British Briefs.

LONDON, 23.—Thomas R. Berks, English ecclesiastic, is dead.

A serious outbreak of cholera is expected at Bombay.

Advices from Egypt state that in addition to the outbreak of cholera at the town of Fareskow, eight miles southwest of Damietta, leprosy has appeared there and is spreading rapidly. There are neither doctors nor medicines at Fareskow.

Returns of mortality from cholera in Egypt differ widely. A dispatch to Reuter's company state that the number of deaths at Cairo and suburbs in twenty-four hours ending at 8 this morning was 427; Ghizeh, 68; Chibin, 150. The English government will dispatch twenty doctors who are experts in cholera to Egypt tomorrow.

Dublin, 23.—Cardinal McCabe, receiving the clergy on Sunday, condemned the false teachers who asserted that the Pope in issuing his late circular was exceeding his legitimate sphere of authority, or had been influenced by secular motives. Those disobeying the circular, he said, incurred the guilt of heresy.

London, 24.—One death from cholera among the British troops in Egypt.

Commodore Leitch, of the Cunard fleet, is dead. He was fifty years in the company's service. He died on board his ship in the Mediterranean.

During the 24 hours ending at 8 this morning there were 463 deaths from cholera at Cairo, 22 at Zifti, 16 at Tantah, 9 at Shibbin, 18 at Mansourah, 117 at Chibin, 45 at Mehallet, 95 at Ghizeh, and 7 at Chobar.

The London *Standard* says the opposition in the Commons will endeavor to obtain the time of the House Monday and Tuesday of next week for the discussion of a motion which will probably declare that no arrangement for making a new Suez Canal which recognizes the monopoly of De Lesseps will be satisfactory.

The reported victory of Cetewayo is confirmed. He, however, is not wounded, and made his escape from the enemy. An immense number of his men were killed.

In the Commons this afternoon Gladstone replying to a question by Chaplain, said the Government has no intention to legislate further in regard to the importation of cattle, unless the laws now existing are found to be inadequate.

Sir Stafford Northcote gave notice that he would move shortly an address to the Queen, praying that in negotiations relative to the Suez canal she will decline to recognize any claim of the Suez Canal Company to such monopoly as would exclude other undertakings designed for the proposed opening of a way between the Mediterranean and the Red Seas.

The Queen has gone to Osborne.

The Swedish monitor *Thorndon* has foundered near Narrkoping; crew saved. The *Thorndon* was of about 1,500 tons burden.

The American Rifle team was entertained at luncheon to-day by the Lord Mayor at the Mansion House.

General Items.

Paris, 24.—Trans-Atlantic steamships have obtained a contract to carry the mails between Havre and New York. They receive a subsidy from the government of 548,000 francs.

A banquet was given at the Bolivian Consulate to-night in honor of the one hundredth anniversary of the birth of Simon Bolivar. Among the guests were M. Waldeck, Russian minister of the interior, M. Cochery, minister of posts and telegraphs, and M. De Lesseps. All of the States of the American Continent were represented. M. Henry Martin, French historian and senator, proposed a toast to "The prosperity of the two Americas."

Berlin, July 24.—The police seized the books of the Hirsch Drucker Trading Association. The affair has caused a sensation.

Vienna, 24.—In the Jewish trial at Nyiregheza, Hungary, to-day, the court, at the request of the public prosecutor and counsel for defense, refused to allow the boy Moritz Scharf, principal witness for the prosecution, to be sworn on account of his irreligious, heartless conduct and the conflicting statements he had already made.

Cairo, 24.—It is rumored an affray took place to-day between English and French marines at Port Said, and several were killed and wounded.

The newly formed Sanitary Commission has decided to establish three additional hospitals here, and is arranging an ambulance corps. The condition of the hospital is horrible; about one third of the patients die.

