CARDINAL GIBBONS.

Stands up for the Catholics in America.

BALTIMORE, June 22.—Cardinal Gibbons returned yesterday afternoon from Washington where he officiated at the dedication of St. Mary's Catholic church. The cardinal took occasion to refute the statements made in the Holy See that the spiritual condition and needs of foreign-speaking Catholics in the United States was not properly provided for. He said in part:

"I venture to say, that the hierarchy of no country in the world are paying more attention to the spiritual wants of foreign born Catholic people than are the prelates of the United States. They are earnestly endeavoring to have the gospel preached to them in their native tongue during the transposition period which some people thinks are absorbed into the great English speaking world around them.

"Paris has long had a colony of German and English-speaking Catholics. Vienna and Berlin also have large populations of French and English and other nationalities. The city of Rio, in Brazil, contains also a large population of Catholics who do not speak Portuguese, the language of the country, and yet in those cities, so far as I am correctly informed, little or no provision is made for the foreign Catholic population.

"With these facts before us we cannot view, without astonishment and indignation, the number of self-constituted and officious guardians in Europe complaining of the alleged inattention which is paid to the spiritual wants of the foreign population, and to the means of redress which they have thought proper to submit to the Holy See."
