MINING, BUSINESS AND STOCKS.

TELLS OF WEALTH IN LA SAL DISTRICT

Declares Lisbon Valley Shows Three Distinct Ore Zones Carrying Good Copper Values.

Although little has ever been said of the wealth of the La Sal mining district, where once or twice in its history a little excitement has been started, it is declared there is a world of mineral there. In writing of this district recently in the Grand Valley Times, A. M. Rogers, says:

"Having received several letters of inquiry about different localities of southeastern Utah and southwestern Colorado from parties whose attention has been drawn to this much favored section of ores, metals and other natural wealth through articles which have appeared from time to time in the columns of The Times bearing my signature, I concluded to take a vacation and visit the scenes of former prospecting trips and refresh my memory and get samples of rock which had charmed me in former days, but have long been neglected, as other places have lured me away. I left Moab on the 28th of August and went to my camp at Columbine, on the head of Pack creek in the La Sals. From there I proceeded 'cross lots' to Lisbon valley where I spent a couple of days examining lodes, ore deposits, etc., and wondering why so rich a field for enterprise and industry and such lavish promise of reward awaiting intelligently directed labor should be so sadly neglected as this place is.

LISBON VALLEY.

"Lisbon valley presents three distinct ore zones paralleling each other, averaging about one mile apart and running in a northwesterly and southeasterly trend. These zones are heavily mineralized in places which resemble islands in a river, some of very large and some of smaller extent, with apparently barren intervals between those islands. The mineral deposits are of very high grade copper ores and carry good values in gold and silver. This region, were it on a railroad and the properties owned by such mining companies as Phelps, Dodge & Co., or the Calumet company, would be furnishing thousands of men employment in mining and other work pertaining to it. With the expenditure of a very reasonable amount of capital and labor in boring artesian wells, large areas of level, fertile land may be brought under cultivation, which would furnish sufficient agricultural products to sustain a large mining population. The question which arises in my mind is, why leave this field so prolific in wealth for a future generation to develop? Why not men of means and enterprise do it now?

FINDS HEMATITE.

"From Lisbon I proceeded via Summit, Chico, Monument, Cross canan and Yellof Jacket toward Ute mountain, crossing McElmo near the mouth of Ruin canon. From there I went to the head of Banal gulch to a prospect I knew of years ago and which, from my recollection of the ore, I believed to be cinnabar. But on examination I found it to be a very fine grade of red hematite.

"Southeastern Utah is unquestionably one of the richest undeveloped sections of the mighty west, and if anybody doubts it, let him take the eral, regions whose wealth would have and he will see—what? A vast stock range overgrown with luxuriant grasses which would support four times the stock now ranging upon it.

"Also one—not merely one, but several regions whose wealth would have appeased the avarice of the Argonauts—and the croppings of a good grade in paying quantities of bituminous coal, which covers several hundred square miles in extent, and a part of the most extensive oil regions in the world.

HOSPITABLE CLASS.

"He will also meet with the most hospitable class of people who occupy this good world that a beneficent Providence has given mankind to live upon.

"Aside from its having rained every day for over two weeks, and being left afoot 75 miles from home, I had a very interesting and enjoyable trip and hope to cover considerable of the same ground and meet all of the people again."

MARKET SHOWS IMPROVEMENT.

Sioux Consolidated Develops Decided Activity on Local Market.

The unusual activity in Sioux Consolidated stock on the local exchange this morning gave decided improvement to the market, and increased the volume of business. The short interests were ready to run to cover this morning when there was a decided buying movement in Sioux Consolidated. The stock started in at 69 cents and at 72 cents the stock held firm while 11,700 shares were thrown over by those endeavoring to short the market. It then moved up to 73 cents, the highest price of the day. The stock was fairly strong at the close of the session and was selling at 70 cents.

During the morning session 35,500 shares of stock were disposed of. The price varied from 69 to 73 cents.

On account of the activity in Sioux, the other stocks failed to attract anything but ordinary attention. Colorado was sold at a new low price of 1.40 and Iron Blossom was disposed of at $1.12½. Both stocks were dealt in heavily.

