LOCAL AND OTHER MATTERS.

The "Sunny South."—The "Sunny South" dramatic combination will appear at the Theatre on Monday evening.

This Year's Clip. — Scores of wagon loads of wool are being hauled into this city from the west and south. Too much of it, we fear, will find its way to a foreign market.

A Cheering View. — From any elevation in the vicinity of this city the valley presents the appearance of one vast, fruitful harvest field. Stacks of golden grain dot the landscape in every hand. In your seasons to-morrow thank God for the bounty of the land.

Sunday Services.—The Sabbath services of the Church of Jesus Christ of Latter-day Saints, will consist of the following: Sunday Schools in the various Wards at 10 a. m.; general meeting in the Tabernacle at 2 p. m. and Ward meetings at 7 p. m., as usual.

Home missionaries will attend the latter.

Returning.—The Big Cottonwood excursionists are beginning to return to the city. Several parties have come back within the last few days, and the main body are expected home this evening. Everybody has had a splendid time, barring the annoyance of mosquitoes, which festive little songsters have had their feast, also, at the company's expense.

New Music.—From Prof. Careless the popular music dealer, we have received three pieces of new music, each one a gem in its particular style of melody. One is a sweet ballad, "Sighs and Kisses," another is the "Village Belle Polka," and the third is a selection from Schuman's great work "Manfred," arranged by T. Adamowski for violin and piano.

Z. M. S.—The members of Zion's Musical Society will meet for rehearsal as follows, until further notice: Sopranos with Prof. C. J. Thomas at Council House, Monday evenings at 7.30; altos with E. T. Wooley, at same time and place; tenors with W. H. Foster, at Calder's music warerooms, Monday evenings at 7.30; bass with Prof. E. Beesley at Z. C. M. I. shoe factory, same evenings at 8 o'clock; orchestral class with Prof. Thomas at Council House, on Tuesday evenings at 7.30.

D. M. McALLISTER,
Secretary.

Insecure Building. — A gentleman informs us that a new two story house is being built on a Main Street corner in the 7th Ward, which is a fit object for examination by the City Inspector of Buildings. Our informant says the walls are being constructed of brick and adobe, and are so very thin, that the house, when finished, will be continually liable to fall. Even where the masons have completed their work, on the west wall, the building has bulged out and already repairs have been necessitated there. It would, perhaps, do no harm for the inspector to see the thing for himself and judge accordingly.

Exciting Adventure.—The other day a gentleman residing south of this city, being mounted on a spirited mare, rode the animal into the Jordan River to let it drink. The water where they stood was as high as the horse's belly, and the bed of the stream was quite muddy. On endeavoring to turn around to go out, it was discovered that the animal's hoofs were stuck fast in the mire. It struggled to free itself and after floundering around some time, lay down on its side in the water. The rider, to avoid being drowned, hastily got off the saddle, but could not clear himself from the stirrups, and in this predicament was doused under several times before he finally succeeded in extricating himself. The mare eventually loosened her feet and sprang out upon the shore, with the saddle dangling about her legs. This immediately frightened her, and she commenced running and kicking violently. After knocking the saddle off she ran for a distance of two miles but was finally caught by the plucky rider, who, upon reaching the bank, immediately followed, picked up the saddle and ran on until he regained possession of his charge.

A Small Blaze.—Last evening, about half past 7 o'clock, an alarm was pealed from several bells of the city, and it was soon ascertained that the fire indicated was in the Tithing Yard, near the old slaughter house, in a board shanty whose roof had caught fire from a furnace used there for trying tallow, and was flaming up wildly at the time it was discovered. The engine and fire brigade were promptly on the scene, but ere they arrived, a bucket brigade organized on the spot had succeeded in quenching the blaze. The loss was but slight, only the roof of the shanty being partially burned, the walls blackened and some old clothes destroyed. The way the fire started was as follows: Mr. David Hilton, the superintendent of the buildings in the yard, had gone home about 4 o'clock, leaving his assistant, Mr. John Lees, in charge of the tallow furnace. The latter left the place about 6 o'clock, after taking what he supposed was a precaution to cover the fire, which was well supplied with wood, with a quantity of slack coal. Mr. Hilton returned shortly after six, and on going into the shanty, found everything all right. He stepped out again, and soon afterwards saw the place on fire. He gave the alarm and with several others put out the fire with water from a tank near by, which, luckily, had just been filled. It is supposed the fire was caused by the gas accumulating beneath the coal, and bursting out into a heap of old rags, a little way from the mouth of the furnace.

