FOR PROHIBITION.

A Petition to be Circulated by the Women of Utah

The NEWS has been requested to give space and publicity to the following, which explains itself:

The ladies whose names appear below, comprising a committee to secure signatures to the following petition—recognizing the saloon as the greatest enemy of the home—earnestly urge our sisters to sign the same and thus lend their influence towards the extinction of the terrible evil and beg that their sisters throughout our Territory out-out this petition and circulate it in their respective communities for signatures. As early as possible send the petitions signed to Mrs. W. M. Tibbals, 242 Seventh East street, Salt Lake City, Utah.

MRS. L. C. EVERETT,
DR. ELLEN H. FERGUSON,
MARY A. FRIEND,
MARY A. PARSONS,
MRS. M. ISABELLA HORNE,
MRS. G. S. PETTIGREW.

The undersigned, women over eighteen years of age, residents of the Territory of Utah, respectfully pray your honorable body to submit to the legal voters at the same election at which the proposed Constitution is submitted, the following proposed article, as a separate article, to-wit:

ARTICLE——PROHIBITION.

To be submitted to a separate vote of the people as provided by the schedule and ordinance.

SEC. 1. No person, association or corporation shall, within this State, manufacture for sale or give as a beverage, any intoxicating liquors, and no person, association or corporation shall import any of the same for sale or gift, or sell or offer or keep the same for sale or gift, barter or trade as a beverage.

The Legislative Assembly shall by law prescribe regulations for the enforcement of the provisions of this article and shall thereby provide suitable penalties for the violation thereof.

And your petitioners will ever pray.

World's Delegates.

We must again urge upon our societies the importance of selecting their delegates and alternates to the World's W.C.T.U. convention to be held in Queen's hall, London, June 14 to 21, 1895, with the least possible delay. Our sisters over the water are already arranging, as one is obliged to do in London, beforehand, to secure important points, and they must know who among our "other speakers" will be in attendance. Therefore, believed, we pray you to select with care, but to do so with promptitude, and if you are going to raise the $200 for this, the time when that work should be earnestly carried forward. We know that it has begun in several localities and is being contemplated in many more, but do not wait to raise the money; select your delegates and alternates without delay. And remember that there must be at the back of each delegate one thousand women who have paid their dues, and that if any state has an excess over a given number of thousands it can by arrangement with an adjoining state utilize the fair number. But by far the best method of making sure of your thousand is, if you lack some hundreds of that number, to go out and get new names of members, sending their dues at once to the state treasurer, so that there may be no doubt as to the validity of your report. We do not by any means suppose that a majority of the delegates we send to England will have their way paid for them. Two hundred dollars is not beyond the reach of a large majority of those who will go, but in some instances there will be workers whom their sisters desire to have attend who may not be fitted out with the "wherewithal," except by proxy. Do not fail then to carry out these friendly suggestions and by all means remember to report your delegate and alternate, with name and address in full, to Mrs. Katharine Lente Stevenson, corresponding secretary, or to Miss Anna Gordon, recording secretary of the World's W.C.T.U., addressing both at the Woman's Temple, Chicago.

FRANCES E. WILLARD.

At the last session of the National Council of Women, March 2, Mrs. May Wright Sewall, the retiring president, declared that she had two "novelties" to present. One was the retirement of the five national officers of the council and the other was the introduction of the five new officers. "Here are five women," said Mrs. Sewall, "who having ruled the sceptre of power for a term of four consecutive years, voluntarily relinquish it and against the most flattering inducement that the assembled conference, consisting of their constituency could give, positively decline reelection. We are too modest to think that women frequently do anything that men might well emulate, but we commend this spectacle to the sensitive judge as something that might benefit the nominating conventions of all its great parties." Aside from the division of the council into an upper and lower house, the president is given the power to appoint a cabinet. The first official act of the new president, Mrs. Mary Lowe Dickinson, was the retiring president, Mrs. Sewall, to the secretaryship of foreign affairs. We have not yet heard the full roster of cabinet officers, but have learned that Mrs. M. B. N. Stevens, our own vice president, is given the portfolio of moral reform. As the largest single body of women in the National Council, the W. C. T. U. feels a justifiable pride in the capacity of its management, which the Washington press characterizes as "the most remarkable ever witnessed in this or any other country."

Each week the secretary of the "pilgrimage bureau," 13 Astor Place, New York City, sends us the names of those already registered for Dr. Leonie's party to London and Switzerland this summer. The list is growing rapidly. Up to March 11th, forty-five were booked for the trip and more than twice that number were considering the matter. It is very important that every one who contemplates this delightful journey should register at once in order to secure a choice of state rooms. It is better to pay the five dollars booking fee and lose it than to postpone the decision until the last moment possible. The trip is a delightful one, and therefore the ground should be occupied early. The labors are limited above the most. These two pamphlets should be kept prominently in view, with a courteous attentiveness, correspondent, affirmative. Hence have a model, and not. The pulpit of the conservatism of women and made should be secure in the future. The model should be set early enough and deep in ground, for walls fall.

A most satisfactory way, where the ground is open to a future action with a double settlement, is one of the ap-

HEADQUARTERS A SUCCESSFUL MEDICAL part of the Spring. Open the portion by removing the fences, as one in Promotion of the Lights. After the potatoes have sprout a sprinkling of Paris green will be planted everywhere was the bane of the farmer, and two weeks to plant them, as shown in the lower part of the figure.

In a few days the potatoes will be hard and fit for cutting for food. This cutting planting and taking and dropping of the chips and drops in the middle of the rows built and only in putting the ground in superior condition, but in yielding a very large amount of after crops. The most satisfactory results had the cutting and manipulation been in the earlier.
