NEW INTERNATIONAL COIN.—A dis-  
patch from Washington, dated 26th,

says:

A specimen medal of the proposed in-  
ternational coin of twenty-five francs,  
recently struck by the Government of  
France, was presented this morning to  
the President through Mr. Samuel B.

Ruggles, delegate of the United States  
to the International Monetary Confer-  
ence, and who has just returned from  
Paris. The new coin is twenty-four

millimetres in diameter, very slightly  
exceeding that of the present half-eagle  
of the United States, and the sovereigns  
of Great Britain. It bears on its obverse

the conjoint inscription "Five dollars,  
twenty-five francs," and in a type of  
proposed monetary union of the three  
nations. If adopted by the Govern-  
ments of the United States and Great

Britain, this international coin bearing  
the denominations and the emblems  
of the respective nations, will circulate  
side by side in perfect equality and

without impediment throughout the  
world. The official report of Mr.  
Ruggles fully embodying the facts  
needed for the careful consideration of  
the subject will probably be sent to Con-  
gress during the coming week.

The question of "What is a billion"  
is thus discussed by the Journal of Com-  
merce: "There is not a standard Eng-  
lish dictionary published which ap-  
proves of the French system, and Web-  
ster's, which may certainly be quoted  
as good American authority, defines a  
billion as a million millions. The very  
derivation of the word requires this de-  
finition. A billion comes from (Latin)

bis, (Latin) millis, or literally a mil-  
lion twice, expressed in figures thus—  
1,000,000,000,000. To define it as a thou-  
sand millions is to take away all the  
real significance of the word, and to  
make the works of standard English  
authors, where the term is used, per-  
fectly unintelligible."

## BREVITIES.

Freshly cut timber contains forty per cent. of liquids.

Two or three dead babies are picked up every day in New York streets.

Thirty thousand French artisans are making artificial flowers.

The wife of the Crown Prince of Prussia, writes the speeches he makes.

"Milk sickness," caused by using butter, cream and milk from diseased cows, prevails in some parts of Ohio.

A live pickerel was found in digging a well, fifty-five feet below the surface, in Coldwater, Michigan.

Sixteen hundred executions for State taxes are in the hands of the sheriff of Fairfield district, Carolina.

California is going extensively into the culture of castor beans. The yield on an average is worth more than \$150 to the acre.

Elizabeth of Austria is reported to be the most beautiful of the crowned women of Europe.

A London paper comments on the proceedings of a recent spiritualist meeting in that city, under the head of "Modern Devil Worship."

In Maine, especially in the cities, it is reported that wood is being gradually superseded by coal as fuel, the latter being much the cheaper.

A country lawyer who was the happy father of ten tall girls, averaging about six feet in height, boasted that he had sixty feet of daughters.

Russia is reported to have decreased the army by about 100,000 men during the past year. It still has an effective force of half a million.

A learned lady, the other evening, astonished the company by asking for "the loan of a diminutive argentine truncated cone, convex on its summit, and semi-perforated with symmetrical indentations." She wanted a thimble.

A French wit says that the gibbet is a species of flattery to the human race. Three or four persons are hung from time to time for the sake of making the rest believe that they are virtuous.

S. J. Woodman, of Chicago, Illinois, writes to the New York Farmers' Club, that a barrel or a cask of new sweet cider, buried so as to be well covered with earth, will turn to sharp, clear, delicious vinegar in three or four weeks, as good as ever sought affinity with cabbage, pickles, or table sauce.

Attention is being directed to the fact that since the war, death by suicide has become much more common than at any previous period of our history. The same incident has been observed after great European wars.

A professional "padder," one who improves flat breasts and feeble knees and thin legs, writes to one of his customers: "New York—Mam: Them tites is finished your nees will be all O K when you get them on. Bad figgers is all plaid out now they will cost 9 dollars."

On one day of last month the London Clearing-house did a business of thirteen millions sterling, and over one hundred thousand entries were made by one hundred clerks. The accounts were all examined, a balance struck, and found correct by eleven o'clock the next day.

In Bremer county, Iowa, the other day, James Beebe on a bet of \$180, husked 100 bushels of corn, from the stock, carrying with him a bushel basket and measuring and piling the corn as he went along, between sunrise and sunset, nine hours and forty-six minutes. He finished the job seven minutes a head of time. So reports the Phoenix.

A story is told of a "country gentleman," who for the first time heard an Episcopal clergyman preach. He had heard much of the aristocracy and pride of the church, and when he returned home he was asked if the people were stuck up. "Pahaw, no," he replied; "why, the minister actually preached in his shirt sleeves!"
