The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 175. MONDAY, JUNE 26, 1893. SALT LAKE CITY, UTAH. VOL. XXVI.

AS THE WORLD GOES.

Nine Indians and One Negro Sentenced to Be Shot.

ADMIRAL MARKHAM TO BE TRIED.

Fair Notes.—Financial Failures.—A Bank Manager Not Missing But Sick.

HARTSHORN, I. T., June 26.—The trial has been concluded in this county in the criminal court at Weberton of Moses Williams, Solomon Lewis, Kingsbury Hawkins, Robert Carter and Thomas Mellov, all Indians convicted of the murder of King Joe Joshambles and another full blood, during the Jones and Jackson election feud in August, 1892. The trial of nine others, charged with a similar crime commenced today. Now nine Indians and one negro are to be shot by July 7th, with twice as many to be tried. Older Indians agree that the convictions will not reach executions, and the significance in which some of their expressions are clothed is ominous.

Stocks Weak.

NEW YORK, June 26.—Stocks were weak, declining after 11 o'clock followed by recovery, general electric leading. At noon the market was quiet, steady.

THE COWBOYS.

Doc Middleton Quits the Race and Ships His Horse.

DUBUQUE, Ia., June 26.—Doc Middleton arrived at 9:50 this morning and quit the race. His horse has been shipped to Chicago.

INFORMATION WANTED.

A Sum of Money Waiting for an Owner.

Special Dispatch to the NEWS.

CHEYENNE, Wyo., June 26.—A letter has been received in this city from the cashier of a Buffalo, N. Y., bank asking for information concerning one George H. Wilder who resided in Cheyenne in the seventies. Wilder has some money on deposit in the bank and should he not claim it within a short time the money will revert to the state of New York.

NOT MISSING.

The Manager of the Plankinton Bank Sick.

INDIANAPOLIS, June 26.—Dr. W. N. Wishard, of this city, says: "I am authorized to make the statement that T. F. Day, manager of the failed Plankinton bank, Milwaukee, reported missing, is now under medical treatment, owing to his physical condition, and that he will voluntarily return to Milwaukee as soon as his medical advisers will permit.

MARKHAM RESPONSIBLE.

He was on Board the Camperdown at the time of the Disaster.

LONDON, June 26.—It transpires that Rear Admiral Markham was on board the Camperdown, and in charge of the Manoeuvres at the time that the vessel sank the Victoria. He is therefore held responsible for the disaster and it has been definitely decided to try him by court martial.

Came Near Losing His Life.

Special Dispatch to the NEWS.

BUFFALO, Wyo., June 26.—John Winslow, a ranchman residing at Oslo, Johnson county, came near losing his life yesterday in attempting to ford the Nowood river at Bonanza. The stream was very high. Winslow had unsaddled his horse and driven him across the river and started to follow in a boat. When the middle of the stream was reached it sank, and it was with great difficulty that he reached the bank. He lost his saddle, bridle and coat.

THE FAIR TODAY.

Fine Weather and Large Crowds on the Grounds.

CHICAGO, June 26.—The weather is still bright and pleasant and the World's Fair visitors are making the most of it. More had passed the turnstiles up to 11 o'clock this morning than during the entire day yesterday, and the indications for the day are that there will be three times as many.

The New Hampshire building at the World's Fair was formally opened today. The exercises were participated in by Governor J. B. Smith, Lieutenant Governor McLane, members of the state legislature, state World's Fair commissioners and other prominent citizens.

Sudden Death.

Special Dispatch to the NEWS.

CARBON, Wyo., June 26.—Mrs. Janette Carr, aged seventy, died suddenly yesterday. Only two little children were with her at the time. She arose and started to dress herself, but feeling unwell attempted to return to her bed, but fell dead before reaching it.

THE MONEY MARKET.

A Result of the Suspension of Silver Purchases for India.

