LOGAN.

LOGAN, UTAH, Oct. 6, 1894.

POWER AND LIGHT.

A Mammoth Cache Valley Scheme Taking Definite Shape.

The scheme for the construction of a street railway in Logan and in the county from Wellsville on the south to Richmond on the north, seems to be materializing. The proposed road will use electricity as a motive power, and will run through Hyrum and Smithfield besides touching the towns of Mendon, Providence and Hyde Park. The county court, at its last session, granted the company the necessary franchises, as have also all the cities named, and it is expected that work will soon commence. The name of the company projecting the line is the Hercules Electric Power Co., composed partly of Logan and mainly of eastern capitalists.

Parties in Logan controlled a canal and built a power dam in Logan canyon about three miles from town. The attention of Mr. E. D. Tyler, representing a large electrical firm in Missouri, was called to the remarkable possibilities presented by this power dam, and after investigation he did not hesitate to close an agreement with the owners to establish a street railway and electric light system in Logan. Just as soon as Mr. Tyler receives the franchises he will begin to ship $75,000 worth of machinery to Logan, which is expected to arrive here within thirty days thereafter. A condition of the franchises is that work shall commence within 90 days after their issuance, hence the people being confident that it is a bona fide proposition, are jubilant over the prospect for cheaper lights and increased transportation facilities. It is understood that efforts will be made to complete the street railway line from the depot to the Agricultural College the present year.

Notes.

Chas. W. Nibley, a former well-known Logan citizen, came down from his home in Heber city last week to place his children in school at one of the colleges.

An engine drawing a threshing machine ran down an unblockaded switch on Main street Thursday. Several hours were consumed in getting it on its feet again. No damage was done.

The Fair is undoubtedly a great attraction. All who have seen it say that the present Exposition has never been equalled in the Territory, owing Cache valley industries are represented there.

Times are steadily growing better. Over 100 people have purchased excursion tickets at Logan station alone, and probably as many more from other points in the county. The number is much greater than that with the either at the last two conventions.

Mr. O. C. Bloomel, the unfortunate man who lost his right hand while sawing lumber at his mill in Logan canyon a few weeks ago, has been compelled to be moved from his home at the mill ever since that time. Lately some discovered trichinae in the flesh and also a fatty substance, and that Mr. Bloomel had not but not yet suffered. The accident occurred at a very inopportune time, when business was just and expenses highest, and the loss of the hand will work a hardship on Mr. Bloomel.

Our military companies are doing some pretty hard drilling right at present, having been notified that an inspection day will be held in Logan during the latter part of this month, by Adjutant General Grainger and Colonel Talbot. Companies from Richmond, Hyrum City and possibly Ogden will be present, and preparations are being made for a grand time. Several brass bands will discourse music during the review, and the day's exercises will terminate with a grand military ball in the evening.

AN OPINION GIVEN.

Recently Mr. J. D. Thomas, of North Dakota, visited the Shenandoah Valley, Virginia, and after carefully examining the country located in Winchester, he writes to Mr. V. Hechrle, Land and Immigration Agent, Baltimore & Ohio Railroad, Baltimore, Maryland, as follows: "I have been in nearly every state and territory of the United States, and am frank to say opinion that this valley surpasses all other sections in the Union. The lands are low in price, and produce profitable crops. I thank you for directing me here, and solicit those seeking pleasant and profitable homes to locate in this country."

SUPPORT HOME INDUSTRY.

THESE ARE THE PEOPLE WHO SELL HOME MADE GOODS

THEY BUILD UP UTAH and are entitled to the support of the people. By dealing with the merchants who give preference to the sale of Home Made goods, you help the Home Industry cause. You help to give employment to worthy people; you help to keep money at home, which circulates in our midst and you get back a part of that money again in your business or profession. Keep this in mind, every dollar expended for Utah made goods, means more employment for home labor; every dollar expended for goods manufactured elsewhere, means employment for somebody living elsewhere, and whose interests are generally not with us. "Charity begins at home." This is a time for both common sense and patriotism.
