NEW LAW ON
LAND!

ALL parties wishing to enter land, under the new homestead law or to do any business connected with the Land Office, are requested to call on CHAS. W. STAYNER at his office, between the Salt Lake Hotel and Squires' barber shop, as he attends to the securing of Pre-emptions, Homesteads, Desert Land and all other land claims in Utah.

MR. STAYNER'S Office will be pointed out to visitors by calling at the General Tithing Store, or the DESERET NEWS Office; and parties will find it to their advantage to see him and get information before going to the Land Office or elsewhere.

PATENTS

obtained for new inventions or for improvements on old ones, for medical or other compounds, trade marks, labels, Caveats, Assignments, Reissues, Appeals, Suits for Infringements and all cases arising under the Patent Laws, promptly attended to—Inventions that have been REJECTED by the Patent Office may be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make close researches, and secure patents more promptly, and with broader claims than those who are located at a distance.

INVENTORS send us a model or sketch of your device; we make examinations and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer in Washington, to Hon. Postmaster General D. M. Key, Rev. F. D. Power, The German-American National Bank, to officials in the U. S. Patent office, and to Senators and Representatives in Congress; and especially to our clients in every state in the Union and in Canada. Address

C. A. SNOW & CO.,
Opposite Patent Office, Washington, D. C.

SAVE YOUR HAIR | TO LEARN HOW TO DO IT READ AND HEED WHAT FOLLOWS.

SAVE YOUR HAIR.—The laws of Health and Longevity demand it, the customs of social life require it. The matter is of great importance in every way.

BEAUTIFY YOUR HAIR.—It is the surpassing crown of glory, and for the loss of it there is no compensation.

CULTIVATE YOUR HAIR.—For by no other means can it be saved and beautified.

LYON'S
KATHAIRON,

Discovered thirty-five years ago by Prof. Lyon, of Yale, is the most perfect preparation in the world for preserving and beautifying the hair.

Besides being the best hair dressing ever produced, Lyon's Kathairon will positively prevent grayness, and will restore new hair to bald heads, if the roots and follicles are not destroyed.

It actually performs these seeming miracles, of which the following is

A FAIR SPECIMEN

I had been entirely bald for several years, constitutional, I suppose. I used a few bottles of Kathairon, and, to my great surprise, I have a thick growth of young hair.

COL. JOHN L. DORRANCE, U. S. A.

In every important respect the Kathairon is absolutely incomparable. It is unequaled.

1. To Cure Baldness.
2. To Restore Gray Hair.
3. To Remove Dandruff.
4. To Dress and Beautify the Hair.

BEAR IN MIND.—The Kathairon is no sticky paste of sulphur and sugar-of-lead, to paint and daub the hair and paralyze the brain. It is a pure and limpid vegetable lotion, intended to restore the hair by natural growth and reinvigoration. It is splendidly perfumed, and the most delightful toilet dressing known. No lady's or gentleman's toilet outfit is complete without Lyon's Kathairon.

SOLD EVERYWHERE.

TO RENT.

FORTY-SIXTH CONGRESS.

EXTRA SESSION.

SENATE.

WASHINGTON, 21.—The committee on privileges and elections was authorized to appoint a sub-committee to sit during recess and continue the Spofford-Kellogg investigation.

The President has approved the joint resolution amendatory of the sundry civil appropriation bill approved March last. The most interesting feature of the joint resolutions are the repeal of the clause which authorized and empowered the Secretary of war to lease the water power at Moline to the Moline Water Power Company, and an appropriation of $40,000 for the extension of the military telegraph lines from Helena, Montana Territory, and from Fort Elliott, Texas, westward.

The report of the conference committee on the disagreeing vote of the two Houses on the judicial expenses bill was taken up and adopted by a party vote.

The resolutions authorizing the committee on privileges and elections to investigate Mr. Ingall's case was adopted.

