AMERICAN.

The Yellowstone Park

WASHINGTON, 2.—In the contract signed to-day by the Acting Secretary of the Interior, providing for the leasing of certain portions of the Yellowstone Park, it is provided that the rental shall not exceed $2 per acre, and that a failure to pay the rent or to renew the lease at the expiration of a term of ten years shall cause the property of the lessees to revert to the United States, and the government shall make compensation therefor as may be agreed upon by Congress. The lessees are privileged to cut timber for telegraph poles and fuel, and they are also granted such favorable land in the reservation as they may need for the raising of such vegetables and forage as they may use for visitors to the park. The contract expressly stipulates that no member or delegate to Congress or officer or agent of the government shall have any interest in the park.

Frost Warnings.

The chief signal officers of the army has issued the following important notice: A system of warnings for frosts, which threaten the tobacco growing sections of the United States will begin September 1st and continue until November 1st, or until a killing frost has occurred. When a frost is anticipated in any district, notification will be telegraphed from this office, if possible, 48 hours in advance. The telegram will define as clearly as practicable the region where the frost is anticipated and state the time it may be expected. The telegrams will be sent to the different centres according to the schedule deposited in the telegraph divisions, and indications from, and addressed, to centres where there are stations of signal service to the observer in charge, and at the other centres to the managers of the Western Union Telegraph Company. The lists will be modified as occasion renders it necessary. Officers charged with official duties will take necessary action.

Sergeant Mason.

Mr. Bigelow, Sergeant Mason's counsel, intends soon to apply for a writ of habeas corpus in the United States District Court for the Northern District of New York, if his client is not released upon Judge Advocate General Swaim's opinion recently submitted to the Secretary of War. General Swaim in this opinion holds that the court martial had no jurisdiction to try Mason, and there is no evidence in the case to show that Mason committed the offence charged against him. One of Bigelow's arguments charged in the petition for the writ will be that the Secretary of War has no judicial authority to overrule the opinion of the Judge Advocate General.

All the Same.

Acting Secretary of the Treasury French has rendered a decision that Chinese merchants residing in the United States, who go to China, are required under the laws, to obtain a certificate from their own Government and an order to return to this country just the same as Chinese merchants coming here for the first time.

Redemption of Bonds.

At the close of business to-day, United States called bonds had been redeemed at the Treasury as follows: under the respective calls:

Call.	Amount.	Call.	Amount.
108th.....	$19,850,350	109th.....	$4,788 350
110th.....	4,563,050	111th.....	4,7-8,300
110th.....	4,561,050	111th.....	4,286,000
122nd.....	13,283,400	118th.....	10,476,550
114th.....	13,189,500		

Knight Revelations.

ST. LOUIS, 2.—There are some damaging revelations regarding the order of the Knights of the Golden Rule. It is said the order is $60,000 indebt, and quite liable to fall to pieces, and it is understood that charges will be preferred against some of the supreme officers.

Formidable Preparations.

Colonel Swinley, of the English Royal Artillery, purchased in this market to-day 500 mules, for service in Egypt. They range from five to nine years of age, and from fourteen to fifteen hands high, and are pronounced by Colonel Swinley and Dr. Cox, his veterinary surgeon, the finest mules they ever saw. This is the only purchase so far made in this country. They will be sent by rail at once to New York, whence they will go direct to Alexandria by steamer.

Sanguinary Gulldsrivers.

RICHMOND, Va., 2.—The newspaper war between C. O. Cowardin, editor of the *Dispatch*, and W. C. Elam, editor of the *Whig*, is so violent that the former has been arrested on the charge of being about to fight a duel. A warrant is out for Elam.

Yellow Fever.

PHILADELPHIA, 2.—There were six cases and two deaths from yellow fever in the Danish bark *Maoae* which is in quarantine.

Brownsville, 2.-To-day there were 102 new cases and five deaths, all Mexicans. Many Americans are dangerously sick. Dr. Murray and force are doing good service. The fever is abating in Matamoras. There are four deaths and no new cases at Fort Brown. The weather is cloudy with slight northwest winds.

Promotion.

CHICAGO, 2.—George A. Sanderson, who has been general agent of the Denver & Rio Grande Railroad in this city for two years, was appointed general freight and passenger agent of the Palmer Sullivan system in Mexico, consisting of the Mexican National and Texas Mexican line, with headquarters at Monterey.

Fires.

CAIRO, Ill., 2.—A fire at Harrisburg, Saline County, last night, destroyed several stores; loss about $20,000. The fire is supposed to be incendiary.

Harrisburg, 2.—The puddling department of the Chesapeake road works was damaged by fire to the amount of $50,000; insured for $1,000 The men were out at the time.

