THE invitation is extended to all the children in this city, who can sing, to attend the class in the Assembly Hall every Saturday afternoon, at 3 o'clock, and receive free instruction in the Tonic Sol-fa system of music. HARTE BRIDGES and Olga Peterson, a couple of gaily or tender years, whose hearts are at Ogden, were lodged in the city jail last night for punishment. They have been arrested on other occasions, both here and at the Junction city, for the same offense, and have given their parents and the officers no end of trouble. They are, without any doubt, the youngest that they have received upon the cases of the contrary, and that all efforts to reform them from being so will prove futile.

A PAGE OF HISTORY.

Black Record of Harry Haynes, a "Liberal" Candidate from the SIXTH LEGISLATIVE DISTRICT.

He Was Twice Indicted by the Grand Jury for Making Fraudulent Returns.

The following bit of history will prove very interesting reading at this time. It reveals the fact that on February 21, 1888, the grand jury of the Third Judicial District of Utah found two indictments against Harry Haynes, who was then postmaster at Murray, Salt Lake county, charging him with making false returns:

No. 289.

AROUND THE COURTS.

Attachments Issued Against the Franklin Avenue Theatre Today.

ORDERS MADE BY JUDGE ZANE.

A Telegraph Lineman Charged with Petit Larceny.—The Supreme Court.

Another episode in the notoriously unofficial career of the Franklin Avenue "variety" Theatre was brought to the surface this morning, when Mr. Stump from the law office of Powers & Allison went before Commissioner Greenman and, on behalf of the Salt Lake Gas Company, and the Salt Lake Power, Light and Heating company, entered suits for attachment against the proprietors of the place of "amusement" above named. The two companies mentioned are among the principal creditors, but it is doubtful if the last attachment will be good as stood in force out. Mr. Heywood, it appears, has all along been melting out of the district. Mr. Cross apparently is the man of whom was coming from days ago and left the Territory taken suddenly. Mr. Fred, to employ Kennedy's own words, "skipped last night." Their whereabouts are not at present known, but as there will be no more music to Bet them, to score that they, as well as Mr. Kennedy, may be expected. One of the grounds on which the attachments were based was that the title to the land in the Territory, and another is the allegation that the land either stopped, or been being to dispose, or exhibit of their property, and thereby defraud their creditors.

Commissioner Greenman granted Mr. Stump's application.

CHARGED WITH PETIT LARCENY.

Having been arrested by Gilbert Hough on a charge of stealing telegraph appliances belonging to the Rio Grande Western Railway Company, P. D. Cleveland was brought before Commissioner Greenman this morning and his examination on the boundary morning. The accused, who comes a small substantial man, the Rio Grande stated, was formerly in the employ of the company, and the allegation is that he took the articles mentioned from the depot platform, shortly after they had been shipped. The accused is about 28 years of age, and is a respectable looking man.

JUDGE ZANE IN CHAMBERS.

Before Chief Justice Zane this morning, in the case of Attorney R. N. Lewis vs. L. D. Kinney et al, a motion was made by the defendant's counsel to set aside the order appointing the referee, on the ground of prejudice. By consent a change was made, and Walter Murphy was appointed to examine the defendant on Friday, August 7th.

Thos. Atwell et al vs. W. W. Gee, J. P., etc. This was an application for a writ of mandate to compel the plaintiffs, as a well of mandate to compel the justice to transmit certain papers. The court was of opinion that the writ should be granted and so ordered.

THE DELAMARTER SUIT.

No answer has yet been filed by the defendants in this suit, but it will probably find its way into the Clerk's office of the Third District Court before the expiration of the statutory ten days.

IN ARTICLE MORTIS.

Deputy Marshal Dagle, who has been seriously ill for some time past, was this morning reported to be not sinking. The Marshal's "guard" was in Kennedy's room of the employing in Marshal Dyson's office, who saw Dagle about to relapse, but no hopes were entertained by the doctors of his recovery.

