Last Night's Dispatches.

CONGRESSIONAL.

SENATE.

Specie Resumption.

WASHINGTON, 14.—Schurz said the issue now seemed to be between resumption and inflation. He thought the doctrine of procrastination, in redeeming the legal tenders, an alarming and dangerous one. He was opposed to the reissue of any portion of the 44,000,000 of the reserve, and he argued at length against the policy of expanding the currency in any way, as not only not calculated to relieve the people, but rather to add to the present results. Every consideration of good faith and sound policy, he declared, urges the U. S. to put an end to this iniquitous system. He especially criticized the plan for resumption proposed by Ferry, of Mich., which he said was to expand the currency until the country was prosperous, and then resume payment; he also criticized the plan of Boutwell, which he characterized as the "know nothing" policy, of which the country had had too much already. The return to specie payment must be preceded by severe retrenchment in public and private expenditures, by prudence in business enterprises, and by a recognition of the truth that honest and productive labor is the true source of wealth. He argued that the West and South had never been, and never would be, benefited by the expansion of the currency, but would be greatly benefited by a resumption of specie payment. He argued that the present was an auspicious time to begin resumption, as one of the greatest difficulties in the way, the shrinkage of prices, was now less than ever before. In conclusion he announced his intention of voting for the resolution of the minority, offered by Bayard, and if that failed, for that of the majority, as the next best, and he expressed a hope that a bill would soon be prepared providing for a return to specie payments.

At the close of Schurz' speech the Senate went into executive session and soon after adjourned.

HOUSE.

Revision of the Laws.

In the house the report of the committee on the revision of the laws was received. It is a ponderous document, containing three thousand printed pages, and it was agreed to hold two evening sessions each week until it was disposed of. The house then went into a committee of the whole on the same, and after some discussion adjourned.

EASTERN.

Cushing's Secessionism.—Board of Trade.

BOSTON, 17.—A letter of the late Governor Andrew, dated April, '61, to Caleb Cushing, declining his proffered service, is made public today. The governor says, "Your relation to public affairs, your frequently avowed opinion touching the ideas and sentiments of Massachusetts, your intimacy, social and political, and your sympathetic intercourse with the leading secessionists of the rebel States, maintained for years and never, unless at this moment, discontinued, forbid my tendering any place for you in the counsels of the camp."

The national board of trade has endorsed the memorial of the N.Y. Chamber of Commerce to Congress for an international commission of the maritime powers, to devise laws for additional safety to ocean travel.

The resolution of the Boston Board of Trade condemning the system in moieties in the customs laws was adopted.

The report of the committee on national finance, which was berated and will be voted on to-morrow, declares against any further issue whatever of paper money, that legal tenders to the amount of those issued from the forty-four millions of the reserve should be at once retired and cancelled, that the strictest economy and the closest retrenchment should be observed in every department of the public service, and asking Congress to amend the national banking law so as to compel banks to keep the coin interest received on their bonds deposited as security for their circulation until it equals at least thirty per cent of the circulation.

Went Ashore—$30,000 Fire—Carved to Death.

NEW YORK, 14.—The Spanish frigate *Arapiles* went ashore at the foot of Bridge St., Brooklyn, today, while leaving the navy yard.

The bedding warehouse of James Flanigan, Chatham square, was burned last night; loss thirty thousand.

Peter Swenson, a Swedish sailor, carved a companion to death last night in a quarrel over cards.

The Joab Lawrence Case—The "Arapiles" Afloat—Communists Arrested.

Judge Blachford, of the U. S. district court, denied the motion for the discharge of Joab Lawrence, who is held on a warrant charged with swindling a number of persons in Michigan by means of worthless mining stocks; he is in custody of the sheriff, waiting the action of Governor Dix.

The Spanish frigate *Arapiles*, which went on a reef on east river this morning, was floated off and is now anchored off the battery.

Several communists, arrested yesterday, have been released on bail, to await trial on a charge of having attempted to incite a riot.

The Coal Trouble—Matricide.

The trouble among the coal miners in Pennsylvania continues. In some districts the miners have expressed their willingness to return to work on the old basis, but in many others they demand an advance and assert their ability to hold out until the demand is complied with.

In Jersey, to-night, Joseph Freeman shot and killed his mother, a widow, because in reply to his demand for two thousand dollars she said she had not that much; he was arrested and is supposed to be insane.

Shot Dead.

INDIANAPOLIS, 14.—Col. Thos. N. Stilwell, minister to Venezuela during Johnson's administration, was shot and instantly killed by Geo. E. Corwin, at Anderson, Ind., this afternoon; they were disputing about some financial matters connected with the Stilwell Bank of Anderson, when Stilwell drew a pistol and fired; the ball struck a silver dollar in Corwin's pocket, wounding him slightly in the leg. Corwin then fired, hitting Stilwell in the temple, the ball passing through his brain. Corwin surrendered himself.

Cushing's Letter—Nomination Confirmed.