The bill regulating intercourse with Chinese subjects was taken up and Slater make a long speech.

Davis, of Illinois, submitted an amendment inserting the appropriation of $22,336 to pay balance due and audited, and allowed for transporting mails prior to July 1, 1876; adopted. The bill was reported back to the Senate.

Maxey asked a separate vote on concurring in the amendments made in committee of the whole reducing the appropriation from $515,000 to $400,000 and striking out the appropriation for increased salary's for 1879. He thought the amendment did injustice to a hard worked class of men.

Messrs. Logan, Allison, Ferry, Paddock and others spoke against the amendment.

The resolution heretofore offered by Mr. Walker, calling on the President for information as to the lives and property lost in certain Indian wars was taken up and adopted.

The bill to provide for filling vacancies in the office of chief engineers of the United States army; passed.

The bill is the same as one of the amendments to the army appropriation bill adopted in the committee of the whole and nonconcurred in last night by the Senate.

Kellogg introduced a bill to provide an ocean mail steamship service between the United States and South America; referred.

The Senate bill regulating intercourse with subjects of the Chinese Empire visiting or residing in the United States, and for other purposes, was taken up, and Mr. Slater advocated its passage; and at the conclusion of his speech, the bill was referred.

Whyte moved the executive business. Lost—yeas 21, nays 25.

Cameron moved to adjourn. Lost.

On motion of Davis, of West Virginia, the Senate took up the letter carrier deficiency bill. The appropriation committee reduces from $415,000 to $400,000 appropriation for the payment of letter carriers for the fiscal year ending June, 1880, and to extend the service for said year.

Beck said the appropriation committee, in view of the estimates and communications from the Postoffice Department, had made the amendment in order to get a conference committee of the two houses to come to an agreement as to what was right, the committee desired earnestly to do justice to the letter carriers. These two amendments were concurred in. The remaining amendments were concurred in, and the bill passed. The House joint resolution authorizing the completion of the Washington monument passed. Adjourned.

HOUSE.

WASHINGTON, 21.—Cobb made a personal explanation regarding the statement in the Indianapolis *Journal* concerning the Massachusetts regiment, and brought on a discussion lasting two hours. The army appropriation bill was presented by the committee on enrolled bills, and signed by the Speaker, and the House proceeded to the consideration of the political assumption bill. The republicans then filibustered against any disposition of the bill.

Kenna, from the committee on enrolled bills, reported the army appropriation bill, and it was signed by the Speaker. The House then resumed in the morning hour the consideration of the bill prohibiting political assessment.

Hostitter withdrew his demand for the previous question, and moved to refer the bill to the committee of the whole, and on that motion demanded the previous question.

The republicans then, notwithstanding the intimation from Springer, that the bill would not be taken up for consideration at the present session, refrained from voting, thus leaving the House without a quorum. During one of the roll calls a message was received from the President announcing his approval of the legislative bill. The announcement was greeted with applause on the republican side and Garfield remarked: "We have provided for ourselves, now let us provide for the rest of the government.

The supplementary judicial bill as enrolled, was signed by the Speaker and sent to the Senate for the signature of the presiding officer of that body.

The morning hour expired without any action on the political assessment bill and it went over until next Monday.

During the days' session there was utter apathy so that it was all but impossible to obtain a quorum on any vote, although on one of the roll calls 189 members answered.

The bill to establish post-roads in certain States passed.

The Senate amendments to the House bill for the appointment of the Mississippi River commission came up. After a debate, in which Barker opposed the bill as the introduction of a gigantic scheme that would cost $100,000,000, and in which Garfield sustained it as a great work in which men from the north and from the south could clasp hands together, the amendments were concurred in—166 to 11;

The principal amendment is to make the number of commissioners seven, and it was announced by Hooker that Prof. Hilgard is to be the additional commissioner. Adjourned.

EASTERN.

Washington Notes.

