MINING, BUSINESS AND STOCKS

SUPREME COURT DENIES NEW TRIAL

Litigation Over Interest in the Annie Laurie Mine.

ORIGINAL RULING SUSTAINED.

F. C. Rutan and W. F. Snyder Come In for Twelfth Interest in Well Known Property.

The Supreme court of the state yesterday denied the application for a new trial in the case of F. C. Rutan and Willard F. Snyder against L. C. Huck of Chicago, thus putting an end to litigation which has been pending for the past two years. The case has been watched with much interest by mining men throughout the west.

F. C. Rutan is a Chicago mining engineer, who has examined many properties for Huck. An arrangement was finally effected between the two whereby Rutan received an interest in all properties which is passed upon. When the deal whereby the Annie Laurie mine passed into the control of Huck was consumated, Rutan demanded his share together with Willard F. Snyder, whom he had allowed to get in on his own interest. Huck, however, appears to have declined to live up to the usual arrangements, and the filing of the suit was the result.

The case was originally tried in the district court here and a decision rendered in favor of the plaintiffs. An appeal was taken to the supreme court, which sustained the action of the lower court, after which an application for a new trial was filed. This the court declined to grant, and the judgment will therefore stand as originally rendered.

Approximately a one-twelfth interest in the mine was involved in the case, and the plaintiffs are now entitled to receive their proportionate share of the stock. There are altogether only 25,000 shares in the concern, the par value of the same being $100. The result of the action will mean a substantial financial gain to Messrs Snyder and Rutan.

ANOTHER COMPANY ENTERS.

Formed to Develop Claims in Little Cottonwood Mining District.

The Rainbow Mining Co., filed articles of incorporation in the office of the county clerk yesterday. The capital stock is $50,000 in shares of the par value of 10 cents each. The object of the corporation is to develop a number of claims in the Little Cottonwood mining district.

The officers of the company are George Saxon president, Anna M. Jarvis vice president, Ernest M. Fowler secretary and treasurer, Richard J. Jarvis manager. The board of directors is composed of these officers together with Andrew T. Jacobson.

WORLD'S GOLD OUTPUT.

Remarkable Increase in Production And Methods of Working Properties.

In 1880 the annual gold production of the world was about $20,000,000. In 1900 the world's gold production had increased to nearly $300,000,000, and that of the United States to nearly $80,000,000. No one can predict what the future output of gold will be. Important factors in production in old districts of new ore bodies carrying gold, and more than either of these is the introduction of processes which makes the treatment of low-grade ore and tailing profitable. At present, dredging is also an important and increasing factor.—Scientific Press.

CARISA LOOKING WELL.

Recent Strike Gives Evidence of Permanency, With Prospects Excellent.

According to Supt. Ed Hoffman of the Carisa mine who passed through Salt Lake Friday en route to Bingham, the recent strike on the 400 level of that property is showing up splendidly and promising even more than was expected. Not only is the ore of a good grade but shows no signs of diminishing as drifting continues.

It is rumored that still further disclosures on the 500 incline have been made of an excellent quality of ore, but Mr. Hoffman declined to discuss this until such time as further exploration work shall have established the absolute permanency of the deposits. Something like 250 tons of ore are now in the bins awaiting shipment and the mine is said to have never looked better.

The company has shipped a total of 26 cars so far this month, and there is but little doubt but what the dividend paying stage of the mine has been permanently reached. Most of this ore runs very high in copper.

In discussing the general situation in the Tintic district Mr. Hoffman says the Carisa has attained a stage of development which would warrant the shipping of still larger quantities of ore were the necessary transportation facilities available, a condition more or less applicable to all the mines in the district.

MORE ABOUT ELY.

Sufficient Ore in Sight to Provide Mining for Next Five Centuries.

