# MINING, BUSINESS AND STOCKS

## WEEKS BUSINESS WILL BE HEAVY

### Stock Exchange Has Another Record Breaking Morning Session.

### SALES UNUSUALLY LARGE.

**Nevada Stocks Still Drag, Bulk of Business Being in Utah Securities.**

If present business conditions keep up on the floor of the local stock exchange, the present week will be one of the biggest in point of business in the history of the exchange. This morning a total of 33,075 shares of stock changed hands, representing a valuation of $43,865.50, and the previous days ofthis week have not been far from these figures.

This morning the open board session utterly outstripped the regular call in point of business. The market was strong and a generally healthy tone prevailed. There was no particular activity in any one security, the bulk of the business as usual being in Utah stocks.

### RUSH KEEPS UP.

**Excitement Continues Strong as Ever With no Sign of a Let Up.**

Wild excitement is the prevailing condition in the Greenwater country, according to Messrs. A. W. Smith and L. O. Taylor, who have just arrived from there.

A tremendous rush is taking place, the trails leading into the district being crowded with vehicles of every description. Rich strikes are being reported daily, some particularly fine ledges having been found on the west slope of the Funeral range.

A water company capitalized at $6,000,000, has just been organized, and is now only waiting for materials for piping to arrive.

A company is being formed by Messrs. Smith and Taylor to develop their eight claims, the Polaris group, adjoining Senator W. A. Clark's property.

### VICTOR CON.'S NEW SHAFT.

**Development Work at Beck Tunnel And Tetro Properties.**

Interest in Victor Consolidated properties at Tintic centers just now in the active preparations which are under way for the sinking of a new shaft. The decision to rush this improvement was brought about, no doubt, by the recently reported developments in neighboring Carisa properties. The work will be pushed with the least possible delay.

Reports from Beck Tunnel are to the effect that this newly opened property bids fair to outdo the oldest and best producing mines of Eureka. Notwithstanding the inferior hoisting equipment the quantity and quality of ore being taken out is a guarantee that the dividend record of the property will be maintained for years. At the same time the Beck management has been criticised to some extent for its failure to increase the output. The reply of the management to these criticisms is that, as the ore shoot has not been reached in either the north or south face, it is best to delay the matter of expensive permanent improvements. The enlarging of the old shaft would be nearly, if not quite, as costly a work as the sinking of a new one in a more suitable locality.

With the completion of the 400 foot drift from the Tetro's new shaft, which has reached within a 100 feet of a point vertically below the old works, it is confidently expected that the ore shoot will be cut at the increased depth and that future development will be accomplished at one-half the expense formerly necessary.

### COURT GIVES POSSESSION.

**Case of Excelsior Iron Mining Co. Goes In Defendant's Favor.**

In the case of the Excelsior Iron Mining company against Thomas J. Jones, the court decided that defendant is the owner of and entitled to possession of the Cora No. 1 lode claim, which is a portion of the Armstrong placer. It was decreed that neither party should be entitled to costs from the other.

### MAKE BIG FIND.

**Stray Dog Furnishes Sensational News —Indian Camp Ledge Also Struck.**

A recent dispatch from Goldfield to the Reno Gazette runs as follows:

A telegram has just been received by the L. M. Sullivan Trust company from Consulting Engineer John D. Campbell at Manhattan which, following the discovery of sulphides at the 200-foot level on the Manhattan Consolidated last week, is considered sensational in that it is believed to establish the permanency of the Manhattan mining camp beyond peradventure, Campbell's telegram says:

"The Original Indian Camp ledge has been encountered in the main shaft of the Indian Camp Manhattan Mining company at a depth of 150 feet. This ledge shows on the surface and strikes northeast and southwest, with a dip of 55 degrees to the west. The bottom of the shaft is all in sulphide ore, and we are still drilling in ore showing lots of chalcopyrite and carrying free gold. Have also struck a strong flow of water. On Stray Dog at 150-foot level have broken into nine inches of $500 ore on hanging wall and two feet of $15 to $20 ore on foot wall. Average for three feet is $200 per ton. Also encountered in shaft this morning large ledge showing sulphides—assaying will follow. Advise buying five-drill compressor at once for deep mining."

