# LAW GOVERNING ELECTIONS

## Democratic Territorial Central Committee's Instructions.

### PROCEEDINGS AT THE POLLS.

### Under What Circumstances Challenges Shall be Allowed.—Canvass of Votes—Certification, etc.

HEADQUARTERS DEMOCRATIC TERRITORIAL CENTRAL COMMITTEE, SALT LAKE CITY, July 22, 1891.

REGISTRY LISTS AND OATHS.

Upon the completion of the registry list each registration officer should prepare triplicate lists in alphabetical order for each precinct, containing the names of all registered voters, one of which list shall be filed in the office of the clerk of the county court on or before the first day of July; one list to be posted up in each precinct, at least fifteen days before the day of election, at or near the place of election, and the other list transmitted by him to the judges of election of the several precincts for use at the polls; and the oaths of the registered voters, immediately after the day of election, delivered to the clerk of the probate court of the proper county.

TRANSFERRING NAMES OF VOTERS.

The law authorizes those persons removing from one election precinct to another in the same county to appear before the registration officer at any time previous to the filing of their lists in the office of the clerk of the county court, and have their names erased therefrom, and they may thereupon have their names registered in the precinct to which they may remove.

NOTICE OF ELECTION AND CHALLENGES.

Prior to each election the registration officer of each county shall cause to be written or printed a notice which shall designate the office or offices to be filled, and stating that the election will commence at.....(designating the place for holding the poll), one hour after sunrise, and continue until sunset on the.....day of.....189.... Dated at.....this.....day of.....A.D. 189....

.....Registration Officer.

A copy of which should be posted up at least fifteen days before the day of election in the three public places in each precinct, and calculated to give notice to all voters. It is the duty of the registration officer to give notice on the lists posted as aforesaid, that the deputy registration officers of each precinct will hear objections to the right to vote of any person registered, until one hour after the time for opening the day of election. Said objection shall be made by a qualified voter, in writing, and delivered to said deputy registration officer, who shall frame a written notice to the person objected to, stating the place, day and hour when the objection shall be heard. The person making objections shall not be required to serve, said notice on the person objected to, and shall also make a return of such service to the deputy registration officer, before whom the objection is to be heard. In the opinion of the Utah Commission the objections should specify the grounds thereof and should be made separately as to each person objected to; and actual personal service should be made by the affiant of the person making the same, unless served, and return thereof made, by an officer authorized by law to serve process, and at least three days' notice should be given. Upon the hearing of the case, if said officer shall find that the person objected to is not a qualified voter, he shall, within three days prior to the election, transmit a certified list of all such disqualified persons to the judges of election appointed by the commission; and said judges should strike such names from the registry list before the opening of the polls. In view of the numerous complaints that have been made with respect to the working of this provision of the law, the commission recommends that when a decision is made by the registration officer striking the name of a person from the list of voters, the fact should be made known to him without delay, either orally or in writing.

PROCEEDINGS AT THE POLLS.

The judges of election shall open the polls one hour after sunrise, and close at sunset.

Before opening the polls, the ballot box shall be carefully and publicly examined by the judges of election, who shall satisfy themselves that nothing is therein. It shall then be locked, and the key delivered to the presiding judge; and said ballot box shall not be opened during the election.

At the opening of the polls on the day of election, the judges of election for their respective precincts shall designate one of the judges to act as clerk, who shall have in custody the registry of voters, and shall make the entries therein required by law; the other of said judges acting as clerk shall write the name of each person voting, and opposite to it the number of the vote. Every voter shall designate on a single ballot, written or printed, the name of the person voted for, with a pertinent designation of the office to be filled, which ballot shall be neatly folded and placed in one of the envelopes provided, and delivered to the presiding judge of election, who shall, in the presence of the voter, on the name of the proposed voter being found on the registry list, and on all challenges to such vote being decided in favor of such voter, deposit it in the ballot box without any such envelope being placed in such envelope; otherwise the ballot shall be rejected. Whenever any ballot shall be deposited in the ballot box, the judge having the registry list shall write the word "voted" opposite the name of the person casting the vote.

Challenges shall be allowed at the polls for cause, by any qualified voter, and the judges of the election, or a majority of them, shall hear and immediately decide upon any challenge that may be made. If the voter, being a person of foreign birth, claims the right to vote by reason that he has become a citizen by the naturalization of his parents, the judges shall receive the vote upon satisfactory oral proof, without requiring the production of the naturalization papers of the parents.

