LOGAN.

LOGAN, UTAH, - - JULY 9, 1894.

Accidentally Killed.

The section men at McCammon station on the main line of the U. & N. Ry., on Monday morning, found the dead body of a man lying by the side of the track about three miles south of that place. Appearances indicated that he had fallen from one of the trains—it is thought from the northbound passenger at 10:25 on Saturday night, as owing to the strike no train was run on Sunday. It was evident that he had clutched some portion of the car in falling, as the marks made by his feet and legs as he dragged along were visible for a considerable distance. When compelled to let go his neck was broken. He was about five feet ten inches in height and weighed about 155 pounds; was sandy complexioned, wore a good suit of dark woolen clothes and a pair of number six congress gaiters, nearly new. In the hat found near the body was a conductor's time trip slip. From letters and other papers found in his pockets it was evident that his name was William Smith, and that he was a member of No. 105 Elgin Masonic Union of Kansas City. As no valuables were found on his person, it is supposed that his remains were robbed by tramps, who in the absence of the regular trains on Sunday were walking along the track. A coroner's jury sat on the remains and returned a verdict of accidental death. The union to which he is supposed to belong was notified by wire. The body was badly decomposed when found.

OTHER ACCIDENTS.

John Boyle, of Boyle Bros., Ogden was fishing in Paradise canyon on Monday, standing on a rocky bank some distance above the river. While changing his position one of his feet slipped and he fell to the rocks below, dislocating his right shoulder. He was brought to Logan for the necessary surgical assistance, and returned to his home in Ogden on Tuesday morning.

Will. Knowles, an employe of the U. & N. Ry., fell from a car and dislocated his elbow. One of the candles was broken.

A ten year old son of Jas. P. Low, of Smithfield, and another small boy, were experimenting with powder on Sunday afternoon, preparatory to the Fourth, when all of it, about one pound, exploded. A piece of the flying can struck the Low boy over the eye, cutting a gash about one and a half inches long; his left hand was also severely cut.

An elderly German named Anker, nightwatchman at Z. C. M. I., fell about eight feet down the elevator shaft on Sunday night. Someone, who knows to him, turned the elevator from where he had left it. He fell to head first. His right hip was broken a few inches from the joint.

Miss Verne Larkin was thrown from her bicycle on Monday evening, while going down a steep hill. Though nearly shaken she was not seriously hurt.

Militia Organized.

Adjutant General Ottinger on Monday evening mustered in two companies of the Utah National Guard. The rolls of the two companies were not filled, but enough were present to organize, and it is expected that both companies will be full before the next drill and mustered in. It was evident that the election of officers resulted in the election of John M. Wilson, captain; Frank R. Lawson, first, and Herman Paine second lieutenant of the first company, and R. E. Erwin captain, F. A. Neuberger first, and John Haliff second lieutenant of the second company. Another meeting will be held this evening, at which the non-commissioned officers will be appointed.

Disturbed the Meeting.

Logan has three members of one family, named Nielsen, who are afflicted with a religious mania. They are all diminutive specimens of humanity, not one of the three, father, mother, or daughter being more than four feet six inches in height. The mother and daughter dress literally in home made sunbonnets, including hats, made of the most gaudily colored materials, and wear across their breasts colored mottoes, one of which is, "Freedom is better than gold." The daughter is about twenty-six years of age, is said to be removed by her parents as a tribute for the savior, whose second coming they live in daily expectation of. They have said that if she did not appear before long they would crucify her, and have the cross and crown of thorns prepared. They attend meetings regularly, and when something is said that they do not approve get up and walk out noisily. They bring their own sacrament, which they declare to be the veritable body and blood of the Redeemer, and frequently they bring the branch of a tree which they call the tree of life. Last Sunday they created a disturbance in the Tabernacle, the woman declaring that the house was filled with devils. They became very noisy and vituperative, and six-foot Policeman Crockett was called in. He quietly locked the little woman under one arm, notwithstanding her kicks and pickets, and carried her out. As she is the leader of the tribe, the others followed suit. Upon promise of future good behavior they were released.

Notes and Personals.

Jens Rasmussen and Christian Nielsen, both of Logan, were married yesterday.

The summer school is a decided success. The attendance has increased from about eighty on the opening day to more than a hundred.

No trains were running on Monday, owing to the strike, therefore some goods ordered for Z. C. M. I. did not arrive as expected. As the home had no sugar on hand, Manager Smith dispatched teams to Ogden to bring some.

The Sportsmen's club will be regularly organized on Saturday evening, when which occasion Hon. C. H. Hart will present a set of resolutions for adoption by the meeting. The agitation is already productive of results, as a warrant is out for the arrest of a man caught blasting fish.

The Fourth was quietly spent in Logan. Business houses were closed. The bicycle races at the theater were quite interesting and exciting, but no wonderful records were made. The attendance at the ball in the evening was large, and the party was an enjoyable one.