The discovery is considered one of the most important that has been made during the year and Goldfield people are more than ever interested in the big camp to the northward.

### DEMAND KEEPS UP.

**Public Still Looking for McDonald-Ely, But Holders Are Unwilling to Sell.**

It is expected that the stock certificates of the McDonald Ely company will be ready to issue either this evening or tomorrow. In the meantime the demand for stock in the new organization continues as strong as ever.

Applications came in so fast when the stock was offered to the public that it was found necessary to cut down the allotments of each subscriber so that it would be possible for all to get in. Local holders of the stock refuse to sell under any conditions notwithstanding the fact that the price offered today amounts to a profit of over 100 per cent on the original cost. Owners are holding their stock not as a speculation but as an investment.

### EXCURSION TO LOGAN

**Saturday, Nov. 24th.**

For Salt Lake—B. Y. U. Socker Football Match. Round trip $2.50. Special train 8:00 a. m., returning leave Logan 9:00 p. m. Tickets good returning November 25th.

### BASKETBALL—PROVO.

**Y. M. C. A. VS B. Y. U.**

Saturday, November 24th. Special 6:00 p. m. via Salt Lake Route. $1.25 round trip. Special returning. Everybody welcome.

### ONLY $2.50

**To Logan and Return.**

Saturday, November 24th, for Football Match. Special train 8:00 a. m., returning leave Logan 9:00 p. m. Tickets also good returning November 25th.

## PERMANENT ORE REWARDS EFFORTS

### Discussion of Conditions Obtaining in Southern Nevada Camps.

### LOTS OF IT IS NOW IN SIGHT.

**Industry is Rewarded in Goldfield Mining Circles—Fortunes Made and More in Prospect.**

Manhattan, Nev., Nov. 20.—With the location of high grade shipping ore in place the estate of the Manhattan Combination company passes from the preferred prospect class to the ranks of regular producers, and becomes, in fact, what has for some months been predicted, a mine of the first magnitude. To be sure the property has yet to establish the ore showing which obtains in the Consolidated, Stray Dog, Union No. 9, Jumping Jack, Little Grey, Indian Camp and a number of other Manhattan mines, but time and development can be depended upon to do the rest now that the pay crack has been encountered in the permanent ore zone.

STAGE OF DEVELOPMENT.

At relatively the same stage of development the combination shows up equally as well as the properties mentioned, with the possible exception of the Stray Dog, and certain it is that the huge Black Mammoth ledge, in which the high gold values on Combination ground are found, is a strong rival in point of mineralization with either the famous Consolidated fissure or the no less celebrated Stray Dog-Union No. 9 ledge. The surface showing on the Combination is one of the very best in the entire camp and compares more than favorably with the gold values secured on Stray Dog ground at grass roots.

HIGH GRADE ORE.

Several months ago Sol. Camp located a streak of very high grade ore in that portion of the Black Mammoth ledge which crosses the Combination estate. The find was followed at surface for a distance of 300 feet, and the ledge stripped of quartz having an average value of $200 the ton. The vein dipping into the hill an incline was then sent down along it and always in ore of shipping grade. From the bottom of this incline a drift was run out along the strike of the ledge and has resulted in the location of the same high class gold values in place.

FREE GOLD IN QUARTZ.

The face of the drift is filled with quartz showing gold in the free and assays are secured as high as $500 the ton. Samples taken at random seldom fail to return shipping values and the "break of the ledge is considerably in excess of $100 the ton. More than 400 sacks of high grade shipping rock are piled on dump, and as an illustration of the rapidity with which the tonnage is accumulating it can be stated that ore sufficient to fill 100 sacks was mined Friday.

LOTS OF COPPER.

The management of the Toquima Copper company is sacking ore at a depth of 130 feet and the incline shaft which is following the dip of the big copper yielding fissure is in ore from surface to bottom. For a depth of about 20 feet from the 40 foot level values depreciated, indicating that the shaft was in the leached zone which in copper carrying ledges invariably precedes water level. The present copper grade is a trifle better than 15 per cent to the ton, an increase from 6 per cent a few feet below surface. Sinking is to continue until water level is reached where it is expected that the ledge will carry an even higher per cent of the red metal.

CROSSCUTS RUN.