East Tintic Development is apparently gaining in strength, while the other stocks remain unchanged.

The total number of shares of stock disposed of during the morning session was 63,900, and the amount represented by the transactions was $39,232.50.

On the curb market there was but little of consequence this morning. Tintic Standard was the only stock transacted in and this stock was disposed of at 8½ cents for a 500-share lot. Pioche King was offered at 25 cents.

BREEDEN'S OFFICE TALK
"If its for the office Breeden has it"

TODAY
GOOD ERASERS

The kinds that really do "clean the surface." They're soft rubber and do not smut or blur—fresh from Germany. We sell steel erasers erasing fluids and gum cleaners, too. Remember, they're good.

CONSOLIDATION PLANNED.

Stockton Properties to be United in Big Company With Ample Funds.

The movement to consolidate a number of properties in the Stockton district including the Honerine mine, Honerine Tunnel company, New Stockton, Silver Coin, Black Diamond, Cyclone and Southport, is reported to be progressing favorably. The details have not been arranged as some of the properties are said to be tied up until after the first of the year, but the project is looked upon with favor, it is said, by all of the various companies. Such a consolidation will give the new company 2,400 acres of ground, in which hundreds of thousands of tons of milling ore is already blocked out. In the Stockton alone upwards of 400,000 tons of milling ore is now said to be in sight, but the mill, which was operated at a profit of $1,000 per day for about a month just before the metals took a tumble, cannot touch the ore at present prices. It is desired to consolidate these properties for economical reasons, and to secure about $200,000 for development purposes. It was stated today by one closely in touch with what is going on, that the consummation of the project early in the year is practically assured.

MINERALS FOR THE FAIR.

Specimens Coming in from the Principal Camps of the State.

No effort is being spared by Harry Joseph and Jesse F. Cannon, the committee in charge of the mineral exhibit at the Utah state fair, to make the exhibit worthy of the attention of every mining man who visits the fair. Boxes of specimens from a number of the camps of the state are now at the depot, awaiting removal to the fair grounds. Among those contributing, Mr. Joseph named this morning Park City, Bingham, Tintic, Beaver, Silver Island and Fish Springs. In addition to these the university mineral exhibit will be placed in the mineral building, with a number of coal and coke specimens from various companies. William McHale of Frisco, said to be the oldest prospector in the state, will be brought up if possible, and illustrations of old and modern methods of mining and milling are to be given.

FIND GOOD ORE AT BEAVER.

Returns With Some Fine Specimens Of Copper Ore.

(Special to the News.)

Provo, Sept. 28.—A. F. Palm has returned from the Beaver Lake company's property with very encouraging reports and with some fine specimens of copper ore on which assays are now being made. In the bottom of the shaft, now down 180 feet, a two-foot vein of high grade copper ore has been opened, and in a 20-foot drift from the 150-foot level a large body of talc carrying copper, gold and silver has been encountered.

Reed Anderberg visited the Sioux mine Sunday. He reports an immense lot of ore in sight and says that if the company fails to pay dividends, as has been suggested by some people, he does not see what will be done with the ore.

ENGINEERS TO MEET.

Utah members of the American Institute of Mining Engineers are requested to attend a meeting at the Commercial club at 8 o'clock, tonight, to assist in arranging a program for the entertainment of visiting members, who will be in Salt Lake City Oct. 6 to 9, inclusive.

A full attendance is earnestly desired by D. MacVichie, chairman of the reception committee.

CONCENTRATES.

Frank P. Early has been appointed construction foreman of the Nevada Copper Belt road and left last night for Wabuska, Nevada, to take up the work. It is the intention to keep the track laying close behind the grading.

According to information given out yesterday, President Taft intends to give the mining industry better recognition. During his recent visit he went over the matter with John Dern and, although he said it was impossible at present to make it a separate department, with a cabinet officer at the head, he said he was in favor of establishing a bureau of mines in the department of the interior. This, it is believed, would soon develop into a separate department.

