TERRITORIAL ITEMS.

Hall Driver's Fast Team—Rosby Prospects in Iron County.

Iron county *Record*. The south mill has been [illegible] steadily, [illegible] has been shipped to the Salt Lake market. It was brought in on schooners, the lumber being [illegible] near City Creek, below Kanosh. [illegible] the river and a [illegible] during the winter. The south [illegible] is only filling [illegible] Salt Lake [illegible] way. [illegible] Rosby [illegible] Our Iron City correspondent [illegible] the Rosby [illegible] district. Quite a number of [illegible] are [illegible] and we predict a boiling time there in the spring. [illegible] and chief capitalists are quite largely interested in mining property near Iron City, as Colonel has in Iron Belt, too, is taking of building a railroad extension from Milford to Iron Springs and Cedar City. Will it do it?

Brigham Bulletin. Three days of sleigh ride in Brigham this week and prospects favorable for more. On the mountain fall, at least, in the [illegible] years. Fifteen to twenty feet deep in the region from the upper canyons.

Coalville Times. The recent discoveries have proved a boon to coal haulers, and Coalville has been busy with sleighs from Salt Lake, Ogden and other points all week. An average of ten teams per day have been [illegible] the past week..... Mr. Thomas Rees this week brought to the office a lump of coal from the Calvin mine which surpasses anything in the coal line we have yet seen. The specimen is now in our window and is so hard and black that it could be handled with gloves without danger of soiling.....By the [illegible] out of the entire at the Wilson mine about thirty people are thrown out of employment, while the owners of the mine are compelled to haul their coal by wagon to the depot. Mr. Rees last week made a trip to Salt Lake to see if matters could not be so adjusted that they might continue the use of the switch, and it is to be hoped by all that he may be successful.

Beaver Chronicle: Mr. E. C. Gillies and some others have for some time been quietly at work in the Tushar district. We are glad to say success and fortune to some extent is the prominent question in the minds of a great many large owners of city ass ponies. Were to be blind, Mr. Gillies and [illegible] made the valuable discovery of a few dollars like [illegible] in stock, while others may be only realizing roots from their range horses. At last term in Wild Cat, these gentlemen have built a large vat, and each week two of those ponies spoken of are killed and put into the vat. The fat is then taken out and made into oil, which is very useful as a lubricator either at machine shops or tannery, and sells very readily for $1 a gallon. The carcass is fed to the dogs, of which a great number are being raised. In this manner some forty dollars can be said to be realized on each carcass..... The Newton mining district, in Indian Creek, this county, is found to be one of the mining camps of the Territory worth being. The White Cliff, Bob Ray and other properties are to receive some substantial consideration as soon as spring opens. Thousands of dollars will be spent at this camp, and if the prospects and indications are made even as they now are, there will be sufficient encouragement to put in hundreds of men. The White Cliff is showing better every day, and the mines now at work feel encouraged, while the owners are jubilant. A big thing is in the future at this place.

Tooele Transcript: Edwin Brown, 14 years of age, of this place, has met with a painful and severe accident by which he lost the first finger of the right hand. The lad was at the residence of Robert Shelton, assisting or trying the automobile, and in some way he pushed it on to his foot before taking his hand away. In consequence the first two fingers were drawn into the machine and the index finger clearly bore off between the second joint and the first joint of the second finger was badly torn. The boy was taken to Dr. Shaw, who amputated the remaining portion of the member and the patient was doing as comfortable as possible.

About fifteen miles east of Tooele and situated on what is known as Golden Pass in Rush valley, there is a new mining district. It is located six miles from Rush valley station on the Tooele line of the Union Pacific system. A meeting has been held in Salt Lake City and the district organized with the election of J. Wilkinson as recorder. Numerous claims have been filed, and prospectors have been working on the quiet with the above facts based off. The mining properties are on a new ledge and are located in the neighborhood by the [illegible] coming from the new discovery. The ore bodies are said to be [illegible] quite same character and to most [illegible] that found in Mexico. The ledges are naturally surprisingly rich, and the quantity of the ball mining company [illegible] of about [illegible] to many times higher than [illegible] of Mexico. The claims are located for Salt Lake City to open [illegible] mining, every very sanguine, and it is likely that there will be a rush of prospectors to the district as soon as the weather will permit.

Manti Messenger: J. W. Riggs and others have shipped two [illegible] hogs over the M. V. Union Western railway during the past week. A [illegible] carload will be shipped in a few days. The Temple city is [illegible] a young [illegible]..... The heavy [illegible] of the [illegible] Saturday night, Sunday and Monday morning Wednesday night. We now have some quite [illegible] for many years. An abundance of wood for irrigating [illegible] assured.

Park Record: Thomas O'Keefe, who has served the Utah Fuel company as night watchman and night at the Park Connection for the past fourteen years, was caught between the engine and a snow bank on Friday last, sustaining injuries that will lay him up for months and greatly have life a single [illegible] after. He [illegible] in the yard had [illegible] coupled. Engineer Orson [illegible] the coupling [illegible] positive away, as [illegible] building [illegible] Park City [illegible]
