TRACK EVENTS AT CALDER'S,

Big Attendance Viewed the Horse and Bicycle Races,

"TERRIBLE SWEDE" RIDES.

Five Interesting Horse Races Attempt to "Queer" the Favorite—Heavy Track, Fast Time.

A record crowd assembled at Calder's park yesterday afternoon to witness the double event of first-class horse and bicycle racing. Owing to the inadequate means of transportation, hundreds of people became disgusted with long waiting for the cars that never came and spent their half dollars elsewhere.

Five very good horse races were dished up for the delectation of the crowd of humanity, while the patrons of the Midland received anywhere from $2.50 to $5.25 on the hoofs.

There were no records broken or even equalled, but nevertheless the crowd seemed to be completely satisfied with the results.

Following is a summary of the events:

SUMMARY.

First race, running, three-eighths mile dash. Purse, $50; $30 to first, $10 to second, and $10 to third.

Time, 2:24, 2:23½, 2:24½, 2:26½. Mutuals paid $2.75, $2.65, $2.35, $2.35.

Fifth race, running, five-eighths mile dash. Purse, $100.

Ben Bolt	2
Miss Hanson	1

Time, 1:02½. Mutuals paid, $2.50.

FIGHT IN THE STABLE.

There was a brief and lively encounter in the stables just before the horses came out for the first race. As the favorites, was being led out by her owner, Kate Thompson, the latter caught a man trying to unhitch her hobbles. Thompson went up the situation and proceeded to eject the man, who is known as a man trying to make a race-track hanger on; during the "mix up" the fellow landed a stiff punch on the horseman's face. Thompson held on to the man, but later released him, and refused subsequently to prosecute the rascal. It was stated by some that Turner had been hired to restrict some of Irle's trappings, so that she would lose the next heat. He was chased and appeared to be half intoxicated.

WHEEL RACES.

Track Was Soft, but the Racers, Including the Swede, Made Good Time.

The bicycle races were good while they lasted, but the crowd wearied of the tiresome waits between events together with a lack of discipline and arrangements to keep the course clear of the overflowing crowd that surged all over the track as soon as a heat was run off. The first race was pedalled off at 2 o'clock, but it was 3 p. m. before the second event was run; the adjustles being to sandwich the wheel races between the horse events. The track at the commencement was somewhat heavy, but by 5 o'clock the sun and the horse had dried things up considerably.

The chief attraction of course was Lawson, "The Terrible Swede," and right nobly did he keep up his reputation and show the local talent his rear wheel. Among the home professionals Edmonds and Jensen showed up well in the front rank.

NOVICE RACE.

The first event was the one-mile novice for a gold medal valued at $15. The entries were A. E. Anakin, H. Hoagin, H. E. Smith and William Wonderson. Smith and Anakin took the lead with Hoagin and the Provo rider in the paragoik. The two latter men finally closed up in the back stretch when Hoagin came a cropper in the dust and Anakin piled up on the fallen warrior. Smith held his own to the tape with Wonderson a very distant second. Time 2:49.

HALF-MILE PROFESSIONAL.

The half-mile open professional was the best race of the day. There were three heats, in the first heat Jver Lawson, Emory, Turville and Edmonds; in the second John Lawson (the Terrible Swede), A. W. Calder, Jr., Cains and H. O. Jensen; in the third John Lawson, H. O. Jensen, Caine, (the Swede) in the second heat, and Ivor Lawson and Emory (the two best in the first heat.)

In the first heat Ivor Lawson took the leadby with Turville, Edmonds and Emory on the upside. At the end of the first lap the order was Emory, Ivor Lawson, Turville and Edmonds. In the second Lawson forged ahead and the finish was checked off in the following order: Ivor Lawson, Emory, Turville, Edmonds. Time 1:19 2-5.

SECOND HEAT.

In the second heat Cains had the inside, John Lawson next, then Caine and Jensen on the outside. The "Terrible Swede" led from the start and kept it easily, distancing the others, who were closely bunched. The race was won as follows: John Lawson, Jensen, Caine, Cains. Time, 1:21.

"TERRIBLE SWEDE" WINS.

In the final John Lawson, H. O. Jensen, Caine, Ivor Lawson and Emory were placed in the order named. The Swede initially took the lead, which position he maintained until the tape was passed. Ivor followed the leader in a hot half-length finish, with Jensen a couple of yards behind, while Caine and Emory brought up the rear. Time, 1:04 1-5. First prize, $20, second $10, third, $5.

FOREIGN CAPTURES HALF-MILE.

In the half-mile open, amateur, our best, Fenech, Sacramento, Lawson, E. C. Smith and Reeign started, placed in the order named. The latter started out and kept well together for the first lap. In the second the order was Cohen and Sacramento, with the Elgin as a close one. Round Sacramento, Lawson, E. C. Smith and Fenech. Time, 1:12. First prize, $25, second $15, third $10, third, $5.

