SCAVENGER SERVICE.

Requirements of the New Garbage Ordinance.

REMOVAL OF REFUSE MATTER.

Schedule of Prices as Fixed by the City Council For Such Work.—The Garbage Districts.

The new garbage ordinance which was recently passed by the City Council and which went into effect on the 21st ult., is creating no small amount of dissatisfaction among certain citizens, principally, perhaps, because they do not understand its provisions. In order that there may be no further misapprehension as to what they are, the essential features of the measure are herewith republished:

It is known as an ordinance establishing garbage districts, providing receptacles for and the removal of garbage and ashes; for the protection of gutters and ditches; for the disposition of night-soil and manure, and for regulating scavenger service. Also for the removal of all privy vaults and cesspools within sewer district No. 1, and requiring all owners or agents to connect their premises with the sewer within said sewer district.

It provides that there shall be established within the limits of Salt Lake City, two garbage districts, said districts to be known and designated as Garbage District Number One (1) and Garbage District Number Two (2).

Garbage district No. 1 is within that portion of the limits of Salt Lake City, bounded and described as follows, to wit: Beginning at the northeast corner of the intersection of South Temple street and First West street, and running thence due east along both sides of South Temple street to a point midway between First East (State) street and Second East street, and running thence due south along an imaginary line drawn through the center of blocks 74, 71 and 56, plat A, Salt Lake City survey, to a point in the center of block 58, said plat and survey, and running thence due west along an imaginary line drawn through the center of blocks 53, 52, 51 and 50, said plat and survey, to the east side of First West street, and running thence due north along said east side of First West street to the place of beginning.

Garbage district No. two (2) is within that portion of Salt Lake City outside of the limits of garbage district No. one (1), bounded and described as follows, to wit: Bounded on the north by Eighth North street, and on the northern boundary of the city, on the east by the Reservation line, on the south by Ninth South street, and on the west by Tenth West street.

It shall be the duty of every owner, agent or occupant of any and every building or place of business, within the business garbage district, described in section 2 of this ordinance, to provide or cause to be provided and kept within such building or place of business, a metallic vessel, with handles, for receiving and holding all ashes, sweepings and other non-combustible rubbish that may accumulate on said premises. That said receptacles shall be emptied promptly when filled, and shall be placed in a position easily accessible to the scavenger.

A separate and suitable vessel shall be provided for garbage and liquid refuse; said vessel to be free from leakage and provided with handles. All receptacles for garbage and liquid refuse shall be placed in a position easily accessible to the scavenger, and emptied daily. When placed in front of the premises they shall be deposited before the hour of 8 a.m., and removed as soon as emptied.

Within the residence garbage district, described in Section 3 of this ordinance, and outside the said business garbage district, there shall be provided and kept by the owner, agent or occupant of any and every building, a suitable vessel, free from leakage, in which shall be placed all garbage and liquid refuse that accumulate in said building or on the premises. Said receptacle shall be emptied not less than once during each week in spring, summer and fall, and not less than once in two weeks in winter, in each case oftener if so directed by the health department.

Within the garbage district described in Sections 1 and 2, ashes and non-combustible rubbish shall not be deposited in the same vessel or receptacle with garbage or liquid substance.

No house slops, rubbish, ashes, or garbage shall be deposited within the garbage districts described in sections 2 and 3, except as herein provided for.

It shall be unlawful for any person or persons to sweep or deposit any paper or other rubbish in any gutters or ditches within the garbage districts, or to empty into said gutters or ditches any house slops or the contents of spittoons.

All sidewalks in front of places of business shall be swept before the hour of 8 a. m., Sundays excepted.

No manure shall be allowed to accumulate in or on any premises within the garbage districts described in sections 2 and 3 of this ordinance, in any quantity greater than two cubic yards, and shall be removed as provided in the ordinance.

No nightsoil shall be deposited or buried in or on any premises within the garbage districts described.

All garbage, manure, nightsoil, ashes and other refuse and offal shall be moved to a place directed by the health department, provided that all carts and vehicles for carrying any noxious or offensive substances shall be strong and tight, and that the sides shall be made so high above the load or contents that no part of said contents shall fall, leak or spill therefrom, and either the vehicle or vessel carried by it shall be so covered as to be inoffensive. Provided further, that no part of the contents of privy vault or cesspool, except substances other than excrement, shall be removed therefrom, nor shall the same be transported through any of the streets of Salt Lake City, except by means of an air-tight vessel, or in such manner as shall prevent entirely the escape of any noxious or offensive odors therefrom. All dead animals shall be removed in such a manner that they shall be covered from view during the process of removal.

