The ravin gradver and ranchers held a meeting at Fresno City, and completed an organization of an association to sell the Raisins Washington to sell the raisins. It is a fact of no small importance to the vineyards of Fresno, which can use to argument a market by them on Zenon terrazzo.

The Union Pacific is again showing its love to Chatcville, says the Chronicle of that place. Agent A. A. Perry notifies us that he has received instructions from headquarters to make the rate on coal shipped from Castle to Salt Lake City after the 25th, $1.50 per ton instead of $1.75. The Hawkins, Wyo., Journal, speaking of the railroad shop employes at that point, says: "The back shop here is again working nine hours per day, being put on longer time Tuesday morning. The machine shop is now working eight hours instead of seven hours a day, and the blacksmiths also work an additional hour per day. A remarkable and unfortunate young lady of twenty years, named Ida Fraychow with a supply of cable lamps recently visited the mine. He gave the lamps a warning some to 1. Bidwell, the well-known Arizona miner, has returned from the Verde river, where he has spent some months in camp, and says that the cattle in that section are affected with fly to such an extent that it is dangerous to travel through the country and especially to Mogollon. At the termination of the war he was a prominent figure among the treacherous communists. His comrades were slaughtered about him on the streets of Paris by hundreds, and he only escaped from the city by stealthily changing his garb for that of a dead peddler of the suburbs and in this disguise escaped to Switzerland, where he had friends. He was 68 years of age at his death.

George Spring has made a full confession of his crimes. He is serving a life sentence at Folsom state prison, California, and of his 1889 Nevadan partner Warren. And he has decided to make a clean breast of all the Dixie robberies in which he has been concerned. As a natural consequence of his confession he goes without doubt of the role played by Richard Cross Evans and the road jobs in Utah. He told the story of five bank robberies, or whole three—those at Carson, Elko and Collin—were committed in California alone, and two—those of Lincoln and Western Union Telegraph—perpetrated in Idaho. The confession was made in the presence of Deputy J. E. Hume of Weiss, Fisher & Co., F. H. Wright division superintendent of the Southern Pacific company and Warden Aull. Everything being said and then coming to a summing up, the question of Detective Hume being asked, replied:
