizzle-drozzle, for as much longer. In the mountains, same day, the morning was foggy, and it soon began to rain slowly, continuing two days and one night with slight cessations. The oldest inhabitant has never seen such days in the South Park as last Saturday and Sunday. It was not the amount of rain that fell, but the manner of it. May we have many more such. It was worth millions to farmers in bringing forward their crops, and as much more to loafers in freshening vegetation and giving it a new lease of life and beauty. Everything in the valley was burning up under the intense heat, but it now looks as it did in the first days of June.

That Montana is also having its share will be observed by the following clipping from the Helena *Herald*:

RAIN! RAIN!!—Pilgrims who have listened with credulous ears to the tales of the old mountaineers, and learned among other startling things, that it never rained in Montana, must have become believers by this time that even an old miner will stretch the truth a little if occasion seems to demand it. The abundant rain storms this season are something out of the common run, and seemed to be accounted for, unless figure makes a mistake, in the fact that it rained very much the past winter. Perhaps the settling up of the country, the development of farms, and the disturbance of the soil may have something to do with the rain fall, for it has often been remarked that cultivation seems to have an effect upon the atmosphere. There will be little need for irrigation this summer if the heavens continue as generous for the months to come as they have been for months past.
