West.

BOSTON, 15.—The wool market remains quiet and steady with a fair demand from manufacturers, and prices are unchanged. Supplies continue to arrive quite freely from all points and the market is well supplied. Sales of Ohio and Pennsylvania fleeces have been 40@41 for X and XX, and choice lots 41@42. Michigan X fleeces have been selling at 39@40, but it is difficult to obtain over 30 for good average lots. No. 1 Michigan and Ohio have been selling at 43@45 and are in fair demand. Combing and delaine fleeces are firm and in demand at 43@45 for No. 5 Michigan and Ohio delaine, and 46@48 for fine No. 1 combing. Unwashed wools have sold at 28@32 for fine and medium, choice medium selections at 33@35 and lower, and coarse at 19@25. Pulled wools are in demand and sell at 42@45 for good and choice and 25@40 for common and good. California wool is quiet and foreign wool remains unchanged. The supply of carpet wool is sold up close.

Army Changes.

OMAHA, 15.—Col. Ludington, quartermaster, United States Army, Department of the Platte, has been transferred to Fort Leavenworth, Department of the Missouri, to take effect Oct. 1st. Major J. V. Fuery, depot quartermaster at Omaha, goes to Baltimore, Major G. B. Danby, quartermaster at St. Louis, will probably succeed Col. Ludington. It is reported that General Howard is making a strong effort to be transferred to the Department of the Columbia instead of the Platte.

Yellow Fever.

BROWNSVILLE, Tex., 15.—Twenty eight new cases of yellow fever are reported. Twenty-five of them are Mexicans and three Americans; three Mexicans have died. Two light cases are reported at Fort Brown. At Matamoras seven new cases, five of which are light, and five deaths are reported. Major Butterfield, of the Matamoras & Monterey Railway, is down with the fever. The weather is cloudy but hot.

New Orleans, 15 —Malecia England, a native of Finland, died from the yellow fever this evening.

Forest Fires.

AMHERST, N. H., 15.—Fires are raging in fields adjoining the railroad track and the Merrimac, Amherst and Milford fire departments are called up. The flames are spreading south and east from Pennicpuck brook and threaten Nashua.

Storms

STERLING, Kansas, 15.—A severe thunder storm accompanied by hail this afternoon, did much damage to window glass and blew down several buildings.

Bangor, Me., 15.—The most destructive tornado ever experienced in this vicinity visited Bangor to-night. The wind was terrific, and rain fell in sheets accompanied by incessant thunder and lighting. The destruction of property was very great; buildings were blown down, roofs taken off, chimneys demolished, and signs and awnings carried away. A set of buildings in Veazie were destroyed by fire during the storm. A vast amount of damage was done to orchards, and the loss is between $50,000 and $100,000.

Atchison, Kansas, 15.—A terrific thunder storm which passed over the central branch country west of this city this morning extended from Corning to Irving. At Corning, John Baller and two daughters were instantly killed by lightning, the elder aged 15 years, was standing in the door way carrying a two year old baby in her arms when the bolt fell killing them both.

Madison, Wis., 15.—One of the most violent storms ever known here passed over the city last night and this morning, and seems to have been confined to a radius of 25 miles around here. A cloud burst near Cross plain deluging the whole valley, and Black Earth Creek rose with such rapidity that two freight trains were halted as a matter of precaution and it proved a wise step for a fifty-foot bridge was carried away just east of the station, and carried away nine freight cars into a field near by. Much damage was done to crops, but the extent of it is not fully known, and is probably not large.

Strikers.

PITTSBURG, Pa., 15.—The coal miners' district convention unanimously resolved to continue the strike against a reduction from four to three and a half cents per bushel on the price of mining.

Cumberland, 15.—The Mayfield conference between the miners and the companies lasted five hours and no settlement was reached. The companies refused to make any concession.

The employers and strikers at Harmony mills both claim they have the best of the fight.

Unless the strikers return the Empire mills at Wilkesbarre, Pa., will be declared idle on Monday.

Political.

New York, 15.—The Washington special of a strong democratic paper here says the republicans are making vigorous efforts to carry the next House. The amount of funds received by the republican congressional committee this year is likely to exceed that of any other campaign. The openess with which regular investments have been made and the free and full discussion on both sides seems to have improved the situation for the committee. Circulars seem to have been sent to Chalmers' and Lynch's districts in Mississippi, and efforts will be made to get two or three districts in Louisiana, and also to capture a portion of the new membership from Texas. The republicans propose to make a vigorous attempt in Nevada at this election, and they believe that with proper management and a judicious use of the campaign funds and literature, they will be able to do so.

Washington, 15.—The letter from Dorsey to the late President Garfield excites some comment.