PROFESSIONAL RACE.

The last race on the card's card professional. First prize, $30; second, $20; third, $5. Lawson and Sacramento paced the mile in 1:04 1-5. The contestants were Turville, Emory, John Lawson, Jensen, Caine and Ivor Lawson. After a fair start, the Provo Rosin ran away, Edmonds breaking the tether with Ivor Lawson, John Lawson, Emory and Turville in close pursuit, with Caine and Jensen bringing up the rear. The second lap was a hot one and Edmonds continued to retain the lead, followed by his brother Ivor, Emory and Turville third and fourth, and Emory last. Down in the last and fifteen rear. Time, 2:12 1-5.

H. L. Crosby was starter, Amzel Hyde, referee; J. S. Brown, George Wedge, Charles Smith Jr., James A. Fowler, N. W. Parker, timers; Jos. Ferguson, H. M. Rossiter, scorer; W. F. Fowler, clerk of course; C. A. Eddie, announcer.

O my! O my! O my! And it awful. Those Cleveands can't be beat. Frank Smith, T. Lower and Fred Nightingale, the first three men over the tape in the big four race today all rode Cleveands. For the fifth consecutive year Cleveland's have won the big race. WHY DON'T YOU RIDE A WINNER.

John Dodge on a Monroe "Yellow Fellow" walked off with time prize, breaking the course round. These Yellow wheels DO MOVE.

TOUGHS ON THE TRAIN.

A Great Annoyance to Persons Coming in from Lagoon.

About half a dozen youths, with what Willard Bean called "a 10 cent jag on," became involved in a row on the last train coming in from Lagoon last night. One fellow knocked another clear through a window of one of the sliding doors, and in return he also was sent through a glass door on the opposite side. The noise created a temporary panic among the ladies, and to make matters worse two of the gang entered one of the closed cars and made themselves very objectionable, so much so that a couple of gentlemen experienced considerable difficulty in leaving their seats and from giving the toughs a well deserved thrashing. Unfortunately there was no police officer on the train, consequently there was no arrests.

JUNIORS OF THE HIGH SCHOOL

Hold High Carnival in Main Assembly Room Last Evening.

SENIORS MEET TONIGHT.

In High School Assembly Room—Graduating Exercises Tomorrow Night in Salt Lake Theatre.

The exercises of the junior class of the High School were held last night. The assembly room was well filled, about one thousand people being present. The juniors numbered about seventy. All sent and rose to the occasion in a "Columbia, the Gem of the Ocean." The president of the class, Percy Beasley, produced an end of verse prefaced by a humorous speech, in which he openly poked fun at the "sallow seniors" who would rather be "graduating and joke" for their commencement; and silly alluded to the "sweet girl graduates" who will appear in all the borrowed finery of her mamma, cousins, and aunts," and by exhibiting a sample dolman, written on wall paper, and grossly made up.

Miss Agatha Dewhurst sang Scope's "Sing Me a Simple Forever," Harry Tuttle gave an address "Decoration Day," a comic one was rendered by Miss Lillian Hyde; Miss Gertrude Hartman played the piano solo, "Alice Where Art Thou?" Miss Mamie Carter's piano solo, "Hunting Song," then came a take off on last winter's junior banquet at the Knight, a parody on "Sweet Adeline" by Merrill and Elias Dupree, and another original class song to the tune of "Just One Girl," Miss Myrtle Hale was the composer of the song; Miss Florence Lowe was the accompanist. The program ended with a duet and the audience was greatly pleased with it.

Today is senior class day. The senior exercises will be held in the assembly room in the High School assembly room at 8:15.

Graduating exercises take place in the Salt Lake Theatre tomorrow evening at 8:30.

The annual reception and reunion will be held September evening at 8:15 in the High School reception room.

RED CURTAIN TREATMENT

Doctor Finsen the Discoverer of a Cure for Smallpox.

Will Explain It to the Scientific World at the Paris Exposition in 1900.

Salt Lake City, May 28.

To the Editor:

It is an every-day occurrence, that we chronicles are informed to our patrons that the famous professor So and So has made a remarkable discovery and is now able to cure such and such a disease; then we wonderful to relate, we find that we have not heard of his discovery and are not even aware of having seen or heard the professor's name before. The patient looks at us with great pity and feels real sorry that we are so out of date. Perhaps the article of mine will be used in a similar way, but the doctor whose work I am going to give a brief discription of, is really so much with newspaper fame, he is known under a small circle of friends as an original character, and was mentioned in the spring of 1898 all over Europe as the inventor of the "red curtain."

