FORTIFICATION OF THE SEA COAST

It Will Take Sixteen Million Dollars to Complete the Engineering Work Under Endicott Plans.

APPROPRIATED $28,963,434

Defense of the Great Lakes and the St. Lawrence River is Under Consideration.

Washington, Nov. 5.—Sixteen million dollars will be necessary to complete the engineering work of the fortification of the seacoast of the United States under the present plans of the Endicott board, according to the report of Brig.-Gen. McKenzie, chief of engineers. There already has been appropriated for this purpos $28,963,434. Permanent projects at 31 difference points have been adopted and most of them are well under way. Among these points are San Diego, Cal.; San Francisco, Columbia river and Puget Sound.

The defense of the great lakes and the St. Lawrence river is under consideration.

The estimate for the completion of the fortifications does not contemplate anything more than the projects outlined by the Endicott board. Modern appliances and additional projects which may be adopted by the Taft board appointed last summer and the fortification of the insular possessions may increase the estimate when additional work is approved by Congress. It is estimated that $4,263,204 will be required to put into execution by the engineering department the schemes of the artillery and signal corps for fire control of the seacoast defenses. The report says:

"While the general principles of the fire control system have been satisfactorily determined and adopted, the actual details on which costs largely depend are still in a condition of experimental development by the artillery, and it is anticipated that the cost of actual construction will probably largely exceed the above sum when such development is complete."

Work has been progressing on the fortifications for the defense of Manila bay and Subig bay and on the purchase of sites for fortifications in Hawaii. A tract on the Columbia river and one on Puget sound were acquired during the year. The total estimates for fortification works under the engineering department for the fiscal year 1907 amount to $11,424,153, divided as follows:

Construction of gun and mortar batteries, $4,000,000; modernizing older emplacements, $462,500; sites for fortifications and seacoast defenses, $300,000; searchlights for harbor defenses, $500,000; protection, preservation and repair for fortifications, $300,000; peparation of plans for fortifications, $5,000; supplies for seacoast defenses, $40,000; sea walls and embankments, $215,000; sea walls, defenses of Galveston, Tex., $433,853; casemates, galleries, etc., for submarine mines $540,700; preservation and repair of torpedo structures, $50,000.

Defenses of insular possessions:

Sea coast batteries, Manila, P. I., $2,000,000; sea coastt batteries, Subig bay, P. I., $5,000,000; harbor Hawaii, $520,000; procurement of land for sites for defenses of the Hawaiian Islands, $326,100.

An estimate of $75,000 is made for improvements in the Yellowstone National park.

Expenditures on rivers and harbor improvements in the United States reached $22,328,623. This does not include $2,265,073 under the Mississippi river commission. No estimates are made this year for river and harbor improvements save those provided for under continuing contracts. This amounts to $17,456,801, to which is added $15,000 to be expended under the California debris commission and also an estimate of $2,000,000 for the Mississippi river commission. Among the estimates for continuing contracts are the following:

San Pedro harbor, Cal., $300,000; mouth of Columbia river, $300,000; Honolulu harbor, Hawaii, $200,000; Wilmington harbor, Cal., $100,000; Oakland, Cal., harbor, $250,000; San Pedro bay, California, $81,000; Columbia river, at The Dalles, Or., $250,000; Columbia river, between Vancouver, Wash., and the Willamette river, Oregon, $30,000; Columbia and lower Willamette rivers, below Portland, $125,000.

FROM HEAD TO FOOT

you feel the good that's done by Doctor Pierce's Golden Medical Discovery. It cleanses, regulates and invigorates Stomach, Liver and Bowels and so purifies the blood. And through the blood, it cleanses, repairs, and invigorates the whole system.

In recovering from "grippe," or in convalescence from pneumonia, fevers, or other exhausting diseases, nothing can equal it as an appetizing, restorative tonic to build up needed flesh and strength. It rouses every organ into natural action, promotes all the bodily functions, and restores health and vigor.