NEW YORK, June 26.—Money is stringent, call loans ranging from 10 to 20. There is a good deal of calling in loans, preparatory to the July interest and dividend disbursements. This is liable to continue until the first of the month. The market is also likely to work close for the first ten days of July, as it is estimated that it will take at least that time to restore the money called in to normal channels. Stock exchange houses are prepared for a siege of this sort and are discouraging speculation. Time money and mercantile paper are merely nominal. The foreign exchange is heavy, demoralized. Posted rates are reduced 1 per cent to 483 and 485. Receipts bills from the interior by this morning's mail were small. The heaviness of the market coupled with higher rates for money revived the talk about gold imports. The presidents of the leading banks reported this morning that the demand from country banks for re-discount and loans was smaller than for many weeks, and that there were indications that the crisis had passed. Little more money is expected to be sent today to San Francisco by registered mail and possibly a small transfer may be made by telegraph to that place through the sub-treasury. Silver certificates dropped to 77. Commercial bar silver to 77. Mexican dollars to 61 cents. The break was due to cables reporting the suspension of the purchases of silver for Indian account and the closing of Indian mints.

India and Silver.

LONDON, June 26.—Telegrams from Calcutta says the Indian government has stopped the coinage of silver for private account at the mints.

FOUNDING OF MONTREAL.

An Anniversary Celebrated With Revelry and Religion.

MONTREAL, June 26.—The French Canadians yesterday celebrated the 251st anniversary of the founding of Montreal. At night in many quarters drunkenness and revelry prevailed. For the first time in the history of Montreal the doors of all liquor stores were wide open on Sunday and the police had orders not to interfere. The city was handsomely decorated and in the morning a monster procession of St. Jean Baptiste societies, trades etc., marched to St. Peters Cathedral where services were held. In the afternoon the dedication ceremonies, opening the French national monument, an imposing pile of buildings just erected in St. Lawrence street, were held. The monument is to be devoted to the schools of arts and science, and contains the French Canadian national library and museum and a vast hall for national festivities and meetings. Today is public holiday and the festivities are being continued.

LOOKED FOR A BURGLAR.

A Pistol Accidentally Discharged With Fatal Result.

Colonel Ross, a Prominent Lawyer, Meets His Death Suddenly this Morning.

DENVER, June 26.—Samuel P. Ross was awakened at his residence early this morning, and thinking it came from burglars, took a revolver and started to investigate. When half way down the stairs, the revolver was accidentally discharged, the ball passing through the abdomen, causing his death. Colonel Ross, was one of the most prominent lawyers in the West. He served as colonel in the confederate army, and was democratic candidate for attorney general of Colorado in 1882.

The Leg Amputated.

Special Dispatch to the NEWS.

RAWLINS, Wyo., June 26.—John Lee Jr. had his leg amputated yesterday. The trouble started from a sore on the leg, in 1876, Mr. Lee being a boy, being ten years old at the time. Friends finally induced the young man to call a physician and it was found that amputation was necessary to save his life.

Electrocuted for Murder.

AUBURN, N. Y., June 26.—Butcher Fitzhum was electrocuted here this afternoon for the murder in April, 1892, at Buffalo, of a young man named Roehr. The families lived in an adjoining room. Fitzhum had been intimate with Mrs. Roehr, but had broken with her and returned to his wife. It was for defending his mother against epithets cast at her by Fitzhum, that he met death at the hands of the butcher who stabbed him to death.

THE FAILURES.

A New York Clothing Firm on the List.

NEW YORK, June 26.—Mann Bros., a clothing firm, has failed. The liabilities are a quarter of a million.

BANK OF NEW ENGLAND SUSPENDS.

MINNEAPOLIS, Minn., June 26.—The Bank of New England has suspended payments at least temporarily. Since the failure of the State bank on Thursday there has been a steady withdrawal of deposits. A. J. Blethen, president, says that he had considerable money tied up in the Chicago failures. He says the depositors will be paid in full.

The liabilities are $300,000, and the assets somewhat in excess of that sum. Blethem was a well known newspaper man.