Challenges and the questions to be propounded thereunder, must relate only to the qualifications of the voter under the territorial law, or the acts of Congress.

CANVASS OF VOTES.

As soon as the polls shall be closed the judges of election shall immediately proceed to canvass the votes cast at such election, and continue without adjournment until completed. And all candidates voted for may be present in person, or by representative, to witness said count. If any envelope contains two or more ballots of the same kind, folded together, only one shall be counted.

The canvass shall commence by the judges who have acted as clerks of the election comparing their respective lists, and ascertaining from said lists the number of votes cast. The box shall then be opened, and the ballots therein taken out and counted by the judges, and the ballots, acting as clerks, shall each make a list of all the persons voted for. The presiding judge shall then proceed to open the ballots, and call off therefrom the names of the persons voted for, and the offices they are intended to fill, and the judges acting as clerks shall take an account of the same upon their lists; and all the ballots shall be immediately returned to the ballot box, and the ballot box shall be locked and securely sealed; and the box, with the ballots inclosed, shall be preserved by the presiding judge of election for twenty days after the result of the election has been declared by the Utah Commission; and said ballot box, with the ballots inclosed, shall be forwarded to the commission immediately on being so required by the commission. If not so required, the ballots shall be destroyed by the presiding judge of the election, and the ballot box shall be returned by him to the office of the clerk of the county clerk.

CERTIFICATION.

After the canvass shall have been completed, the judges of election shall add up and determine the number of votes cast for each person for the several offices, which results shall be placed on the lists made by the judges acting as clerks of the election; and the judges shall thereupon certify to the same, and shall forward all the lists securely sealed by mail, or other safe conveyance, to the secretary of the commission at Salt Lake City, Utah.

RECAPITULATION.

From the foregoing it is clear that one of the judges must keep the registry list and write the word "voted" opposite the name of each person casting a vote, and another judge must write the name of each person voting and opposite to it the number of the vote. As soon as the polls close and the lists are compared, and the ballots counted, each of these judges must make a list of all the persons voted for. On this list they must tally the number of votes for each person as they are called off—the name of the office which the candidate is intended to fill being opposite his name—and on these two lists the judge must take an account of all the votes cast, and that account, on each tally list, must show the entire number of votes cast for each candidate at said poll.

After the canvass has been completed, the judges of election shall add up and determine the number of votes cast for each person for each separate office, which result shall be placed on the lists made by the judges acting as clerks of election, that is, on the tally lists above referred to, and the judges shall thereupon certify to the same, that is, they shall sign at the bottom of each of the said tally sheets a certificate to the effect that the foregoing is a true and correct account of the number of votes cast for such candidate for said office at said poll, and all the judges should then sign each of the said certificates and date them, and should also certify to the correctness of said poll list, and forward all the lists, that is the registry list, the poll list and the two tally lists, which should all agree, securely sealed, to the secretary of the Utah Commission, at Salt Lake City, Utah.

In addition to the foregoing lists required by law, the Utah Commission have ruled that an abstract be made, setting forth the names of the candidates and number of votes cast for each. This requirement should be complied with.

Great care should be taken in all the lists and returns to give the full and exact name of each candidate, and the judges should be careful to see that each name is correctly spelled.

The returns, which should go in a sealed envelope to the Utah commission, consists of the registry list, the poll list, the two tally lists (all duly certified) and the abstract required by the commission.

Immediately after the canvass, all the ballots must be returned to the ballot box and the box locked and securely sealed. As the law and the instructions of the commissioners are both silent as to the kind of seal to be used, we recommend that a paper, bearing the signature of each judge of election, be so pasted over the slot and keyhole as to prevent the possibility of anything being put into the box or taken out of it without breaking the paper.

SAMUEL A. MERRITT,
Chairman Democratic Territorial Central Committee.
ELIAS A. SMITH, Secretary.

