MINING, BUSINESS AND STOCKS

HIGH GRADE ORE AT MAMMOTH

Four Thousand Tons of Excellent Stuff Now Ready For Shipment.

WORK AT THE SWANSEA.

Shipments of Week from Tintic—May Day Tramway—A New District Recorder.

Special Correspondence.

Eureka, April 3.—The Mammoth Mining company has shipped no ore as yet this year, but, notwithstanding this, the usual force has been at the mine digging out ore, which at the present time is piled both underground and on the dump. Fully 4,000 tons of some of this is marvelously rich in gold, and is now awaiting shipment. Quite a number of leasers are at work in the mine and they also have a large amount of ore mined for shipment.

The ore bodies on the deep levels are opening up wonderfully and a new mine seems to have been made of this old time bonanza.

Word comes from Silver City that the machinery at the Swansea mine is being overhauled and placed in preparation for the reopening of the property on short notice, which will be just as soon as the pumps arrive. Some of the machinery will have to be repaired and there will be quite a lot of work necessary in the shaft to place it in readiness.

Seventy-seven carloads of ore were sent out of the district the past week, the shippers being as follows: Centennial Eureka, 49; Eureka Hill, 12; Bullion Beck, 6.

A gravity tramway is being constructed at the May Day which will be used to transfer the low grade ore now upon the dump, to the company's concentrating plant. The building of this tramway and other work which the company has mapped out, will keep the force busy until the management is ready to start shipping ore, which will probably be by the middle of the month.

B. H. Bullock of Provo was in Tintic during the week looking over his interests at Silver City and other parts of the district. He will let a contract for 100 feet of drifting upon the Montreal group.

At a meeting of the mine owners of Tintic, held at Silver City last Tuesday, George Paxman was elected recorder of the district, receiving a majority of all the votes cast. A large number of claim owners were present at the meeting. The recorder-elect has resided in the district for the past 30 years and is in every way qualified for the position. Since the death of C. C. Stiffler, the deceased gentleman's son, William Stiffler, has been acting as recorder of the district.

At the Little Chief mine preparations are being made to sink the shaft, which is now down 1,000 feet. At the same time the usual development work will be carried on from the 1,000 level. The work which the American Mines syndicate is doing through the Little Chief workings will also go on uninterruptedly.

Claude Wheeler and Rone Wheeler, who own the control of the South Swansea at Silver City, were here from Salt Lake during the week, and when asked regarding future plans, they stated that the property would undoubtedly be re-opened soon. In removing the water from the Swansea the former will also be drained, but this will not mean that the South Swansea will not stand a portion of the expense. From what could be learned from these gentlemen, it is reasonable to presume that there is some kind of an understanding with reference to this matter, between Jesse Knight, the owner of a control of the Swansea.

ON MINING EXCHANGE.

U. S. Smelter Decision Had Good Influence on Stocks.

Judge Marshall's decision in the United States smelter case had a strengthening influence on stocks when the news from the federal building was announced. The first to respond were the Tintic issues and in nearly every instance they sold higher. The sales of the day were heavy. Little attention was paid to the unlisted stocks, Uintah Treasur Hill being the only one recording sales.

The closing quotations and sales were:

BINGHAM CON. PLANS.

Evidently Ohio Merger Scheme Has Been Abandoned.

Telegraphic advices from the east indicate that the negotiations looking towards a consolidation of the Ohio Copper and Bingham Consolidated companies has been abandoned. A new plan has been hit upon of reorganizing the Bingham Consolidated, which is set forth in detail in a circular sent out to shareholders and which contains the following:

"To Stockholders of Bingham Consolidated Mining and Smelting company—The Bingham Mines company has been formed under the laws of the state of Maine with an authorized capital stock of $1,500,000, consisting of 150,000 shares of the par value of $10 each. This company makes the following offer to all shareholders of Bingham Consolidated Mining and Smelting company, as of record on books of company on this day. In exchange for each share of Bingham Consolidated, together with $3.50 per share in cash, payable as hereinafter set forth. The company will issue one full paid non-assessable share of capital stock of Bingham Mines company. All stockholders desiring to avail themselves of this offer must deposit their stock at the Federal Trust company on or before April 15 next, at noon, accompanied by the payment of $1 per share in cash, and a subscription upon a form to be provided for the purpose of the payment of $2.50 per share additional. The subscription to be payable as follows: Fifty cents on or before May 15; 50 cents on or before June 15; 50 cents on or before July 15; 50 cents on or before August 15; 50 cents on or before Sept. 15. Interest on prepaid installments will be allowed at rate of 6 per cent per annum."

It is also proposed to have the new company issue $600,000 in 6 per cent, five-year second mortgage colateral trust bonds convertible at par; coupons to be payable only out of earnings, thus doing away with the default clause.

Of the cash received $200,000 is to be reserved for sinking fund and interest fund payments on Bingham Consolidated first mortgage bonds.

H. C. COLVIN CALLED.

Well Known Mill Man Succumbs to To Attack of Tuberculosis.

H. C. Colvin, one of the best known mill men in the west, died at his home in this city yesterday afternoon of tuberculosis which began to make inroads upon his health something over a year ago.