PAID OUT EVERY PENNY.

BUFFALO, June 26.—The Queen City bank has suffered a steady drain the past several weeks. After paying out all available cash, even to dimes, nickles and pennies, the officers this morning walked out and closed the doors. It owes depositors over $1,400,000. The failure is due to inability to realize on assets, the New York banks refusing to aid. The management claims that depositors will be paid in full.

Receiver For a Brewing Company.

NEW YORK, June 26.—A receiver has been appointed for the Mutual Brewing company, of College Point.

Many Persons Killed.

FORT SCOTT, Kan., June 26.—The entire east wall of the Fremont Hotel fell. There were over a hundred guests in the house at the time. It is thought that many were killed or injured.

MANY PERSONS KILLED.

The house was of four stories high. The entire east wall fell, followed by three floors and a load of occupants. Essie Colwell, a girl of Kincaid, Kansas, has just been taken from the ruins badly hurt. The danger that other parts of the building will fall prevents a thorough search for bodies in the ruins. Twenty-seven occupants have been taken from the second story on the west side by means of ladders, and others escaped through the regular exits. Ira Morgan has just been taken from the wreck, badly injured. Almon Woodard, son of the proprietor, was badly hurt, but not fatally. Mechanics are at work strengthening the walls so a search can be made. It is believed the accident was caused by the recent addition of a mansard roof which was too heavy for the foundations.

India's Financial Policy.

LONDON, June 26.—In the house of lords, earl Kimberley, secretary of state for India, stated that the Indian council had passed an act for the immediate closing of Indian mints to the free coinage of silver. He added that arrangements are being made to issue rupees from the mints in exchange for gold at a rate of sixteen pence per rupee, and for receiving sovereigns and half sovereigns at the treasuries in payment dues at the same rate. He further said it was intended to introduce the gold standard in India, but that gold in the meantime would not be made the sole legal tender.

The rupee paper has risen 2. According to advices from Bombay, the Indian council at Simla today, besides stopping the minting of silver on private account, fixed the rate of exchange at 1. The tone at the close of the London stock exchange was flat owing to the action of India in regard to silver. In street dealings after the official close, there was a slight recovery. Prices, however, were mostly nominal, there being little actual dealing. Denver and Rio Grand preferred and silver securities were the weakest. Peruvian are [illegible] at 8.

NEW YORK, June 26.—A *Post's* London special says American railroads were flat in connection with the news that the Indian mints had been closed to prevent the coinage of silver. The price of silver bars fell here to 34 d., as the change would be in preparation for gold standard, making silver in India only a token currency. The gold price of the rupee paper was 60¼. Fifty-five lacs, India council drafts and transfers, sold up to 15 19-32 d. Bar silver has fallen to 3 d.

WORLD'S FAIR MONEY.

General Olney's Decision as to the Government Appropriation.

WASHINGTON, D. C., June 26.—Attorney-General Olney has decided that the appropriations made by an act of Congress, approved August 5, 1892, in aid of the World's Fair, including the appropriation for the government exhibit, are as available now as before the decision of the circuit court of appeals permanently opening the World's Fair on Sunday, with the single exception that no more money ought to be paid to the Illinois corporation known as the World's Columbian Exposition."

