THE STATE'S TAXES.

$815,000 for State and School Purposes in 1895.

SALARIES ARE FINALLY SETTLED.

County Commissioners Given Power to Increase Taxes—Umbrella for Senate President—General Business.

The first business in the Senate this morning was the appointment of a conference committee on the appropriation bill, Snow, Booth and Cannon being named thereto. The committee took but a short time to agree, the Senate receding from about a dozen of its amendments, and the House following a like procedure of compromise. The Senate was delayed for some time, however, waiting for the House to act on the report, when it came back to the Senate, and received the approval of that body.

LAND COMMISSION'S EXPENSE.

The President announced the passage, by the House, of the Senate resolution authorizing the State land commission to use funds to the extent of $15,000 for expenses, upon payment of interest thereon.

HAVE BECOME LAW.

A communication from the Governor announced executive approval of the following:

S. B. 125, to validate certain deeds, etc., to be admissible in evidence.

S. J. R. 13, creating a semi-centennial commission.

S. B. 127, abolishing the Capitol grounds commission.

S. B. 130, appeals from district and supreme courts.

S. J. R. 9, relating to a State seal.

APPROPRIATION BILLS.

The President announced the House's concurrence in the conference committee's report on the appropriation bill.

The Senate adopted the report and the bill passed.

CANNON GETS AN UMBRELLA.

Allison arose and said:

Mr. President—The members of this body have been associated together for a period of sixty days for the purpose of enacting laws which they have deemed to be beneficial to the people of this State, who are their constituents, and as the hour is now rapidly approaching when we will separate, probably not to meet again in session in one body in a similar capacity, and, as we recognize the fact that in all legislative bodies the most important functions there performed are by the presiding officer, we, under the circumstances, deem it fitting and proper that before we separate we tender to you, the presiding officer of this body, a small token which will remind you of the pleasant associations of the last three months, and also which will be an evidence to you of the esteem in which you are held by the members, collectively and individually.

We recognize the fact, Mr. President, that the duties of a presiding officer are most important, particularly in a representative form of government, where parties contend for a great ... [illegible] ... and I know that I am correct in saying that the members of this body, without any distinction as to political belief, believe that the presiding officer of this body has endeavored to do his duty conscientiously, without regard to party. I believe also that I can safely say that in no other legislative body ever assembled in this Union has there been such a small degree of political rancor exhibited.

To you, Mr. President, we tender this small token, which will, in years to come, remind you of pleasant associations with the members of this body. We recognize the fact that the rulings of the President have been according to the dictates of his best judgment, without fear, without partiality, and without favor. This, Mr. President, will remind you of a great many occurrences during the past three months, it will remind you of the senator from Panguitch, and of the many earnest appeals he has made on the floor of this house for his constituents, and for the true ... [illegible] ... It will remind you of the gallant fight which was made by the senators from Utah county for their constituents and for the ... [illegible] ... it seems to me, which looked upon by you in the future, a great many other occurrences which will be pleasant ... [illegible] ... We tender you this small token, and trust, Mr. President, that you will keep it as a memento of the kindly feeling which the members of this body entertain toward you.

Senator Allison then forwarded to the President's desk a handsome gold-headed silk umbrella.

President George M. Cannon replied: In accepting this token which has been presented by Senator Allison on behalf of the Senate, I wish to say that I reciprocate the good feelings which have been expressed by him, for I feel that in every body it depends not so much upon the presiding officer as upon the members for the manner in which the proceedings of the body are carried on. In the position which I have occupied I feel to thank every member of the Senate for the uniform courtesy shown, because in following ... [illegible] ... I cannot recall any member who has not at some period during that time done some act that will always cause me to remember him with pleasure. I thank you sincerely for the expressions of good will which you have offered, and I return them most cordially. I wish all of you the success which you have wished me. As this ... [illegible] ... from the storms which are frequent in this region of country, I trust that all the storms of life may be ... [illegible] ... your heads and that your lives may be full of the fruition of your fondest wishes, and that your loftiest hopes may be realized.

In speaking of that which has transpired, I have attempted to do my duty as I have seen it, without at any time seeking to favor either one party or any position which I might personally take. Owing to the fact that the presiding officer is frequently required to decide upon points presented without meditation, I may not have done justice to all, but I wish you to understand that if I have failed, I have done it unintentionally.

To the absent senator who is unable to be with us, I would like to extend the good wishes which I am sure I feel all the members of this body feel, and I trust that, with you, he may enjoy many years of happy life from this time forward.