Frank B. Many reports that the lease on the Dutchman mine is shipping in the neighborhood of a car load of ore a week that is worth from $1,500 to $2,000.

A party from the American Institute of Mining Engineers, which is now holding its annual session at Spokane, Wash., will visit Salt Lake, Wednesday. During their three days' stay in Salt Lake they will be entertained by the local engineers. Duncan MacVichie is chairman of the local committee. Plans have been made for trips to Bingham, Garfield and Tintic.

C. H. Monroe leaves Wednesday for Gold Circle, where he will start work on a larger scale at some of the properties he is interested in.

Supt. D. E. Crafts of the Ibex mine was in the city yesterday. Mr. Crafts says that two new pipes of high grade ore like the one opened several weeks ago have been encountered and a fine ore body is being opened up.

According to William Griffith who returned from the Santaquin mining district yesterday, the Union Chief Mining company has cut the fissure, 1,450 feet in its tunnel. Drifting along the vein is already under way and it is probable that a big chute of ore will be encountered almost any time. The formation encountered at depth is almost identical with that in the shaft in which some excellent ore was found.

Notices have been issued for the annual meeting of the Eagle and Blue Bell Mining company on Oct. 2.

Manager S. M. Levy of the Pittsburg mine at Alta left yesterday for camp, to be gone three or four days.

Reports from Deer Lodge district, a few miles from Stateline, state that the Horse Shoe mine is making good in the hands of new management. The mine was profitably worked years ago by A. W. McCune, in whose hands it was one of the revenue producing gold mines of the state.

J. R. WHITNEY, Stock Broker.
334 Atlas. Bell. 1470. Res. 3094-Z.

BUSINESS AND REALTY

The Granite Lumber company is preparing to take care of all its customers in the near future. From one to three cars of lumber are being received every day, and with that saved from the fire, the company is already able to do a little in this direction. About 50 more cars are already ordered and on the way, and through the kindness of the wholesalers, who are having the cars traced, the shipments are expected here in the shortest time. At the same time a force of men is engaged in building a shed sufficient to hold ten cars of finishing lumber, flooring, etc. Tomorrow, Manager Nephi Hansen says a start will be made on the new sash and door house. Regarding the financial condition of the company, Mr. Hansen says that the books, which were saved from the fire, show the company to have $10,000 in good assets over their liabilities. Part of this consists of book accounts, in addition to about $6,000 worth of lumber and $4,000 worth of hardware which was saved from the fire. Ample financial backing has been given the company to enable it to get on its feet, Manager Hansen says, the sum of $30,000 having been secured with which to restock the yard and erect the necessary buildings.

Baer Bros. of the Baer Brothers' Mercantile company at 245-249 State street, have purchased the building, known as the Chadbourne hotel building, from the owner, William R. Chadbourne, of San Francisco. The property has a frontage of 42½ feet and a depth of 165 feet, and a three-story building is located on it, the upper floors of which are used for hotel purposes, and the ground floor for stores. The consideration is not stated, but it is thought to be around $80,000.

NEW INCORPORATIONS.

The Ruby Gun club of this city, taking over property in sections 7 and 12, township 1 north, range 2 west, Salt Lake meridian; capitalization, $10,000, divided into 50 shares of $200 each; H. M. Dinwoodey, president; J. H. Patrick, secretary; Calvin McIntosh, treasurer; John S. Boa, F. H. Rudy and W. E. Purviance, additional directors.

The American Amusement company of this city, taking over the Lyric theater at American Fork; capitalization, $5,000, divided into 10,000 shares of 50 cents apiece, of which 1,000 are subscribed and 4,000 set apart for a working capital; John B. Ashton of Provo, president; R. Donald Carrothers, American Fork, vice president; Clyde F. Stanley, secretary and treasurer; Fred R. Crome and Mark Stanley, additional directors.