The Fatal Frog.

CHEYENNE, 2.—Yardmaster Geo. Stevens, was killed this morning by the yard engine, and his body frightfully mangled. The cause of the accident was the foot of the deceased got caught in a frog.

The Strikers.

PITTSBURG 2.—After a meeting of the Amalgamated Association to-night, a few members were seen them it was learned that a majority of the delegates appointed to the district meeting, were generally in favor of a continuation of the strike.

A Case for Lynch Law.

OMAHA, 2.—Mrs. Copeland, aged 54, living near Omaha, Neb., was to-day raped by a negro named Cloyd, who was employed on her husband's farm. Mrs. Copeland was brutally treated and may not recover owing to her poor health. Cloyd was pursued and arrested. He was given a preliminary examination, and is now in jail. There is strong talk of lynching him.

Prest. Arthur.

PROVIDENCE, 2.—Prest. Arthur was received at Squantum by a salute of 21 guns by a section of the Providence marine corps artillery. At a quarter past four the presidential party took the train for Providence. At the City Hall the mayor held a reception, and for one hour the President was engaged in shaking hands with the people. In the evening the party returned to New York. To morrow the President leaves for Nantucket and Boston.

New York, 2.—Prest. Arthur remained on board the *Despatch* all night.

FOREIGN.

LATEST FROM THE SEAT OF WAR.

30,000 Tripolitan Horsemen.

CONSTANTINOPLE, 2.—The Porte has been informed that 30,000 horsemen from the interior of Triboli are proceeding to Egypt and he has ordered the Turkish authorities to intercept the men on their passage.

Vultures.

Kassassin, 2.—A wounded Arab officer states that hardly had the British Cavalry swept through the Arab ranks in the fight here recently when a horde of Bedouins poured in and began to strip and rob the dead and wounded of both sides, killing any of the wounded who were unable to resist.

Farmers.

Col. Tulloch is trying to win the confidence of the peasants, one of whom has brought in over 100 sheep and sold them to the army. Many of the prisoners are simple farmers, and several of them have been released and invited to come with vegetables and establish a regular market.

6,000 Gone.

Alexandria, 2.—A correspondent visited Meks Saturday and found work on the entrenchments there had ceased, and that about 6,000 of the enemy had been withdrawn.

The shelling by the *Minataer* was against a force of infantry and cavalry, which were drawn out by a reconnoisance of the British mounted infantry.

Water Supply.

Ismailia, 2.—The engineers have overcome the difficulty of getting water by digging holes in the sand by the side of the canal. The water when filtered through the sand is fairly clear.

Another Camp.

The camp at Mahmoud has been raised because of bad odors.

Another camp has been formed two miles further on.

Irregulars in Front.

The Egyptian engineer who was found wounded after lying forty-eight hours on the Kassassin battle ground, stated that Arabi Pasha informed the men who participated in that fight that there were only two weak British regiments at the front, and there was plenty of time to drive the Christians into the sea. The officer thinks that Arabi's army is utterly demoralized. He says the Egyptian Generals invariably place their irregulars in front, in order that the regulars may fire upon them if they show cowardice. This statement is confirmed by what has been seen and by the fact that almost all the prisoners in the hands of the British are irregulars. The Egyptians had advanced their post between Kassassin an Tel-El Kober, but it was stated in camp to-day that their troops had been withdrawn by Arabi. The British are taking supplies, but everything is paid for. Arabi Pasha's line extends from El Karaim by Kishlah to Tel El Kebir. His position has been thoroughly reconnoitered by the British cavalry.

Dangerous Work.

LONDON, 2.—A number of military surgeons have been sent to Italy, Smyrna and New York, to inspect the mules purchased for use in Egypt.

Russia and Austria.

VIENNA, 2.—It is stated that Count Von Walkenstein, the Austrian Ambassador at St. Petersburg, is charged with the establishment of an intimate understanding between Russia and Austria in regard to Eastern affairs. This statement has reference to rumors current some time ago concerning the projected visit of the Czar to foreign courts, and more particularly the court of Vienna.

English Strikers.

MANCHESTER, 2.—At a conference of miners held here to-day it was decided to demand an advance in wages, and if the increase was not obtained by October make a general stand for their terms throughout the kingdom.

It was recommended that political associations be formed among the miners with a view to supporting candidates for Parliament who are favorable to the changes sought by the miners in mining legislation. It was resolved to erect a marble statue in memory of McDonald in front of the Miners' Hall at Durham.

The Irish Constabulary.

