SCHOOL BOARD MATTERS.

Bids on the Revised Specifications for the Squirrel school building.

The city school board met last night, President Nelson in the chair. All the members were present and business was transacted as follows:

As to the revised specifications for the Squirrel school building bids were opened as follows:

Salt Lake Building & Manufacturing Company, $58,917 complete; if Kyune alone is used the price will be $500 extra.

A. Henegan, $56,455, complete according to the revised specifications.

Committee on sites and buildings.

E STREET SEWER.

The committee on sites and buildings recommended that the clerk be authorized to advise the City Council and the city engineer that the board would enter no objection to the extension of the sewer lateral constructed by it on E street, or to any connection therewith made by abutting property owners, providing the tax be paid and be limited to the board; the connections to be made in accordance with the rules of the council. Adopted.

NORTH SCHOOL BUILDING BONDS.

The committee on sites and buildings reported that in addition to the building completed, there is progress of construction and those for which the contracts are about to be let, that other grade schools are needed as urgently as was the need of any of the buildings, i. e., an eight-room building at the head of Main street, or a block east or west of that locality; an eight-room building in the Tenth ward, a twelve-room building in the Fourth ward, at the lower portion of the Seventh ward, to accommodate the Fourth and Seventh wards, and the eastern portion of the Fifth ward, west of the river, and in the newly annexed district and in North Salt Lake. Committee on finance.

MISCELLANEOUS REPORT.

The committee on finance and school work reported that a class of ten pupils will complete the course of study in the high school and be ready for graduation in June, and made the following recommendations: that authority be given to secure the latter hall, if possible, in which to hold the commencement exercises; that the committee be authorized to confirm by lithographed diplomas for the high school graduates; that the school closes on June 9th instead of 16th this year, owing to the fact that the Christmas vacation only lasted one week instead of two; that the superintendent of schools be authorized to furnish the United States commissioner of education with a statement of this school population, teachers, attendance, expenditures, etc., for the purpose of placing some beside other such exhibits from different cities of the West, and that a letterhead be especially prepared for the purpose with an engraving upon it of our leading school buildings, the cost not to exceed $3 for the engraved block; that the Franklin school had opened, with all the rooms fairly well filled and two of them greatly overcrowded. In view of this, they recommended, in order to avoid the overcrowding of the third grade, the transferring of a requisite number of pupils to the Fourteenth school, where there are two rooms to which the attendance is less than the rooms will accommodate, and that the superintendent be authorized to adjust the attendance between these several schools so as to cause as little inconvenience as possible. Also that the southwest basement room in the Fourteenth building be re-opened as an additional room to accommodate the overflow from the Lincoln and Franklin schools. Adopted.

The committee on teachers and school work reported in the matter of the complaint of Miss Emily Ball, that she had been dismissed without due notice, as follows:

Miss Ball was employed in September last by the board for a term which the agent of the Lincoln school, at which time the board reserved the right to make new arrangements with her, and that in accordance with such reserved right her employment was terminated December 15, 1892. The letter of Miss Ball, to refer to your honorable body, has been considered by us. It is apparently based on a partly executed contract which does not express the will of this board, nor the action authorized by it, of which she has no cognizance, and which the clerk did not sign, nor was it delivered.

We think it see no propriety in giving force or effect to that document and recommend that the action above recited be ratified. Adopted.

TREASURER'S REPORT.

The committee on finance recommended that the report of the treasurer, submitted at the last meeting, be approved. Adopted.

Miss Alice E. Blanchard of Harvard, Kan., Annie McDermott of Rawlins, Wyo., and W. P. Rassin of Leslie, Mich., applied for positions as teachers. Committee on teachers and school work.

F. L. Sheets sent in a communication (confidential), submitting a proposition for the insurance of the school in the public school buildings. Committee on sites and buildings.

Washington Powell applied for a janitor's position. Committee on furniture and supplies.

The Utah Stove & Hardware company reported that they have a fire alarm Hamilton school in the stock of Jack O., who states that the cost for wires the same to place up a number of the amount. Committee on sites and buildings.

Frank Harlegan submitted a bid for the construction of school sidewalks around the school houses, which was referred back.

The Wasatch Asphaltum company submitted a bid to lay sidewalks and pavements at the Jackson school of similar work. Filed.

The James Spencer Bateman company reported that their account with F. M. Wright has been settled and their lien on the Washington school has been canceled. Committee on sites and buildings.

Mr. Healy moved that the clerk be instructed and authorized to refute all claims to be submitted for the Ogden school, or any part thereof, excepting the bids of A. Henegan and the Salt Lake Building & Manufacturing company. Carried.
