DETECTED AT LAST.

Deception Successfully Practiced Nine Years by a Spirit "Medium."

A DARK MYSTERY CLEARED UP.

The Predicament of Mrs. Roberts when Caught and Exposed to Light.

WATERTOWN, N. Y., May 2.—Mrs. Ella R. Roberts, the so-called materializing medium, was exposed to the credulous people here last night. She is not yet under arrest, and it is probable that she will escape that humiliation though the officers of the society talk of prosecuting her.

Mrs. Roberts was first heard of in Watertown three weeks ago. She at that time wrote F. R. Metterson, president of the Spiritualistic society, asking the privilege of giving a materializing seance. The matter was discussed and a week ago Friday night the seance was given before about fifty members of the society. It was not satisfactory to any present. The medium explained that it would be an exhausting if a wire cage was provided in which she was to be locked and which she alleged she could not escape except by supernatural means.

The cage was ready last night and a committee was on hand to lock the medium in the cage, and did so. It was an hour before anything more or even a change from the cabinet and then a white form floated atomic in from of the audience, which set in almost total darkness, and floated back behind the curtains. The form not scarcely disappeared behind the curtain when one of the committee who had crawled to the rear of the cabinet seized an arm and yelled "Turn up the lights."

Another member of the committee who had his hand covered with fresh ink painted the ghost on the cheek, leaving a beauty spot that was easy to recognize.

There was a general scramble and pandemonium reign in the hall. The lights were turned up and Mrs. Roberts stood in the midst of the audience in a condition so to speak, undressed, but a woman in the audience placed her a cloak. The medium's form was found after fifteen minutes, and the woman was left alone long enough to dress. She was then taken to a room to give an account of herself before the officers of the society. She acknowledged that she had been practicing the fraud for nine years, but declined to give any details.

FOXEY IN COURT.

The Trial is Set for Friday Morning.

WASHINGTON, May 2.—There was a curious crowd of people surrounding the district court today in the expectation of the trial of Browne and Jones. Only persons who could give some good reason for their presence were admitted to the court room. Among the earliest arrivals were Corey, Browne and Jones.

Attorney General Maloney, a smooth-faced, steel-haired young man, appeared as prosecutor of the Corey case, and announced "I have been informed that a man named Jacob B. Corey is in court, and after an investigation last night, I have thought myself warranted in filing an information against him. I have made out a warrant, but it will be willing to submit it to his counsel before I serve it upon him."

This was a surprise, and Corey spoke up "I am here and ready." Then he stepped forward to the bar and Attorney General Hymen said: "First, we ask whether all of the informations have been filed that the government intends to make out."

"That is not the question," replied the judge.

"Then the information charging Jacob B. Corey with unlawfully displaying a banner or device was read, and he replied, "Not guilty." The counsel elected to be tried by jury, and the hearing of the case was set for Friday morning.

AT THE CAMP.

Affairs at the camp of the army of the common weal were in a quiet state today. There were the officers in charge of the camp and requiring the presence of the large force of regulars and special policemen stationed in the vicinity of the camp. The common wealers have apparently settled themselves down to a temporary period of comparative inactivity.

A FINANCIAL BILL.

Changes Proposed in our Monetary System.

WASHINGTON, D. C., May 2.—Congressman Brookshire of Indiana introduced in the House today a bill providing for some comprehensive changes in our present financial system. The bill provides that no greenbacks shall be issued of a smaller denomination than $5; that and other coin-bearing bonds of the United States shall be issued in lieu of national bonds; shall be of a less denomination than $1000. That coin certificates shall be issued instead of silver certificates, and that the treasury notes issued under act of July, 1890.

The bill provides for the issue of coin certificates on all the gold and silver coin and gold bullion in the treasury in excess of $100,000,000 of gold, which is held as a reserve for the redemption of the greenbacks. The bill also provides for the issue of gold certificates on all of the silver seigniorage, bullion coinage, $1 for $71 grains of silver, and that it shall be the duty of the secretary of the treasury to cancel coin certificates in the amount of all the obligations of the United States, except such as may currently present in kind. Moreover the bill provides that the money of the two, and not silver, may deposit the same with the treasurer and sub-treasury of the United States in the form of their silver certificates issued, and receive gold certificates in lieu of the same.

Gold Goes to Europe.

WASHINGTON, May 2.—The Indications are that the usually exciting Friday gold loss at last set in. Advices at the treasury department show that about $1,500,000 in gold was shipped by the Teutonic today, and $1,000,000 has already been engaged for shipment next Saturday.

The treasury statement of today shows net cash on hand to the amount of $100,236,008. Treasury disbursements, however, will not appear in the daily statement until tomorrow, and when the engagements for Friday and Monday are added the balance will only be about $97,000,000. The cash balance today was $104,941,551.

OPEN RIOTS.

Two Anarchists Stabbed from Ambuscades.

CLEVELAND, O., May 2.—The disorders which began yesterday with the Hungary demonstration of the unemployed culminated today in open riots. There were three serious and bloody conflicts between the police and the rioters, and tonight the troops are under arms, ready to respond to a call in case of any emergency. The worst is believed to be over, however.