WASHINGTON, 21.—The judicial and army appropriation bills reached the executive mansion at 3.30 o'clock. The President had just left in his carriage on a visit to the navy yard. The judicial bill will not receive the President's approval.

The President, to-day sent to the Senate the following: Doubts having arisen as to the propriety of appointing, in advance of the actual vacancy to occur September 1, 1879, a person to fill the office of judge of the Circuit Court of the United States for the Eighth circuit, I hereby withdraw the nomination for that office of George McCrary, of Iowa. The message will be laid before the Senate at the next executive session.

The majority of the Senate committee on appropriations has decided that action on the adjournment should be taken on Monday.

The army and judicial expenses appropriation bills are both before the President this evening. Notice of the approval of the former and veto of the latter will probably be communicated to Congress on Monday. The veto message is expected to be a brief document, taking the ground heretofore foreshadowed in these dispatches. He will take the ground that, although there will be practically very little occasion for the exercise of this authority during the next fiscal year, to which alone the bill applies, there is nevertheless a great principle involved, which he cannot and will not yield.

Senator Lamar, having become satisfied that Senator Conkling will not send him a challenge, left for Mississippi to-day. This is regarded as the end of the Conkling-Lamar sensation.

A Father Kills his Three Daughters

SPRINGFIELD, Mass., 21.—John Kemmler, a German at South Holyoke, shot his three children, all girls, aged six, four and one years respectively, on Saturday, being unable to support them. He has been out of work since February. At that time he went to Colorado, but recently returned and had been ordered to vacate the tenement belonging to the Germania mills, as he no longer worked in the mills. He sent his wife on an errand before committing the crime. When arrested Kemmler said: "Let the law take its course." He feared his children might grow up and enter houses of prostitution. He thought they would be better in heaven.

The Fearful Explosion in Pennsylvania.

READING, Pa., 21.—When the the explosion took place to-day at East Texas, the men were just assembling to commence work. The boiler was torn into atoms, and pieces of iron and splinters of the boiler house were blown in every direction. A. Ettinger, from Emaus, had his head completely blown from his body, which was picked up in a gulch, about 30 yards from where the body was found. The neck appeared as if the head had been pulled from his body. He was an elderly man and leaves a family of growing children. James Smith, a German, was found a short distance from Ettinger; he was terribly mangled and dead. Frank Fegely, contracter and operator, was instantly killed; his body was frightfully torn and disfigured. Charles Smoyer, one of the head officers, was also instantly killed. Amos Deerr was picked up about 50 feet from the engine house. He was insensible, mangled and bleeding, and afew minutes after one of the men reached him he died. The bodies were gathered up and placed side by side. Their appearance was shocking in the extreme. Near by were laid the wounded men groaning and dying; their agony was intense. Yost and Herrick were picked up near the engineer, very badly hurt. One of them begged to be killed to be relieved of his terrible pain. The surroundings presented a shocking appearance, and strong men fainted at the terrible sight of the dead and dying. Four of the wounded cannot live. The wives and children of the victims of the explosion soon gathered, and their cries were heart rending.

Wilson Deerr died this evening. He makes the seventh person dead. It is stated that Keck, the engineer, was drunk yesterday, and the accident is attributed to his letting the water run low.

Wool Market.

BOSTON, 21.—A large business was done; prices are quite firm and well sustained. New wool is arriving freely, but stocks have not accumulated to any extent. Dealers are free sellers and disposed to close up stocks as fast as received. The principal transaction in new wool is 100,000 pounds of Michigan at about 33c. Combing and delaine fleeces have been sought after and large mills are now free purchasers. The demand still runs largely in medium; unwashed wools and desirable lots readily command full prices. Oregon, 25½ @ 27½; California wool is in demand, although the sales show a large falling off from some previous weeks, comprising only 340,000 pounds at 15c. for fall, and 22½ @ 32½ for spring.

FOREIGN.

GREAT BRITAIN.

