MINING, BUSINESS AND STOCKS.

STOCK MARKET WAS VERY ACTIVE

Star Con. Opened Weaker, but Closed at Better Than $1.00.

CON. MERCUR ALSO HIGHER.

Sunbeam Moves Up—Mammoth Strong—Yankee Firmer—Eagle & Blue Bell Not So Strong.

TODAY'S METALS:
SILVER 63½
LEAD $4.00
CASTING COPPER 15¾

A greater number of stocks participated in the trading today than has been seen for some time past. The volume of business transacted amounted to $9,843.30, which represented the sale of 22,965 shares of stock. Con. Mercur was active, at better prices. On its first sale but $4.56 was secured. Its last sale was made, however, at $4.67½. Mammoth was strong, an odd lot or two going at from $2.22 to $2.25 per share.

Star Con. was in good demand at lower figures than yesterday's quotations. It was thought it would drop farther today, but those who acted upon this supposition were mistaken. After making its first sale at 95, the stock steadily advanced to $1.00½ per share, remaining quite firm at the close with $1 bid and $1.00¼ asked.

Eagle and Blue Bell was traded in as low as 55½ cents per share, while May Day was allowed to change hands at 39¾.

Sacramento was very active around 33. Over 4,000 shares were sold at from 33 to 33½.

Ingot of Mercur let go 500 shares at 3, while Daisy sold around 1 cent per share.

Northern Light participated at 6⅝. Lower Mammoth was very weak, while Sunbeam was much stronger, selling at 35.

Bunker Hill of Stockton again participated in the trading, as did Joe Bowers. The former sold around 1, while the latter brought 3¼.

Yankee Con. dropped 1,500 at 22.

HORN SILVER'S ANNUAL MEETING

Was Held at Noon Today in the Company's Office.

ASSAYS FROM INDIAN PEAK

Shows Good Copper Values—Visits the Columbia Mine—A. P. Mayberry Talks of the Silver Shield.

The annual meeting of the shareholders of the Horn Silver Mining company met at noon today and elected the following directors: Allan C. Washington, William R. Britton, Juan M. Ceballos, Theodore B. Moore, Philo T. Farnsworth, John Sharp and James Sharp. The board afterwards elected the following officers, viz.: Allan C. Washington, president; Juan M. Ceballos, vice-president and Ambrose I. Harrison, secretary and treasurer. Of the 400,000 shares of stock in the company, 316,607 were represented at the meeting.

Manager Farnsworth said today that the mine has done better this year than it did last year. At present the management is doing considerable development work, mainly in the shape of drifts to explore the ore bodies on the lower levels. The 1000-foot level is the deepest level from which ore is being extracted. The values are said to be about the same there as on the upper levels. Mr. Farnsworth says it looks very favorable now for ore on the 1,100 and on the 1,600 levels.

INDIAN PEAK ASSAYS.

Show High Values in Copper with Silver and Gold.

Some of the samples brought up from Indian Peak by Messrs. Richter and Young have been assayed and show 12 ounces silver, .04 ounces gold and 16 per cent copper. The highest assay showed the following values: 11.4 silver, $2 in gold and 20.1 copper per ton. The company is making preparations to start work at once.

VISIT BINGHAM CLAIMS.

Judge Bartch and Others Examined the Snyder Group Yesterday.

Judge Bartch, Steven Baldwin and W. H. Child were in Bingham yesterday looking over the Snyder group on which a tunnel is being run towards a vein which has disclosed ore in a 60-foot shaft higher up the hill than the tunnel. The outlook is very favorable for ore and a deal for the property is likely to be made.

The Red Wing Extension was also visited and conditions there are said to be most encouraging.

AT THE COLUMBIA.

Proposed to Build a Concentrating Plant in the Spring.

Frank B. Cook returned from the Columbia Copper mine at Bingham last evening after inspecting the operations of some leasers there. The Shawmut mill was also inspected by Mr. Cook. It is quite probable that a mill will be built at the Columbia in the spring. The mill will likely have a capacity of 150 tons per day as water for that amount is to be had at the mine. In addition to drifting some 600 feet on the vein of high grade ore, the company has crosscut as much as 96 feet on the side of this streak, and obtained values which run better than 2 per cent copper. With a proper concentrating plant the Columbia should have a supply of milling ore sufficient to last for an indefinite period.

SILVER SHIELD IMPROVING.

A. P. Mayberry Says the Property Never Looked as Well Before.

Superintendent A. P. Mayberry of the United States property at Bingham was in town today and gives very encouraging news of the Silver Shield in that camp. Mr. Mayberry says there is more ore in sight now than at any time since it was acquired by the present company. The ore is also said to be improving right along. A shipment of 60 or 70 tons of crude ore is today at the mine which will be the best shipment ever made from the property. The ore has been followed quite a distance in the strike of the vein.