## Tonic Sol-fa System.

The present year will witness the fiftieth anniversary of the Tonic Sol-fa system, which has done so much to spread the knowledge and the love of music among the people of England. Coldly received, disparaged and even derided in many influential quarters, it is now able to confound its opponents by the incontrovertible evidence of its fruits. As Mr. Curwen observes, in this jubilee year there are hundreds of musicians who have successfully attested the ability his father placed for them—bachelors and doctors of music, fellows of the Royal College of Organists, associates of the Royal Academy of Music, vocalists and performers of repute. Mr. Ben Davies not many years ago was singing in Tonic Sol-fa classes, and he constantly arrives opera singers who, when to read at sight to learn this system. A doctor of music who greeted the other day at one of our universities confess that without the Tonic Sol-fa system he does not think he could possibly have done the work. Such authorities as Dr. Hellmesberger, Berlin, Sir John Herschel, Mr. Henniqued, General Thompson, Dr. Bridge, Mr. Henry Leslie, Lord Rayleigh, Mr. A. J. Hipkins, and many others not less noteworthy, have given their sanction to the system.—*Dublin and Metropolitan Times, Publishers, London.*

## The British Mission.

Elder Wm. J. Critchlow is honorably released from his labors as traveling Elder in the Irish conference, to return home.

The Indian element "Alaska" arrived in Liverpool on Sunday, July 5, having on board Elder Seymour B. Young, Jr., of Salt Lake City, who is to labor as a missionary in the British Islands, and Mrs. H. A. F. Young and John H. Hawkins and wife, of Salt Lake City, who visit in Great Britain.—*Millennial Star.*

# RUSSIAN BARBARISM.

## Exiled Jews Describe the Burning of Their Hamlet by Cruel Persecutors.

### FOURTEEN OF THE INHABITANTS BURNED TO DEATH.

### The Believers Arrested by the Officers for Resisting the Wild Mob.

BY TELEGRAPH TO THE NEWS.

### PERSECUTING THE JEWS.

### Tale of Woe Told by Exiles in Boston.

BOSTON, July 28.—The Russian Jews, who came here on the steamer "Samaria" and were refused a landing by the requirements of the new immigration law, told in an interview through an interpreter, yesterday, of the persecution they have undergone from Russia. The crowning piece was the burning of their hamlet they described.

It was a little farming settlement, near Vrie, containing eighteen houses with farms and outbuildings. On July 13, about midnight, a dozen or so of Russians from the city came trooping down upon them and set fire to the whole settlement. Fourteen of the Jews were burned to death and twenty more fearfully torture. The Jews armed themselves with stones and sticks and gave chase. The Russians were thoroughly astonished at the outcome they were accustomed to have their own way with these people. One young man, whose mother had been cruelly battered, took a spade and attacked three of the Russians. He killed two and struck the third one such a blow that he died in an hour. All the time the Russians were shouting wildly about shooting, "Kill the Jews, kill the Jews." In the midst of this turmoil the officers from Vrie arrived on the scene, drove off the assailants and arrested the young man who has killed the three Russians, and also named other Jews. These were to be tried July 20th and probably sent to Siberia.

### The French Tried to Resist.

CROMSTADT, July 28.—The dinner given to the French officers yesterday at Cromstadt exchange, was marked by a lesser degree of official character than any of the previous festivities. About 300 visitors were present and all books of any significant nature were closed against the usual enthusiasm. During the entertainment a party of the French that separated upon the balcony of the exchange where large crowds of people gathered there with finale cheers and fought and struggled to get a piece of the tri-color flags which the French officers detached from the decorations of the exchange and threw among the populace, shouting at the same time "Vive la Russie!" The people about the exchange responded to these cries with "Vive la France," and in every way the utmost enthusiasm prevailed. The crowds also several times insisted upon hearing the "Marseillaise."

### The Czar Jealous of the Enthusiasm Accorded the French.

LONDON, July 28.—The St. Petersburg correspondent of the Times telegraphs that the official journals do not like the enthusiasm that has been aroused by the visit of the French fleet at Cronstadt. It is asserted that the Czar is displeased with the manifestation made in favor of the republic and he has ordered that no pleasure steamer be allowed to approach near the French war ships when he visits Admiral Gervais. It is not believed in this city that the French fleet will equal to Cronstadt will have any lasting effect upon the friendly relations existing between the two countries. The opinion is widely expressed that he will never consent to an actual alliance with the French republic, and it is asserted that the Czar, only with the greatest difficulty, was persuaded to abandon for a moment his known hatred of France.

### British Soldiers Return from Exile.

LONDON, July 28.—The troop ship "Orontes," having on board the battalion of Grenadier Guards returned from exile at Bermuda on account of their mutinous conduct about a year ago, reached Spithead, off Portsmouth, today, and will proceed to Dover, where the troops will disembark.