I thank you for that which you have done, not only the members, but the officers of this body. I believe that without an exception every officer of the Senate has been faithful and efficient, and has regularly attended to the duties required.

At the conclusion of this episode the Senate went into executive session to consider a message from the Governor.

COAL MINE INSPECTOR LLOYD.

In executive session the Governor's nomination for coal mine inspector was taken up. The nominee was Thomas Lloyd, of Carbon county, present sheriff and a practical coal miner. Some inquiries were made as to Mr. Lloyd's qualifications, and he was confirmed by unanimous vote.

STATE BOARD OF CORRECTIONS.

The Governor submitted the following nominations for the State board of corrections:

Francis Armstrong and M. B. Sowles of Salt Lake, and Thomas Kearns of Summit county.

THANKING THE PRESS.

On motion of Senator Snow, the representatives of the press were tendered a vote of thanks for the fair and impartial manner in which they had reported the proceedings of the Senate.

RAISED COUNTY TAXES.

In the revenue bill, the House insisted on allowing county commissioners to raise the taxes to five mills from three, and the Senate finally yielded. This is the increase which Sutherland contended against so vigorously in behalf of the Salt Lake county taxpayers. The outside counties insisted that three mills was too low for them.

ELECTIONS, REVENUE AND REGISTRATION.

A message was received from the Governor, announcing approval of the following:

S. B. 102, sundry provisions relating to elections.

S. B. 91, the revenue bill.

S. B. 82, for State registration.

THE TAX LEVY.

The bill fixing the tax levy for State and school purposes came back from the House with many amendments, some of these repealed parts of the revenue bill and were stricken out by the Senate because the revenue law had been fixed so that they were unnecessary. Others were concurred in by the Senate.

The House amendments fixed the tax levy at $515,000 for State purposes and $300,000 for schools. This will require the full constitutional limit of taxation on the State.

After the bill was adopted, the Senate took an informal recess, some of the members waiting around all afternoon while the House was trying to catch up to give them something to do in closing up legislative business.

Notes.

The Senate spent the greater portion of the day waiting for the House to get up with its work.

Uniform courtesy has been a prominent feature of the members and officers of the Senate during the session.

The Governor has appointed and the Senate confirmed James A. Wright of Weber county president of the State board of agriculture.

The Senate had a discussion today as to whether the State treasurer should or should not have clerical assistance in his office; $500 was allowed him for that purpose.

The House refused to concur in the salaries bill report of the conference committee, and a further conference was necessary last evening before a final agreement was reached.

Col. John R. Winder has been confirmed by the Senate as president of the Deseret Agricultural and Manufacturing society, as have also the following directors appointed by Governor Wells: Nelson A. Empey, Mrs. Margaret R. Salisbury, Frank W. Jennings, S. W. Sears, Mrs. Bertha Bamberger of Salt Lake, Mrs. John A. Hendrickson of Cache, R. C. Chambers of Summit, E. J. Conrad of Sanpete, Abram Hatch of Wasatch, L. W. Shurtliff of Weber, and Mrs. Cornelia H. Clayton of Utah county.

Bribery Cases Continued.

Judge Hiles granted a continuance for the term yesterday in the three bribery cases against ex-Selectman Joseph H. Morris. Similar cases came up against Herman Bamberger today and were also continued, and the jury discharged.

Who does not know some young girls who are continually in tears? Who always see the dark side? Who have frequent fits of melancholy without any apparent cause? But there is a cause. It is to be found by the intelligent physician in some derangement of the complicated and delicate feminine organs of generation. The woman who half understands herself, feels that she cannot always be complaining; she cannot always have the doctor in the house. The young girl suffers, bodily and mentally, in silence. The trouble usually comes so gradually it is attributed to some outside cause. There is bodily weakness, unexpected pain, unaccountable tears and fits of temper. All these symptoms are simply protests of the whole long-suffering nerves. The trouble shows in dark circles below the eyes, a downward curve of the mouth, a sallow, brownish-yellow neck.

Unregarded, the trouble grows. A few years of tortured invalidism, probably insanity, before married death comes. Dr. Pierce's Favorite Prescription is the result of years of study. It is the product of an investigating mind united with a generous nature. When an intelligent person gives years of study to a subject there must be some good result. The "Favorite Prescription" is a compound of extracts of herbs that makes a strengthening, soothing medicine. It acts directly upon the distinctly feminine organs. It stops drains from lining membranes by healing diseased parts, thereby curing also the inflammation that is always present.