At various points in the shaft crosscuts have been run through the ore for a distance of 12 feet without disclosing either wall, and from present indications the entire mountain is a solid mass of copper carrying matrix. Wherever crosscut below the leached zone the deposit returns an average copper grade of 15 per cent and likewise carries gold and silver values of $10 the ton. Ore is being sacked and a small trial shipment is to go out shortly.

WATER LEVEL SOON REACHED.

When water level is reached it is the intention to intersect the ore body with a series of crosscuts and a draft along its strike. The work of blocking out ore will then begin and this in turn will be followed by stoping and the sending out of regular consignments. The property passed the speculative value period some time since as careful tests, made by competent engineers, have proved the deposit to be very rich in copper, the metal occurring largely in chalcopyrites and the ore being readily treated.

ROCK RESEMBLES ARIZONA.

In character the rock resembles that mined in the rich copper yielding districts of Arizona, more particularaly that section in which is located the famous Copper Queen mine. In fact, mining engineers who are familiar with the ore occurencies in that well known property and who have examined the Toquima deposit, state that the two ore bodies are identical in appearance. They opine that the whole mountain on which the Toquima property is located is filled with copper, and that development will prove it to be one of the most valuable deposits of the red metal ever discovered.

### HAY FORK LOOKS WELL.

**Mining District North of Idaho City Gives Great Promise.**

Fred J. Kuntz returned to Boise Friday evening from the Hay Fork district above Idaho City, to rest up a while, says the Boise Capital News. Speaking of the development of this hich section he said:

"Lee Bunch and associates, who bonded the Unternahrer group, have a force of 11 men at work. They opened up the Switzerland claim down near the creek, where they found the vein 12 feet thick with pay ore all the way across. A streak two feet wide average over $200 lin gold, mostly free, and a 10-inch streak gave assay values of over $2,000 in gold to the ton.

"Work is progressing on the Goldbug drift. The vein is being followed into the hill where a depth of 350 feet will be secured. The rich ore is being sacked and the other is piled up near the mouth of the drift. It is the intention to open up the vein and explore it thoroughly across the creek in the Switzerland claim.

"A building 18x28 one and a half stories high has been completed. The kitchen and dining room are below and the sleeping apartments for 30 men are above. It is the intention to increase the force and work all winter.

"A miner who has worked at Cripple Creek and Goldfield is employed at the mine and he says it is the best appearing property for the amount of work done that he has seen. He thinks the mine will develop into a bonanza."

Mr. Kuntz said it had been either raining or snowing every day for two weeks up to last Friday in the Basin, and the More creek was booming higher than ever before at this time of year. He will return to camp in about two weeks. He had a sample of the ore with him which is a red oxide, and is literally speckled with gold.

### CONCENTRATES.

Maurice M. Johnson of the Newhouse staff arrived in the city yesterday from Yerington, Nevada.

J. W. Burnham of the Southern Pacific Mining company has left for New York on mining business.

H. S. Joseph, the fortunate manager and chief owner of the Carisa property, expects to leave tonight for Goldfield.

Five more claims have been added to the Iowa Buckhorn group. This company has also leased the Buckhorn, and will commence operations upon both properties immediately.

The Daniels Mining and Milling company of American Fork will commence to operate immediately upon the recovery of Frank Daniels, principal owner. Mr. Daniels has had a severe attack of typhoid, but is expected to be entirely recovered by the first of the month.

Holiday Books for Season 1906-7.

WE take pleasure in announcing to the public that we have purchased from the leading publishers of America their choicest products in the line of popular and beautiful books.

During our experience in the book business we have observed a growing taste among the people for reading of high class literature.

We sell more and better books each year. Having confidence in a still increasing demand for the coming Holiday Season we made heavy purchases, so that we have a complete and highly satisfactory assortment of Art Books, Gift Books, in Elegant Binding, Latest Popular Fiction, all the old Standard Authors, Juvenile Books, Boys' Books, Girls' Books, and all the New Funny Books for the Children.

Our Book Department will lead anything of the kind in the Country. We are ready for you now—Buy early.

Deseret News Book Store,
The Leading Book Concern. 6 Main St.

If You Have Any Western Idaho Sugar Company Stock don't sell it now. But if you need money and must sell, call and see us and we can sell it for you at the market price.

