MINING, BUSINESS AND STOCKS.

COPPER ORE FROM THE COLUMBUS CON.

Shipments From New Strike Carry 12 Per Cent in Red Metal in Addition to Silver.

Columbus Con. bids fair to regain some of its lost prestige in the near future, owing to the importance of recent developments in the mine. Manager Tony Jacobsen, who returned from the mine last night after spending the day at the property, says that the grade of ore now being extracted is much better than the company has been shipping for months past, and if recent developments open out as they now given promise of doing the Columbus Con. will give a good account of itself next year.

Mr. Jacobsen was averse to going into too much detail, as no one can tell how far the present ore bodies extend until further development work has been done, and reports are sometimes misleading. For all that the fact remains that the ore now being extracted from the 100 level below the tunnel carries 12 per cent copper in addition to 25 to 30 ounces silver per ton. A good body of lead ore is also being explored at another place in the fissure on this level. The developments at this point are so encouraging that the management is now running to catch the same ore body on the 200 and 300 levels.

FEW STOCKS STRONGER.

Market Generally Weaker—Columbus Closed Firm—Colorado Lower.

Stocks were weaker on the mining exchange this morning with very few exceptions. In some cases new low records were made. Another remarkable drop occurred in Colorado, which opened at 81 and dropped to 77 at the close. Grand Central was firm at 2.22½ at which price several hundred shares changed hands. Columbus showed more strength, opening at 69 and moving up to 72, the advance being due to support given as the result of improved conditions at the mine.

Mason Valley was unchanged and Iron Blossom was active at 65, at which price upwards of 4,000 shares changed hands. Ohio Copper suffered a relapse from the artificial boost given the stock a few days ago, and Sioux sold down to 43 after opening at 45. Uncle Sam was also weaker today, sales being made as low as 43.

New York, which has been held at 12 for several days past, declined to 10½ this morning, and Provo fell away to 8. Mineral Flat continued to slide toward zero point, 11,000 shares changing hands at ½. Daly Judge was firm at $5. Tintic Central released a 5,000-share lot at 5 and another at 5¼.

Closing quotations were as follows:

CREO MINING CO., ORGANIZED.

Company Will Develop Group of Claims in the Clifton District.

(Special Correspondence.)

Provo, Nov. 17.—Articles of incorporation of the Creo Mining company have been filed with the county clerk. Pleasant Grove is the principal place of business, the capital stock is $50,000, in shares of the par value of 5 cents a share, based on the valuation of the following mining properties in Clifton mining district, viz. The Creo, Creo Nos. 2, 3, and 4, and a seven-eighths interest in the Grand Central Wedge, Timpanogos, Capell and Red Jacket claims in the same district. The directors and officers are: A. L. Mecham, president; James H. Kirk, vice-president; A. T. Cullimore, secretary and treasurer; A. L. Mecham Jr., D. D. McEwan and Wm. Kirk.

NEW ENGLAND IN GOOD SHAPE.

Manager Director E. E. Abercrombie Much Pleased With Company's Mine.

After spending several days in Salt Lake City and Bingham, E. E. Abercrombie, managing director of the New England Mining company, left for his home in Boston at noon today. Mr. Abercrombie's company owns the old Nast property in Bingham, which is being developed in a very satisfactory manner at the present time. In addition to using its mill which has a tonnage of 60 to 70 tons per day, on the low grade ores of the mine, the company is also extracting an excellent grade of shipping ore, carrying good values in lead, which nets the company from $25 to $35 per ton. The future for the company appears very bright just now as, in addition to paying for all the development work being done, the company is able to set aside a fair reserve at the end of each month's operations. Mr. Abercrombie says he is much pleased with conditions at the mine, and with the condition of Bingham camp generally.

LEASERS MAKING MONEY.

W. H. Bohannan, editor of the Round Mountain Nugget, is credited with saying that the leasers will make the camp of Round Mountain if the property owners will only give them a chance. During the past 10 days there have been six clean-ups at the mill of the Toquima company. All of them have been for leasers and in every instance the returns have shown an average of better than 730 a ton.

There is still a vast acreage of ground where leasers would be glad to take a chance if they were only given an opportunity. Every one of the leases now being operated is in the money taking out ore worth from $20 to $100 per ton, with occasional pockets of high grade.

IMPORTANT LEAD DISCOVERY.

An important discovery of silver-lead ore is reported to have been made recently in the vicinity of the Smelzer ranch, about 30 miles west of Battle Mountain, Nev. Two men, whose names are given as C. Isherwood and Clyde Ganser, are said to have been prospecting in the mountains on the west side of Buffalo valley when they came across some rich specimens of lead float. They traced this to the ledge without great difficulty, as within a short distance from where the float was first found erosion had left the ore shoot in plain view at the top of the ground, with huge boulders of the metal weighing as high as 200 to 400 pounds scattered over the surface.

