Change of Rates.

PHILADELPHIA, 20.—The papers, to-day, rejoice in the fact of the change in the schedule of freight tariffs of the Union Pacific Railway Company, which has just been effected, and which has an important bearing. The *Inquirer* says—"It has been the policy of that company to discriminate against the Pennsylvania road in such a manner as to make shipments in bond from Europe to the Pacific coast *via* Philadelphia, and *vice versa*, practically impossible, by means of the charges levied. Invoices of fruit, grain and other commodities, that were, under the old regime, formerly sent to New York on account of the prohibitory tariff to Philadelphia, can now be shipped direct to Philadelphia. In view of the approach of the Centennial, the new system has another and very important advantage. Not only can exhibitors send their exhibits direct into the Centennial building, but collections from China and Japan, which are expected to be large and valuable, will be also delivered in the same without change of cars from San Francisco." The schedules of the new rates are now being prepared for circulation among the commercial and agricultural districts of California.

Dividend Declared.

NEW YORK, 20.—The Central Pacific have declared a dividend of six per cent out of the undivided surplus earnings.

Admirers of Mitchell Moving—Funeral of Miss Hancock, &c.

The Irish societies in this and neighboring cities are preparing for public meetings to express regret for the death of John Mitchell. The widow and daughter of Mitchell reside in Brooklyn, and were visited to-day by a number of persons condoling with them in their bereavement.

The funeral of Ada Elizabeth Hancock, daughter of Major-General Hancock, took place this p. m. Among the mourners were Chief Justice Daly, Richard Schell and other well known citizens. The pall bearers were the members of General Hancock's staff. At the close of the services the body was taken to Morristown, Pa., for interment.

A bill of $429.25 has been presented to the Brooklyn board of supervisors for dinners furnished the jurymen in the Tilton-Beecher case and three court officers, for forty-three days.

Walking Match.

The twenty miles walking match this evening, between Dan O'Leary, of Chicago, and Wilson R. Ried, of New York, for $1,000, was won by O'Leary, in three hours, twenty-four minutes and fifteen seconds; Ried left the track exhausted on the 16th mile.

A Murderer Sentenced.

Advices from Rio Janeiro, by the steamship *Merrimac*, to-day, state that Wm. P. Byrne, first mate of the American ship *King Philip*, from Baltimore, for San Francisco, had been sentenced to twelve years imprisonment with labor, for the murder of the steward, Albert Jaken, an Englishman, on Oct. 27th last; the second mate, Thomas Murray, was acquitted. The murder was committed wantonly while Byrne was apparently in a drunken fit, in which he not only killed the steward but wounded two seamen and was still engaged in a deadly fight with the second mate, the only unwounded person on board, when a force from an American frigate arrived.

Insurance Failed.

ELIZABETH, N. J., 20.—The Equitable Life Insurance Company of this city, of which Augustus F. Bell, deceased, was president, has failed; there is no money in the concern for the creditors.

The Trouble at Straitsville.

COLUMBUS, O., 20.—A dispatch just received from Adjutant General Ames, at Straitsville, reports all quiet at 2 p.m. One of the colored men injured on Wednesday is fatally injured. An effort is being made to ferret out the parties who fired the buildings of the Troy works on Thursday night.

Recovery Barely Possible.

VINELAND, N. J., 20.—Eminent physicians are now in attendance on Mr. Carruther, the editor, who was shot yesterday by Landis, founder of Vineland, and there is said to be a possibility of his recovery.

WESTERN.

Australian News.

SAN FRANCISCO, 20.—New South Wales. The Sidney *Herald* furnishes the annexed: The members of the new government will place public education on a wider basis; free trade principles will govern the fiscal policy; railway construction will be encouraged; the prolonged drouth has terminated, and crop prospects are now favorable; money is cheap; the western railway is now complete into the city of Bathurst, and its extension to Orange is being pushed forward.

Victoria. A meeting to inaugurate a ladies' college was held Feb. 11th; the revenue returns for last quarter show a deficiency of fifteen thousand pounds; a very limited number of responses have been received from intending exhibitors at the Philadelphia exhibition; the proposed gathering of the transit of Venus parties from the stations in this part of the world is expected to take place in Melbourne, Feb. 25th; the government astronomer Ellery is engaged with the American observers in calculating the exact longitude of Victoria and Tasmania, and the observing stations in South Australia. The results of the wheat harvest are more satisfactory than anticipated when reaping commenced, and the estimated surplus for exportation will exceed two hundred and fifty thousand tons. The government has promised twenty-five hundred pounds to represent the colony at the Philadelphia exhibition.

New Zealand. The gold yield of the colony fell off about one hundred and twenty-nine thousand ounces from the previous year. The native relations are peaceful, the natives being evidently inclined to accept the inevitable with but little opposition. The demand for labor is increasing.

NORTHERN.

Railroad Mass Meeting.

HELENA, Mont., 20.—The Lewis and Clark county mass meeting was held here to-day, at which delegates were appointed to the territorial convention. The following was adopted—

"Whereas the condition, situation and undeveloped resources of our territory demand imperatively that we should, as soon as possible, establish connection with the business centres of the United States by railroad, and it appearing that the construction of the North Pacific has been suspended, and there is no assurance of its further extension at an early day; and

"Whereas we are satisfied that it will be necessary to give aid and assistance to the construction of any road that may be built in the near future; therefore

"Resolved, that we are in favor of extending territorial aid towards the construction of a railroad which shall reach the central portions of our territory, and connecting with some other road leading to the business centres of the United States."

A committee was appointed to obtain statistics concerning the mineral and agricultural resources of this county, its population and wealth.