THE THIRD DAY.

The case of Hendemann et al vs. Kattick was resumed before Judge Merritt this morning in the Third District court room. It will in all probability last over tomorrow. There is considerable testimony.

THE SUPREME COURT

will not reassemble until September 1st.

THE TERRITORIAL FAIR.

This Year's Exhibition Is Expected To Be A Huge Success.

Those desirous of obtaining copies of the premium lists for the approaching Territorial Fair can have them by applying to Heber M. Wells, secretary, at the State hall, or from Henry W. Lawrence, president, corner of First South and West Temple streets. Considerable care has been shown in the arrangement of the premiums, and many of them have been increased, so that the aggregate will approximate $10,000.

Last year's home and settle show was attributed by one of the finest ever seen in the Territory, but this year's will doubtless eclipse it. A number of special premiums have also been offered and more are coming in all the time.

The Mormon Tabernacle and the Assembly Hall have recently passed the following resolution: Shipments of live stock, agricultural implements, machinery and other articles intended for exhibition at the fair during the year 1891 will be transported subject to the regular tariff rates. That freight will be way-billed at owner's risk of damage, and regular rates will be charged to the fair. Exception: On shipments of fruit, vegetables or vegetables the freight charges will be refunded upon presentation of a certificate from secretary that such shipments have been placed on exhibition.

On return of the freight, no charge of ownership having occurred, and with proper evidence from the secretary of the exhibition, it will be returned free, at owner's risk. The usual live stock contract must be executed in the regular manner for shipment of live stock. Shipments of raw horses are not to receive the benefit of this rule, but are to all time to be charged full tariff rates both ways. Children and horses may be loaded with racing stock without extra charge if desired to do so. All property must be returned within ten days after the close of the fair, otherwise full tariff rates will be charged. In no case shall a greater charge be made between intermediate stations on same line, in same direction, on the property.

It is confidently believed that this year's fair, as a whole, will be one of the best ever held.

IMPORTANT TO VOTERS.

Opinion of the Utah Commission Given Today.

In such case no challenge should be interposed."

Dr. Talmage compares life with a great game of ball. There is no objection to the metaphor, but only to the apparent assumption that Talmage is the umpire.

Enthusiasm Over the Sealing Edict.

A Tuberculosis Case.

BOSTON, July 31.—Dr. Thomas of Dorchester has issued a report to the effect that he has managed, by the Koch system, to bring about a complete cure in a patient, of the case of tuberculosis which he has treated, and satisfactory results occurred in 45 per cent. of the other cases treated by the same system. Naturally the followers of Koch are elated.

A Rain Machine.

FRANK Melbourne, the Australian who has invented a rain machine, is exciting over the interest he has achieved through descriptions of the machine and his successful tests at Canton, Ohio. He has written to the government about his machine, and offered to arrange a test.

The government officials in reply to his offer informed him that the government is experimenting through ex-Commissioner of Patents Dyrenforth, in producing rain by tossing explosive matter in balloons to be exploded in the clouds. He was further notified that Mr. Dyrenforth would be experimenting in Kansas in August, and that if he went there and successfully produced rain on demand his machine would be adopted by the government.

Melbourne says he will accept the conditions and go to Kansas with his machine. It seems that Congress has appropriated $15,000 for experimenting in producing rain artificially, and Melbourne expects to get the money.

He has just written a letter addressed to whom it may concern, in which he says:

"I am able to cause rain to fall over an area of upwards of 20,000 square miles at any time that I desire, without regard to climate. I have experiment so successfully upon twelve different occasions in Australia during the season of drought, five times in New Zealand during the months of February of this year, and three times in Ohio within the last sixty days. Upon each occasion I have publicly announced from one week to ten days prior to my intention of causing rain to fall upon a given date, and have never failed upon a single occasion to bring rain as announced. I was prepared to repeat experiments in any part of the United States at any time."—C.
