AMERICAN.

Commercial Report.

NEW YORK, 18.—Following is the report of the condition of trade here for the week ending to-day: The general business has been good during the week, and the movement of merchandise of all kinds has been extensive. The number of buyers in the various markets is very large, and there is widespread anticipation of an active, healthy trade for the fall and winter. Money continues easy, and clearing house exchanges show a large increase for New York over the corresponding month of last year, while outside of that city, strange to say, there is a slight falling off.

A more active business is doing in the dry goods trade, but it is more with jobbers than with commission houses. Buyers from large distributing points South and West are here in force making their fall purchases. The small package trade is noticeably brisk from all sections of the country. Cotton and woolen domestic goods are firm in prices and in somewhat better demand than last week. The condition of this interest is satisfactory.

The market for wheat has been quite steady, with a slight easing off toward the end of the week, and closing moderate.

Corn has been somewhat unsettled and prices have declined. Operators seem disinclined to take hold.

Oats have been the leading feature of the market. August deliveries have fluctuated considerably within the range of 3 to 5 cents per bushel, and the market closes quiet. Strongest something below the prices of a week ago.

In the lard and pork products fresh lard has been in very fair request for export, but the general tendency of the market has been downward. Prices in all descriptions of pork products have somewhat declined and the market closes easy with speculators not much inclined to operate.

Transactions in cotton for the week have been dull and moderate in amount. The prices are quiet with fluctuations within the range of 5 to 7 points, the widest range being in August deliveries. Later months have been very steady.

Stocks of wool are generally accumulating and choice selections are in fair request. Prices are fairly well maintained, otherwise nothing of interest.

The petroleum market has been comparatively quiet with fluctuations within a very narrow range and the volume of business is quite moderate.

In freights, owing to the lack of tonnage, grain room has advanced so much as to restrict shipments. This applies to petroleum as well as other descriptions. Rates are high and the volume of business moderate.

In the tea trade there is nothing to note. Business is dull and values are somewhat irregular.

Transactions except for small immediate supplies are insignificant. There is a fair inquiry for raw sugar, and the price of fair refining is quoted at about 7 3-17, though it is thought concessions to induce business have really put the price lower. Refined sugars are in small demand at prices a shade less firm. Ordinary cargoes of Rio are quoted at 8¼ to 8½, but business is quiet, without any large transactions.

Low qualities of coffee are in plentiful supply, and prices favor buyers. Mild coffees are in steady, light demand, at regular rates.

The receipts of butter are moderate, and about sufficient to supply the local trade requirements. Creamery is quoted at 28c. Speculative transactions are light and small concessions are being made to induce sales.

In cheese the market is dull, with little improvement noticeable. Shippers are disinclined to pay the quoted rate of 11½ cents as the price for fancy lots.

The boot and shoe trade is satisfactory and there is considerable receipt of large orders with good prices. Jobbing houses report an increasing trade and are crowded with orders. The demand this year is for the best kind of goods, and poor and cheap work seems to be neglected. The leather trade is active in all lines. Prices are firm and stocks light, and just about enough to supply current demands.

Prices of American pig iron continue firm, although transactions are not large. Deliveries on old contracts are rather heavy, which prevents any large accumulation of stock. In Scotch pig there is very little doing and a light business is reported in new and old rails.

POLITICAL.

Greenbackers Convention.

BOSTON, 18.—The State greenback convention met, organized and adjourned till afternoon.

AFTERNOON SESSION.

The greenback convention proceeded to ballot for nominee for governor with the following result: whole number of votes, 160; necessary for choice, 74. B. F. Butler, 67; Judge Israel W. Andrews, 65; John M. Devine, 37.

The name of Devine was withdrawn and the second ballot resulted as follows: Whole number of votes, 136; necessary for choice, 69; B. F. Butler 68; Judge Andrews 46; John M. Devine, 14; Horace B. Sargent, 10. Gen. Butler was declared nominated.

After the nomination of Butler the following were nominated: Lieutenant-Governor, Dalton of Springfield; Secretary of State, John Hawes, of Worcester; Treasurer, Geo. Foster; Rgms, Attorney-General, E. A. Crow; Auditor, Augustus F. Merchant, of Leverett. Power was given the State Central Committee to fill vacancies that may occur on the State ticket. Resolutions passed that the Greenbackers in Maine should support Governor Plaisted. Adjourned.