The Educational Tourists.—We received a call this morning from Professor Karl G. Maeser, Principal of the B. Y. Academy, and Professor Louis F. Monch, District School Superintendent of Weber County, who in company with Messrs. Jas. E. Talmage and Edward Tanner, have been making the tour of the northern counties in the interests of education. Professor Maeser and the last named gentlemen left here on the 1st of July and joined Prof. Monch at Ogden on the 3rd. They had previously received instructions, and a letter of introduction to the authorities of the northern stakes and settlements, from President John Taylor, Territorial Superintendent of District Schools, and had sent appointments ahead for meetings in Davis County, but as these had not reached there at the time of the gentlemen's arrival, they decided to push on to Weber. After attending meetings in Ogden, the party proceeded to Willard City, Box Elder County, where their labors really began. Two meetings were held there, and then Brigham City was visited, where two meetings were given. The labors of the gentlemen were divided as follows: Professor Maeser treating of fireside teachings, day schools, Sunday schools, mutual improvement associations, and the general theory of school training, and Professor Monch taking the duties of superintendents and trustees, selection of teachers, school-houses, furniture and appliances, including school lands and surroundings. The brethren were pleased to find considerable interest manifested everywhere in school matters, with good houses, furniture, teachers, etc. Mr. Talmage acted as Professor Maeser's private secretary, and Mr. Tanner furnished and drove the team in which the party traveled. From Box Elder they proceeded to Cache Valley and remained there two weeks, holding meetings every night and sometimes twice a day, besides going around to the various schools. They speak in terms of highest praise of the excellent schools of that Stake, there being a uniform system of instruction in all the settlements, and live men at work in the educational cause. In that Stake they visited all the towns but Weston, and mention particularly the energetic and efficient labors of Wm. H. Apperly, County School Superintendent, and Miss Ida I. Cook, principal of the B. Y. College in Logan. This lady is the originator of the superior system of teaching in vogue throughout Cache Valley. They next went to Oneida County and called at Franklin and Soda Springs. On the return nearly all the settlements of Bear Lake were visited, and from there, the party went to Rich County, taking in the towns of Meadowville, Garden City and Lake Town. Educational affairs in these regions are looking up, and notwithstanding the difficulties these counties have had to contend with, a gratifying interest is shown in the progress of schools. Garden City especially deserves notice. Though having been settled but a year and a half ago, and containing now but eleven families, this little place has already built a good school-house and sustains a creditable school. Weber County was the next section traversed, where Huntsville, Eden, Harrisville and Ogden were in turn visited. The schools of this county recommended themselves at sight by their fine school houses, either finished or in course of erection, and complete and comfortable surroundings. The Central School-house of Ogden will be a credit to that city, and, if properly managed, a blessing to the Territory. The people are fully alive to the importance of educational matters.

This finished their tour, during which about 41 meetings were held. A more complete account of their travels will doubtless be published hereafter. The gentlemen deserve much commendation for their good work, especially as they have used their vacation, their only time for rest in the year, for the purpose of imparting instruction and encouragement to their fellow-seekers after wisdom and intelligence. They return looking well and hearty.

Can It Be True? — We were told to-day, that a book agent, having for sale "the best Cyclopedia ever published, containing information on all subjects," etc., etc., tried to dispose of a copy to a young lady of this city. He stood in the door until weary talking to her, and then sat down on the step. She could not be persuaded to purchase, however, and he left. In less than an hour the bell again sounded, and on opening the door again, the two faced each other. The lady endured the second ordeal as she did the first, and the personification of loquacity left the field ingloriously defeated. Such a woman as that will never lack admirers. Hundreds of men are looking for just such wives.