Ely, Nevada, continues to live up to its originally established reputation as a low grade camp of practically inexhaustible resources. Unlike most mining camps in the early stages of developments, it would seem that first reports were if anything underestimated now, however, the ground has been thoroughly gone over by engineers high in their profession, and the conclusions reached by some of these are simply staggering. In a district approximately 30 miles long and something like a mile wide it is estimated that there is enough ore practically in sight to permit of mining operations on a giant scale for the next 500 years.

With the complexion of the Nevada Northern railway into the camp an event which is definitely promised to take place within the next few weeks, the development of the country along both mining and commercial lines will receive an impetus which will be far reaching in its effects. Ely itself abounds in evidences of permanency. The board shanty, irregular streets and general lack of order prevalent in all new camps is fast giving place to substantial business blocks, well kept thoroughfares and laws both observed and enforced. Much Salt Lake capital is invested in the camp, and so far with a remarkable small percentage of losses.

INCREASES CAPITAL STOCK.

Mountain Lake Mining Co. of Provo Files Amended Articles.

(Special to the "News.")

Provo, Aug. 25.—The Mountain Lake Mining company, whose property is in Big and Little Cottonwood mining districts, the control of which was lately taken over by the Knight interests, with Jesse Knight president, has filed amended articles of incorporation with the county clerk. Provo is made the principal place of business instead of Salt Lake and the capital stock is increased from $500,000 to $1,000,000.

BIG DEAL ON TAPIS.

Believed Part of Scheme of Absorption Recently Begun by Columbus Con.

According to present arrangements a deal will be put through this afternoon whereby the ownership of the well known Alta Quincy mine will pass into other hands. Ernest Bamberger appears in the role of purchaser, although it is generally believed that he merely represents other interests, to whom upon obtaining title he will immediately turn over the property. The name of Clarence K. McCornick is mentioned in connection with the purchase, the impression prevailing that this is merely the consumation of a deal framed up during that gentleman's recent visit to Salt Lake. The Columbus Consolidated interests are also believed to be in some manner interested and in some quarters the belief is gaining ground that the deal is a part of a scheme of consolidation whereby the title to the Alta Quincy will eventually be vested in and merged into the Columbus Consolidated. This would give the last named company, together with the South Columbus which was recently taken over by the Columbus Consolidated, a long stretch on the line of the main contact of the very best ground in the camp.

While but little definite information is being given out regarding the deal, the matter is said to have progressed far enough to make its conclusion at an early date practically certain. Should the deal go through along the lines of present plans, it will give the combined interests property sufficient to ensure occupation for the next 20 years.

BANNER WEEK ON LOCAL 'CHANGE

Week's Totals Double That of Same Week Last Year.

WHAT THE FIGURES SHOW.

Activity Confined Principally to Utah Stocks With Prices Strong and Well Sustained.

Today's business on the floor of the Salt Lake Stock and Mining exchange opened up strong and prices were well sustained throughout the morning. Perhaps the feature of the regular morning call was Lower Mammoth, which sold readily to the extent of several hundred shares at prices ranging from 56 to 32 cents, a number of shares also changing hands on the open board at 61 and 62 cents. The activity was confined for the most part to Utah stocks, although several sales in Nevadas were also recorded.

The total volume of business for the week was well up to the average, and more than twice as large as during the same week last year, when a total of 110,088 shares changed hands, representing a valuation of $34,719.88.

The closing quotations of the morning session were as follows:

SELLS NEVADA CLAIMS.

Alexander Jacobson Returns to City From Flying Trip to West.

Alexander Jacobson returned to the city Friday evening after a flying visit to Ramsey, Nevada, made for the purpose of disposing of a chain of claims which constituted a part of his interests there.

Mr. Jacobsen was among the first to recognize the possibilities of the district from a mining standpoint, and was well in the vanguard of the rush when the excitement first broke out.

CONCENTRATES.

James Farrell left today for Goldfield, Nevada on business.

The Taylor Brunton Ore Sampling Co., today released the following cars of ore. Idaho 2, Tintic 9, Nevada 3, California 6 and Bingham 2.

L. A. Jeffs expects to leave for the east early next week for a consultation with the interests represented by him, in connection with a prospective deal in Bingham property.