The resolutions state that while old political parties ridicule greenback principles, they are adopting them from time to time. Among the principles thus adopted, the policy of destroying greenbacks has been changed to issuing them. Silver, which was demonetized secretly, has been publicly restored to its former place.

Our declaration that the only weakness manifested by our opponents is in the back for the trouble or dupes or money power, has been proved true by the action of John Sherman, Secretary of the Treasury, who, upon his own authority, removed the greatest of these obstacles and brought greenbacks to a premium over gold and silver coin. Our position that the government should retain for itself the option of paying its bonded debt whenever it had money to do so, instead of funding it into long-time bonds, is rapidly becoming the position of the intelligent masses of our people.

The resolutions further demand that a check be put upon the power of wealth; that the national debt be paid as rapidly as the revenues will allow it, and if refunded, that it be made payable on option; that the government issue all money, metallic or paper, and make it a full legal tender; abolish the national banks as banks of issue; that no one be allowed to monopolize air, light or water; that all citizens be allowed the ballot on equal taxation; equal taxation against property a qualification for suffrage; favors eight hours as a day's labor, and the arbitration of disputes between employer and employee, and they are against convict contract labor.

The resolutions conclude that as American we deplore the arbitrary imprisonment and illegal detention of our citizens in British bastiles, and deplore our continued misrepresentation at the Court of St. James by a Minister who sanctions the illegal conduct of the British Government.

Nominations.

KALAMAZOO, Mich., 18.—The republicans of the Fourth District have nominated J. C. Burrows for the fourth term to Congress.

Newton, N. J., 18.—Henry S. Harris, democrat, was nominated in the Fourth Congressional District.

Sedalia, 18.—The democrats of the Sixth District to-day nominated John Cosgrove for Congress on the 310th ballot.

Winnamac, Ind., 18.—The republicans of the Ninth Congressional Convention nominated Mark L. Dematt.

Little Rock, Ark., 18.—At Camden to-day Congressman James K. Jones was renominated by the Second District democratic Convention.

Richmond, Va., 18.—The Readjusters-republican Coalition Convention of the fourth district nominated B. S. Hooper (republican) for Congress. A letter from Joseph Jorgensen was read, charging gross frauds in the primaries, the details of which he will submit in the near future to the republican voters of his district.

Fredericksburg, 18.—Robert M. Mayo was nominated for Congress in the first district by the Coalition Convention of republicans and readjusters.

Alexandria, Va., 18.—The Readjusters' Convention of the eighth district nominated R. H. Farr for Congress.

Richmond, 18.—Geo. D. Wise was nominated for Congress by the democrats of the third district. The readjuster republican coalition convention nominated J. B. Owen for Congress from the ninth district. He is a son of ex-Congressman B. Owen of the same section.

U. S. Land Circular.

WASHINGTON, 18.—From the Interior Department a circular has been issued to registers and receivers of the United States Land office, calling attention to a provision in the sundry civil service bill, restricting the application of certificates of deposit issued on account of surveys to land situated in the district embracing townships, the surveying of which is paid for out of such deposit. When this provision was put in the bill it was after a hard fight, the discussion showing that the old law, which permitted the application of these certificates to the taking up of land anywhere in the public domain had been subservient of abuse, and that they had been swindled out of hundreds of thousands of dollars by persons who had deposited money for little or no value and then used the certificates of deposit to take up valuable land in their section of the country. It is now claimed owing to an error in the bill which makes it an amendment to section 24, volume 8, instead of section 2401 of the revised statutes, that the law will be declared inoperative. Assistant Secretary Joslyn, who caused the issue of circulars mentioned above, claims that an error in the bill does not militate against its application in the direction intended, but the matter is to be laid before Secretary Teller on his return and it is thought he will decide against the Assistant Secretary and rule that the law is involved. It is known that he opposes the provision of the bill in question.

Ku Kluxed Negroes.

LITTLE ROCK, Ark., 18.—In response to an appeal for aid from Bethune and Smith on the Springfield & Memphis railroad, stating that their negro laborers had been hab been frightened from work by threats of death from a white mob disguised as Ku-Klux, Governor Churchill telegraphed the sheriff of Craighead county to investigate and protect the laborers. No further particulars received.