"I was in a critical condition ... [illegible] ..."

THE STOCK EXCHANGE.

Mercur Sells at the Lowest Figures Yet Reached by that Stock—Ansdus Dropping.

This was an average day with the bulls and bears on the stock exchange, the listed stocks faring decidedly better than those of the other class. Mercur still continues on the downward path and shares of the stock changed hands at figures the lowest yet reached by it on the exchange. Sunshine is pursuing a similar course and offerings of it were made at $2.52 with $2.00 bid. Ajax was favored in the trading by a sale of 100 shares while the Dalton and Lark required 500 shares to help swell the transfers of the day. Horn Silver was offered at $2.60 and Silver shares could have readily found a taker at $2.10. Marion was favored with a quotation today, $1.50 being bid for the stock.

Twenty-four stocks were brought out on the unlisted call, and out of that number not one scored a sale. That one was Utah Pittsburg 1,000 shares going at 1½ cents. Three cents was the prevailing demand for the stock.

The closing figures were as follows:

LISTED STOCKS.

NAMES.	Asked.	Bid.
[illegible]	[illegible]	[illegible]

UNLISTED STOCKS.

NAMES.	Asked.	Bid.
[illegible]	[illegible]	[illegible]

TRANSFERS OF STOCKS.

One hundred shares of Ajax at 78 cents; 500 Dalton and Lark at ...; [illegible] Mercur at $2.21, 10 at $2.20 ... and 10 at $2.20; 100 Little Pittsburg at 1½ cents. Total shares sold, 1,720.

Manager Haven Returns.

Mr. George D. Haven, manager of the Cane Springs Gold Mining company, has returned from England, where he has been for some time past in connection with business pertaining to the company of which he is manager. He states that the company is contemplating the milling of the total output of the properties, but in order to do that, arrangements will have to first be made whereby the water supply will be greatly increased. This, in all probability, will necessitate the construction of a pipe line, covering a distance of twenty-five miles. He is not able to state at present when this will be done or not, but gives the assurance that definite information on this point will be forthcoming in a few days.

Sugar Company's Meeting.

The stockholders of the Utah Sugar company held their annual meeting last evening, nearly 20,000 out of the 32,000 shares of stock being represented. After hearing the financial reports of the company for the past year read, which showed everything to be in good condition, the following board of directors was elected to serve for the ensuing year: Elias Morris, George Q. Cannon, Thomas R. Cutler, Heber J. Grant, Moses Thatcher, Francis Armstrong, William B. Preston, James Jack, George M. Cannon, Barlow Ferguson, John Beck, John R. Winder and L. G. Hardy. The output of sugar for the past year was 7,356,200 pounds.

Licensed to Wed.

Deputy clerk Miss E. G. Reddall issued marriage licenses today to the following persons:

William Wurtle, aged 23, of Oakley, Idaho, and Ada Irene Brim, aged 22, of Albion, Idaho; William Poll, aged 24, and Lea M. Bennett, aged 19, both of Willow Creek, Idaho; John H. Hale, aged 40, and Augusta G. Smith, aged 13, of A... [illegible].

MINOR MENTION.

The two mutual improvement associations of the Eighteenth ward hold a joint session this evening and then adjourn for the season. Presidents Spencer Clawson and Clarissa Spencer will preside, and an attractive program has been prepared.

At 11:25 this morning the fire department made a run to a conflagration in a two-story frame house, just east of the Methodist church on Third South street. The blaze was caused by a defective flue, but as it had not gained much headway when the department arrived, it was extinguished with but a slight loss.

A farewell entertainment will be given in the Seventh ward assembly hall, Wednesday evening, April 8th, in honor of Elder Charles E. Rose, who is about to depart on a mission to Great Britain. An interesting program has been prepared in which some of the best local talent will take part.

COMMERCIAL.

SALT LAKE CLEARING HOUSE.

Today's clearing house exchanges amounted to $188,203. Same day last year, $383,632.

TODAY'S QUOTATIONS.

London.—Silver, 31 3-16d.

CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word "Castoria" and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be absolutely harmless?

Do You Know that 35 average doses of Castoria are furnished for 35 cents, or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

Children Cry for Pitcher's Castoria.

GOOD FOR THE CHILDREN.

Graefenberg Children's Panacea,

BEST WORM MEDICINE.
Excellent tonic for weak and ailing children.