Death.—Peter A. Boyle, a well-known citizen of Ogden, and the senior partner of the firm of Boyle & Co., departed this life Thursday afternoon. The deceased gentleman, who for several years past has been in ill health, was respected by all who knew him, having the confidence of every person with whom he had any relations, business or otherwise. We condole with the family and friends of the deceased who realize that in his demise they have lost a loving husband, a fond father and a good citizen. The funeral will take place from the Second District meeting house, at 10 o'clock on Sunday morning, at which time it is expected that a large concourse of friends will be in attendance to do the last earthly office for the honored dead.—*Junction 13th.*

Reports Wanted.—A full Statistical and Financial Report of Relief Societies from April 1st, 1876, to April 1st, 1880 is requested from each of the Stake Secretaries throughout all the Stakes of Zion. Also a Semi-Annual Report from April 1st to October 1st, 1880. Forward to

SARAH M. KIMBALL, R.S. Sec.,
Salt Lake City, Utah.
P. O. Box, 785.

By order of the Territorial Relief Society President,

Heaven's Tears. — During last night and to-day an average rainfall of about 40 drops to the acre, provoked the parching ground. Give us more!

Secretary Thompson.—Hon. R. W. Thompson, Secretary of the Navy Department of the United States, whose arrival we noticed last evening, was accompanied by his two daughters, a son and a grandson. The party stayed while here at the Walker House. Last evening a reception was held at the residence of Governor Murray in honor of the distinguished gentleman, and this morning he and his party left for the east. It was his intention to have remained longer, but a telegram from Washington summoned him away.

A party newspaper says that "a lie, well stuck to, is the secret of discussion." Judging by this rule how fond of discussion some papers appear to be.

A STRANGE PEOPLE.
You know that there are strange people in our community—we say strange, because they seem to prefer to suffer and pass their days miserably made so with Dyspepsia and Liver Complaint, Indigestion, Constipation, and General Debility, when SHILOH'S VITALIZER is guaranteed to cure them. Sold by Z. C. M. I. Drug Department, wholesale and retail, Salt Lake City, Utah. 1 dsw

Various Causes,
Advancing years, care, sickness, disappointed, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. AYER'S HAIR VIGOR will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye, and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. 3dsw

"THE NOISY MAN"
Is the man who has been rejuvenated by BROWN'S LIVER PILLS. He wants everybody to know that all dealers keep them.

FARMERS
Should not forget that D. M. Osborne & Co., Manufacturers of the Celebrated "Wheeler" Mowers and Reapers and "Osborne" Self Binders, have an extensive branch house at 101 and 103 Main Street, Salt Lake City, where they keep a large assortment of these popular machines on exhibition and for sale. Give this firm a call.

PEOPLE are finding out by experience that home-made flannels and other woolen goods are more profitable to buy than imported. The Provo Mills, having been successful in selling their goods last season, are making a larger variety and considerable more of them this year, and it would pay country buyers and consumers to call on their agent, John C. Cutler, in the Old Constitution Building, Salt Lake City, and examine their goods.

"THE SILENT MAN,"
Is no wiser than he who has the forethought to provide himself with BROWN'S EXTRACT OF BLACKBERRY AND GINGER, the most sure remedy for curing Diarrhœa, Dysentery, Cholera Morbus and all derangements of the stomach and bowels.

Five Hundred Thousand Strong.
In the past few months there have been more than 500,000 bottles of SHILOH'S CURE sold. Out of the vast number of people who have used it, more than 2,000 cases of consumption have been cured. All coughs, croup, asthma and bronchitis yield at once, hence it is that everybody speaks in its praise. To those who have not used it, let us say, if you have a cough, or your child the croup, and you value life, don't fail to try it. For Lame Back, Side or Chest, use Shiloh's Porous Plaster. Sold by Z. C. M. I. Drug Department, Wholesale and Retail, Salt Lake City, Utah. 1 dsw

DIED.

In Ogden City, Aug. 12, 1880, at 3.25 o'clock p. m., from inflammation of the bladder, by which he had suffered for 17 years, PETER ADAMS BOYLE, senior partner of the firm of Boyle & Co., aged 53 years.

He was born in Glasgow, Scotland, Nov. 20, 1827; joined the Church of Jesus Christ of Latter-day Saints in 1844, in his native land; emigrated to St. Louis, Mo., in 1848, and came to Ogden in 1855, where he resided till his death. He was a faithful member of the Church, a kind husband and an affectionate father.