The Reliable Utility company of this city, to carry on all kinds of aerial work, such as sign hanging and smoke stack and flag pole painting; capitalization $30,000, divided into as many shares of $1 each, of which 10,000 are reserved for treasury stock; R. A. Grant, president; Samuel S. Porter, vice president; F. C. Cooley, secretary and treasurer; W. I. Spere, manager; Frank J. Gustin, additional director. In payment of the capital stock the company takes over the business formerly conducted by Spere & Co., composed of Spere & Cooley.

The Iron Mask Mining company of this city, taking over the Iron Mask Nos. 1 to 5, inclusive, lode mining claims in the Lucin mining district, Boxelder county, in payment of the capital stock of $100,000, divided into 1,000,000 shares of 10 cents apiece, of which 400,000 are treasury stock; Thomas W. Walsh, president; William H. Harmon, vice president; Lamar Nelson, secretary and treasurer. These also form the directorate.

The American Fork Cement Pipe and Stone company of American Fork has filed its articles of incorporation with the secretary of state. It has a capital stock of $10,000, divided into shares of $1 each. E. H. Stout is president; A. R. Stout, vice-president; W. O. Sperry, secretary and W. D. Edmunds, treasurer.

Articles of incorporation of the California Oil and Asphalt company of Ogden have been filed in the secretary of state's office. It is capitalized for $100,000, divided into shares at $1 each. The officers are: Lyman R. Palmer, president; F. S. Miller, vice-president; George Tolmie, secretary and Priestley Hall, treasurer.

AUTO PARTY DUCKED.

Buckets of Water Thrown on Atty. J. T. Richards While Riding.

The sequel to a Sunday automobile ride in the country came out today in a way that will be decidedly objectionable to Willie Peterson, and probably some other boys of Big Cottonwood, through Attorney Joseph T. Richards swearing out a complaint against Willie. It transpires that while Attorney Richards and his family were passing a certain farmer's place, in Big Cottonwood, thoroughly enjoying the rural scenery, the canyon breezes and everything else which makes riding in the country so delightful in the fall of the year, the pleasure of the party was suddenly chilled by several buckets of water thrown into the passing auto by a number of mischievous boys. Now Willie will be given a chance to explain why he did it.

DR. NILES DEAD.

Wellknown Surgeon Succumbs to an Apoplectic Stroke This Afternoon.

Dr. H. D. Niles died at 2:15 p. m. today. Everything was done to save him, but the apoplectic stroke had done its work, and all the strenuous efforts of his physicians to save this valuable life were unavailing.

FALLS OFF BUILDING.

A laborer named Jim Bourne met with an accident at the M. I. A. gymnasium building shortly before noon today. He stepped on a board in walking along the second floor, when it broke and he was precipitated to the floor below, a distance of about 20 feet. He was taken at once to the hospital in W. J. Tuddenham's buggy. Inquiry at the hospital at 2:30 this afternoon elicited the fact that he was resting easily. Nothing was given out about his injuries, though it is believed they are not serious.

STOCKS HIGHER CLOSING STRONG

New York, Sept. 28.—Prices of stocks started briskly upward today on lively opening dealings. There were running sales of 5,000 shares of U. S. Steel at 87¼ and 87⅝ and a subsequent sale at 87¾, all new records compared with 86⅝ last night. Union Pacific, Southern Pacific, Canadian Pacific, Reading and Amalgamated Copper rose 1, and St. Paul, Erie and Atchison large fractions. Virginia Iron declined.

Bullish sentiment was encouraged by the continuation of the upward movement in U. S. Steel, which touched 88 and the strength shown by the best known railroad stocks. There was strong backing for the Erie stocks, which were liquidated yesterday. Republic Steel advanced 2¾. Union Pacific 2 and American Cotton Oil and Vulcan Detinning 1¾, Reading 1½ and a score of others from 1 to 1¾. Realizing in Amalgamated Copper, which cancelled its advance of a point, checked the rise, but it was resumed before 11 o'clock. Vulcan Detinning preferred broke 6 points.