Dublin, 2.—The strike now seems to be on the eve of settlement as the men who resigned sent a memorial to the Castle this evening expressing deep regret at their action and respectfully asking Lord Spencer to consider their case. Lord Spencer replied that if they returned to duty this evening their case would receive the fullest consideration. A number of the men returned to their posts and a large proportion of the night relief will follow on duty. This result has unquestionably saved the city from scenes of rioting as many special constables who have come forward have been utterly unable to cope with the disorder. Early this morning the Lord Mayor issued a proclamation thanking the citizens for their peaceful and orderly conduct, and stating that he had unshaken confidence in their patriotism and self-control. Altogether 700 special constables were sworn in during the day, but the resumption of duty by the regular police has obviated the necessity for their employment.

BRIEF TELEGRAMS.

There has been a heavy gale in England and Scotland, causing serious damage to crops.

An effort is making to remove Collector Haynes because he fled from Brownsville at the approach of the yellow fever.

A Dubuque special says: Griffith, the democratic candidate for Congress from that district, withdraws from the field.

At East Liverpool, Ohio, work has been resumed at four potteries at the old wages. The firms recognize the Knights of Labor.

Col. Charles R. Jones, the independent candidate for Congress in the Sixth District of North Carolina, has retired from the contest.

At Raleigh, North Carolina, Daniel E. Sherwood, for 17 years a route agent on the railroad, committed suicide on account of being discovered pilfering registered letters.

Mr. Eckfeet, of the U. S. Mint bureau, has gone to Carson City to investigate the charges made against Superintendent Crawford, of the Carson City Mint, by a discharged employee.

Chamberlain, president of the London Board of Trade, Wilkie Collins, and John Bright, have joined the committee which proposes to place a bust of Longfellow in Westminister Abbey.

The first copper smelter is being erected in the new copper camp near Fort Laramie. The ore runs from 25 to 80 per cent. in copper, and the supply is as large as the Lake Superior region.

SUNDAY SERVICES.

The regular Sunday services of the Church of Jesus Christ of Latter-day Saints were held in the Tabernacle, on Sunday, commencing at 2 p. m.

The choir sang:

Mortals awake! with angels join,
And chant the solemn lay.

Opening prayer by Bishop F. Kesler.

The choir sang:

O Lord of hosts, we now invoke,
Thy spirit most divine.

The Sacrament was administered by the Priesthood of the Eighteenth Ward.

Elder Joseph E. Taylor addressed the congregation. The Elders of the church appear before congregations to speak without any prepared discourses. They have consequently realized the need of being inspired by the Holy Spirit. Some in the congregation have come for the purpose of worshipping God in spirit and in truth, while others may have come from mere curiosity. Quite a number of people in the assemblage, are natives of distant nations, where they heard the latter-day Gospel message, believed and embraced it, left their former homes and came to what they believe to be the land of Zion. They have come to learn of the ways of God more fully, and associate with people who have the same views and faith. They have come to receive sacred ordinances pertaining to the future life. Most of them have made sacrifices, broken asunder ties of kindred and affection, that they might hear the words of inspiration as they fall from the lips of the servants of the Lord. This has been because they have loved God better than father, mother or other cherished ties of kindred. Other sacrifices have been made which might be named, because their religious faith has been the absorbing theme of their lives. A true Latter-day Saint is entirely devoted to God and His cause on the earth. The Saints can only be taught by the power and inspiration of the Holy Ghost. No man, however high his position in the Church, can teach the things of God without that gift. Thousands of our Elders are sent to the nations of the earth to preach the simple principles of eternal life, to make plain to the simplest as well as the most powerful minds what God requires of them in this dispensation. The power by which they perform this duty is given of God. The most successful Elders are those who enjoy the greatest degree of that power. When the decrees of the Almighty are declared by the inspiration of God, those who reject the message thus conveyed do so at their own risk. They may not be condemned because of the rejection of the mere words of that man, but for the repudiation of the spirit by whose inspiration they are uttered.

Many in the congregation, as before stated, have been receivers of the message of the Gospel. It is a question that each should put to himself, as to what progress has been made in adopting the principles of righteousness in every day conduct. We make greater pretensions than the world, and our course of life should be consistent therewith. When we have been asked if we would renounce "Mormonism" (the Gospel) we have answered in the negative. We came out from the world and its evil practices. These things are now planted in the midst of the community. Shall we now be allured from the path of rectitude by such influences? We are menaced and threatened, and we feel it keenly. In a day to come those who have plotted against us in the pursuit of righteousness will not be forgotten. But our trust is in God. If our faith is not implicitly placed in Him we are not living our religion. We are numerically small and weak, but we have set out to serve God and redeem His Zion on this earth, willing to take any consequences that may ensue, never swerving from the course marked out by the truth. And the world will yet learn of the power and strength of that God who revealed Himself to His servant Joseph, in the defence of this people. It is written prophetically whomsoever shall fall upon this stone shall be broken in pieces, and on whomsoever this stone shall fall it shall grind them to powder."