For every disease that comes from foul or Weak Stomach, a torpid Liver or impure Blood, Dyspepsia, Indigestion, Biliousness, and the most stubborn Skin, Scalp, or Scrofulous affections, the "Discovery" is a sovereign remedy. Don't be hypnotized, wheedled, or over persuaded into accepting a substitute only that some selfish medicine seller may make a greater profit on the inferior article. The "Discovery" has a great record of nearly forty years with thousands of cures behind it.

Dear Sir—Several years ago my blood became impoverished and I became run down in health. I had no appetite, could not sleep, and was practically unfitted for work. Suffered from innumerable boils and was in bad shape. Dr Pierce's Golden Medical Discovery relieved me of my wretched condition. The medicine built up my system and restored me to a normal condition of health. I can speak most highly also, of Dr. Pierce's Favorite Prescription, as it has been used in my family for years in cases of female trouble.

Sympathetic Strike Endorsed.

New York, Nov. 6.—The sympathetic strike ordered by the International association of bridge and structural iron workers last week on all the New York contracts of Post & McCord has been indorsed by the Housesmiths and Bridgemen's union of New York. It is scheduled to go into effect this morning. Unless the matter can be settled within a day or two, a general lockout of the housesmiths by the Building Trades Employers' association is looked for.

"We must have more water than we have had, and our supply must be taken better care of than before."—W. J. Lynch.—Advertisement.

Cash Payments Cause Run on Bank

Chicago, Nov. 6.—Cash payments of wages in Indiana harbor frightened the employes of the big factories there so greatly last week that they started a run on the Indiana Harbor state bank. The financial storm raged for three days and the tempest was quieted solely by the sight of piles of currency and gold, which the bank officials placed in view of the ignorant foreigners who were clamoring for their money. The run was at last checked, and nearly all the money that was drawn out has been re-deposited.

The stampedous fright resulted from the fact that the Inland Steel company at the end of the previous week, on the regular payday paid in cash instead of following its old custom of giving the employes checks drawn on the bank.

This led to the conclusion that something was wrong with the bank, and the run ensued.

ONE SHOT, FOUR STABBED.

Poles and Russians Have Row Over Conditions in Russia.

Chicago, Nov. 5.—One man was shot and fatally injured, and four other persons were stabbed in a fight here today, brought about by a discussion of the present revolutionary conditions in Russia. The men, who were Poles and Russians, became involved in an argument in a saloon over the merits of the czar's manifesto and the constitutional government which has been promised. Two of the men defended the government and the other three declared that a republic was the only solution of the question. During the argument one of the Poles drew a revolver and commenced shooting. The first shot struck Frank Younshek in the abdomen, and as the wounded man fell to the floor the others intervened and became involved in a general fight. Three of the men were armed with knives and the fourth with a revolver. The noise of the shooting attracted two policemen, who hurried to the saloon, but before they could separate the combatants, all of them had been severely cut and stabbed. All of the rioters with the exception of Youngshek will recover.

LOOKING FOR A WOMAN.

Has Been Masquerading as Wife Of J. J. Hill.

Patterson, Nov. 6.—The police are looking for a middle aged woman who has masqueraded as the wife of James J. Hill, the railroad magnate. She spoke of her private car, her residence at Newport and her many automobile excursions through California and the west. She is quite tall, of distinguished bearing, and talks well. Her plan is to secure an invitation to stop at a house for a few days and then to secure a loan while waiting for a check from her husband. The police say that she has imposed upon people here at Montclair and in the Oranges.

LATE SPEAKER REED.

Mr. Cleveland Declines to be Director of Reed Memorial Ass'n.

Portland, Me., Nov. 6.—The letter which former President Grover Cleveland wrote to the Thomas B. Reed memorial association in answer to a request that his name be included in the list of the directors with his consent was made public today and is as follows:

"Your recent letter asking me to become a director of the Thomas B. Reed Memorial association is at hand. I had great admiration for Mr. Reed and great respect of his ability. I think it is eminently proper that his high character and public service should be fittingly memorialized.

"It seems to me, however, that this should be undertaken by those who were nearer to him in every way than I can claim to have been. Another reason stronger than this for hesitation is found in my reluctance to be identified with a project to which I cannot give the least attention. I am not at all satisfied to be nominally a director in such a movement without performing any useful duty; and this would be my exact predicament if I should accept such a place in the directorate of your association.