The deposit is said to be a contact vein between lime and porphyry, the mineralization being due, doubtless, to the intrusive dykes of porphyry which cut the lime formation with a northerly and southerly strike.

COPPER COMBINE WILL BE EFFECTED

Boston Reports Today That the Consolidated Company's Capital Will Be Over $700,000,000.

New York, Nov. 18.—Negotiations looking to the consolidation of the large copper interests in the United States are still in progress. It was stated that the merger would not be completed for several days.

According to information received here from Boston, the proposed company will have a capital of between $700,000,000 and $800,000,000. Whether there will be two classes of stock has not been decided.

It is stated that only five people are acquainted with the proposed merger: John D. Ryan, Thomas F. Cole, Daniel Guggenheim, George W. Perkins and W. E. Corey, president of the United States Steel corporation.

CONCENTRATES.

E. W. Griffiths, the well known mining expert, left for Ely last night on business.

The announcement is made by G. Augustus Heinze that the first half of the Ohio Copper company's mill will be put into operation next Monday.

Molybdenum, used in tempering steel and in other commercial enterprises, is reported to have been discovered in the McDonald Ely property.

M. M. Johnson expects to leave for Beaver county tomorrow evening with a party of visitors for the purpose of inspecting the Beaver Carbonate Mining company's property.

Sinking has been resumed in the shaft of the Ely Central below the 200 level, according to the Ely News, and the flow of water which was coming in above that level has been checked at the station on the 200 level.

Sales of unlisted stocks on the open board this morning were confined to Bingham Central Standard, Federal Ely, and Uintah Treasure Hill. One thousand shares of Central Standard sold at 35 buyer 60, and 500 at 34½. One thousand shares of Federal Ely changed hands at 21½ and 500 Uintah Treasure Hill was sold at 16 seller 60.

TODAY'S MONEY MARKET.

New York, Nov. 18.—Money on call, firm, 4½@5 per cent; ruling rate, 4¾; closing bid, 4½; offered at 5. Time loans, easier; 60 days, 5 per cent; 90 days, 4¾; six months, 4½@⅝.

LOCAL MARKETS

The local markets are beginning to take on a holiday appearance, so that by the end of the week, Market Row will make it apparent that the annual fiesta is close at hand. One interesting feature is that this season, dealers are moving to take all of the Utah turkey stock before calling on Kansas and Nebraska for a supply. Last season, the enterprising farmer got the idea he could make more by holding back his stock until the very last moment; but when prices reached a certain high notch, the market turned eastward, and the enterprising Utah grower found he was left. This sad result seems to have effected a change of heart, so dealers say they are having no trouble in getting all the stock they want, and believe there will be such a plentiful home supply that it will not be necessary to resort to the prairie states for additional birds. The farmers are asking 20 cents live weight for turkeys, which makes the jobbing rate 25 cents, and the price to the consumer 30 cents the cost of getting the goods to the eater. There is no change—has not been for a long time, in butter or eggs. They appear to have reached the zenith, with no probability of going higher.

California sweet potatoes are arriving in good shape, and navel oranges from the northern part of the state are expected any day. Idaho apples seem to be a constant quantity; so do Utah potatoes, cabbage and onions. A fine consignment of cracked pecans arrived Wednesday afternoon. Oysters of all kinds are in plenty, and judging from the looks of the tubs containing the luscious bivalve, very much more care is being taken to ship them in with the least possible amount of ice water, thus preserving as much as possible the oyster flavor, hitherto washed out in a superfluity of ice water. Wild duck are beginning to arrive more plentifully, contesting the market with the domestic variety—heavier, but greasier. Following are the prices quoted in today's local market.

RETAIL.

FLOUR, GRAIN AND HAY.

Family flour, per cwt	2.80
Flour, straight grade, per cwt	2.90
Flour, high patent, per cwt	3.10
Bran and shorts	1.40

Bran and shorts, per cwt	1.30
Corn meal, per cwt	2.50

MARKET STRONG THROUGHOUT DAY

New York, Nov. 18.—Opening prices of stocks today showed no very striking changes. Gains were the rule and these extended to large fractions only in the case of Union Pacific, Reading, Great Northern preferred, Kansas City Southern preferred, Amalgamated Copper and Anaconda. The dealings were in moderate volume.