SEPTEMBER SHIPMENTS.

Show a Material Decrease When Compared With Those of August.

Special Correspondence.

Eureka, Oct. 1.—During the month of September the mines of Tintic district marketed three hundred and seventy-eight carloads of ore, and the mills of the district sent out twenty-four carloads of concentrates.

The amount of ore for the past month falls over one hundred carloads short of the product for August. For the month of September the output from the Eureka end of the district was 221 cars of ore, as against 307 the previous month. This amount was divided among the mines as follows:

	Carloads.
Central Eureka	134
Gemini	42
Godiva	12
Eureka Hill	10
May Day	8
Eagle and Blue Bell	1
Uncle Sam and Humbug	12
Yankee Cons	2
Total from Eureka	221

The mines in and around Mammoth and Robinson have made the following record:

	Carloads.
Mammoth	46
Grand Central	30
Ajax	7
Star Cons	17
Carissa	6
Total from Mammoth end	106

The following is the shipment from the mines of Silver City and Diamond:

	Carloads.
Swansea	34
South Swansea	11
Showers Cons	1
Joe Bowers	2
Alaska	1
Undine	1
Brooks Bros	1
Total from Silver City	51

CONCENTRATES FOR SEPT.

In addition to the above the two mills of the district now in operation sent out the following consignment of concentrates for September:

	Carloads.
Eureka Hill mill	17
Mammoth mill	7
Total concentrates	24

BULLION FOR SEPTEMBER.

Mammoth mill, 5 bars.

MINING NOTES.

Silver advanced today to 63½.

The shaft of the El Rey at Tintic is now down 500 feet.

Victor M. Clement is expected home from Mexico next week.

The Mammoth of Tintic had five cars of ore on the market today.

The Taylor-Brunton sampler reported seven cars of ore from Tintic today.

R. G. Wilson has gone to Tintic to look over his interests in that camp.

The West Argent of Stockton reached the market today with a car of lead ore.

The Eureka Hill was on the market today with five cars of concentrates.

It was expected that two cars of ore from the Yankee Con. would be sold this afternoon.

The Conklin sampler reported five cars of ore from Tintic and one from Stockton today.

Vice President John Dern of the Consolidated Mercur company is expected home on Friday next.

Col. George W. E. Dorsey was out to Bingham yesterday inspecting some of his mining interests.

Two shifts are employed in driving the main tunnel at the Eutonia mine in the Erickson district.

H. C. Snyder, one of the owners of the Snyder group at Bingham, came in from the camp last evening.

Bad roads have delayed the last shipment from the Utah at Fish Springs. The annual meeting will occur on the 9th inst.

H. C. Brownlee of the Mining Review, is back, after a short business trip to the East, and reports politics occupying people's attention.

F. A. Virtue has transferred the Charles A. Dana patented mining claim to the Copperfield Mining company, for a consideration of $3,000.

The Bullion-Beck has cut through a body of 14 ounce quartz on the 500 level under the Muldoon ore chute. Drifting has been started on this chute.

The Homestake of Alta has an eight-ton shipment of ore at the sampler. Ore is said to be exposed in the shaft which assays 57 per cent lead, 31 ounces silver and $2.80 in gold per ton.

Mr. P. T. Farnsworth said today that there is scarcely a doubt now that he will exercise his option on the Dalton and Lark property at Bingham.

Col. S. B. Milner will visit the Petro at Bingham tomorrow. The ore has not been encountered where the rock softened and water entered a few days ago. Hard rock is now encountered.

PRICES DOWN A FRACTION.

Realizing Movement of Yesterday Affected Stocks to Some Extent.

Some Rose a Point or So—Sugar Runs Off—Market for Active List Somewhat Lower.

New York, Oct. 2.—The realizing movement which set in yesterday afternoon was still in evidence at the opening today and carried prices generally down a fraction. About half a dozen stocks, members of the various groups, rose a point or so after the opening but their movement had no notable effect on the general list. Sugar then ran off to 1.17 and nearly everything else reacted in sympathy. C. C. C. & St. L. common and preferred advanced on continued gossip of absorption by the New York Central. The latter rose 1¼, Canadian Pacific 1⅜, and Lake Erie & Western 3. The Vanderbilt stocks rose strongly on very light dealings. The market for the active stocks was generally lower, but there was no pressure of stocks.

There was no support left for prices during the last hour and the very light selling pressure was sufficient to force prices down by gradual stages. The Baltimore & Ohio stocks, Union Pacific, Rock Island and a number of the most prominent specialties reached a decline of 1 to 1½ and Tennessee coal fell 2½ from the best. The closing was very dull and heavy and net changes were mostly losses.

Bonds showed general strength.