The grounds for the opinion are: Congress meant the Exposition as a whole to be closed on Sunday. It did not, however, undertake to pass a law to that effect, but contented itself with making a certain appropriation conditional not upon the fact of Sunday closing but upon the Illinois corporation agreeing to a proposition for Sunday closing, so that the regulation to that effect might be made by the government representative of the World's Columbian commission. The Illinois corporation did agree to the proposition. Proper rules were made by the Columbian commission, and the condition upon which the appropriations referred to were made must be regarded as fully satisfied. The rights of the United States and the liabilities of the Illinois corporation, consequent upon the latter's violation of its agreement, are matters for future consideration and settlement. Such violation, except as it would prevent the payment of any more money to the Illinois corporation, cannot be allowed to render the appropriations referred to unavailing for the most cogent reasons. It would result in a great waste, because, while only one third of the term has yet elapsed, the government has already erected a building at a cost of $400,000 and expended other large sums in gathering and installing exhibits, defraying the expenses of commissioners and lady managers and in compensation to necessary agents and employes. Further, it would almost amount to bad faith as regards foreign nations and foreign exhibitors, because not merely awards of medals and diplomas but their preparation and distribution, has been assumed by and belong exclusively to the United States, acting through the Columbia commission. A result of this sort cannot possibly have been within the contemplation of Congress, which must therefore be regarded as having conditioned its appropriations not upon Sunday closing in fact, but upon an agreement for Sunday closing, which if assumed, however, rashly, would not be broken.

A Justice of the Peace.

Special Dispatch to the NEWS.

RAWLINS, Wyo., June 26.—Arthur Ferris has been a justice of the peace at Ferris, Carbon county, nearly ten years; yet he has never had a civil case before him. He always prevails upon litigants to settle their difficulties without resorting to law. The people residing in that section will have no one else for their magistrate.

Cornelius Herz Dying.

LONDON, June 26.—Dr. Cornelius Herz, who fled from France as a result of the Panama scandal revelations, and for whose extradition proceedings were pending, but delayed on account of illness, is dying at Bournemouth.

Clearing House Certificates.

BOSTON, June 26.—The banks have voted unanimously to issue clearing house certificates.

Deaths From Cholera.

LONDON, June 26.—A dispatch from Mecca says there were 455 deaths from cholera yesterday.

Robbed a Bank.

MOORHEAD, Minn., June 26.—A robber entered the Merchants' National bank this morning, held up the bookkeeper and took $300,000. He escaped across the river. A posse is in pursuit.

SILVER GONE DOWN.

A Figure That Strikes Terror to Mine Owners' Hearts.

PROSPECTIVE CLOSING OF MINES.

Rich Find of Metal in Wyoming.—Injured by an Explosion.—General Mining Notes.

The precipitation of silver down to 77 cents per ounce, today, as announced in the New York quotations, caused considerable alarm among mine owners and business men, who gave free expression to feelings of discouragement. The prospect of an early closing down of all mines except the work necessary to keep them from injury by water or some similar cause was discussed as an event that was inevitable. "There is not a mine in the Territory that can operate with silver at that price," said an owner in one of the principal mines today. "We ought to be closed down now. We were running at a loss at 80 cents, just to keep the mine open, and if this thing goes on all will be up with us."

Another owner expressed himself similarly regarding the closing of the mine he was interested in. He took a more encouraging view of the outlook, however; said he: "This has got to bring free coinage, and you will see it. We will have relief by the middle of October. Congressmen are just waking up to the situation, and when both houses pass a bill, Cleveland will sign it all right. He poses a firm hand, but he is a man of good common sense, and when Congress sets he will not bar the way. They may put in some restrictions for a time, but that will be all right. I believe silver will get down to 50 cents an ounce before October."

"There is no need to repeal the Sherman act," said a leading banker this afternoon; "this does it effectually, and none but the richest mines in the country can continue work. It will be hard on the west for a while, but I suppose it's the shortest way out of the difficulty."

Notwithstanding the hopes expressed of a satisfactory outcome, the feeling for instance was decidedly gloomy; perhaps even more so than the present circumstances warrant.

THE FOUR MILE PLACERS.

SARATOGA, Wyo., June 11.—E. P. Andrews has just returned from the placer grounds at Four Mile. Mr. Andrews says it is a wonderfully rich camp and a large amount of gold will be taken out this season, but water is scarce. The placer ground is all owned by two large companies from Rock Springs, this state, and Aspen, Colorado. These companies are talking of consolidating their interests and taking a large ditch, forty miles in length, out of Slater creek at a cost of $30,000. He says a poor man has no show there.

EXPLOSION IN A MINE.