If You Wish to Buy

We believe you can buy through us now cheaper than at any future time. Orders are filled by us in turn as received. We also sell other commercial stocks and can get what you want if it is on the market.

George M. Cannon Company,
Rooms 512-513 Templeton Building. 'Phone Bell 57.

## HIGH MONEY AFFECTED STOCKS

### Market Was Under Pressure for Some Time Because of High Rates.

### THEY FELL BACK, PRICES ROSE

**Continued to Rise in Spots, Movement Narrow and Interrupted by Setbacks.**

New York, Nov. 21.—Opening dealings in stocks were in moderate volume and the resulting price fluctuations were narrow with small declines predominating. Anaconda receded 2¼. General Electric 1⅝ and Nashville, Chattanooga and St. Louis 1.

A spurt in Reading to 148⅝ had only a momentary effect in relieving the pressure against the market which increased considerably when call money was quoted at 9 per cent. St. Paul was driven a point under yesterday's closing and Reading and Union Pacific half. Prices were somewhat better at 11 o'clock and some of the minor stocks were showing strength. Consolidated Gas rose 5, Pacific Mail 2, Northwestern 1¾ and Rock Island preferred, Colorado Fuel and Smelting 1. St. Paul preferred gave way 2, and Federal Mining lost 4.

Call money after touching 10 per cent fell back and stocks rose. Industrials were prominent in the advances. Delaware & Hudson gained 2¾, Reading 1⅝, Pacific Mail 3¼ and Colorado Fuel 2½. Prices receded again before noon.

Bonds were irregular.

The tendency of prices became irregularly upward again shortly after 12 o'clock in sympathy with the marking up of Reading to a new high level. Union Pacific hardened 1. St. Paul preferred continued to lose ground and showed a loss of 5 points.

Prices continued to rise in spots but the movement was not comprehensive and was interrupted by setbacks. Gains were made in Great Northern preferred of 3, Keokuk & Des Moines 2, Canadian Pacific and Rock Island preferred, Northern Pacific and Union Bag and Tennessee Coal 1⅝ to 1¾.

The market closed dull and irregular. The spurt in the Hill stocks and Canadian Pacific did not more than hold the general list against realizing sales and prices ultimately gave way. St. Paul yielded again to a point below last night. The rise in Great Northern preferred had reached 5½, Canadian Pacific 2¼, Northern Pacific 2⅛, and Rock Island, Iowa Central, Amalgamated Copper about a point. Chicago & Alton declined 1¼.

### LIVESTOCK.

CHICAGO.

Chicago, Nov. 21.—Cattle—Receipts, 21,000; market steady to strong. Beeves, 4.00@7.25; cows and heifers, 1.00@5.15; stockers and feeders, 2.40@4.50; Texans, 3.75@4.60; westerns, 3.90@6.10; calves, 6.25@7.75.

Sheep—Receipts, 25,000; market strong. Sheep, 3.90@5.50; lambs, 4.60@7.50.

KANSAS CITY.

Kansas City, Nov. 21.—Cattle—Receipts, 8,000; market steady to strong. Native steers, 4.00@6.75; native cows and heifers, 2.00@5.25; stockers and feeders, 2.60@4.60; bulls, 2.25@3.75; calves, 3.00@6.50; western steers, 3.50@5.25; western cows, 2.35@4.00.

Hogs—Receipts, 8,000; market strong to 5 cents higher. Bulk, 6.10@6.20; heavy, 6.15@6.25; packers, 6.10@6.20; pigs and lights, 5.75@6.15.

Sheep—Receipts, 4,000; market steady. Muttons, 4.50@5.60; lambs, 6.00@7.25; range wethers, 4.25@6.00; fed ewes, 4.00@5.35.

OMAHA.

Omaha, Nov. 21.—Cattle—Receipts, 5,000; market steady. Native steers, 3.75@6.50; cows and heifers, 2.50@4.75; western steers, 3.25@5.40; canners, 1.50@2.50; stockers and feeders, 2.75@4.75; calves, 3.00@6.00; bulls and stags, 1.80@3.85.

