LOCAL AND OTHER MATTERS.

"MASSANIELLO, OR THE DUMB GIRL OF PORTICI."—This splendid operatic and spectacular drama will be presented for the first time in this city this evening, on the occasion of M'lle Ravel's benefit, when a theatrical entertainment of unrivalled excellency may be confidently anticipated. "Massaniello" is one of the most exciting dramas ever presented, abounding with beautiful music including some splendid choruses; also combats, processions, rare scenic effects, &c., keeping the interest and sensation unflagging from commencement to termination. M'lle Ravel will appear as "Fenella," the dumb girl,—one of her most celebrated parts; Mr. Waldron will assume the role of "Massaniello," in which he will have excellent scope for the display of his histrionic powers. Other characters will be personated by Messrs Power, Thorne and a full cast. A grand scene effect, representing an eruption of Mount Vesuvius, will conclude the play tonight,—forming a bill which it would be difficult to surpass. Fill the house and give Ravel a Benefit worthy of the name.

THAT WATER ON CHESTNUT ST. needs the attention of whoever has authority in that part of the city. It is very often turned on when not wanted, creating a big puddle and nuisance, besides causing an unnecessary waste of good water. A word from the Water-master might prove a remedy.

POLICE.—John F. Beegan arrested and brought before Alderman Clinton yesterday, on a charge of obtaining money under false pretenses, was bound over to the District Court in the sum of $1,000.

A man named Conner was arrested for assault and battery, drunkenness, disturbing the peace and abusing the police officers and fined $25.

MATINEE TO-MORROW.—There will be a grand matinee at the Theatre to-morrow afternoon for the children, and for as many of their parents as wish to accompany them. The bill is just the thing for the little folks, and will keep them busy laughing. The entertainment will consist of the "Flying Dutchman," and the farce of the "Browns and Joneses." Fathers and mothers, remember to-morrow afternoon and let the children go and have a good time, the admission fee for them is only twenty-five cents; for older folks fifty cents.

TELEGRAPH OPERATOR AT STOCKTON KILLED.—The following was received, today, per W. U. Telegraph:

"Some one, who can just manage to write the telegraph alphabet, came into the office, at Stockton, Utah, at 12 o'clock, and reports that the operator, J. Ross Warren, was killed, this morning, by falling down the shaft of the "Silver King." Can get no further particulars at present.

PORTAGE.—M. W. H. Anderson, writing from this place, under date of the 24th inst., says:

"The health of the settlement is good. The weather is cool; we had three inches of snow on Saturday night, but it was all gone by Sunday at noon. Grass and grain are growing fine and we have a fair prospect for a good crop, providing grasshoppers and crickets keep away."

TERRITORIAL NEWS.—The following was received by Deseret Telegraph:

ST. GEORGE, 28.

Messrs. Patterson & Jennings, of Nevada, are here, having purchased a threshing machine and reaper to harvest the wheat on the Muddy stream, which is estimated at thirty thousand bushels. This grain was sown by the settlers who recently moved to Long Valley and other parts of Utah, to escape Nevada taxation. Numbers of miners are passing through from Arizona, bound for the Salt Lake mines; some few are staying to prospect in this county.

"THE ILLUSTRATED JOURNAL OF AGRICULTURE," in the title of a monthly journal published at St. Louis at $1,50 per annum, in the interest of the "farmer, fruit-grower, stock-raiser, merchant, manufacturer and the home circle," and well does it seem to fill the bill. It contains a large number of illustrations, and a vast amount of reading matter on subjects of interest to the farmer, gardner, florist, bee-keeper, poultry and stock-raisers, &c., &c. It is published by Walcott & Marmaduke, north-west corner Third and Walnut Sts., St. Louis, Mo.

THE OMAHA HERALD ON BRIGHAM YOUNG AND HIS WORK.—The following is taken from the *Herald*, of 26th inst.:

"The *Herald* is much abused for saying kind words of Brigham Young and the Mormons. It is charged with upholding Polygamy and defending the Mormon religion, because, and only because, it contends for the right of that people to enjoy their religion as we do ours. But Brigham Young is a great man, and, aside from his religious vagaries, has done a great work in his generation. Men who abuse and denounce him are constantly compelled to do him honor. This was the case when, against the slanders of the world outside, he threw his whole army of laborers upon the Union Pacific railroad, and rendered its completion possible years before it could have been otherwise accomplished. In these connections we notice the following, which was found in the special telegrams of the *Tribune* of yesterday:

Brigham Young is now at Provo visiting Lay's woolen factory, just completed. It cost upward of two thousand dollars.

"Two thousand dollars" is good.—It may have meant two hundred thousand dollars, which was the actual cost of the woolen factory at Provo. That factory is purely a Mormon production. It is the work of Brigham Young, the greatest living organizer of human industries. That Provo woolen factory has 3,000 spindles, and will give employment to 300 operatives. It is these things that this much-abused Brigham Young and his people are doing. These are the works they are performing in a land which was, twenty-two years ago, an arid desert, and which bad men from the worst of motives are seeking to destroy."

MILLARD COUNTY.—The following is extracted from a letter from John Williams, dated Scipio the 26 inst: "The people of Scipio are doing well. The greater part of our crops are in the ground and are looking fine. The weather lately has been very stormy, which has somewhat retarded the progress of sowing and planting. We do not anticipate any destruction from grasshoppers this season. There has been considerable sickness here lately, caused, I believe, by the cold, damp nature of the weather."

CALLED.—Professor W. E. Wallace, of San Francisco, called this morning. The Professor teaches a new system of horse raining, which is said to be very effectual. He informs us he purposes giving an exhibition of his powers over the horse at McKimmon's new stable, East Temple St., to-morrow at two o'clock. He showed us a fine silver medal which was awarded him at the Blackpool, England, agricultural fair. He claims that his system is very simple and that he can teach boys to handle naturally vicious animals with perfect safety.

MARRIED.

At Scipio, Millard Co., April 9th, Rachel Williams, aged 24 years. Deceased was a native of South Wales. She came to this country in 1854. She lived the life of a good faithful Saint.—[Com.

Millennial Star, please copy.

At Clarkston, Cache county, April 19th, George Sparks, Deceased was born in Worcester, England, Feb. 11, 1826, and emigrated to this country in 1848. He died in the full faith of the gospel. The brethren of Clarkston turned out en masse to follow his remains to the place of interment.—[Com.

NOTICE TO GROCERS.—An unprincipled firm have recently been copying our advertisements entire, with the single exception of substituting their name in place of ours.
