UTAH WEATHER AND CROPS.

Fine Hot Days Followed by Showers and Cooler Weather—Harvesting and Threshing Under Way.

SALT LAKE CITY, Utah, Aug. 18th, 1896.—The first five days of the week ending August 17th, were hot and dry; the last two showery and much cooler. The conditions were favorable for growth, harvesting, threshing and general farm work. Harvesting continues in all districts, and in the southern portion of the State threshing has been vigorously pushed during the week. The yield is reported uniformly light in Washington and portions of Sanpete counties, owing to drouth early in the season. Haying is well under way and a good crop of timothy and wild hay has been cured and stored in fine condition. The second cutting of lucern is in full blast, with indications of a fair crop. Corn and potatoes doing well. Vegetables of all kinds plentiful; fruit promises not very good.

REMARKS BY CORRESPONDENTS.

Brigham City—Hot days, partly cloudy most of the week. Thunderstorm night of the 12th. Wheat harvest nearly ended; a good second crop of lucern is being gathered. The weather was favorable for growing crops and general farm work.

Meadow—Weather hot and dry; maximum 95, minimum 39; trace of rain.

Tooele—Week of extra hot weather ended last night in a thunderstorm and slight rain. Grain ripens in drying weather; some of the best patches of lucerne I have ever seen; some small fruits have done well. A thunderstorm on I close this report but no rain yet.

Manila—Second crop of lucern being cut; the yield is nearly an average, oats and barley the same.

Peoa—Crops looking well; most all the first crop of lucern cut and stacked; the hay crop is above the average.

Santaquin—Threshing about finished; lucern nearly all cut again.

St. George—Threshing being pushed; yield below average, especially wheat, much of which is badly shrunk by drouth.

Snowville—Harvesting in full blast; reports say all in; second crop of lucern in blossom.

Portage — Very hot; everything burning up; maximum, 100; minimum, 70.

Lake Shore—Threshing has commenced; very heating grain; irrigating sugar beets for the last time; other crops doing well; weather hot, thunder showers Saturday and Sunday.

Paterson—Past week has been very hot and oppressive; both men and team in the hay field. The tomato is in the field. Grain difficult to cut on account of being badly lodged.

Hatchville—The week has been quite favorable for hay and grain hauling and gathering of fruits, and now for threshing which is now fairly on the way. Second crop of lucern about all cut and hauled.

Newton—Last week's weather very trouble to get water. Nine hundred running every day besides a number of sinkers; no threshing yet.

Cache Junction—The past week very warm during the day; cloudy and windy during the evening.

Hooper—Another week of hot, dry, sunshiny favorable weather; good for the hay harvest. Grain cutting has commenced. Chasteen has five machines cutting grain. The hot weather is ripening the grain all at once nearly. Sunday night's refreshing shower of .15 of an inch fell.

Spring City—Last week was the hottest this year and here, Sunday evening had a light shower or rain. Crops doing well, grain being harvested, fruit crop light.

Payson—Second crop of lucern coming in; cloudy and cooler yesterday; some thunder showers Saturday; farmers are through irrigating.

Charville—A favorable week for haying. Vegetation drying up. Thunder and lightning but only a light sprinkle of rain.

Lehi—Our hottest week. Grain cutting first crop; second cutting of lucern getting along in good condition.

Hinckville—Cutting of the second crop of lucern commenced. Timothy and wild hay has been cured in good condition; heavy crop. Spring grain is getting ripe.

Center—No fault to find with weather for farmers; it is very hot and all points to thunderstorm; crops doing well.

Marion—The week has been very good for haying. Cutting and hauling of wild hay and second crop of lucern has made good progress. Wheat harvesting has commenced. Wild hay a good crop. On the afternoon of 15th and a heavy rain or hail an hour amounting to .37 of an inch, causing the water to come down in torrents from the hills north of Moroni, no damage.

Kanosh—Weather hot and dry; too much trying to run but somewhere near sufficient. Water supply for irrigation small. Second crop of lucern wilting for want of water.

Joseph—Past week has been a success for heat; cutting wheat commenced.

Uinta—Another week of intense heat. People in the lower valleys are begging for water; those that succeed in higher lands. Harvesting is about over, and threshing are commencing.

Thistle—Weather hot and dry with wind toward evening. Crops all looking well; hay crop very heavy; grain ripening fast; potatoes good on light field.