A. A. Ball, treasurer of the Annie Lauris, is pending a few days in the city. Mr. Ball expects to ask for his release from his present position at the end of the month, and will thereafter make his home in Salt Lake.

M. M. Johnson chief of the Newhouse staff returned to the city yesterday after a brief trip to Denver. Mr. Johnson started out with the intention of going to New Mexico, but was disappointed in the non-appearance of some parties who were to have accompanied him.

BUSINESS NOTES.

The past week has witnessed but little movement in local stocks, the main activity having been confined to Consolidated Wagon & Machine Co., preferred, and Utah Sugar, preferred. The first sold at $119.00, the second at $9.85. The reports from the beet fields in every section are that the recent storms will add heavily to the tonnage, and the estimates made of the crops two weeks ago are being increased up and down the line. On the other hand, the storms are known to have damaged heavily the wheat crop, and in many sections there is a blue feeling among the farmers. The Utah Sugar bonds will be quoted ex-coupon on Sept. 1, the semi-annual payment at Zion's Savings Bank & Trust Co. being due at that time.

THEY HAVE ARRIVED.

There will be on exhibition at 150 State street the ensuing week two of the RAMBLER models for 1907. The Rambler line for the ensuing year will consist of four models, two having two cylinders each, and two of four cylinders.

It has been demonstrated, and can be again, that the Rambler automobiles give the greatest value for the money invested, are simple in operation, durable in construction, and effective in their work. Their hill-climbing propensities and assurance of making successfully long trips with an economical use of fuel and lubricants, together with their handsome finish and strength, places them in the front rank as being the best automobile for the money asked. Demonstrations will be made for intending purchasers.

We sell everything in vehicles, implements and farm machinery.

CONSOLIDATED WAGON & MACHINE COMPANY.
Geo. T. Odell, General Manager.

CUBAN INSURGENTS REPULSED IN ENGAGEMENT.

Havana, Aug. 25.—It was announced at the palace this afternoon that Col. Bacallos forces operating against Pino Guerrera had a skirmish with a band of rebels near San Luis station, Pinar del Rio, today with the result that the rebels were dispersed and that the troops captured five horses.

Col. Bacallao, with 250 artillerymen and 50 recruits left San Juan de Martinez this morning, moving in the direction of Guanes, Pinar del Rio, in the expectation of giving battle to Pino Guerrera, the insurgent leader, who was reported to be only five miles distant. A severe engagement is expected.

The village of Arroyo Naranjo, five miles from Havana, was occupied by a force of 70 insurgents last night.

A detachment of mounted city and provincial police proceeded to Arroyo Naranjo early this morning and the insurgents who had occupied that place scattered as the government forces approached.

PRINCESS BURNED TO DEATH.

Tiflis, Aug. 25.—The country mansion of Prince Palavandoff at Okoni was set on fire by peasants last night. The princess was unable to escape and was burned to death.

PRINCESS PAULINE OF LIPPE.

In Her Death the Line of an Ancient House Becomes Extinct.

New York, Aug. 25.—A cable dispatch to the Herald from Detmold, says:

Princess Pauline of Lippe, last descendent of the former reigning house, died here Friday. The last masculine descendant died in 1905, so that the line is now extinct.

The princess was the youngest of nine caildren of Leopold II of Lippe. Three of her brothers occupied the throne in succession to Leopold III, who reigned from 1851 to 1886; Waldemar, from 1875 to 1895, and Charles Alexander, who was sovereign 1895 to 1905, although his mental state necessitated a regency.

POSTMASTERS APPOINTED.

Oyster Bay, N. Y., Aug. 25.—President Roosevelt today appointed the following postmasters:

California—Richmond, Lizzie McCann.

Idaho—Wardner, W. S. Brainard.

GOLDFIELD EXCURSIONS

Ladies and children free at Wandamere on Labor Day.

MARKET UNCERTAIN AS AN APRIL DAY

Opening Transactions Were Active and Higher. Western Railroads Being Feature.