General Swaim who was at Mentor as the confidential friend of the President elect at the time the letter is purported to have been written, says he never saw it until it appeared in print. He received several letters from Dorsey himself, and supposed that all written by the ex-Senator were sent him.—He regards it as somewhat singular that he never heard of the receipt of such a missive.

Geo. Hewitt was renominated for Congress by the democrats of the Fifth District of Alabama.

The democrats at Cairo, Ill., nominated Hon W. K. Murphy, of Perry County, for Congress.

The republican convention at Hazelhurst, Mississippi, nominated James Hill for Congress.

A. D. Candler was nominated for democratic candidate for Congress in the Ninth District of Georgia.

Charles T. O. Fernell was nominated by the democrats of the Seventh Congressional District of Virginia.

West Chester, 15.—Among the resolutions adopted by the republican county meeting to-day was one condemning Congressman Ward for his vote on the river and harbor bill.

Worcester, Mass., 25. — Senator Hoar has addressed a letter to the people of Massachusetts giving his reason for voting for the river and harbor bill. He states that the bill was passed honestly and fairly, and that appropriations of that sort are among the best made by Congress because they are expended under the superintendency of a board of engineers, honestly. He says it is absurd to say that these harbors and bays and great rivers are not to be accessible to the districts, towns or factories in their vicinity.

Ex-Confederate Re-Union.

SEDALIA, Miss., 15.—The ex-Confederate re-union assembled here to-day. There was a parade, in which about 3,000 men took part. The procession was made up of Mexican veterans, Union veterans, the Mayor and members of the City Council and the city officers, ex-Confederates, the Sedalia fire department, citizens and visitors. At the Park, Rev. Dr. B. T. Lacy, a corps chaplain for Stonewall Jackson during the war, offered a prayer, and Chas. E. Messaly the Mayor of Sedalia, delivered a welcoming address, which was replied to by General John S. Marmaduke, president of the association. Utland, of St. Louis, delivered the oration of the day.

Arrest of Dick Little.

KANSAS, CITY, 15.—Dick Little, a well-known member of the James gang, was arrested here to-day at noon by the United States Marshal, charged with complicity in robbing the United States paymaster at Mussel Shoals, Alabama, March 11th, 1881. The amount taken was $5,200, and it is supposed the robbery was perpetrated by Jesse James, Wm. Ryan, who is now serving twenty-five years time for train robbery, and Dick Little. Little asserts his innocence, and says he can prove that the arrest is the work of the surviving members of the James gang, who have a grudge against him for the information he gave the officers which led to the breaking up of the gang.

Dick Liddle or Little has been about the city since the commencement of the week, which resulted in the breaking up of the James gang, and has given valuable aid to the police in their efforts in that direction. On the 4th inst. Deputy Marshal Overton came here from Huntsville, Alabama, and after the necessary legal process Liddel was arrested. The Marshal declined to reveal any evidence connected with the suspicion that Liddel took part in the Mussel Shoals robbery, and Liddle seems confident of his ability to prove his innocence, and that the arrest is the work of malice or revenge. The marshal left with his prisoner for Nashville, Tennessee.

The Work of Death.

Jacobson, the Swede, found guilty of murder at Montreal, and under sentence of death, died suddenly in jail yesterday.

Nathan Littlefield died at Bridgetown, Mass, last night, at the age of 78. He was a Representative in Congress for two terms.

James Crangle, a prominent citizen and banker who has been identified with Wheeling, W. Va., since 1841, died suddenly yesterday morning of paralysis, aged 62.

Little Rock, Ark., 15.—Col. N. D. Ellis, a prominent planter, was murdered by John Martin, his foreman, last Saturday, on the border of the Indian Nation. The murderer fled to the Nation, and has not been caught.

Bay City, Mich., 15 —John Graham, aged 12, was shot and killed near this city to-day. It is supposed he was shot by a boy named Rivards, of the same age, by mistake for one of a family on whose steps the murdered boy was sitting, as Rivards had a feud with that family.

Detroit, Mich., 15.—Jeremiah Detreme and Rudy Essendorf, both well known farmers, quarreled over the possession of a tract of land. The former shot the latter. He has been arrested.

Meherrin, Va., 15.—The trial of Richard B. Garland, for the murder of James Addison, in a duel, was resumed to-day. A witness testified that when Boswell handed Garland another pistol Addison remarked: Foul play! my pistol refused to fire but once and I have no other. Boswell said I am satisfied gentlemen, if you are. Addison next said, well I am done for I have been shot through the bowels. Garland next replied, I have been shot through the arm. The letters which caused the duel were written by Miss Hatchett to Garland, and those written to Miss Hatchett by Garland were read by the Court and Jury.

FOREIGN.

THE WAR IN AFRICA.

A Midnight Wade.

