LAST NIGHT'S DISPATCHES

EASTERN.

MEMPHIS.—The *Avalanche*, this morning, publishes a long letter from Hon. Jacob Thompson, ex-secretary of the interior, in reference to the report of the recent discovery of a large defect in the interior department while he was secretary. The letter says the whole case is this: The department of the interior is made the custodian of bonds held in trust, for the various Indian tribes. The interest on these bonds is regularly collected and paid over to these tribes. A clerk in the department is charged with their custody, and if the coupons are regularly brought forward for collection the head of the department presumes, as a matter of course, that the bonds are on hand. In this case during my administration of the department, Mr. Bailey, a clerk of high standing and unquestioned talent, was charged with this duty. Early in the year 1861, after all the January coupons had been brought forward and regularly collected, and he had been called on to make out a full statement of his account for the auditor, which in itself was full and satisfactory, it became known that I would, in a few days, resign my place in the cabinet owing to the contemplated withdrawal of Mississippi from the Union. Then it was that Bailey sent me his confession, that he had without my knowledge or consent in any way, delivered to Russel & Co., large government contractors, bonds to the amount of $421,000, and had taken in their stead the acceptances of the secretary of war for the same amount. He stated that he had taken the responsibility of doing this to save the credit of the war department, and had not advised me of what he had done because he knew I would condemn and would not allow him to touch a single bond. As soon as the confession was received the keys of his safe were taken from him, its contents carefully counted, and the state of things showed his confession to be true in every particular. The clerk was dismissed for infidelity to his trust, and Congress, then in session, was informed by communication from me of what had been done; and this communication concluded with a request that a committee, consisting exclusively of my political opponents, should be appointed to examine into and report all the facts. A committee was appointed and a most thorough search was made into all the circumstances and facts in the case. That committee were unanimous in exonerating the secretary from all blame whatever in the matter, and their report was received by Congress without a dissenting voice.

WASHINGTON, 15.—A fire in a building belonging to the Bureau of Medicine and Surgery in the navy yard, this morning, caused the loss of a number of valuable records.

NEW YORK.—The *Herald's* special from the City of Mexico *via* Brownsville 12, says that Foster, the American minister, gave a breakfast and an evening entertainment to American residents on the 4th of July. The Mexican government celebrated the day by displaying flags on public buildings, and the press is full of complimentary remarks on the day's proceedings.

The congressional elections passed off quietly, the results are not yet known.

The act for the expulsion of pernicious foreigners has not yet been enforced.

BALTIMORE.—John Keating was arrested to-day, at Piedmont, W. Va., charged with committing recent forgeries in Washington city bonds.

The strange man murdered at Jennersville, Pa., is believed to be one Goss, who was said to have been burned to death in a shop in this city last winter, and whose wife obtained a verdict of $5,000 from the Mutual Co., for life insurance. Udersook was the chief witness on the trial, in which the company asserted their belief that Goss was still alive. Claims had been made against the Continental, Knickerbocker and Travelers' Co's for the recovery of policies to the additional amount of $20,000.

CINCINNATI.—Fire engineer Megrue, of this city, at ten minutes past 12 o'clock, received a dispatch from Louisville, stating that great fires had broken out in five places in that city, and that high winds were prevailing, and appealed for aid. Engines are starting down from here by the short line R. R. A call has also been sent to Indianapolis for aid. Slender advices from Louisville represent the fires near the public library and Louisville Hotel.

LOUISVILLE, KY.—There were four fires to-night; the losses aggregate over $100,000.

By examining their books, the public library officials, to-day, discovered that the ticket drawing the capital prize of $100,000 was bought by L. H. Keith, of Kingston, Mass. and the ticket drawing the second prize of $50,000, was bought by Willis Warley, of Giles County, Tenn. The parties have been notified that the money is subject to their orders.

NEW YORK, 15.—Ex-Senator E. S. Mills, president of the Brooklyn Trust Co., was drowned while bathing at Coney Island this a.m.

The directors of the Pacific Mail Steamship Company have authorized a settlement with the U. P. R. R., and that the steamship *Montana* be sold for $60,000, also that some of the steamers plying between New York and Aspinwall be sold. These steamers will probably bring about thirty thousand dollars each. It was also authorized to borrow $700,000 on the company's real estate in San Francisco, to meet immediate wants. The following are the debts of the company, which have to be met immediately: $120,000 for city taxes in New York, $60,000 for engines building in Scotland, $85,000 for steamers now constructing. The company also require about $800,000 to put their steamers in seaworthy condition.

TRENTON.—The Court of Errors and Appeals, by a vote of seven to one, has decided that the Act of 1870 did not authorize the lease of the New Jersey roads to the Pennsylvania Co., and it orders an injunction to issue against it unless the equities of the case have become so changed that a different mode of relief is necessary.