His name is Dr. Finsen, and his home for his work is in Copenhagen. He called the "red curtain" treatment for smallpox has been known for centuries, but the explanation of the effect is due to Finsen. He proved that the suppuration in the smallpox pustules was due to the chemical rays, the ultraviolet and violet rays in the spectrum, and if we shut from the sick and large hall to pass through a red medium the chemical rays would be absorbed.

Thompson's to be a professor under a small-pox epidemic in 1894, and it proves true, that if we put a patient under the red curtain before the pustules suppuration was started, this would not come at all and consequently the patient did not have smallpox with scars for the rest of his life. In cases where suppuration already is started, the red light will make it subside and heal the disease.

After success with his first experiment he continued his study of the effects of the sunlight methodically, and he has now succeeded after four years of hard work and expenditure of his own light station (as he calls it) to get support from the government and a space on the Paris exposition in 1900, where he will have a chance to show the world the result of his latest investigations. It has for a long time been suspected that the sunlight had a poisonous effect on the microbes. It has now proved that the most tender bacteria—the baby—could better years good health, if they get sunlight and fresh air, but how to administer the sunlight intensly enough to get an effect, has been the problem—for the home heat made it impossible.

When we look at the sunlight as it presents itself to our eyes, after passing through a prismatic glass, we will find the heating rays in the upper part in the (red) and (yellow) rays, the chemical rays in the lowest in the violet a ultra-violet ray. The ultra-red or violet rays are invisible. But can be proved by their thermical or chemical effect. Finsen succeeded by letting the sunlight pass through different mediums to get the thermical rays eliminated or absorbed, and then he was enabled to meet with the concentrated sunlight without having the heating effect. His first experiment was made on lupus, especial Lupus, that means tuberculosis of the skin, and were crowned with success, but he is not yet able to allow anything unfinished from his hand, and first in 1899 the world at large will see the result of his thoroughly scientific and methodical investigations.

If his ideas are transferred to the effect of sunlight on the skin, there is no limit of the intensity, there may be opened up a new era for the medical science in the treatment of skin diseases.

TWO FINE WASHINGTON.

Pittsburg, Pa., May 30.—Tannehill's steady pitching and Williams' superb batting won the game for Pittsburg. McFarland also pitched a good game. In the ninth he was struck in the groin by a batted ball, but quickly retired to the side and Baker pitched the ninth inning. Attendance, 2,200.

SCORE.

	R.	H.	E.
Pittsburg	4	11	1
Washington	3	9	3

Batteries—Tannehill and Schriver; McFarland and McGuire. Umpires—Swartwood and Warner.

AFTERNOON GAME.

Pittsburg won the second game from Washington by a small margin. Leever's weakness in the fourth and eighth and errors behind him allowed Washington to tie the score. The game was won by Leever's three-bagger in the ninth, followed by Donovan's single to a cinch. Attendance, 1,800.

SCORE.

	R.	H.	E.
Pittsburg	4	10	1
Washington	4	8	3

Batteries—Leever and Donovan; Dinneen and McGuire. Umpires—Swartwood and Warner.

PHILLIES LOSE TWO GAMES.

Philadelphia, May 30.—Chicago outplayed the Phillies yesterday and won with ease. Fifield was batted out of the box and Wheeler, who succeeded him, was little improvement. Attendance, 2,250.

SCORE.

RUNNING SORE ON HIS ANKLE.
After Six Years of Intense Suffering, Promptly Cured By S. S. S.
Obstinate sores and ulcers which refuse to heal under ordinary treatment seem become chronic and deep-seated, and are a sure sign that the entire circulation is in a depraved condition. They are a severe drain upon the system, and are constantly sapping away the vitality. In every case the poison must be eliminated from the blood, and no amount of external treatment can have any effect.
There is no uncertainty about the merits of S. S. S.; every claim made for it is backed up strongly by convincing testimony of those who have been cured by it and know of its virtues by experience.
Mr. L. J. Clark, of Orange Courthouse, Va., writes:
"For six years I had an obstinate, running ulcer on my ankle, which at times caused me intense suffering. I was so disabled for a long while that I was wholly unfit for business. One of the best doctors treated me constantly, but did me no good. I then tried various blood remedies, without the least benefit. S. S. S. was so highly recommended that I concluded to try it, and the effect was wonderful. It seemed to get right at the root of the disease and force the poison out, and I was soon completely cured." Swift's Specific—
S. S. S. FOR THE BLOOD
—drives out every trace of impurity in the blood, and in this way cures permanently the most obstinate, deep-seated sore or ulcer. It is the only blood remedy guaranteed purely vegetable, and contains not a particle of potash, mercury, or other mineral. S. S. S. cures Contagious Blood Poison, Scrofula, Cancer, Catarrh, Eczema, Rheumatism, Sores, Ulcers, Boils, or any other blood trouble. Insist upon S. S. S.; nothing can take its place.