A large part of Boulak has been burned. Corpses are found in many of the houses. Eight hundred inhabitants of Boulak are encamped at Tourah, surrounded by a cordon. Nothing is supplied them. They are dying off. Cholera is spreading among the guards.

A British lieutenant died here from cholera to-day.

Alexandria, 24.—A European has died here from cholera. Five hundred deaths are reported at Cairo yesterday, and also one death at Ismailia and one at Suez yesterday.

It is reported cholera has appeared among the British soldiers at the citadel in Cairo, and one soldier died in the military hospital. The British Royal Artillery and Nineteenth Huzzars, which are stationed at Abassis, are preparing to go to Oshmooneya.

Suez, 24.—Cholera has broken out among the soldiers of the British Forty-second Regiment, which recently arrived here from Cairo; two members have died.

BRIEF TELEGRAMS.

Chicago, 23.—Officials of the Western Union say everything is in good shape; that they have had to day and to-night more men than they could use; that dispatches are going promptly.

Memphis, 23.—At one o'clock this afternoon the operators who were employed in the Cotton Exchange, Merchants' Exchange, and two bucket shops, struck, thus complicating matters and leaving the Exchanges without quotations, which the Western Union people had arranged to be sent.

Savannah, Ga., 23.—Operators at Brunswick, Way Cross and Quitman made application to the Western Union for reinstatement to-day, claiming they had been led into the movement by misunderstanding and misrepresentation. There is now no interruption of business at this office.

Cleveland, 23.—The telegraph situation is not materially changed. The Western Union had all the operators necessary for Sunday business, and expect some members of the Brotherhood to go to work tomorrow. The strikers appear confident, and claim to be initiating new members daily. A report is received here that the B. & O. propose to accede to the demands of the executive committee.

Cape May, 23.—President Arthur and party arrived to-day on the U. S. steamship *Dispatch*. After test and lunch the President and friends took a drive along the Beach, and in the afternoon held a reception in the hotel. There was later a military review and garden party.

Chicago, 24.—Philadelphias 3, Chicagos 7.

Buffalo.—Buffalos 5, Bostons 3.

Cleveland.—Clevelands and Providences game postponed; rain.

Detroit.—Detroits and New Yorks game postponed; rain.

Port au Prince, 23.—The revolutionists remain in possession of Miragoane and still hold Jirems where they severely defeated the government troops. The apparent tranquility in the rest of the country is not owing to loyalty on the part of the inhabitants, but to fears of a general uprising of negroes and mulattoes, and a massacre by one or the other.

New York, 24.—The Montreal Board of Trade in full session to-day passed a unanimous resolution denouncing the strike at the instigation of the Brotherhood, in defiance of engagements, of law and of public interest.

Mary Alice Tearle has secured an absolute divorce from her husband, George Osmond Tearle, the actor. The court fixes the alimony at $2,000 per year, and $500 additional for the support of each child. The plaintiff is allowed $400 counsel fees.

The Western Union instructed its representative at Atlanta to offer a reward of $1,000 for the conviction of the man who fired the shot at their man in Atlanta.

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the *only* cure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that *nothing* but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause headache, and are otherwise injurious.

BROWN'S IRON BITTERS will thoroughly and quickly assimilate with the blood, purifying and strengthening it, and thus drive disease from any part of the system, and it will *not* blacken the teeth, cause headache or constipation, and is positively *not* injurious.

Saved his Child.

17 N. Eutaw St., Baltimore, Md. Feb. 12, 1880.
Gents:—Upon the recommendation of a friend I tried Brown's Iron Bitters as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bottle of Brown's Iron Bitters, she began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonics were required;" and when informed that the elder sister was taking Brown's Iron Bitters, responded "that is a good tonic, take it."
ADORAM PHEPS.

BROWN'S IRON BITTERS effectually cures Dyspepsia, Indigestion and Weakness, and renders the greatest relief and benefit to persons suffering from such wasting diseases as Consumption, Kidney Complaints, etc.
