THE MAYOR BOUGHT IT.

An Impudent Watermaster Rebuked by Moran and Lawson.

NEW SANITARY PROPOSITION.

The Annexation Scheme Carries.—Private Bills Paid at Public Expense.—Settlement With the Pacific Paving Company.

The City Council met in regular session last night, President Loofbourow in the chair. It was long after the hour fixed by law when the transaction of business commenced. In this respect the present administration is fast becoming an unqualified success. The members present were: Rich, Folland, Hardy, Horn, Karrick, Moran, Bell, Lawson, Evans, Pettit, Beardsley, Wantland, Heiss.

In the absence of Recorder Stanton Deputy Ellsworth acted as chief clerk, and was assisted by Fred Dennis.

As a preface to the meeting there was a warm discussion on the paving question between Councilman Horn and Engineer Doremus.

The conflict was a wordy one and was carried on in an undertone as far as Mr. Doremus was concerned, but his [illegible] antagonist occasionally allowed his voice to rise to such a pitch as he gesticulated excitedly that spectators in the auditorium of the legislative chamber looked on and laughed.

City Attorney Hoge being in California on a pleasure trip, his assistant, Mr. [illegible], acted as corporation counsel for the municipal law makers. It was the unanimous opinion of those present that he was a better adviser than his superior officer.

The minutes of the previous meeting were read and approved, after which

When that portion of the report was reached which referred to Mr. Rich talking through his hat, Lawson and [illegible] sprang to their feet [illegible] and moved that the report be tabled indefinitely. They didn't propose to allow the head of any department to address such a communication to the City Council.

Rich asked that it be allowed to lay on the table until miscellaneous business was reached, as he wished to reply to it.

Lawson moved that it be referred back to Mr. Harvey. Carried.

ENCROACHMENT ON CITY GROUNDS.

The city engineer reported regarding the occupancy and encroachment on lands owned by the city by private individuals and suggested the advisability of having the boundaries of lands beyond the corporation limits accurately defined and marked by permanent monuments. It was expensive but he believed the work would justify the expenditure. Received and filed.

Watermaster Ryan reported that the pipe had been ordered for the north bench. That it would be impossible to fill the same with water unless the reservoir in City creek should be completed at the head of high line pipe. Committee on waterworks and city engineer.

NEW ENGINE HOUSES.

The committee on fire department recommended the building of branch fire departments in the southeastern, the northeastern, and southwestern parts of the city. The estimated cost of constructing the same is [illegible].

Rich favored the building of one at a time. The city could not afford to build all of them immediately.

Some discussion followed after which the report was referred back to the committee on fire department.