Hogs—Receipts, 3,200; market 5 cents higher. Heavy, 5.85@6.10; mixed, 6.00@6.10; lights, 6.10@6.25; pigs, 5.25@5.85; bulk, 6.00@6.10.

Sheep—Receipts, 14,000; market steady. Yearlings, 5.50@6.00; wethers, 5.00@5.60; ewes, 4.60@5.25; lambs, 6.75@7.40.

### WOOL.

ST. LOUIS.

St. Louis, Nov. 21.—Wool, steady. Territory and western mediums, 23@27; fine mediums, 18@21; fine, 14@17.

BOSTON.

Boston, Nov. 20.—The wool market is in a healthful, progressive condition, with a steady demand and steady prices prevailing. A feature of the situation is the scarcity of wools, running to three-eighths and half-blood grades. Attention is now being paid to clothing wools. Pulled wools are steady. Individual transactions in territories touch the half million pound mark. Foreign grades are firm. Quotations:

California, scoured basis, northwestern, choice, 67@68; northern, good, 65@66; middle counties, 63@65; southern, 62@63; fall free, 56@57.

Oregon, scoured basis, eastern No. 1 staple, 70@72; eastern No. 1, clothing, 68@70; valley No. 1, 60@62.

Territory, staple, scoured basis, fine, 70@72; fine, medium, 68@70; medium, 65@66; territory, ordinary, scoured basis, 66@68; No. 1, 62@64; pulled wools, scoured basis, extra, 69@71; fine A, 63@65; A supers, 57@60; B supers, 49@53.

### PRODUCE.

CHICAGO.

Chicago, Nov. 21.—The wheat market today opened easier on renewed selling of the December option. The news of the day, however, was generally bullish. December opened unchanged to a shade higher at 73⅞ to 73⅝, and sold at 73⅝@73¾.

The corn market was firm but trading very light. December opened ¼ to ⅛@⅜ higher at 42¼ to 42⅛@42⅜ and sold at 42⅜, afterward declining to 42¼.

The oats market was steady. December opened a shade higher at 23⅝ and sold at 23½@23⅝.

The provisions market was firm but trading was in small volume. January pork opened 10@12½ higher at 14.72½ to 14.75; lard was up 2½ at 8.55, and ribs were 2½@5 higher at 7.82½.

The close was weak with December ¼@⅝ lower at 73½@73⅝.

Corn closed firm with December ¼@⅝ higher at 42⅝@42¾.

Cash: Corn—No. 2, nothing doing; No. 3, new, 35¾@40¼.

Oats—No. 2, 32½; No. 3, 31¾@32.

Wheat—No quotations today.

Close: Wheat—Dec., 73½@73⅝; May, 78¾@78⅞.

Corn—Dec., 42¼@42⅝; May, 43½.

Oats—Dec., 35⅝; May, 35¼@35¾.

Pork—Jan., 14.75; May, 15.00.

Lard—Jan., 8.57½; May, 8.50@8.52½.

Ribs—Jan., 7.82½@7.85; May, 7.95.

Rye—Cash, 68 cents.

Barley—Cash, 42@54.

Flax, Clover and Timothy—Nothing doing.

SUGAR AND COFFEE.

New York, Nov. 21.—Sugar, firm; raw, quiet. Fair refining, 3 5-16; centrifugal, 96 test, 3 13-16; molasses sugar, 3 1-16.

Refined—Sugar, quiet. Crushed, 5.50; powdered, 4.90; granulated, 4.80.

Coffee—Quiet. No. 7 Rio, 7 9-16.

LIVERPOOL GRAIN.

Liverpool, Nov. 21.—Close: Wheat—Dec., 6s 3⅝d; March, 6s 5¾d; May, 6s 5¼d.

Weather in England today was cloudy and threatening.

### ALASKA-YOKON EXPOSITION.

**Commercial Club is Interested in Plans For the Affair.**

The Commercial club is interested in the plans for an Alaska-Yukon exposition to be held in Seattle, in 1909, for the purpose of exploiting the northwest. The exposition will cover 250 acres, and represent $10,000,000. Special attention will be given to forestry and the lumber industry of the Pacific coast, and the far western states will all be expected to have state buildings. Manager Fisher Harris of the Commercial club is in correspondence with the promotors of the exposition, as it is desired that Utah shall take an active part therein.