The disagreement between some of the Cache Valley flouring mills and the railway company in regard to rates has not been settled yet to the satisfaction of the millers, who are continuing the shipment of flour by team rather than submit to what they consider unjust discrimination.

A man backed his team into the river yesterday morning for the purpose of filling a barrel with water. The horses backed farther than he intended, the river was deeper than he had supposed, and the entire outfit was carried a considerable distance down stream. Fortunately it was all got out without loss or injury.

This Summer is the Time to Visit the Famous Shenandoah Valley, Va.

This valley is not only full of historical reminiscences, but is one of the finest agricultural, fruit growing and dairying countries in the world. The place for the farmer, the manufacturer, the dairyman and the stock raiser. The hills are full of iron ore and coal, and the valleys abundantly productive. The climate is a garden spot, pleasant in summer and delightful in winter. The water is abundant and pure. Lands are cheap and can be secured by homeseekers on the most favorable terms. Come and look over this region, where the growing crops and grass demonstrate the fertility of the soil and the geniality of the climate. If you wish to make an investment that you will never think of except with unalloyed pleasure, or to secure a home which will be the delight of yourself and family, don't let this opportunity pass unimproved. This is not the veritable Garden of Eden, nor is it one of the best regions to be found in the best country in the world. For further information, call on or address M. V. Richards, Land and Immigration Agent, B. & O. R. R., Baltimore Maryland.

GARFIELD BEACH TRAINS.

Commencing May 21st, trains between Salt Lake and Garfield will run as follows.

Leave Salt Lake *7:45, 10:20 a. m., 2:00, 3:00 and † 6:30 p. m.

Highest Award

FOR Supreme Excellence, TO THE PUTNAM HOT FORGED AND HAMMER POINTED HORSE NAILS.

At the World's Columbian Exposition at Chicago. A medal and diploma awarded "Superior excellence in material, method in manufacture, and quality of finished product; elasticity and smoothness combined with holding power in clinch. It allows the use of very small nails."

There is nothing beyond mere excellence in it; there anything compared to a horse and except the material from which it is made. "This superior quality of material," and "quality of finished product," Putnam Nails, by their "elasticity," give elegance to the appearance and confidence of the horse with the owner in its motion; in their "smoothness," do not scratch the hair lines on the hoof, while their "superior excellence" in "holding power in the clinch" enables them to hold the shoe in the hardest service until worn out.

By the "use of small nails" large holes are avoided and manner saved to the smith.

There is will be seen that the officials of the World's Columbian Exposition enough so wise questions as to make up a good horse nail and that only the "Putnam" contains those nails.

Can a Man do Better

Than to Buy a "STEARNS!"

We made the bold statement, challenging contradiction, in last week's Tribune, that the Stearns Bicycle was the highest priced bicycle to the dealers—not the highest list—but to the dealers the highest priced bicycle in the world. Have any of the agents of other wheels accepted the challenge? Not one. They know that we have the proof. We know to a dollar what every wheel sold in this city costs, and whether long lists or short lists. We are giving the riders better value for their dollars in the

Stearns, Fowler, Gendron, Waverly,

than is to be found elsewhere. In every race meet this year, held under the sanction of the L. A. W., the first "STEARNS" wheel has finished first, first, first. The first World's Record Broken this year falls to Tot Butler, and the "STEARNS" special 87½ pounds, namely, the Great Lincoln road race at Malden, Mass., before sixty thousand racing people, and the time (1 hr. 11 min. 0 1-5 sec.) one hour, eleven minutes and twenty-eight and a fifth seconds, for twenty-five miles. Ticket of it, on the road. Did the "STEARNS" wheel cities and leather weight wheels break records? I guess so.

How about the Fowler?

Good wheel, good workmanship. Value for price in every purchase. Try them.

Mr. A. Fisher, Fisher Brewing Company, bought two Waverly Solids, one for his daughter and one for his niece. Mr. John Kenyon, same company, bought one Waverly Solid for his daughter a few weeks ago; her sale resulted from the first.

Mr. N. A. Naylor bought Waverly Scorcher.

Mr. Thad Naylor bought No. 17 Gendron.

Mr. George Hirschvogel bought Albion Eagle, and Hamilton Coffin bought Stearns special, at ½ list. All on Monday last.

"Velocity" statement that the "Sterling" was the only and first wheel to be ridden up Capitol Hill is an error. A Union and Gendron were both ridden up to the top of Capitol Hill last year before the grading, which has been going on all winter, was done. On Tuesday, Hamilton C. Coffin, 15 years old, rode the Stearns special, weighing 37½ pounds, gear 84 in the iron gate, Capitol grounds. Mr. Angell accompanied him on a Fowler geared to 84 inches.

Hardware is a good business. Try us for what you need and see if we don't divide the profit with you. Garden hose, lawn sprinklers, lawn mowers, gas reflectors, everything, we have the price and we want your money.

WESTERN HARDWARE COMPANY.

Try Our Repair Shop You Discourraged Cyclists. Good work. Low Prices.