De Freycinet on the War.

NEW YORK, 18.—The *Herald's* Paris special says: A correspondent of *La Petite Marseillais* professes to have had an important interview with De Freycinet, in the course of which the ex-President of the Council is reported to have said that he believed the Egyptian question would be speedily settled by England, thanks to the assistance she would receive from the Sultan and the powerful Sheik El Lanoussix. De Freycinet speaks confidentally of Alexandria again becoming the rival of Marseilles, and expresses the opinion that France will do well after the restoration, to bring about an amicable understanding between England and Turkey, and also endeavor to get that feeling in the Red Sea and Abyssinia, though, he says, he is skeptical as to the policy of international friendship generally. He thinks the policy of egotism on the whole is best for the nations now-a-days. He advocates a parallel alliance of the Latin races. In conclusion he doubts whether Bismarck has cause to be delighted with the result of the Egyptian policy.

Indian Rumors.

TUCSON, A. T., 18.—The *Star* special advices from San Carlos say that S. B. Wilcox, the newly appointed Indian agent, has refused to assume charge as he found affairs in a frightfully confused condition. The commissary and sub-agent have suddenly turned up missing. The evidence of gross fraud and peculation under the Selfany administration is alleged to be overwhelming. The Tonto Apaches are very restless. Last Friday night they had prepared to make a break, but one of their squaws gave the whites warning, and the Mohave Apaches, who are the enemies of the Tontos, armed themselves and turned out and prevented trouble.

Iowa Press Excursion.

DENVER, 18.—The Iowa State Press Association of 150 arrived this morning and spent the day at the Exposition. They were much pleased with the exhibits. They were met by a delegation of the Leadville press, and will go to Leadville to-morrow to spend Sunday.

Death's Doings.

SAN FRANCISCO, 18.—A Portland, Oregon dispatch to-day says: Mrs Mary Petch, while driving along the highway, with her son, in Yamhill County, was shot in the back and instantly killed. The deceased had some difficulty some time ago with a neighbor named Smith, who is accused with the deed. A few weeks since Mr. Petch was shot at by a concealed party, but missed. Intense excitement prevails.

Chicago, 18.—A serious collision between two freight trains, one following the other, on the Illinois Central railroad, occurred at the crossing of that road and the Michigan Central, south of here, this morning. The engine, caboose and about twenty-five freight cars were smashed. An unknown man asleep in the caboose was fatally hurt.

Little Rock, Ark., 18.—This afternoon a gravel train on the Iron Mountain road was ditched near Benton. The locomotive and fifteen cars are a total wreck, and Conductor Mogart is killed.

Central City, Col., 18.—A miner named John Corroll was instantly killed in the Bobtail mine this afternoon, by a mass of falling rock. Another miner named George Tuttle was badly injured by falling down a shaft in the Dunkirk mine.

Boulder, Col., 18.—The body of James Barter was found floating in Cane's Lake this morning. It is supposed he was accidentally drowned. He has been missing since Saturday.

Strikers.

PITTSBURG, 18.—It is reported on reliable authority that one of the Amalgamated Association lodges, at a meeting last night, after a very heated session, passed a resolution to submit the old scale to manufacturers for their signatures, provided the President of the lodge would give his consent. If the report is true, this will have an important bearing on the strike.

Pittsburg, 18.—The most important break yet in the ranks of the striking miners took place to-day, when 60 miners left the strikers, and proceeded to the works of the Mansfield Coal and Coke Company, and offered their services at the three and a half rate. This is regarded by operators as a forerunner of a general break which will follow in a few days and end the strike.

Cumberland, Md., 18.—About forty old miners of the Georges Creek Company applied for tools, having concluded to resume work on the company' terms. A number of the American Company's miners immediately followed, and the men of other mines are expected to resume to-morrow.

Bloomington, Ill., 18.—In consequence of a reduction in the hours of labor from 10 to 9 hours a day, nearly all the laborers in the Chicago & Alton machine shops quit work to-day. They ask an advance of ten per cent, in order to make the wages the same as before the reduction.

The Wampanoag mills at Falls River, Mass., have closed on account of a strike yesterday.

