WARM AT WASHINGTON.

Washington, Oct. 9.—Washington took its ear pass order by outplaying the Orioles. The crowd went to the umpire, who had McFarland hurled from the grounds after assaulted that gentleman. In the second game Boston pounced Chester Mannsau's pitcher but Dockney was safe on a fine long wound to third, and ended by racing his sender by the skin and scoring. Miller's error then let Dockney home with the game. He was fined for profane at third and when Spin retired of the field was after Wesseling, who had gone to second base. This to enabled the umpire to fix men and after a struggle saw it in order. Manning was then called in to pitch, but Wesseling came out ahead in the end, for Manning, who was relieved by a pinchman. The crowd began to surround the men, but were driven back by Shafer and the game was finally completed. The action of the umpire in "throwing" was not unfavorable to him from him, but as for the crowd, he was to be taken by the cops.

CRICKET AT PHILADELPHIA.

American Team Defeated by "Fellow On" —Prince Ranji Did Not Play.

Philadelphia, Oct. 8.—The match between the English cricketers and the Germantown and Philadelphia cricket clubs ended in a decisive victory for the English team. Cricket is a game of Hamlets, and was played on the outskirts of the Quaker City yesterday. The weather was ideal for the game, and the attendance was good. The Britishers had to bat first, and they made 172 runs. When the Germantown team came to bat, it was soon evident that the English team was too much for them, and they were retired for 75 runs, which gave the Britishers a "fellow on." When the Britishers came to bat for the second time, they had 101 to add to their first score, and they made a total of 201 runs for the loss of 8 wickets. Prince Ranjitsinhji did not play. The English team will leave this city tonight for Toronto, Canada, where they will play a two days' match against 22 Canadians, returning to New York on Friday.

BIGGEST PARADE EVER KNOWN.

Display of Red Coats England is Making in the Transvaal.

WILL OVERAWE THE BOERS.

It is Expected the Latter Will Grow Weary and Yield to British Supremacy.

New York, Oct. 10.—A dispatch to the Tribune from London says:

The materials and reinforcements of the British preparations for war are now expected to every been observed as unfeasible against hostilities. An aggressive British campaign is inferred thereby early in the end of November, and the possibility of delaying war is based upon the fact that will allow the British people against them to war every at against Natal. Either they are willing to face this responsibility and put themselves on the wrong side of the moral question they will keep their Transvaal army waiting and let the leaders for every two months, until the British are prepared to attack them with an overwhelming force. Not who have been in South Africa are explicit in the declaration that the Boers will either attack within a week or not for the period of Sunday's Boer ultimatum, mentioned after at the end of November. Delay and maturity inactivity are on the side of the Boer leaders.

A prominent Boer official said to the Transvaal situation in this way:

"It will not be a campaign but a Mafeking of imperial proportions. We have and the ever known of an earth. Europe has found us to and 50,000 soldiers, to which we have 30,000 men to oppose them, and there will be no fighting in the end, since the rather depend upon the Boers to be defeated and to be driven back, defeating a force of such magnitude. The enemy will not be wanted, since this the patriots will be supported by everywhere that England is the greatest model power in South Africa.

"We commend our to need any day by any government in the world, a loudly planned call among the Dutchmen. It is well known that Mr. Chamberlain will propose our cause to the world until the army is ready to endorse in Mr. Kruger, and the Transvaal, as we may be, peace, can make terms of peace without waiting to demonstrate the force of Transvaal and Independence, and secure security of rights to the Uitlanders owing in the Transvaal."

COWPERS DEFEND THE TRUSTS.

Labor Leader Says Pioneer Anti-Trust Efforts are Blows at the Workingmen.

London, Oct. 10.—A special to the Herald from Washington says:

Following close upon the declarations of labor leaders before the industrial commission in favor of trusts, Samuel Gompers, president of the American Federation of Labor, has written an address to the national officers of the official organ of the federation which, they have no important effect in itself, but to prevent the great mass from discussing importance as a political issue.

Mr. Gompers takes strong ground against any interference by legislation in any form. He says he is convinced that the government is not capable of preventing the legitimate development of capital, concentration of industry, and that all the propositions to do so which have been proposed would be the disruption would be good, would result in great loss and injury upon the working people of the country than the trusts.

AMERICAN'S GRAIN CROP.

Wheat is Lighter and Oats and Corn Heavier than Last Year.