UNION PACIFIC FLUCTUATED.

Advanced Then Fell Below Yesterday's—Others Did the Same— Closing Irregular.

New York, Aug. 25.—Stocks opened active and higher today with the western railroad stocks the feature. Opening transactions in Union Pacific aggregated 20,00 shares at from 190½ to 189¾ compared with 189, yesterday's closing. Southern Pacific brought 92¾ for 3,000 shares, and United States Steel 47⅝ to 47⅞ for 7,500 shares. St. Paul showed the most strength, rising 3¼ to 192½. Other gains extended to a point in the Hill stocks. Reading and New York Central and 1¼ in Smelting.

Heavy selling soon wiped out the opening advances and Union Pacific, Southern Pacific, U. S. Steel, Amalgamated Copper and several others of first prominence, sold at a small fraction below yesterday's closing. St. Paul reacted to its opening price of 191. The market then quieted and showed signs of feverishness, but with an upward tendency. St. Paul was absorbed heavily again and by 11 o'clock had reached 193¾. Union Pacific got back to 190⅝, but fell off immediately to 189⅝. Anaconda lost 2½ and Wells-Fargo 5.

Concern over the bank statement was allayed when the report showed more gratifying changes in the loan and cash items than had been expected. The stock market, which had been fluctating conservatively, began to climb up rapidly with urgent buying in Atchison, St. Paul and Southern Pacific. Atchison jumped 2⅝ to 90, St. Paul 5⅝ to 197⅝ and Southern Pacific touched 83½. Other stocks rose materially and there were a number of important advances. Near the close heavy selling was renewed which sent Union Pacific over a point below yesterday's closing and knocked off a point or more from the top prices in the general list. Anaconda slumped 6½, Great Northern 4, and there were a number of stocks which sold under last night. In the last few minutes St. Paul was rushed up again to 198. The market closed irregular.

LIVESTOCK.

KANSAS CITY.

Kansas City, Aug. 25.—Cattle—Receipts, 2,000; market steady. Native steers, 4@6.25; cows and heifers, 2.00@5.00; stockers and feeders, 2.40@4.50; bulls, 2.00@3.25; calves, 3.00@5.50; western steers, 3.50@6.00; western cows, 2.00@4.00.

Hogs—Receipts, 2,000; market strong to 5 cents higher. Bulk of sales, 6.10@6.30; heavy, 5.95@6.40; packers, 6.05@6.30; pigs and lights, 5.75@6.35.

Total U. S.	$3,230,277,125	34.6	....
Total Canada	$ 69,120,956	13.9	....

SPAIN HONORS INVENTOR.

Important Decoration Conferred By King Alfonso.

Francis Young of New York has received a cablegram announcing that Alfonso XIII of Spain has created him a Knight of the Royal Order of Charles III. This is the most important and distinguished Spanish decoration and has never before been conferred upon an American. There is only one higher order, and this is for royalty exclusively.

The decoration was conferred upon Mr. Young in recognition of his invention of the Metrostyle, a device incorporated in the pianola, which accurately records the interpretation given to a musical composition by the composer or any virtuoso. The metrostyle interpretation appears on the pianola roll in the form of a thin red line, which in its many angles and curves enables any performer upon the instrument to give the same delicate tempo-shading as the person who originally did the making. In this way, the playing of the pianola is placed upon a much higher plane of artistic excellence and many of the highest musical authorities have stated that they would not give serious consideration to any piano-player not equipped with the metrostyle. It is thoroughly protected by patents here and abroad and is an exclusive feature of the pianola.

ELECTRIC SIGNS FOR RENT.

Don't send money East for electric or metal signs. I can make you better signs at less money than the imported kind. No two alike. All metal, porcelain or glass, guaranteed in every particular to give you better service and stronger signs, both day and night, with less expense than any other sign. See the Z. C. M. I., Schramm, Gallacher, cigars, 270 Main, Lemp's, and many others. New electric effects. Get the genuine. Beware of expensive imitations.