The Walk, Wager and Bet Won by Weston.

LONDON, 21, 11 o'clock.—The great contest is finished, and Weston is being proclaimed with shouts and cheers "champion of the world." Weston completed his 550th mile at precisely 11 o'clock, thereby winning the belt, his bet and the championship. From 2 o'clock this afternoon until 8, Weston accomplished the astonishing feat of making five miles per hour during these six hours. The excitement was somewhat wonderful, and the plucky hero of the hour was greeted with shouts and cheers as he boldly plodded along against time. From 8 o'clock the excitement steadily increased and reached its culminating point just before the finish. At 9.30, Weston had made the highest score on record, namely 543 miles and 5 laps, beating "Blower" Brown's score of 542 miles. The hall at this time was filled with an enthusiastic crowd, who seemed never to grow tired of cheering. Weston, though evidently suffering somewhat from fatigue, maintained a smiling face and was the recipient of many friendly greetings. The great struggle came to an end at 11 o'clock, Weston making 550 miles, with five minutes to spare.

Correspondence.

WESTVILLE, Montcalm Co., Michigan, June 16, 1879.

Editor Deseret News:

Dear Brethren.—According to appointment of President C. H. Wheelock, we came to this State to look after some Saints that had been baptized by Elder Wm. Tallman. We found them to be scattered and in good standing, and wishing for an opportunity to move to Utah, but as times are dull in this portion of the country, as in others, they have had a struggle to sell their property.

June the 1st, we re-organized a branch at Sylvester, and ordained Brother Thos. H. Thompson Presiding Elder. The branch numbers 16 members in good standing. We held a good many meetings in that vicinity, having very good attendance, and with but few exceptions, good order. President Wheelock has come to see us and yesterday, (Sunday 15th) we held a meeting here and re-organized this branch, and set Elder Enos Root apart to preside over this (Westville) branch; number of members 15. We have ordained three priests to assist in the good work and held over 20 meetings here in this State, many of which were amongst strangers, and left a testimony with them which we know will hold good before the judgment bar of God. We have been well received by the Saints. Prest. Wheelock and Elder Hintze are going to Iowa to fill some calls there. Elder Howard will remain here and labor amongst the Saints and others who are seeking, for a good many have been wakened up and begin to inquire about the truth.

Prest. Wheelock will return to Council Bluffs, calling at Clinton, Iowa, and will probably soon return home, as he feels at times, the effects of the sunstroke he received while in Wisconsin last summer. We shall miss him if he returns, for he is a kind and fatherly man, and of great influence amongst strangers, and capable of doing much good if his health will permit.

It would be quite interesting to our young folks in Utah if they could get a bird's eye view of some of the farms in this and neighboring counties, and see the stumps the people are working amongst, some over 50 to the acre, and a clear farm is seldom seen.

There is a fine growth of timber here, hard wood and pine, which when they clear for farming, is piled in large heaps and burned. There are numerous sawmills in the State, turning out from 25,000 to 200,000 feet per day.

We are well, and feel to continue in the good work.

With respect to all our friends we remain your brethren in the gospel.

F. F. HINTZE,
L. A. HOWARD.

PIPE ORGAN.

GEORGE CARELESS

HAS just received a splendid PIPE and REED ORGAN, made by the celebrated Geo. Wood's ORGAN CO.

For great power and sweetness of tone it excels any Organ ever seen in Utah.

He has also a very beautiful Wood's UPRIGHT PIANO.

The tone is sympathetic, and of fine singing quality, the action perfect, the design elegant, and the finish and workmanship of the very finest.

He is also agent for the "KNABE," "ARION" "HARDMAN" and "WATER'S" Piano.

And most respectfully invites his friends and the public to give him a call at his NEW STORE on *First South Street*, two doors east of Dinwoodey's Furniture House, and examine his splendid stock of all kinds of Instruments, SHEET MUSIC, Strings, &c., &c.
