A Gang of Outlaws.

WICHITA FALLS, Texas, April 1.—... farmers who live on the Texas side of Red River, just across from ... Indian country, were in town today. They claim there is a gang of outlaws in the locality opposite them. They usually are armed to the teeth with rifles and ammunition and spend a portion of their time target shooting with Winchesters and six shooters. They say Crawford and Lewis, who robbed the city National bank of $20,000 on January 28, hidden in Cantonment forest and were subsequently traced by bloodhounds, were part of this gang.

A BRIDGE ALMOST THE DAY.

Project to Connect San Francisco with Oakland.

SAN FRANCISCO, April 1.—A bridge across the bay from San Francisco to Oakland is contemplated. It is a magnificent project and was made public by Colonel Lyman Bridges on behalf of the Terminal company. Plans for a great suspension structure are already in preparation. It is proposed to have the bridge stretch from the Southern point on the West side of this city to the foot of Peralta street, Oakland. The structure will be divided into two 1,000 foot spans. It was announced to be the intention of the terminal company to make the bridge so strong that it could be safely used for the passage of railroad trains, the time occupied in crossing the bay being ten minutes.

Murdered by Indians.

SAN SIMON, Ariz., April 1.—Settlers in this part of the territory are wrought up to a high pitch of excitement over the murder by Apaches of Alfred Hands. The details of the crime have just been learned.

Hands's house was crushed in by rocks, the children were cut open and gruesome wounds were in several parts of the body. Tracks on the ground showed that Indians had committed the crime. The murderers were not satisfied with killing Alfred and robbing his home of what they had use for, but they destroyed everything else.

Evidently the Indians had surprised the unfortunate settler when he was busy outside the house and finding him completely disabled started into his house and perhaps mutilated his wife, still alive.

Two Trains Instead of One.

TACOMA, April 1.—Beginning Sunday the North Pacific Railroad will run two transcontinental trains instead of one. The time between St. Paul and Tacoma will be shortened eight hours by putting on a fast mail train. The time of the westbound will be shortened six hours.

Do Not Like Senator Tillman.

DENVER, March 31.—The action of the silver Democratic national committee yesterday, indorsing the idea of inviting and receiving Senator Tillman, has called into a most exciting debate from General A. L. New, member of internal revenue, and one of the most prominent Democrats of the West.

General New disagreed with the version which is called for April 21st as that of the Tillmanites. "The Democrats of the West, or of any other part of the country," said General New, "need no advice from General Tillman or from any other gentleman who comes from outside the ranks of the party. Mr. Tillman was not elected by Democrats to the jolly position which he occupies and disgraces today, and there is no more reason why he should be invited to address a Democratic convention with his brand of Populistic theories than should Mr. Coxey or any other individual antagonistic to the principles of Democracy."

SEAL ISLAND EXCITEMENT.

Dispatches Held for Representative Attorney-in-Europe.

NEW YORK, March 31.—It was one continuous round of excitement on Seal Island today. Twice a large body of Indians made desperate efforts to make desperate attempts to escape from their place of imprisonment. It was exactly after 10 o'clock when the first outbreak occurred.

There were 125 savage looking customers, mostly Indians, and inside the "pen" reported on the second floor of the main building. Suddenly there was a murmur among them. It increased to a growl which in a moment or two was a roar. Hundreds of them tried to tear open the wire work of the barriers. In a moment more it would have given way and all the barrels rushed up and down outside pounding the partially finished barrels, ready to the bay, reached the ground of the situation. He telegraphed to Washington that he must have more help. The reply was favorable and twenty more men will be at work in ... Miles to hold a small detachment of troops in readiness.

Just when all seemed peace, the "Arcadia," the steamer which takes the immigrants from Lisle island to the battery steamed in. As the passengers landed on a run to stretch her, some of them started to be turning of "Geronimo." In a moment all was excitement again and a fierce rush was made. Savage blows were struck at the officials and more than one knife was drawn in the crowd. The officers work at the undertaking been heavily, and when a few minutes finding a little kind of Greenhorn officers take the street subdued.

To Prevent Discrimination.

WASHINGTON, March 31.—Senator Chandler, chairman of the Senate committee on interstate commerce, introduced a bill today to prevent the discrimination by railroad companies against the interstate commerce act, today announced his purpose of introducing a bill to amend the law so as to prevent the foreign ... of foreign goods in bond to be taken from one of domestic manufacture, as it always under the decision of the Supreme court yesterday. The amendment he had not yet decided upon the form of his amendment said Mr. Cullom, but it will be in accordance with the decision which the Supreme court has made in the case in question.

Bond Investigation Asked For.

WASHINGTON, March 31.—Representative Mondell of North Carolina today introduced a resolution to investigate the recent sale of bonds. The resolution cites that charges have been made that unfair and unprecedented advantages have been accorded by President Cleveland and Secretary Carlisle to a certain financial syndicate located in New York City, and that charges have been made against the President and secretary of the treasury in regard to the recent bond sale, whereby the same syndicate secured nearly one-half of the bond issue in a mysterious and suspicious manner. The resolution then provides that a committee of five be appointed by the Speaker to make an investigation into all the circumstances relating to the fact in the issue of bonds and report to the House.

Asked Hughes to Resign.

PHOENIX, Ariz., March 31.—Secretary Olney, acting under advice of the Interior department, today asked Governor Hughes (resident) to resign his office and records. He refused, saying his removal was not until the appointment of his successor is confirmed. The curiosity of the Interior gave Hughes an opportunity to resign, but he ignored the request.