The removal of all garbage and ashes from places of business in garbage district No. 1 shall be at the expense of the city. The removal of ashes, garbage, manure, nightsoil and other refuse matter within garbage district No. 2, described in section 3, and outside of No. 1, shall be at the expense of the owner, agent or occupant.

All privy vaults and cesspools on property abutting the sewer system embraced within the limits of sewer district No. 1 shall be removed, filled up, and connections made with sewer system, within thirty (30) days after the date of the approval of this ordinance.

No person shall empty, or attempt to empty, any vault, privy, sink or cesspool within the garbage districts, except pursuant to a permit therefor received from the board of health; provided that such permit be issued to any applicant provided with the proper vehicle for removing the same.

It shall be unlawful and a misdemeanor for any person or persons, other than persons, companies or corporations holding a permit from the health department, to engage in the business of hauling garbage, manure or other refuse; provided that this condition does not apply to persons hauling their own garbage with their own teams.

All persons engaged in the removal of garbage, manure, or other offensive refuse, shall have the word "scavenger" and the number of the permit in large white letters on black ground plainly painted or attached on each side of the wagon bed.

Any person engaged in hauling garbage, rubbish or decaying matter of any kind through the streets of the city, from the overloading of any wagon, cart or vehicle, or through carelessness or negligence, allows or causes any of said matter to fall and remain in the streets of the city, shall, upon conviction, be fined as provided in section twenty-one (21.)

All persons, companies or corporations holding permits shall be entitled to charge and collect not to exceed the following fees for the removal of garbage and refuse matter as contemplated in this ordinance, to wit: For all portions of garbage district No. 2 as follows:

For each two cubic yards of manure, 75 cents.

For each barrel of refuse (not more than thirty gallons), 25 cents.

For vessels of less capacity than thirty gallons, for each ten gallons, 15 cents.

For ashes per load, 75 cents.

For each load of refuse, 75 cents.

For quantities less than one load shall charge for each bushel thereof, 10 cents.

Any person or persons failing to comply with, or who violate any of the provisions of the foregoing sections of this ordinance, shall be fined in any sum not less than five ($5) dollars nor more than fifty ($50) dollars, and shall, in addition to such punishment, be fined in the further sum of five ($5) dollars for every twenty-four hours of failure or refusal to comply with said ordinance.

Court Notes.

In the divorce suit of Helen Perkins vs. Harvey Perkins, the plaintiff has filed an amended complaint.

In the case of Rachel Hamlin vs. George Hamlin, a suit for divorce in the Third District court, the defendant has filed an answer. He denies that he is now, or ever was, the husband of the plaintiff; that he has ever treated the plaintiff in a cruel or inhuman manner or that he ever accused her without cause, of adultery; denies that he ever hit at the plaintiff with a chair or treated her cruel in any way. Mr. Hamlin also denies that he has property worth $3000, or of any sum above $2000, and also denies that he has notes or bonds valued at $2000. He alleges that the plaintiff is in better circumstances financially than he is, and prays for a dismissal of his wife's complaint.

AS TO OBJECTIONS.

County Registrar Allen Will Hear Complaints Until Five Days Preceding Election.

County Registrar Allen has posted the following notice at each polling place in the various precincts:

Notice is hereby given that I, Joel F. Allen, registration officer for Salt Lake City precincts, will hear objections to the right to vote of any person whose name appears on the registry list, until sunset of the fifth day preceding the day of election. Said objection shall be made by a qualified voter, in writing, and delivered to the deputy registration officer, who shall issue a written notice to the person objected to, stating the place, day and hour when the objection shall be heard. The person making the objection shall serve, or cause to be served, said notice of the person objected to, and shall also make return of such service to the deputy registration officer before whom the objection is to be heard. Upon the hearing of the case if said officer shall find that the person objected to is not a qualified voter, he shall, within three days prior to the election, transmit a certified list of all such disqualified persons to the judges of election appointed by the commission, and said judges should strike such names from the registry list before the opening of the polls. Will hear objections at 157 south West Temple street.

Note—The Utah Commission are of the opinion that the objections should specify the ground thereof and should be made separately as to each person objected to; and actual personal service should be proved by the affidavit of the person making the same, unless served, and return thereof made, by an officer authorized by law to serve process, and at least three days' notice should be given.

REPUBLICAN PRIMARIES

Held in All of the City Precincts Except the Fourth, Last Night.

Republican primary meetings to select delegates to attend the county convention called for the 29th instant were held in all of the city precincts except the fourth, last night.