### Death of an Old Printer.

HAVERFORD, July 28.—Samuel Sands died today in his 92nd year. He was probably the oldest living printer. His apprenticeship began in 1811. Nearly half a century ago he published "The Sentinel of Freedom," the first abolitionist paper started in this country.

### The New York Stock Market.

NEW YORK, July 28.—The stocks opened active and strong, Cordage and Burlington being the most active shares. Fractional advances were made, but later stagnation set again set in. At noon the market was steady, slightly under the best prices.

### A National Liberal Victory in Germany.

BERLIN, July 28.—In the election yesterday at Cassel for a member of the reichstag, Herr Endemann, "National Liberal," was elected by a majority of 40 over Herr Plancuch, "Socialist." Herr Endemann was supported by all parties but the socialists, and Herr Plancuch had only a solid socialist vote.

### Parnell and the Case in the Divorce Suit.

LONDON, July 28.—The registrar in the bankruptcy court today held that Parnell's objection to Captain O'Shea's petition for a decree of nullity and divorce suit on the ground that he was not a resident in England tenable. It is still open for Parnell to appeal; meanwhile he must pay the costs as he declared bankrupt.

### The St. Nicolas Disaster.

PARIS, July 28.—The terrible excursion train collision at St. Nicolas, near this city, is still the feature of popular interest here. The newspapers of this city are publishing the filled with the harrowing details of the disaster, and ghastly rational sensations not being every day occurrences here, but regularly supposed to be confined to the United States. The funeral will be held in the cemetery of St. Mandé and be conducted at the expense of the commune.

The assistant station master at Vincennes and the driver of the second engine have been arrested on the charge that the driving contributed, by carelessness, to the disaster which occurred about the collision.

The late amusement are being among the victims of the disaster is not Maurice F. D. Montgomery, but Maxime Dillney or Dumont, of New York City. Up to the present the official equity has failed to establish clearly the real cause of the collision. It is attributed in turn to wrongly setting switches and to carelessness, according to the evidence of the men.

The action of the Russian in drowning the missing and wounded people imprisoned beneath the wreck is most severely condemned. Seven additional corpse, victims of the collision, died last night, making a total of fifty dead accounted for, but the horribly mutilated state of some of the remains found rather it probable that in some cases bodies of unidentified may be those of two people, which have been mistaken for one. The municipal authorities of St. Mandé have decided that the funeral of the victims shall take place at a private or morning afternoon.

## Evan Stephens in the Golden State.

*Editor Deseret News:*

While on my way to the Pacific coast to try the sewer trees and the change of climate for the sake of my health, I concluded to stop off at Truckee and run up to see the much talked of "Lake Tahoe." The mountain breezes were so refreshing—though no better than our own—that it made the fourteen mile drive by stage very pleasant as we followed up the beautiful clear stream "The Truckee" over the rocky outlet of the lake.

Tahoe I found quite as beautiful as described, especially at sunset, when it is calm and the sky flushed with various shades of red, which reflected on the water, and the lofty ridges on the lake are immensely beautiful, especially the "Emerald Bay" and "Cascade" mountain. In these places the water is a deep green, and the sky above, while at the base are trees, flowers and bushes with a beautiful cascade at the "Emerald Bay." All of this I value if I judge aright, and I took seldom to be found and always to be admired.

The food here is good, plenty of fruit. Altogether life made me feel very much better in health. I gained four pounds in five days while in this locality, and I feel quite well. Of course I would altogether have made out of my road and doing my business examples I have composed a couple of duets, which I may send for publication, and have taken up the intricacies of a wonderful oratorio, which I expect the Tabernacle choir to render in solemn to their "Emerald Bay." I also have a book called "Last Judgment," by the great German Master, Louis Spohr. I am getting quite and more to love with it daily.

I am ready for the future of things musical under my charge upon through my mind as I look at the sewer trees. Darkness is a week, and that is how I lay up to not play a always.

The coaching of the great pines and the music of the waves rippling on the sands are all in harmony for such quiet musical work whose one is of one, and have been this week, and I do not think my absence will be unpalatable to my musical associates at home.

I am glad the committee on amusement for the choir are doing their good work in my absence, and I trust they will not let it be a was a most enjoyable affair. My heart and thoughts were with them, and I trust sincerely they will fully fulfill to the utmost duties until I return that Brother H. A. Tuckett will find the load he has taken off my shoulders is an unpleasant one to bear. I have at times felt lonely, but have made many friends on the way and wherever I have stopped. Music is a wonderful key to the human heart.