HANNA, Wyo., June 24.—Henry Lamara, a Finn, employed in the mines, was badly burned about the face and hands by a gas explosion yesterday. His lamp ignited the gas in one of the chambers where a shot had recently been fired. No other damage was done. Lamara was taken to the hospital at Denver.

RICH STRIKE OF SILVER.

RAWLINS, Wyo., June 23.—A valuable lens of silver has just been uncovered by Jones Brothers, who have been working a red hematite paint mine two miles from this place for some time. The free milling silver ore found under the paint strata is said to be a forty-nine inch vein, with well defined walls. James Jones has gone to Denver with samples of the ore for assay. This is believed to be one of the greatest strikes ever made in this section, and it is creating considerable excitement among mining men. A diamond drill will be put to work in a few days.

NOTES.

Stephen Martin, 37 years of age, and a native of Cornwall, England, was killed on Friday by a cave in a mine at New Almanden, California.

A company has been incorporated to build an electric railway from Weiser, Idaho, to Seven Devils, to develop the mines of that region.

Brigham *Bugler*—Charles Yost, of Yost, western Box Elder, was in town Thursday. He has gone to Salt Lake with 150 pounds of rich looking silver and lead ore taken from his Charleston mine at a depth of fifty feet.

A miners' meeting is to be held at Detroit Springs on Monday next, July 3, for the purpose of electing a new recorder for the Detroit district and to consider the enactment of new local laws.

Millard County *Blade*: Lou Phillips is in receipt of the first assay from his strike near Black Rock. The determinations show 1000 ounces of silver and a trace of gold. A one-third interest, we understand, has been sold to Will Kyser of Deseret for a good round sum.

The Gem and Frisco mines, at Wallace, Idaho, which were shut down last week, as stated in the NEWS, by a strike of the miners for an increase of wages from $3 to $3.50 per day, will remain closed indefinitely. The Tiger mine started up again, but other mines will close down this week, and the outlook for the Coeur d'Alene mines is far from promising.

Mark L. Elliott, who some time ago was a very prominent mining man in California, is now reported as making a fortune in the South Africa mines. Of late, in private letters to some of his old friends, Elliott has spoken of his good luck, and the following item in the Johannesburg, South Africa, *Standard and Diggers' News* of May 30 gives further evidence of his prosperity. The item is as follows: "M. L. Elliott, of considerable American and Australian experience in connection with mining and who has just returned from the Klein Letaba, has been appointed manager of the Champ d'Or Company. The applications for the management of the company were very numerous. The mine is not an easy one to work and will require all the mining knowledge a man possesses to work it economically and successfully."

SALT LAKE CLEARING HOUSE.

Today's clearing house exchanges amounted to $282,424.

W. G. M. Steward had in today for assay 8 tons of Old Telegraph ore, 125 tons of Centennial Eureka ore, and 330 tons of Ophir Hill ore.

J. W. Currie had in today for assay 115 tons of Horn Silver ore, and 100 tons of Anchor concentrates.

W. A. Hodges had in today for assay samples of 115 tons of Horn Silver ore, 150 tons of Crescent ore, 124 tons of Daly-West ore, and four other controls.

TODAY'S QUOTATIONS.

New York—Silver, 77c; lead, $3.50. London—Silver, 34½.

ORE AND BULLION.

McCornick & Co. received today: Hanauer bullion, $5503; silver and lead ores, $13,000. Total, $18,503.

T. R. Jones & Co. received today: Bullion, $7000; ores, $2200. Total, $9,200.

Wells, Fargo & Co. received today: Mingo bullion, $20,093; ore, $775. Total, $20,868.

THE MEETING ENDED.

Closing of the June Races on Saturday.—A Poor Showing.

The attendance at the races on Saturday was very poor in comparison with the preceding day. While this is partially due to a corresponding lack of interest in the free-for-all trot as compared with the free-for-all pace, a goodly portion of the falling off is chargeable to disgust.