The aggressive advances of U. S. Steel, Union Pacific, Southern Pacific, Atchison and Reading, make a strong sustaining force for the whole market. The rise in Atchison and Reading reached 2⅝, U. S. Steel 2, and Wabash preferred, Southern Pacific, the Eries and New York Central 1½ to 1¾. Pacific Coast second preferred advanced 4¾ and New Haven convertible sixes 3¼.

Bonds were firm.

Atchison became the feature of the market and pulled the general list up a fraction higher.

That stock was bid up steadily until it reached 123, a gain of 3¾. Amalgamated Copper suddenly revived and was run up to 1½ above yesterday's closing. Atlantic Coast Line jumped 4½. New Haven gained 2 points. St. Paul, Rock Island preferred and Great Northern Ore Certificates 1¾, and St. Louis-Southwestern 1¾.

The rise seemed to run itself out when the market became quiet. Prices, however, did not show any signs of yielding.

The market closed strong and active. Union Pacific rose to 207¾ and then fell back a point. United States Steel moved up to 89⅝ and the general list hardened again. Last prices were near the best.

LIVESTOCK.

Omaha, Sept. 28.—Cattle—Receipts, 5,300; market active, steady. Native steers, 4.75@8.00; cows and heifers, 3.00@5.00; western steers, 3.50@6.25; Texans, 3.00@5.10; cows and heifers, 2.75@4.40; canners, 2.00@3.00; stockers and feeders, 2.75@5.35; calves, 3.25@6.75; bulls, 2.75@4.40.

WOOL.

ST. LOUIS.

St. Louis, Sept. 28.—Wool—Steady. Territory and western mediums, 23@28; fine mediums, 22@24; fine, 13@19.

BOSTON.

Boston, Sept. 28.—The local wool market shows increasing strength, with steady sales of good volume. The movement during the last week amounted to about 3,000,000 pounds. There was an increase of interest in fleece, Ohio and Michigan quarter-bloods selling at 34 to 35c. Territory was unchanged.

PRODUCE.

CHICAGO.

Chicago, Sept. 28.—Wheat prices made gains during early trading by buying of a general character, led by grain interests. September was especially buoyant and advanced more than 1c. above the previous close. Prices at the opening were unchanged to ⅛@¼c. higher with December at 99⅝ to ⅞. Later the December option advanced to 99⅞. September jumped to 1.04½ after opening at 1.03⅝ to 1.03¾.

A fresh bulge in September oats had a bullish effect on corn, commission houses being fairly bullish active bidders. The market opened firm with December up ⅛ to ⅝ at 55⅝ to 59 and advanced to 59⅝.

Congestion in the September delivery was again manifested in oats and that option advanced 5c early. December opened ⅛ to ¼c. higher at 39 to ⅛ and advanced to 39⅝. September sold up to 41½ after opening at 41.

Provisions were firm on scattered demand for the January products. Decreased receipts of live hogs at western packing centers prompted much of the demand. Prices at the opening were 7½c. lower to 5c. higher.

Wheat—Sentiment in the pit was bullish throughout. Prices advanced sharply late, closing strong. September up 2½c. at 1.06⅝ and December 1⅝c. higher at 1.01.

Corn—For December the high point was reached at 49⅝@⅞. The market closed strong, December up ⅝ at 49⅞.

Close—Wheat—Sept., 1.06⅝; Dec., 1.01; May, 1.09⅝@⅞.

Corn—Sept., 60⅝; Dec., 49⅞; May, 47⅝.

Oats—Sept., 41⅝@⅞; Dec., 39⅝; May, 42⅝.

Pork—Sept., 24.35; Jan., 18.62; May, 18.60.

Lard—Sept., 12.37½; Oct., 12.35; Nov., 11.35.

Ribs—Sept., 12.00; Oct., 11.70; Jan., 9.90; May, 9.77½.

Rye—Cash, 70; Sept., 71; Dec., 70.

Barley—Cash, 50@54.

Timothy—Sept., 4.00; Oct., 3.30; March, 4.20.

Clover—Nominal.