LONG BRANCH, 15.—The second meeting at Monmouth Park Association began to-day. In the mile and three-quarter dash race Tom Bowling was beaten by Lizzie Lucan, time 3.12. Four started. Bowling sold in the pools, and was the favorite 5 to 1 against the field.

NEW YORK.—The *Evening Post* says, one thousand newly-converted Mormons landed here to-day, and another large company is expected.

It is announced that $900,000 in gold coin will be shipped to-morrow by steamer.

BALTO, 15.—William E. Uddersook, charged with the murder of a strange man near Jennersville, a town in Chester Co., was arrested in this city this a.m., at the planing mill of Alta & Duler, where he was at work; he was taken to Chester Co.

Chief Justice Beasley dissents, saying that the act of 1870 is constitutional, and of sufficient force to authorize the lease which has been made and is binding.

WASHINGTON.—The survey for a construction of the Chesapeake and Ohio canal, authorized by Congress last winter, will be commenced about the first of August. It is to ascertain the most advantageous route to construct the canal from Cumberland Co., Ohio river, and Colonel Sedgwick, an old officer, has been employed to personally superintend the matter. He has arrived here for the purpose of taking the preliminary steps towards the work. Colonel Wm. E. Merrell, of the U. S. army, stationed at Cincinnati, has the general charge of the survey, and the work will be pushed forward as rapidly as possible.

CLEVELAND, O., 15.—The Industrial Congress of delegates from the various trades unions throughout the country, commenced its session in this city to-day. There were about seventy delegates present, representing twelve States. The congress was called to order by M. A. Foran, president of the coopers' international union, who made an address of welcome and stated the object of the session, which he said was to form a new political party. Permanent officers were elected as follows: president, John Febrenbath, of Cleveland; secretaries S. Keefe, of Philadelphia, and Jno. Sebley, of Indianapolis. A vice-president will be elected after the adoption of the constitution. A committee on rules was appointed, and the congress adjourned till to-morrow.

MERIDAN, Conn.—A fire at West Meridan to-day destroyed the steam planing mill of Lyart, Gillard & Co., valued at $30,000, insured for $17,000, and many small shops and tenements; total loss $50,000.

LONG BRANCH.—In the races, such was the confidence in Bowling's ability to win the Ocean Hotel stakes that only three pools were sold before the race, in each of which Bowling sold for $250 against $50 on the field. He showed considerable temper and attempted to break away from his trainer before the start. His stable companion, Lucy Jackson, was led by him, and, after some trouble, he got away first, Lizzie Lucas, Minstrel and Galway following closely. Bowling led about a length to the first mile pole, when Minstrel passed him and got a length ahead. When they came under the string at the end of the three-quarter of a mile Bowling again took the lead and kept it until within seventy-five yards of the winning post, when he quit, and Lizzie Lucas, who had been pressing him closely, dashed past and won the race by a length, Galway third, ten lengths behind Bowling. The most intense excitement prevailed as the horses came on the home stretch, and when the favorite quitted the people seemed almost to doubt the evidence of their senses. Not much money was lost on Bowling, as bettors were afraid of him.

BUFFALO.—The fifth annual meeting of the National Photographic Association opened with a large attendance from nearly every section of the country.

NEW YORK, 15.—There is still much mystery surrounding the Goodrich murder. The police are doing their best to secure the Spaniard Roscoe. Full reliance is not placed on the story of Lizzie King, that she had no accomplice and never knew Roscoe, and that she don't believe there is any such a man. She explained the fact of four chambers of the pistol found by Goodrich's body being discharged by saying that the three shots in Goodrich's head were from her pistol, and after he was dead she took his pistol and discharged four shots down the cellar. Miss Palin, the betrothed of Goodrich, remained with Lizzie King until late last evening. Her object was not ascertained.

At a meeting of the finance committee of the board of aldermen it was proposed to raise a loan of 150 million dollars, at five per cent., wherewith to cancel the present city debt, being forty millions in excess of the present debt. The leading city financiers, it is said, do not approve of the scheme. The action on the industrial exhibition loan of two and a half millions was postponed.

The body of E. S. Mills has been recovered.

Editors representing thirty-eight agricultural papers in different parts of the country, started this morning on an extended tour through the south and west.

BOSTON, 15.—Vice President Wilson was in this city to-day, and was congratulated by many friends on his improved health.

The steamer Seawanhaka arrived with 150 passengers from the wrecked steamer *City of Washington*.

SPRINGFIELD, Mass., 15.—The five-mile single scull race between John Ringlin and Ellis Ward, for $500's a side which was to be rowed here to-day, came to a sudden end by Ward falling forward in the boat with a fit of vertigo when opposite the two mile flag, and was unable to proceed. He was at the time ahead. A physician was called in who gave the opinion that the vertigo was caused by a slight congestion of the lungs, brought on by over exertion while suffering from cold. At a late hour this evening Ward was quite comfortable, though still weak.