There were four events, none of them very interesting, but not all as crooked as the main race, the free-for-all trot, was believed to be. For this event there were four entries: Inez, Silver Bow, Richmond Jr, and Ottinger. Inez took the first heat in 2:22, Silver Bow the second and fourth in 2:17¼ and 2:18 respectively; and Richmond Jr the third, fifth and sixth in 2:19, 2:24½ and 2:22½ respectively, Ottinger being sent to the stable after the fifth for not winning a heat.

In the Merchants' stake, purse $1000, first money went to Orphan Prince, second to Mormon Girl, Prince winning the first and third heats in 2:47 and 2:16. Mormon Girl winning the second in 2:17¼.

The 2:25 trot, a special race, was an uninteresting event, Prairie Chief winning easily in three straight heats, the first in the remarkable time of 2:20, the second in 2:20 and the third in 2:23½.

A running race, three-quarters of a mile, concluded the program. There were four entries. Actor won first money, Blue Dick second.

The meeting in the main has been an excellent one. The association managers have undoubtedly labored hard and conscientiously for their patrons, and while the races have not been altogether faultless, the public must content itself with the reflection that other racing associations also have been unfortunate in the selection of judges who were not half as sharp as the jockeys and ten times more honest.

THE UTAH COMMISSION.

A Letter Received with Regard to the Woman's Industrial Home.—County Registrars.

This morning the members of the Utah Commission held another session, but not much was done.

THE WOMAN'S INDUSTRIAL HOME.

A communication was received from Mrs. Ferry, president of the Woman's Industrial Home, conveying the information that the Home and its furnishings would be turned over to the Commission, as a board of control, on July 1st. After some conversation it was simply resolved to acknowledge the receipt of the letter, but the Commission decided not to take any further action until the Home had been formally transferred to that body.

FOR COUNTY REGISTRARS.

A partial list of persons recommended to act as county registrars was received from the Republican Territorial committee and will be looked into in due course.

The Commission did not hold an afternoon session, but will sit again tomorrow.

LEONARD WAS MARRIED.

The Civilian Shot Down at Fort Douglas Has a Son in East Boston.

Coroner Taylor received a letter this afternoon from Mary Leonard, of East Boston. Miss Leonard states that she is a sister of the man shot down at Fort Douglas and writes for full particulars of the terrible tragedy. She states that the deceased has "brothers, sisters, a father and an orphan boy." She does not say how old the lad is or whether his mother is alive or not. It is supposed, however, that she is dead. The father is old and in very poor circumstances.

WHAT WAS DONE THERE.

Interesting Meeting of the Classes in Utah Stake.

PROVO, June 24, 1893.—On June 23rd the members of the Hygienic Physiological Reform class of women held at Provo a Stake conference, the last of a series of meetings held throughout the county.

The election of officers for the year next ensuing year was held, after which the statistical report was read, showing the following totals of work done in the five associations of this Stake. Number of members 247; average attendance, 97; meetings held, 109; sociables, 4; lectures 109; essays, 91; cash received $69.50, disbursed, $69.90; property on hand, $69.30; cash in hand, $13.55.

Reports were given verbally by representatives from each local organization, and addresses were delivered by Rose Hayes, of Pleasant Grove, Carrie M. Smith of Logan, and Dr. H. S. Allen of Provo; Miss Hannah Clark sang "The song that reached my heart," and the secretary read an essay by Mrs. Cardlamot of Lehi, on the effects of diet on health and beauty.

During the noon intermission a sumptuous banquet was served, the principal feature of which was strawberries; but the viands were all in strict accord with the hygienic rules taught. A hundred persons partook of this meal, principally visitors.