New York, Oct. 10.—The total wheat crop of 1899 is estimated by the American Agriculturist in its final report to be published today at 545,000,000 bushels, a gain of 6,000,000 bushels as compared with a production last year, which in the light of the season's movement cannot have been less than 515,000,000 bushels. The total yield per acre is placed at 12.7 bushels. The winter wheat is estimated at 397,000,000 bushels, average yield 13.1 bushels, spring wheat crop 148,000,000, average yield 10.7 bushels. The average yield of oats according to the American Agriculturist is returned as 24 bushels per acre, 2.4 bushels above that of last year and an average higher than was ever before reported for the whole bushels. The crop is estimated at 800,000,000 bushels, against 638,000,000 in 1898 and 1,000,000,000 in 1897. The quality of the present crop is unusually good. The quality of seed places the average condition of corn. The present never than September 1st, and only two years back was surpassed. If this data is a year ago and adds that if the acreage of yield shall substantiate that indicated by the present nature, the crop is likely to be found to exceed 2,100,000,000, a fairly liberal result, but not a record crop.

President's Program Today.

Chicago, Oct. 10.—Today was President McKinley's final day of his stay in Chicago and it was arranged so as to permit the chief executive of the nation to see as much of the city and participate in the entertainments in the honor of his visit. The day was taken up in inspections, receptions, luncheons and banquets, culminating in the evening in the industrial pageant. The remains of Illinois regiments and the army of the Shenandoah are expected to arrive today, and the first thing on the day's program was the reception of the Illinois and the army of the Tennessee. The order of the day's program was as follows:

11 a. m.—Reception for the President and Mrs. McKinley at Women's Athletic club.

12 m.—Luncheon at the Union club.

12 m.—Reception by the President of the Union club.

2 p. m.—Canadian-American reception and luncheon for Premier Laurier at the Great Northern hotel.

4 p. m.—Reception to foreign consular officials at Union League club.

4:30 p. m.—Luncheon for the President at the Chicago club.

5:30 p. m.—Commercial club banquet for the President at the Auditorium.

6:30 p. m.—Dinner for Premier Laurier at the Great Northern hotel.

7:30 p. m.—Pageant leaves the city for Bloomington, Ill.

Disposal of the Vanderbilt Estate.

New York, Oct. 10.—The Tribune says: A well-known lawyer who is interested in transfer made the following revelation that as to what the estate of the will of Cornelius Vanderbilt would leave to heirs:

"It is understood that it will very closely approximate the sum of $65,000,000. Mrs. Wm. K. Vanderbilt, Mrs. Vanderbilt will get the Fifth avenue residence and the Newport cottage, and will have an income of $50,000 a year to keep them up. These homes are the most beautiful in the world. Mrs. Vanderbilt will get the most money in the third son, Reginald. The two children will receive $10,000 a year and the income of the trust fund will be divided into two equal parts, one of which will go to Cornelius and the other to Reginald. The whole property will be made a trust estate for a term of years. Mr. Vanderbilt's will is a very rather unusual document, and it was generally supposed to be, yet I believe the shares of his two eldest sons will be over $20,000,000 apiece."

Promotion of Officers.

New York, Oct. 10.—A special to the Tribune from Washington says:

The retirement of Gen. Shafter from the regular army, Oct. 9, promotes to the rank of major general Brigadier General Lee, who is now in Havana, and Brigadier Generals Wheaton, Ludlow and Chaffee, to be major generals, and Colonels Lee, Lawton and Wheaton to be brigadier generals. The promotions of the staff officers will reach the considerably extended age of 64 on October 18.

For the vacancy caused by Shafter's retirement from the regular service it is expected that the following colonels will be promoted to brigadier generals in the rank of brigadier general and immediate relief: Colonel Louis H. Carpenter, Fifth cavalry; Colonel Robert T. Frank, First artillery; Colonel Alexander C. M. Pennington, Second artillery; Colonel Abner Hard, Fourth cavalry; Colonel Andrew S. Burt, Twenty-fifth infantry; Colonel Samuel Ovenshine, Twenty-third infantry.

When these five officers are retired there will be no brigadier general to go either to MacArthur or Lawton with the exception of Brigadier Generals Wheaton, the senior of the latter is about six months younger than the senior of the latter, and the step to promote the other on January 11 next, when General Thomas M. Anderson retires for age. MacArthur has had eighteen years' service than Lawton, but the former attained his rank by promotion in the regular establishment, while Lawton is a colonel in the volunteer service. Consequently, his promotion is dependent solely on the adjutant general's corps.