ALEXANDRIA, 15.—Lieutenants Smith and Darwin, of the *Invincible*, and Hamilton, of the *Alexandria*, on Monday night, waded across Mahmoudi and Marait lakes, the water being only ankle deep. They advanced to a point within 600 yards of the enemy's line, and then retired to report upon the result of their enterprise.

A Spy.

It is reported that a spy, having important papers, was sent out by the headquarters yesterday.

More Mules.

A large number of mules were purchased in Spain for service in Egypt.

Still They Come.

MALTA, 15.—The transports *Arab, Storm, Stork* and *British Prince* passed eastward. The Spanish corvette *Concordia* and Dutch gunboat *Bonaire* sailed for Port Said.

Gibraltar, 15. — The transports *Ascalon* and *City of Paris* passed eastward.

Malta, 15.—The transport *Italy*, with half the Seventh Dragoon Guards has arrived. The transport *Thunder* arrived at Alexandria.

Various Movements.

ALEXANDRIA, 15.—The Duke of Connaught visited the Khedive to-day. The Life Guards, the authorized guard for Ramleh, will be delayed until the troops on board the transport *Calabria* have landed. Another heavy gun was placed in position to-day on the water works.

Last night the iron clad train started in the direction of Fort Meks, and on the way it was fired upon by a party of Bedouins. The regulars on the train returned the fire killing twenty of the enemy. To night a stronger force will go on the train.

Major Gordon, Chief of Police, has handed over his office to the native authorities. European residents consider this proceeding an unwise one.

The authorities have refused to allow the organization of a railway corps in India for service in Egypt.

Col. Gerardino, who started out this morning on a reconnoisance, succeeded in making a sketch of the enemy's position.

A dispatch from Alexandria says De Lesseps intends the laying of telegraph lines between Port Said and Suez. Operations are consequently suspended.

The Sultan peremptorilly ordered Arabi Pasha to lay down his arms, and if he refuses the Sultan will leave him to be dealt with by the English.

CONSTANTINOPLE, 15.—One of the two Egyptians reported arrested yesterday on suspicion of being secret agents of the Khedive, is stated to be the Khedive's aide de camp. They have been instructed to present themselves at the palace, and from this fact the report originated of the arrest of the secret agents of the Khedive.

Lord Beresford Volunteers.

LONDON, 15.—Lord William Beresford volunteered his service in Egypt with the Indian contingent.

Another Reconnoisance.

Alexandria, 15.—Lieutenant Darrien's account of his reconnoisance is as follows: Lieutenant Hamilton and myself proceeding very cautiously about ten minutes with an escort arrived at 2:30 o'clock Tuesday morning within three hundred yards of the enemy's cavalry camp. The night was very dark and we were unable to get the details of their position. We therefore decided to get a position which would enable us to see their camp when daylight broke. We had not moved thirty yards when the enemies' pickets arose and showed a bright light which was directly answered along the line. We ran about a mile and entered the lake about 100 yards. The enemy pursued and spread themselves along the lake, completely cutting off our retreat. The enemies' system of signalling with lights appeared excellent. Our every movement was flashed by the nearest man and answered along the line. I presume the enemy did not fire in order not to alarm any force we might have had near. We tied white handkerchiefs to a pole in expectation of being captured, but after making another attempt to escape at 4 o'clock in the morning we went 100 yards further into the lake and in five feet of water, and the enemy, evidently losing sight of us, returned at 4:45. We rose, and having made a long detour returned to the English camp.

Imperial Interview.

Berlin, 15.—It is reported that Count Von Munster, German ambassador to England, now at Babelsberg, had a long interview to-day at that place with Emperor William, principally about Egyptian affairs. Von Munster expressed the opinion that England could not have acted otherwise than she has. The Emperor spoke warmly on the subject, and seemed pleased with the Count's interview.

The Big Tunnel.

London, 15.—In the House of Commons the president of the board of trade said the government considered that the channel tunnel question should be referred to a joint committee. He moved the order for the tunnel be discharged.

Zululand.

Ashley, Under Colonial Secretary in the Commons, states that the government has determined to consider the possibility of Cetewayo's party with proper safeguards. He said that no portion of Zululand would be annexed to Great Britain. A part of Zululand will be reserved for the chiefs and people who object to return under Cetewayo's rule, and will be guarded by safeguards similar to those imposed upon the present chiefs. British residents will reside in the country. The restoration of the former military system will not be allowed. The plan was communicated to Cetewayo to-day.

Bonapartists.

Paris, 15.—A meeting of Bonapartists was attended by 4,000 persons. Among those present were DeCassagnac and A. Meguies. Resolutions were passed favoring placing Prince Victor Napoleon upon the throne of France. DeCassagnac make a speech in which he declared the imperialists were ready for power and meant to take it.

Fatal Collision.