The deceased was a resident of Utah for 22 years. Coming here from Iowa in 1886, he sought and obtained employment in the mining camps, gradually making his way up to positions of responsibility. He was at one time superintendent of the Bamberger De Lamar properties at De Lamar, Nevada, and during the early stages of the Utah Copper company filled the position of assistant mill superintendent. He also held a place of trust with the DeLamar Golden Gate mine at Mercur prior to its consolidation with the Consolidated Mercur. In the spring of 1906 he went to Arizona and while there was compelled to cease work on account of the dread disease with which he was afflicted. He is survived by a widow and two children.

GOOD DIVIDEND RECORD.

Spokane, Wash., April 4.—With the payment today of dividend No. 127 the Bunker Hill and Sullivan Mining and Concentrating company, the mines of which are at Wardner, Idaho, in the Coeur d'Alenes, has paid to its stockholders $10,000,000. The dividends paid since January total $255,000.

NEVADA DOUGLAS COPPER.

Good News Comes from Mine Superintendent Arentz.

That the Nevada Douglas Copper company is opening up a magnificent copper mine at Yerington, Nevada, is duly emphasized in the report which reached the office of General Manager Walter C. Orem yesterday afternoon from Mine Superintendent Samuel S. Arentz.

The report had been anxiously awaited for several days as it was expected to contain detailed information about the late developments on the 550-foot level of the Ludwig mine and which Mr. Arentz considered to be of enough importance to advise the Salt Lake office of the company by wire.

For some time past Mr Arentz has directed considerable energy towards the development of the ore bodies on this level; drifting to the south and west. In an auxiliary drift from the west drift what appears to be an immense body of chalco pyrite and bornite copper ore has been opened into and the daily assays of the entire face since it was encountered have run from 8.01 to 12.42 per cent copper; while in the south drift, which was mentioned in Mr. Arentz's message, the values have run close to 8 per cent copper.

In the winze being sunk from the 400 level, during the past week, eight tons of ore averaging 5 per cent copper and ten tons averaging 31.87 per cent copper were taken out and sent to the surface.

"There is one thing I like about the Nevada Douglas company," said a well known mining man today. "Its officers are not afraid to take shareholders into their confidence. They come right out and give facts and figures, which cannot be said of some other so-called big copper companies I know of and I dare say there is not another copper mining concern anywhere in the west that can show such splendid smelter returns from ores shipped to the Salt Lake valley smelters as the Nevada Douglas management can."

TRADE SHOWS IMPROVEMENT

New York, April 3.—Dun's Review of Trade tomorrow will say:

While the volume of business is still much below normal, moderate improvement is constantly noted, although the rate of progress is very different in the leading centers of trade. Aside from the idleness at bituminous coal mines, which is not expected to be prolonged, April did not bring any serious labor disputes, and many wage-earners were enabled to resume work by accepting small reductions in pay.

Sales of pig iron have been made at lower figures than at any time since the decline began, although regular quotations are nominally unchanged.

Hides maintain the recent improvement in activity and prices, while some descriptions have made further gains.

STOCKS WERE DOWN AS A RULE

New York, April 4.—Opening prices of stocks today receded before light offerings. Declines were generally small and United States Steel, Pennsylvania, New York Central and Atchison showed some resistance and were lifted a shade over last night. Canadian Pacific declined 1⅛ and Western Union 1. The direction of prices turned upward for a time, some of the speculative favorites rising above yesterday's closing.

Persistent pressure against the copper stocks undermined the market again and prices receded. American Smelting, National Lead, American Sugar, United States Pipe, Northern Pacific, and Chesapeake & Ohio yielded 1, and American Locomotive 1½. Pressed Steel Car preferred rose 1¼ and Federal Sugar preferred 3. Prices rallied again before the end of the hour.

The market closed firm and dull. Prices in the second hour were bid up to above yesterday, Union Pacific, Southern Pacific, Reading and Pacific Coast rising 1, Brooklyn Transit, 1⅛; St. Paul, Kansas & Texas, Erie second preferred, Southern Railway preferred and American Car, 1¼; Erie, 1½; Erie first preferred and Long Island, 2, and Consolidated Gas, 2¾. Central Leather preferred declined 1 and United States Rubber first preferred and the second preferred, 2.

CHICAGO.

Chicago, April 4.—The local wheat market opened weak today on selling by pit traders, which was based on a forecast of rain in Kansas and Missouri. Trading was very quiet. May opened ½ to ¼ higher at 92⅞ to 83, and sold off to 92½@92⅝.

Trade was very dull in corn today and the market was easy at the opening. Favorable weather for the movement and the decline in wheat were the bearish factors. May corn opened ⅛ lower at 66, and sold at 65⅞.

Oats were very quiet and weak. The feature of trading was profit-taking in May. May opened unchanged at 53⅝ and sold off to 53.

The provisions market was active and inclined to be weak. There was considerable selling in pork by holders. Hogs were up 5 cents. May pork opened 2½ higher at 13.27½, and sold off to 13.10.

Lard was unchanged at 8.30 and declined to 8.27½.

Ribs opened 2½@5 higher at 7.12½ and sold off to 7.07½@7.10.

Sentiment was bearish all day. The low point for May was 92⅜. The market closed easy with May a shade lower at 92⅝@92¾.

The corn market became strong in the last half hour on buying by shorts. The estimate of receipts for Monday was small, and that helped to create a bearish sentiment. May sold up to 66¾. The close was firm with May up ⅝@½ at 66½@66⅝.

Close: Wheat—May, 92⅝@92¾; July, 88⅜; Sept., 86½.

Corn—May, 66½@66⅝; July, 64¼@64⅜; Sept., 63¼; Dec., 54⅝.
