Noah's Ark Discovered.

YOU CAN BELIEVE AS MUCH OF THIS AS YOU LIKE.

A Constantinople contemporary announces the discovery of Noah's Ark. It appears that some Turkish commissioners appointed to investigate the question of avalanches on Mount Ararat suddenly came upon a gigantic structure of very dark wood protruding from a glacier. They made inquiries of the inhabitants (Q. 1,725 in their report) These had seen it for six years, but had been afraid to approach it because a spirit of fierce aspect had been seen looking out of the upper window. Turkish commissioners, however, are bold men, not deterred by such trifles, and they determined to reach it. Situated as it was among the fastnesses of one of the glens of Mount Ararat, it was a work of enormous difficulty, and it was only after incredible hardships that they succeeded. The ark, one will be glad to hear, was in a good state of preservation, although the angels observe, not the bow or stern—had been a good deal broken in its descent. They recognized it at once. There was an Englishman among them who had presumably read his Bible, and he saw it was made of the ancient gopher wood which as everyone knows, only grows on the plains of the Euphrates. Effecting an entrance into the structure, which was painted brown, they found that the Admiralty requirements for the conveyance of horses had been carried out, and the interior was divided into partitions fifteen feet high. Into three of these only could they get, the others being full of ice, and how far the ark extended into the glacier they could not tell. If, however, on being uncovered it turns out to be 300 cubits long it will go hard with disbelievers in the book of Genesis. "Needless to say," says the *Pall Mall Gazette*, "an American was soon on the spot, and negotiations have been entered into with the local Pacha for its speedy transfer to the United States."

37 Walker St., Baltimore, Dec. 28th. For six years I have been a great sufferer from Blood Disease, Dyspepsia and Constipation and became so debilitated that I could not retain anything on my stomach, in fact, life had almost become a burden. Finally, when hope had almost left me, my husband seeing Brown's Iron Bitters advertised in the paper, induced me to give it a trial. I am now taking the third bottle and have not felt so well in six years as I do at the present time. Mrs. L. F. GRIFFIN.

BROWN'S IRON BITTERS will have a better tonic effect upon any one who needs "bracing up," than any medicine made.

# TUTT'S PILLS

TORPID BOWELS, DISORDERED LIVER, and MALARIA.

From these sources arise three-fourths of the diseases of the human race. These symptoms indicate their existence: Loss of Appetite, Bowels costive, Sick Headache, Fullness after eating, aversion to exertion of body or mind, Eructation of food, Irritability of temper, Low spirits, A feeling of having neglected some duty, Dizziness, Flutterings at the Heart, Dots before the eyes, highly colored Urine, CONSTIPATION, and demand the use of a remedy that acts directly on the Liver. As a Liver medicine TUTT'S PILLS have no equal. Their action on the Kidneys and Skin is also prompt; removing all impurities through these three "scavengers of the system," producing appetite, sound digestion, regular stools, a clear skin and a vigorous body.