The trouble began before noon, when a mob of about 2,000 started to raid the factories on the flats and drive those were the men employed therein.

During the conflict two anarchists were leading a terrible struggle on their part. One of them, Thomas Meade, an old man, was clubbed into insensible and taken to the station in a patrol wagon, carrying the police and declaring that this was the happiest day of his life. The firmness of the police had a good effect for it resulted in scattering the rioters in all directions.

FORT WAYNE, Ind., May 2.—The trial of Editor Bidwell of the A. P. A. for criminal libel against Catholic officials came to an abrupt end. Attorney Robert C. Bell requested Judge O'Rourke to examine Juror Joseph H. Hood, who had been overheard declaring against the case. Witnesses were called, and Mrs. Smith stated that Juror Hood said: "I am better than eight priests. Priests are the other men; they make passions which they cannot control."

The judge dismissed the entire jury and postponed the case.

Central Pacific Affairs.

WASHINGTON, D. C., May 2.—Central Pacific affairs seemed to have occupied the attention of the House committee on Pacific railroads. Charles M. Tweed, of New York, counsel to the Central Pacific, submitted figures showing the debt of the company to the government, which, he said, is by annual summer from $16,000,000 to $20,000,000, of which $25,000,000 is principal and the remainder unpaid interest. There are about 800 miles of the aided portion of the road. Besides this there are several non-aided portions of the system in California, subject to the government lien, and all of which there is a specific mortgage. The whole system is under lease by the Southern Pacific.

THE SITUATION CRITICAL

Gov. Nelson, of Minnesota, Orders the Militia Out.

DULUTH, Minn., May 2.—Telegrams were received this afternoon by Sheriff Sharvey from every mining center of the Mesaba range, stating that the miners had stopped work of every mine, and that the situation was critical. One telegram was from D. H. Bolin, from the Minnesota iron company, who was at the Annora mine, and asked immediate action. The sheriff at once telegraphed Governor Nelson, asking him to call out the militia. Late tonight word was received from Governor Nelson giving the sheriff permission to call out the militia. The most critical situation tonight is at Tower, Soudan, Ely and Winton, where the mines are all idle. A crowd of strikers visited there today from Virginia and drove the men at the Bahnsen and Iron Mountain mines from their work, and it succeeded in the world about half a mile from the village, planning a surprise. Armed parties were organized, and if any effort is made there will be trouble.

The investigation last year of the affairs of the Bank of Naples showed a deficit of $2,000,000 lire in the amount with its Roman branch, the sum having been paid out in the course of several years without any other than political complaints.

CATARRH

POSITIVELY CURED BY DRS. SHORES & SHORES' NEW SYSTEM OF TREATMENT.

There is Nothing Like It.—Cures When All Others Fail.

MRS. ROBERT BRADY.

CHRONIC DISEASES

OF THE VERY WORST FORM YIELD TO DRS. SHORES & SHORES' NEW SYSTEM OF TREATMENT.—EVERYBODY SAYS IT IS THE BEST, AND WHAT EVERYBODY SAYS MUST BE SO.

Mrs. Robert Brady testifies: For three years I have suffered with a complication of troubles. I had very severe headaches, pains over the eyes, ringing noises in the ears, a dropping in the throat, which at times I thought would choke me to death. Pains across the back part of the head, frequent nosebleeds. I was short of breath, and my heart seemed to flutter from walking up stairs, and I would become weak and dizzy.

I had no appetite, and what little I did eat made me sick. I felt feeble, rapidly, and I felt all I could possibly do to attend to my housework.

I was advised by friends to go to Drs. Shores & Shores, for they were old residents and well known. I was glad I did, for from the first treatment I began to improve. These treatments I took and persevered, and I would advise all sufferers to try any thing to get them to stop and they will convince you as they did me.

MRS. ROBERT BRADY, 707 Eighth South Street.

O. W. WARNER,

Of Moab, Grand County, is One of the Best Known Men in the Territory of Utah.

He tells what Drs. Shores & Shores' NEW treatment has done for him. Mr. Warner is an intensive agent. My system was so undermined from the effects of opium, that I was almost helpless when I left Moab for Salt Lake City, to take treatment with Drs. Shores & Shores. I did not think it possible for me to make the trip, but I purchased a ticket for Provo. After reaching that place I vomited for some time out of the cars. I was so weak that I had to take a hack to keep from falling off my seat. Upon reaching the Zion's Medical & Surgical Institute I had to be assisted up the steps. I had all the dangerous symptoms of opium, my stomach was in such a wretched condition that it was impossible for me to eat anything, the very nourishment I could take was warm milk. I lost in only five pounds in weight, but indeed, I was a very sick man.

I treated with Drs. Shores & Shores now one month, and I am truthfully say that my improvement has been something wonderful. I now eat anything I want. I throw away my walking stick and have gained rapidly in weight and will leave my home as soon as well and happy man.

Mr. O. W. Warner is one of the largest fruit-growers in the Territory, and being so well known his testimonial will be read with great interest by his many friends.