Fractional additions were made to the opening advances, bringing numerous leading stocks within the scope of one-point gains. Or these Reading, Union Pacific, St. Paul, Great Northern preferred, Amalgamated Copper and American Smelting were the most prominent and most active. Advances of from 1 to 1½ were also made by Wabash preferred, St. Louis-Southwestern preferred, New Haven, Kansas City Southern, Reading second preferred, Colorado Fuel & Hocking Valley. Only a few specialties moved as much as a point, and the general market showed a growing torpor. Central Railroad of New Jersey rose 8, North American 2, Mercantile Marine preferred and American Ice 1¼, and Cleveland, Cincinnati, Chicago & St. Louis, and Mackay companies, and Granby mining 1. Butterick Publishing fell 1¼ and Northern Pacific, Western Union and American Cotton Oil 1.

Bonds were firm.

Buying of the copper stocks was resumed in a confident manner and there was a large accumulation of Amalgamated Copper and others at advancing prices. While there were many points of strength in the specialties, the railroad list was neglected and seemed indifferent to the advance in the industrials. Mackay companies rose 2½, New York, Chicago & St. Louis 1¾, Amalgamated Copper 1½, Anaconda 1⅜ and Utah Copper, the American Can stocks, United States Rubber, American Steel Foundries and Republic Steel 1. National Biscuit declined 1½.

Announcement of the plan for the distribution of the Wells-Fargo surplus asset investment stocks began to move upward by wide advances, which in turn produced a strong tone in the general market. Wells-Fargo rose 50 points to 360; Central Railroad of New Jersey rose 17, American Express 5, Delaware & Hudson 4, Lackawanna and Western and United States Rubber 3 and Reading 2 and Ontario & Western and Pacific Telephone 1.

The market closed strong and active. There was some increase in the activity of the leading, but prices varied but little. Reading was effected slightly by realizing.

Third Avenue declined 1½.

Afterwards Amalgamated Copper rose to 95¾ and held the rest of the market. Union Pacific gained 1⅜ and Southern Pacific and Northwestern 10.

LIVE STOCK.

OMAHA.

South Omaha, Nov. 18.—Cattle—Receipts, 3,300; market strong. Native steers, 4.50@8.00; cows and heifers, 3.00@5.25; western steers, 3.50@6.25; cows and heifers, 2.75@4.85; canners, 1.50@3.25; stockers and feeders, 2.00@5.25; calves, 3.50@5.50; bulls, stags, etc., 2.75@4.00.

WOOL.

ST. LOUIS.

St. Louis, Nov. 18.—Wool, quiet. Territory and western mediums, 24@29; fine mediums, 22@26; fine, 16@20.

PRODUCE.

CHICAGO.

Chicago, Nov. 18.—Firm cables and light receipts in the northwest inspired fairly active bidding for wheat at the opening of the market here today, which resulted in initial advances of ¼ to ⅜. The principal demand was for the May delivery, pit shorts and commission houses leading in the buying. Offerings, however, were rather meager, and as a result, trading early in the session was inclined to drag. Opening quotations on May were at 1.02 to 1.02¼. Later, in the day the price eased off to 1.01⅝@1.01 on profit-taking. December opened at 1.01⅞ to 1.01⅝, sold off to 1.01 and then rallied again to 1.01¼. The firmness of wheat offset the favorable weather conditions for the movement of corn and caused a steady tone in the market for that grain. The December delivery was relatively the weakest option owing to some selling by country houses. That option opened unchanged to ⅛ lower at 58 to 58⅛, sold at 58⅛ and then dropped back to 58.

Trade in oats was extremely quiet and steady, prices showing almost no change during the early part of the day. The December delivery opened unchanged at 39@39¼ and sold at 39¼ and then dropped back to 39.

Provisions displayed decided strength at the start owing to support by packers. Demand was based on a continuance of light receipts of live hogs throughout the west. The total movement today was estimated at about 25,000 head less than the figures for the corresponding day a year ago. Prices at the opening were 2½ to 20c higher than yesterday's close.

Wheat became more active late in the day a number of smaller shorts being active bidders. As a result prices advanced to, above the low mark, December advancing to 1.07⅞@1⅛ from 1.06⅞; May sold up from 1.04⅝@⅞ to 1.05⅝. The close was strong with December up 1⅛ at 1.08. May was ⅛ higher at 1.06⅝.

Corn—The market became somewhat weaker toward midday but rallied again on the late bulge in wheat. The close was firm with December ⅛ higher at 60⅛.

Close—Wheat—Dec., 1.08; May, 1.06⅝; July, 97.

Corn—Dec., 60⅛; May, 61⅛@⅝; July, 61.

Oats—Dec., 39¼; May, 41⅛; July, 38¾.

Pork—Jan., 21.00; May, 20.02½; July, 19.80.

Lard—Nov., 13.35; Jan., 12.00; May, 11.85; July, 11.67½.

Ribs—Jan., 10.67½@10.70; May, 10.42½.

Rye—Cash, 73½@74; Dec., 72; May, 76.

Barley—Cash, 53@68.

Timothy—Nov., 3.75; March, 4.10.

Clover—March, 14.00.