Plute—Grain is maturing fast; harvesting has commenced; other crops doing well where there is moisture enough; water is low; light touch of frost on night of the 9th; no damage.

Levan—A hot and dry week, but favorable for the work in hand. Wheat mostly harvested, and much cutting and stacked. Corn and potatoes look well. Thunder every day but no rain.

Leyton—The weather remains hot and dry. Nearly all crops have been all in stack; threshing is fast blast.

Holden—Another week of fine warm and dry weather; thunder and lightning but no rain. Second crop of lucern most all in; over an average crop. Grain light. The prospects for early weather, and with the second crop farmers from putting in much grain, consequently are empty in chart.

Delta—In the month of grain and lucern harvest; yield very light; good light storms and much wind. Corn and potatoes doing well. A very hot week. J. H. SMITH

Observer and metric director, Salt Lake City, Utah.

LOCAL MISCELLANY.

Mr. A. L. Armstrong, an old druggist, and a prominent citizen of the Keystone State, says, "I sell several very different kinds of cough remedies, but have never in my experience sold as much of any one article as I have of *Bullock's Horehound Syrup*. All who use it say it is the most perfect remedy for Coughs, Cold, Consumption, and all diseases of the Throat and Lungs. They have ever tried." It is a specific for Croup and Whooping Cough. I will relieve a Cough in one minute. Contains no opiates. Sold by E. C. M. I. Drug Store.

Gallup's Tutti Liniment.

This wonderful Liniment is known from the Atlantic to the Pacific, and from the Lakes to the Gulf. It is the best remedy for sale by Druggists in the world. It will cure Rheumatism, Toothache, Corns, Bunions, Bruises, Weights, Old Sores, Burns, Scalds, Sore Throat, Sore Chest and all Inflammation, after all others have failed. It will cure Barbed Wire Cuts, and heal a wound worse than Sun has set in. It is equally efficient for animals. Try it once you will not be without it. Price 50 cents. Sold by E. C. M. I. Drug Store.

A Sound Liver Makes a Well Man.

Are you dullish, Constipated or troubled with Sick Headache? If so, beware, Bad Taste in Mouth, Foul Breath, Coated Tongue, Dyspepsia, Lassitude, Hot Dry Skin, Pain in Shoulder Blades, Sallow Complexion and Fever, etc. If you have any of these symptoms, your Liver is out of order, and should be put right at once, lest poisoned, because your Liver does not act properly. UNIVERSITY OF UTAH

And State Normal School, Salt Lake City.

The next scholastic year will begin September 15th.

The following courses are provided:

1. Course in General Science.
2. Course in Liberal Arts.
3. Course in Mining Engineering.
4. Advanced Normal Course.

Both of the latter courses, besides a baccalaureate degree; the Normal Diploma, by practice of State law, exempts the holder from all examinations in the public schools of Utah.

A A Four Years' Normal Course leading to a certificate of graduation within exactly the same scope as teachers' examinations for a term of years.

A Preparatory Course leading to the collegiate course.

Tuition is free in all departments; the only charge for entrance is an annual registration fee of ten dollars. One hundred free scholarships are maintained in connection with the normal school; applications for appointment to such scholarships must be made to the state superintendent of public instruction, through their county superintendent.

Since the last academic year a thoroughly equipped training school has been established on the University grounds; a gymnasium and a normal training department have been added.

Entrance examinations must be held at the home of the applicants, under the supervision of the county superintendent; graduates of accredited schools only be admitted without examination.

For catalogues and other information address Dr. J. T. Talmage, President of the University, or the undersigned.

D. H. ALLEN,
Secretary University of Utah, Salt Lake City.

Gladness Comes

With a better understanding of the physical laws that govern our bodies and the which sustain them proper health—gentle efforts—pleasant effects—tightly drawn. It is confined to the intelligent that so many excellent laxatives are sold due to our action of the stomach, liver and bowels, and to every form of disease, that to the one remedy which possesses the combination without detracting the pleasant effects of the laxative, is to be found in California Fig Syrup Co. only and sold by all reputable druggists.

If in the opinion of any of your health and the system is normal, tonics or other remedies are then not needed. If affected with any actual disease, you may be convinced to try the best and genuine, not to be imitated, if in spite of a longtime, one cannot have the best, and with the well-informed, it is the only one every Fig syrup is sold and sold by all reputable druggists.