At the afternoon session, Olive Anderson of Springville spoke on Reform in Woman's Dress. Miss Eliza Brown of American Fork treated the subject of Drugs as a Curative Force as Opposed to Hygiene; Mrs. Amanda S. Young, a visitor from Logan, addressed the audience in a scholarly way, and Mrs. Heppler of Sevier county spoke feelingly of her early acquaintance with Mrs. Sorensen, the founder of these classes; Oscar B. Young of Provo spoke a few moments and expressed himself well and favorably on the work of the class, and Prof. Keller of the B. Y. Academy addressed the classes through their representatives in a few graceful words of encouragement and commendation; Bro. G. E. Anderson of Springville followed in a gratifying strain; Susie Young Gates spoke for a few minutes, and Miss Hannah Clark sang "Far Away." Dr. S. H. Allen added a few remarks, endorsing the suggestion of a previous speaker that progress would be made in the right direction by having such classes established among the young men. Sister Winters, an earnest worker, spoke a few words; a letter from Hon. Moses Thatcher, commending the work and urging its continuance, was read by the secretary. After which Mrs. Sorensen made appropriate closing remarks.

A vote of thanks was tendered to Mrs. Sorensen, and the other retiring officers of the stake organization.

WORKS OF BOLD BURGLARS.

When the Police are Asked for Particulars They Say They Have None.—Instances Cited.

It has been the private and public boast of the present city police force for months that the city is quiet and practically unfrequented by crooks; that "tricks are not being turned" as they were during the "boom period;" that tough characters steer clear of Salt Lake. Such talk has been very common amidst a series of as bold burglaries as were ever committed in this city.

Yesterday burglars raided the apartments of Mrs. Hall in the Walker Terrace on West Temple street and carried off a considerable amount of jewelry and cash. The matter was reported to police headquarters but those in charge claimed they had heard nothing in the form of news. On Saturday, some time after a baby carriage had been stolen from Sorensen & Nelson's furniture store and after the theft had been made known at the city hall the police replied that they knew nothing. The same unqualified misrepresentation was made in regard to the burglary at Dr. Higgins's last week when robbers enriched themselves to the amount of $200 or $300. Many other cases of similar import might be cited.

SORROWFUL NEWS.

Royal Hyde Dies When Among Strangers.

A telegram received this afternoon brought sad news to the relatives of Royal Hyde, the young son of the late Apostle Orson and Mrs. Sophia Hyde. The message came from an undertaking firm in Denver, and announced that Royal Hyde died in that city yesterday. It requested that his folks be notified and send word as to what disposition was to be made of the body.

The deceased was about 18 years of age, and having grown tired of what he considered the dullness of the surroundings hereabouts, started off to make his way in the world. He got to Denver, and found work there, it is said in a hotel. At any rate he had about enough of the venture, and was anxious to return home. His relatives expected him to do so and settle down quietly here, and this blow falls upon them as heavy as it was unexpected. The cause of death is not stated. The body will be brought home.

Police Court.

James McDonald forfeited $5 on a charge of being drunk.

J. Tenny, who was arrested on a charge of using abusive language, was discharged.

John Maloon plead guilty to being drunk and was fined $5 which he will pay for in labor.

Sallie Cronin forfeited $5.50 on a charge of prostitution.

F. Martin and M. Meakin, who were arrested for being drunk, were discharged.

John Clark was convicted of vagrancy and was sent to jail for fifteen days.

James Wilson was arrested for being drunk and resisting the officers. He was fined, and, not having the money, will work it out.

James Stapleton was arrested for being drunk. This case was dismissed.

Eph Kelly plead guilty to being drunk and was fined $5.

IN THE TWO COURTS.

Judges Zane and Bartch Give Attention to Third District Matters.

ACTION AGAINST A MINING CO.

The Sum of $20,000 Demanded for a Man's Life.—The Whitmore Contempt.—Claim for Labor.

Chief Justice Zane and Judge Bartch both held court this morning, the former sitting in the Third district courtroom and the latter—for the further hearing of the Whitmore contempt case—in the Supreme court room. Up to the hour of adjournment for the noon recess nothing very remarkable had transpired, neither did there seem to be a prospect of anything startling occurring during the balance of the day's session.