"I do not want to be suspected of ungraciousness or lack of interest. But if I may be allowed to modestly contribute instead of appearing as a director I shall feel much more comfortable."

The letter was accompanied by a generous contribution.

RAISULI'S LATEST CAPTURE.

He Takes a Man in the Principal Market Place of Tangier.

New York, Nov. 6.—A cable dispatch to the Herald from Tangier says:

Raisuli's appetite for foreign ransom has been so stimulated by the capture of Mr. Perdicaris, which brought in $50,000, and the capture of the French protege, by which he netted $3,500, that he evidently decided to pursue this lucrative business, and his men by his orders captured yesterday near the gate of the principal market place in Tangier, a Moor named Abdeslab Okanbon.

The man was under the protection of the Belgian legation. He is reputed to possess considerable wealth.

An ominous feature in connection with these captures is that the captives are invariably under foreign protection, and by the treaty are inviolate.

Convention of Novelty Makers.

Chicago, Nov. 6.—American manufacturers of novelties combatting conditions which, it is said, allow Germany and France to sell 60 per cent of their toy output in the United States, and Germany to sell Americans more paper novelties than are used in Europe, will hold their first show in the Coliseum at Chicago Dec. 14-25. It is the intention of the manufacturers to show, too, the worth of their foods in comparison with those from Europe. The show is under the management of Eugene Pierre Marce, a Frenchman who has directed similar exhibitions in Europe.

Demonstrations in Warsaw.

Warsaw, Nov. 5.—Great patriotic demonstrations were held in the streets today by crowds estimated at 200,000 persons. Processions headed by clergy and singing "God Save Poland" paraded the principal streets, which were elaborately decorated. The balconies and windows of the houses were filled with spectators. A citizen guard kept exemplary order, and the military massed in the side streets had no reason to object.

Loyalist endeavor to organize a demonstration was a complete failure, barely 4,500 persons taking part in it.

Jewish military, armed with revolvers, is guarding Jewish houses in the outskirts of the city. The militia shot and killed four disguised detectives found trying to provoke disturbances.

The governor yesterday warned the Polish newspapers that unless they submitted to the censorship their offices would be closed. Two papers persisting in their disregard of this order have been shut up and sealed by the troops.

The houses of all Polish Nationalists were illuminated tonight.

The funeral of the victims of the disorders at Lodz, which were held today, were attended by 40,000 persons. There were revolutionary speeches, but no disorders.

STORY OF THE JEWS.

Rabbi Freund Lectures Before Mutual Improvement Associations.

Last night's conjoint session of the Mutual Improvement associations of the First ward was a very entertaining and instructive one. The chief feature of the evening's program was a discourse by Rabbi Charles Freund of the Jewish Synagogue of this city, on "Some Facts and Fictions about the Jews." The Rabbi insisted that the Jews ceased to exist as a nation about 70 A. D., when the last temple at Jerusalem was destroyed. The Jews therefore, do not wish to be separated as a nationality, but render allegiance to and belong to the nation that gives them protection. The Rabbi deplored that fact that the Jews are too often judged by such characters as Fagan or Shylock; but Shylock represents not the Jew alone, but human nature. The Jew is not all bad, nor is he very much bad. This the learned rabbi proved by the very fact that even Christian ministers point to the Jews as a select people, morally and socially, whom Christians can emulate. However, as a people, the Jews, it was claimed, are select and chosen only in a degree. The just and righteous of all nations will receive their due rewards. The rabbi further showed that not all Jews were rich. There are poor Jews—very poor Jews—but the Jewish people take care of their own poor. In closing the rabbi appealed to his hearers to love and honor the fellowman in their midst.

Other notable numbers on the program were selections by the quartet of the Jewish synagogue, a solo by Prof. Charles Kent, and a solo by Mr. Robert Siddoway. Miss Ardella Bitner of the L. D. S. University also read most effectively a touching selection called "The Soul of the Violin."