The spinners of the Westamoe mill struck yesterday owing to dissatisfaction with their work and wages.

One hundred and eighty weavers are at work in the Harmony mills, New York under a ten per cent. reduction.

It is likely that the strike of the driver boys and runners of the Lehigh and Wilkesbarre companies will become general.

FOREIGN.

THE WAR IN EGYPT.

The Situation at Alexandria.

ALEXANDRIA, 18.—A naval council of war was held on Thursday on the *Helicon*.

Arabi Pasha is said to have 100 guns in position at Kafr el Dwar. The English staff credits him with 80 at the least.

The whole expedition is ready to start in the morning. The destination is still uncertain.

The Arab shiek Obedallah, chief of the Kurd tribes, has disappeared, and the government is endeavoring to ascertain his whereabouts.

There is reason to believe that the censorship of press telegrams will be changed for the German system of making correspondents personally responsible and allowing them to send what they wish.

The enemy seems content with his entrenchments, doing little or nothing to improve them. Rebel official returns state that their forces number 36,000 regulars, 38,000 militia and 50,000 armed Bedouins. They claim to have 25,000 men at Kafr el Dwar. These numbers of course are greatly exaggerated, but show the tone of confidence adopted by the native party.

The transports *Orient*, *Capella*, *Palmyra* and *Iberia* left the harbor to-day; also, another steamer with railway wagons, rails and engineer for Ismalia. Men and stores were landed to-day from the *Oronles*. Guardsmen with their horses have gone to sea on board the transports *Britania*, *Orient* and *Iberia*. The greatest secrecy exists in regard to the destination of the transports.

The British iron-clads, with Egyptian and Foreign men-of-war here, fired salutes to-day in honor of the birthday of Francis Joseph of Austria.

The blue jackets from the flagship Inconstant mounted a seven-inch gun at Ramleh.

No Mules or Oxen Wanted.

CONSTANTINOPLE, 18.—The communications of Lord Dufferin with the Porte the last few days referred to the transportation of mules and oxen to Egypt, which, it is reported, the Porte is inclined to prohibit from the Turkish dominions.

Resigned.

Said Pasha, Turkish Premier and Minister of Foreign Affairs, and the principal representative of the Porte at the Conference, has resigned the office of Prime Minister.

Concessions.

Constantinople, 18.—Lord Dufferin, the British Ambassador, in an interview to-day, said he understood he was authorized to make concessions, if necessary, in regard to some of the terms of the military convention, without altering the leading principles of agreement.

Troops have been ordered to pursue Arabi Sheik Obedallah, who it has been ascertained, has fled into Kurdistan.

Countermanded.

London, 18.—The *Post* understands that the Porte has countermanded the military preparations for an expedition to Egypt, and declines to accept the British conditions for a military convention.

Murdered.

Mr. Joyce and his family of three, were murdered at home in County Galway, by a party of men. He was believed to be an informer.

Troops for Ireland.

Six hundred men of the army reserve have been ordered to Ireland, to replace the troops taken from there which were sent to Egypt.

Transports.

Woolwich, 18.—The steamer *Shelling* has sailed with a quantity of railway plant for Port Said.

London 18.—The storeship *Wye* left Cyprus to-day for Alexandria with 150 sailors on board to reinforce the British fleet.

Malta, 18.—The German corvette *Nymphe* and the British transport *California*, the latter with a company of engineers, have arrived.

Infernal Machine.

Vienna, 18.—A dispatch from Trieste says: The Lloyd steamer that arrived to-day from Venice had on board a box, which was opened by the police and found to contain bombs and petards, also documents praying that the torch-light procession last night in celebration of the Emperor's birthday was intended to be made the occasion for further outrages. Previous to opening the box the consignee was arrested.

Commission Forfeited.

City of Mexico, 18.—An official decree declaring the forfeiture of the Tehuantepec Railroad Commission has been published. One hundred thousand dollars, placed by the company on deposit as a guarantee, will be transferred to the Mexican Treasury.

The Peruvian War.

Buenos Ayres, 18.—Advices from Chili state that several skirmishes occurred between the Chilians and Peruvians, in all of which the former were victorious except in one instance, where 75 Chilians were attacked by 2,000 Peruvians, and refusing to surrender all perished.