The following cases came under the personal observation of the chief justice:

THE INJUNCTION DENIED.

In the case of H. J. O. Irving et al vs the Fortieth school district, the application for an injunction on an agreed statement of the attorneys was denied.

CANNOT HAVE A NEW TRIAL.

Louis Hyams et al vs Simon Bamberger et al. The motion for a new trial was overruled.

SUMMONS WITHDRAWN.

Goldberg vs Ferguson. Leave was granted to withdraw the summons for further service.

ADDITIONAL TIME.

In the suit of Jack Holton vs Hyrum Groesbeck, ten days additional time was granted to file statement on motion for a new trial.

THEY LET HIM GO.

The charge against N. E. Moulton of obtaining money by false pretenses was dismissed on motion of the United States attorney.

NEW JURYMEN.

A special venire of twelve jurors was issued, returnable forthwith, as follows: Albert Mabey, South Jordan; John Parkin, Bountiful; Samuel McLinden, Salt Lake; Frank Chambers, Pleasant Grove; W. G. Fisher, Coalville.

An open venire for six others was also issued.

IT STOPPED SUDDENLY.

The case of Hiram J. Crandall vs B. H. Bully et al was called for trial before a jury. The action was brought to recover $2700 for labor performed and $113 on assigned accounts, making a total of $2813. The defendant denied his liability in any particular. When the hearing had proceeded a short time, plaintiff asked leave to amend, and the case was therefore continued for the term at his costs.

KILLED BY A CAVE-IN.

The next case on trial (also before a jury) was that of Martin Larsen, administrator of the estate of James Larsen, deceased, vs the Tintic Mining company. It was an action to recover $20,000 damages for the death of the plaintiff's son, alleged to have been caused through the negligence of the defendants, who, however, in their answer, denied the allegations of the complaint. The plaintiff was represented by Attorneys W. H. Dickson and W. C. Hall; for the defendant company Attorney Waldemar Van Cott appeared.

On April 1st, 1892, the deceased, James Larsen, who was about 20 years of age, was employed by the defendants as a miner. While working with his horse and team, cutting away dirt from a tunnel which was in course of excavation at the Iron mine, Juab county, the earth suddenly caved in and young Larsen was buried in the debris. His neck and back were broken and death was almost instantaneous. It is claimed that the accident was directly due to the defendants' negligence in not having the excavation properly timbered and protected.

THE WHITMORE CONTEMPT.

In Saturday's issue of the NEWS full particulars were given of the contempt proceedings instituted against George C. Whitmore of Nephi, the hearing of which began before Judge Bartch, an adjournment having been taken at noon until this morning, when the matter was again gone into. The taking of testimony proceeded up to midday, and a recess was then had till 2 p.m.

When the prosecution rested just before noon, Attorney Varian moved to introduce the files in evidence, but Attorney Arthur Brown, for the defense, objected to the decree being put in evidence, on the ground that it did not conform to the issues to be adjudicated upon; further, that it was not the decree of the Third district court, as it pretended to be, as it had never been transferred from the First district.

The papers eventually went in, subject to objection.

Attorney Brown then moved for the defendant's discharge, on the ground that it was apparent no contempt of court had been committed and that there was no evidence to warrant this examination; further that the defendant had never been served with any copy of they affidavit upon which the writ of attachment was issued. There was no proof, he insisted, that a copy of the decree had been served upon him.

The court declined to allow an argument upon these points at this stage of the proceedings; and so the defense called in with their side of the case.

There was just another little passage of arms during the morning's inquiry. Attorney John M. Zane was putting a certain question to one of the witnesses when Attorney Brown objected, whereupon Mr. Zane politely requested counsel to wait until he had finished.

"No, sir," was Mr. Brown's reply; "the question has to be ruled upon right now."

Mr. Zane—Not until I've concluded my question.

Mr. Varian said he would like to know who was the court, anyway, and Attorney Brown volunteered the information that it was not John M. Zane.

The point was ruled upon and the case proceeded.