A vote for Morris is a vote for Thompson. Vote for Lynch and defeat the Americans.—Advertisement.

A DISCUSSION.

"Blood Atonement and the Origin Of Plural Marriage."

A pamphlet containing over a hundred pages, has just been issued. This brochure contains a discussion on the questions quoted, between Elder Joseph F. Smith, Jr., and Mr. Richard C. Evans, the latter gentleman being second counselor to the president of the "Reorganites." The questions are entered into exhaustively by both sides, and a great deal of valuable information is given. Elder Joseph F. Smith, Jr., shows by historical data and incontrovertible deductions that the position of his opponent is untenable.

NOBODY IS EXEMPT.

A New Preparation Which Everyone Will Need Sooner or Later.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood purifiers, which in many cases, are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and they will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Dyspepsia Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help, and you will have no trouble.

It's a common-sense medicine and a common-sense treatment, and it will cure every time. Not only cure the disease but cure the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but we don't publish many of them. However—Mrs. E. M. Faith, of Byrd's Creek, Wis., says:

"I have taken all the Tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been at rest by this time."

H. E. Willard Onslow, Ia., says: "Mr. White, of Canton, was telling me of your Dyspepsia Tablets curing him of Dyspepsia, from which he suffered for eight years. As I am a sufferer myself I wish you to send me a package by return mail."

Phil Brooks, Detroit, Mich., says: "Your Dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia, but am now entirely cured and enjoy life as I never have before. I gladly recommend them."

It will cost 50c. to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

PAINFUL PERIODS

Suggestions How to Find Relief from Such Suffering.

While no woman is entirely free from periodical suffering, it does not seem to be the plan of nature that women should suffer so severely. Menstruation is a severe strain on a woman's vitality. If it is painful or irregular something is wrong which should be set right or it will lead to a serious derangement of the whole female organism.

More than fifty thousand women have testified in grateful letters to Mrs. Pinkham that Lydia E. Pinkham's Vegetable Compound overcomes painful and irregular menstruation.

It provides a safe and sure way of escape from distressing and dangerous weaknesses and diseases.

The two following letters tell so convincingly what Lydia E. Pinkham's Vegetable Compound will do for women, they cannot fail to bring hope to thousands of sufferers.

Miss Nellie Holmes of 540 N. Davision Street, Buffalo, N. Y., writes:

Dear Mrs. Pinkham:—

"Your medicine is indeed an ideal medicine for women. I suffered misery for years with painful periods, headaches, and bearing-down pains. I consulted two different physicians but failed to get any relief. A friend from the East advised me to try Lydia E. Pinkham's Vegetable Compound. I did so, and no longer suffer as I did before. My periods are natural; every ache and pain is gone, and my general health is much improved. I advise all women who suffer to take Lydia E. Pinkham's Vegetable Compound."

Mrs. Tillie Hart, of Larimore, N. D., writes:

Dear Mrs. Pinkham:—

"I might have have been spared many months of suffering and pain had I only known of the efficacy of Lydia E. Pinkham's Vegetable Compound sooner; for I have tried so many remedies without help.

"I dreaded the approach of my menstrual period every month, as it meant so much pain and suffering for me, but after I had used the Compound two months I became regular and natural and am now perfectly well and free from pain at my monthly periods. I am very grateful for what Lydia E. Pinkham's Vegetable Compound has done for me."

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women.

The success of Lydia E. Pinkham's Vegetable Compound rests upon the well-earned gratitude of American women.

When women are troubled with irregular, suppressed or painful menstruation, leucorrhœa, displacement or ulceration of the womb, that bearing-down feeling, inflammation of the ovaries, backache, bloating, (or flatulency), general debility, indigestion and nervous prostration, or are beset with such symptoms as dizziness, faintness, lassitude, excitability, irritability, nervousness, sleeplessness, melancholy, they should remember there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound at once removes such troubles. Refuse to buy any other medicine, for you need the best.

Don't hesitate to write to Mrs. Pinkham if there is anything about your sickness you do not understand. She will treat you with kindness and her advice is free. No woman ever regretted writing her and she has helped thousands. Address Lynn, Mass.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.