Two trains came in collision today between Binsson and Larec, on the line from Perigeud to Agen. Three persons were killed and six were injured.

Damages.

Montreal, 15.—The arbitrators in a railway case between the local government and Duncan McDonald the contractor, awarded the latter $108,000 damage for taking a railway contract from him. DeDonald declines the amount as inadequate.

BRIEF TELEGRAMS.

Speaker Keifer arrived in Washington last night.

A Jones absolutely declined to be a candidate for governor of New Hampshire.

Carpenter continued the argument in the Star route trials yesterday at Washington.

President Arthur remained at home yesterday evening attending to official business. He received no callers.

The Secretary of the Navy and party made a thorough inspection of the navy yards at Norfolk, Va., yesterday.

The loss to the Boyd Manufacturing Company by fire at Higginsport, Ohio, was $60,000; insurance $40,000. Other losses trivial.

Frank Bigelow, the defaulting teller of the National Bank of the Republic, is in jail, in default of $37,000 bail.

Governor Cameron, of Virginia, addressed the Institute for Colored Teachers at Petersburg yesterday, and was received with manifestations of approbation.

Surgeon General Hamilton received a telegram from the Mayor of Galveston, asking the government to assist in the quarantine at that port, out of the $50,000 appropriated to local State boards of health for suppressing epidemics.

At the request of a Norfolk officer a warrant was served to-day upon Commander Kellogg of the United States steamer *Tallapoosa* for violating the quarantine regulations some time ago, by bringing his vessel up to the navy yard when coming from an interdicted port without stopping at quarantine.

In Reading, Penn., twenty-five bills of indictment against A. M. Dunder, the defaulting county treasurer, were returned by the Brinks county grand jury. The bills charge embezzlement, forgery, perjury and making false returns and false entries. He is also indicted for conspiracy to defraud in connection with Mathias, ex-clerk of the Court of Quarter Sessions.

At Terre Haute, Ind., about 40 counties were represented in the convention to organize a State Liquor Dealer's Association. Resolutions were passed pledging the Association to vote for nominees of the democratic party, because at its convention it declared itself opposed to prohibition laws, and because the republicans declared in favor of them.

The Boston *Herald's* special says the extended drouth in Massachusetts, especially in the western part, has already damaged the crops in some sections almost past recovery, while if copious rains do not come soon, the loss to the growing crop will be very extensive. Cattle will have to be fed, and the corn and oat crop is already injured past recovery. It will be cut up and fed to the stock.

Natural Fruit Flavors.

Dr. Price's SPECIAL

FLAVORING EXTRACTS

Prepared from the choicest Fruits, without coloring, poisonous oils, acids, or artificial Essences. Always uniform in strength, without any adulterations or impurities. APPLICATION FOR PATENT.

Notice No. 985.

UNITED STATES LAND OFFICE, Salt Lake City, Utah, July 25, 1882.

NOTICE IS HEREBY GIVEN THAT Joseph H. Jennings, Joseph G. Jennings, Homer Lindsley and Winslow Anderson, whose postoffice address is Salt Lake City, Utah, have made application for a United States patent for the Carrie mining claim situated in Big Cottonwood Mining District, Salt Lake County, Utah Territory, consisting of 1,500 linear feet of the lode, and varying ground 600 feet wide, being Tax No. 124, and described in the field notes and plat of the official survey on file in this office, with magnetic variation of 17 degrees 45 minutes east, as follows: Commencing at the discovery monument, thence north 69 degs. 52 min. east 1,316 feet to the centre of the north end line of said claim, thence south 28 degs. east 300 feet to post No. 1, thence north 55 degs west 600 feet to post No. 2, thence south 28 degs. 52 min. west 1,600 feet to post No. 3, thence south 18 degs. east 600 feet to post No. 4, thence north 69 degs. 52 min. east 1,600 feet to said post No. 1, the place of beginning, containing an area of 15.02 acres, the amount thereto applied for. We disclaim conflict with "Little Fred" lode, being Tax No. 83, and claim no conflict with "Queen Bee" lode, lot No. 51.

And in connection therewith application is made for a United States patent, for the Carrie Mill Site described as follows: Commencing at post No. 1 thence south 51 degs. 45 min. 438 feet to post No. 2, thence south 38 deg. 15 min. East 455 feet to post No. 3, thence north 51 deg. 45 min. East 428 feet to post No. 4, thence north 38 deg. 15 min. West 455 feet to said post No. 1, containing an area of 4.678-1000 acres.

The east mining claim and mill site being of record in the office of the recorder of said mining district at Argenta, in Salt Lake County, Utah. The nearest known monument being the Little Fred mining claim.

It is ordered that this notice be published in the Deseret News, the newspaper published nearest the said mining claim for the period of sixty days.