The people of the world generally seem to measure happiness by this life alone; they aim to gratify their passions and ambitions, and scarcely ever think of the future, of which they know nothing and appear to care even less. The difficulty with them is that they will not listen to the voice of His Spirit speaking to their spirits. There are a great many Latter-day Saints who, if they comprehend anything, must have it brought down to such a point that they can understand it without any reasoning on their own part. The speaker illustrated his meaning by relating the Savior's return on the earth after His crucifixion, and the disbelief of Thomas until he had felt the imprints of the nails in His hands and feet, etc. If we have lost any of our confidence let us regain it. That man is most blessed who believes things because the Holy Ghost tells him they are true. Man possesses weaknesses which are not really sins, and when his body is laid in the grave, being weaknesses of the flesh, he will be purged of them.

President John Taylor said he wished to make a few remarks to the Latter-day Saints. We occupy a peculiar position on the earth, before the Almighty and the Holy Angels. We have been called upon to perform a work or labor in the interest of the principles of eternal truth as they exist in the bosom of God. We are called upon to establish the Church of Christ in opposition to error, crime and folly. We are called upon to form a nucleus to which the upright among men may gather and have an opportunity of listening to the words of life. We are called upon to proclaim those principles, God has revealed to enable the righteous to secure an inheritance among the Gods. The Gospel John saw an angel from the heavens proclaim is an everlasting system. It has always existed and will exist throughout eternity. Its ordinances and principles are different from those of the world. While the people of the world are looking merely to matters pertaining to time, the Saints are enabled to look into eternity by the spirit and power of inspiration. None knows anything of truth except as God has revealed it. Elders of the Church are called to go to the nations with the gospel proclamation. They may be moving in humble spheres or high ones, so far as the world in concerned; they may be uneducated or otherwise, they are enabled to tell their message by the gift of the Holy Ghost. They are governed by its inspiration and are the saviours of man. It is the same now as in former days. It makes no difference what their vocations are, when they go forth they are messengers of life. And it is not always the most educated that accomplish the greatest work. They call upon men to have faith in Christ, repent of their sins, be baptised for the remission of them and receive the Holy Ghost by the laying on of hands. People believe and come forward and receive these ordinances and obtain the Holy Ghost. This spirit takes of the things of God and shows them unto them and they are then born of God. Hundreds of Elders in this congregation can testify that when they have laid their hands upon baptized believers they have received the Holy Ghost. And this congregation as a whole can testify that the Holy Ghost has been bestowed in this way, for God has acknowledged the administrations of His servants. The Elders go and bear the contumely and contempt of the world, going with trembling and returning with rejoicing, bringing their sheaves with them. Those who receive the Gospel in the nations get the spirit of gathering and they come here by thousands. This gathering is not an immigration scheme as some have asserted, but is an effect of the proclamation of the Gospel of Christ. Those who have come here under these auspices are, many of them, sending tens of thousands of dollars to their friends abroad that they may come here also and enjoy the same blessings they have obtained.

We come out from world to learn to do the will of the Lord as it is done in heaven. We ought to be allowed to worship God according to the dictates of our consciences, but an effort is being made to prevent us. But God has given us a work to perform, and we will do it, He being our helper, and we will do good for evil. We will try to save those who seek to destroy us. We are building temples that we may administer ordinances not only for the living but also for the dead. We are operating not only for time but for eternity, in the interest of those who have lived as well as those who do live on the earth. The work of the Millennium will be to save the dead who have not heard or received the Gospel in this life. Our religion reaches back into eternity, and forward into eternity. Were it not for this, life would be comparatively worthless. The Constitution of our country provides that Congress shall make no law to annul the validity of contracts. If we have made eternal covenants we will keep them in time and eternity.

The choir sang the anthem "The king of glory."

Benediction by Elder George P. Gibbs.

TARRANT'S
SELTZER
APERIENT.
Fighting Fire with Fire. This may be good policy on a burning prairie, but it will not answer with the fevered human system. Irritating medicines exasperate and intensify all complaints of the stomach or the bowels. Never take a drastic evacuant for indigestion or constipation. Administer instead Tarrant's Seltzer Aperient, which is at once a febrifuge, a cathartic, and an invigorant, and has a soothing and healing effect upon the disordered viscera.
SOLD BY ALL DRUGGISTS.