WASHINTON, 14.—The letter of Caleb Cushing to the President, requesting the withdrawal of his nomination for Chief Justice, indignantly denies any and all the aspersions upon his loyalty to the Union at any time of his life. He declares that he was opposed to secession always, and when it became a fact he stood firmly by the Union and tendered his services in any capacity to uphold its integrity. He asserts that he is and has always been in accord with the constitutional amendments made necessary by the changed condition of the country, and that he has the same respect for them as for the other portions of the constitution, and concludes by saying—"It belongs to my sense of public duty, and it is my right to reaffirm, and dare contradiction, that I have never, in the long course of a not inactive life, done an act, uttered a word, or conceived a thought or tone of disloyalty to the constitution or Union."

The Senate, to-day, confirmed the nomination of General Crook as Brigadier General.

$100,000 Fire.

ALTON, Ills. 14.—A fire, this morning, destroyed seven stores; loss $100,000.

Want Differences Settled.

AUSTIN, Tex., 14.—Both houses of the new legislature have appointed committees to confer with each other and with the governor in regard to a settlement of their differences.

WESTERN.

No Death Penalty—Lost all Trace.

SAN FRANCISCO, 14.—In the legislature, to-day, a bill was introduced for the abolition of the death penalty for murder and treason.

Boucicault commences an engagement at the California Theatre on Monday.

The officers of the law seem to have lost all trace of Tiburcio Vasquez and his gang of bandits, since their last exploit at Kingston, Fresno Co.

FOREIGN.

SPAIN.

Marched Against the Carlists.

MADRID, 14.—A portion of the force engaged at the siege of Cartagena has marched against the Carlists.

Cartagena badly Damaged—Insurgent Refugees.

The government forces, on entering Cartagena, found the fortifications and all the buildings badly damaged by the bombardment. One of the insurgent steamers, which attempted to escape, has been captured with a large number of refugees. The *Mendez Nunez*, with another party of insurgents, succeeded in reaching a port of France, into which she was pursued by a French man-of-war. The members of the Junta surrendered the iron clad *Numancia* to the French authorities at Meres El Mire, and the tri-color now floats over her.

PRUSSIA.

Election Returns.

BERLIN, 14.—Returns from all parts of the empire show, definitely, that 100 ultra-montanes and 26 ministerial liberals have been elected to the Reichstag.

GREAT BRITAIN.

The Tichborne Case.

LONDON, 14.—In the Tichborne case, Dr. Keneally, to-day, concluded his closing speech for the defense. He demanded a verdict for the claimant, declaring that the preponderance of unshaken evidence in his favor was overwhelming, and he maintained that the charges against Lady Radcliff had been proved true.

Antonelli has Gout in the Stomach—Treachery at Cartagena.

A special from Rome, to the *Daily Telegraph* reports that Cardinal Antonelli is dangerously ill with gout in the stomach; the Pope has administered extreme unction to him.

The *Times* correspondent from Cartagena, writes that the government troops, on entering the city, shot eight insurgents who were trying to escape, the occupation of the town was otherwise bloodless. Five hundred refugees, among them Barcia, a prominent leader, were taken prisoners. Saez, commander of Fort Galleras, and Gutierres, president of the insurgent Junta, were on board the *Numancia*. A Spanish frigate has arrived at Mere el Kebera and demanded the surrender of the *Numancia*, but the French authorities refused until they have orders from Paris. The vessel is comparatively uninjured. The condition of the forts around Cartagena confirms the suspicions of treachery, and provisions were found to be fairly plentiful in the town.

Salt Lake City, Oct. 7, 1873. d235 tf

DR. J. P. MEIK,

FOR MANY YEARS Resident Physician and Surgeon in Salt Lake City, Having recently returned from my last mission to Europe, I am now prepared to resume the practice of my profession in all its branches. Having spent the greater part of my time for the last three years in the Hospitals of Europe, I feel confident that my experience will enable me to treat with success all cases that may be entrusted to my care. The special attention of the Ladies is called to the treatment of those peculiar diseases which will not permit them to make their condition known to the male physician. The special attention of the Gentlemen is also called to my treatment of those private diseases which are the result of indiscretion, or the baneful effects of which are so often seen in the shattered constitution, impaired memory, premature decay, and many other evils too numerous to mention, which will yield to my treatment when all other means have failed. Those who have tried long enough to be cured by mercury, iodide of potash, or other poisonous drugs, and have failed to be benefited, should not despair, but should call upon me at once. Those who have been cured by the quacks, and have had their constitutions ruined by the use of mercury, iodide of potash, or other poisonous drugs, and have lost their hair, have blotches, pimples, ulcers, or sore throat, or have pains in the bones, joints or limbs, should call at once. Those who are suffering from the effects of improper or too frequent indulgence, which produces some of the following effects, viz: Loss of memory, universal lassitude, pain in the back, dimness of sight, premature old age, and many other diseases that lead to an early grave, should call at once and be cured
