

STATE DEPARTMENT DECLINES REQUEST

That it Telegraph University of
Copenhagen for Permission to
Examine Dr. Cook's Records.

WAS BY GEOGRAPHIC SOCIETY

Will Now Appoint a Committee to Go
To Danish Capital to Make an
Investigation.

Washington, Nov. 4.—Refusing to be
drawn into the Cook-Pearry north pole
controversy, the state department today
declined a request that it cable Ameri-
can Minister Deane at Copenhagen to
request of the University of Copenha-
gen permission to examine the records
of Dr. Frederick A. Cook when they
are submitted to that institution.

The request was made by a delegation
from the National Geographic society,
which will appoint a committee to visit
the Danish scientific institutions to
ascertain whether Dr. Cook is to submit his
records to the official channels.
The desire to have the records
made at a conference between Asst.
Secretary of State Huntington Wilson and
Mr. Deane, the government chief
of the board of trade of Washington,
however, editor of the official organ
of the society, Clarence C. Covert, all
members of the National
Geographic society.

The request was made on the ground
that the examination would be by sci-
entists of attainments particularly val-
uable in the adjustment of the polar
region.

The department took the request un-
der advisement and later decided it
would not accede to it. It was felt such
action would constitute official recog-
nition of Commander Peary against Dr.
Cook, that any unusual action on its
part might be interpreted as an en-
couragement of the claim of one or the
other of the two explorers as to pri-
ority.

Pleasure

Lots of satisfaction in a
cup of good Tea, but little
enjoyment when the qual-
ity is poor. Hewlett's
Teas Are Always Good.

Hewlett Bros Co.

city of discovery. The department has
notified Sec. of State of its attitude.

Members of the committee, which
will go to Copenhagen for the Geo-
graphic society, will be provided with
the usual letters of introduction from
the state department to the American
diplomatic officers abroad, asking that
the committee be given all courtesies
or assistance possible consistent with
the official duties of the diplomatic
character. Letters of this kind are fre-
quently issued to citizens traveling
abroad.

Determined effort will be made by the
committee to secure the Cook data.
Dr. Cook will be afforded every op-
portunity to place his record or any in-
formation bearing on the trip, by the
committee, which soon after its ap-
pointment will communicate with him
directly. This committee will advise
Dr. Cook of the recent action of the
society's board of managers in awarding
a gold medal to Peary and a medal to
Capt. Bartlett, who navigated Peary's
ship to the far north and back and of its
virtually "marking time" as to other
polar claims pending investigation and
research.

It will advise him of the committee's
desire to have any data he may be will-
ing to present.

A cablegram signed by Prof. William
Moore was sent tonight to the Uni-
versity of Copenhagen announcing that it
is about to send representatives to Co-
penhagen and requesting that they be
given the courtesy of attending the
official examination of Dr. Cook's pa-
pers.

The National Geographic society, it
was stated tonight, stands ready to

NORTH DAKOTA FASTEST WARSHIP

Of Dreadnought Class, and One
Of Two Most Powerful Bat-
tleships in the World.

ATTAINED 22.25 KNOTS.

Better Than Speed of the Bellefleur,
Leading Dreadnought of the
British Navy.

Rockland, Me., Nov. 4.—The North
Dakota is the fastest battleship of the
Dreadnought type afloat, as well as one
of the two most powerful ships in the
world. Her crew standardization tests
over the Rockland measured into
course today developed a maximum
speed of 22.25 knots, an average of 21.
82. Both marks are in excess of the
best performances of either her sister
ship, the Delaware, or the Bellefleur,
the leading Dreadnought of the British
navy.

Attaining this surprising speed, the
turbine engines of the North Dakota
were forced to the development of more
horsepower than has been reached by
any battleship afloat. A maximum of
25,150 horsepower was recorded, while
23,875 horsepower was the mean
amount. The maximum number of
revolutions of her nickel composition
propellers was 280 a minute. It was
found that 253 revolutions in this time
were sufficient to maintain the contract
speed of 21 knots.

The North Dakota, by her perform-
ance today, takes precedence as a gen-
eral first-class battleship. The figures
recorded for the North Dakota today
surpass those of any other Dread-
nought.

There is only one such ship ahead of
the North Dakota. This is the Nep-
tune, just launched for the British
navy. The Neptune, however, will
have to attain figures much in excess
of specifications to accomplish this. The
Bellefleur of the British navy has
made but 21 knots.

The Delaware is equipped with re-
ciprocating engines while the North
Dakota is fitted with turbine engines.
Capt. Edward G. Evans was in
charge of the North Dakota today. A
working crew of 400 men pushed the
vessel to her record performance.

Beginning at 7 o'clock tomorrow
morning the North Dakota is to be put
through the second test, a four-hour
run at 21 knots. It is expected that
an average of about 21.75 knots will
be developed. The run will end off Boston
light, where the North Dakota will
anchor and prepare for her 24-hour
run at 12 knots. Following this, she will
go under another 24-hour test at 19
knots.

Within six months, it is expected the
North Dakota and the Delaware will
take their places in the van of the
American navy's line of sea fighters
and will then rank as the greatest bat-
tleships in commission throughout the
world.

WANT EVIDENCE OF
A. PULITZER'S VAGARIES

San Francisco, Nov. 3.—Agents from
New York are in this city, collecting
evidence regarding the vagaries of Al-
bert Pulitzer, the publisher and million-
aire who killed himself in Vienna last
month. The information, which con-
cerns the eccentricities displayed by
Mr. Pulitzer while on his visit to this
city, will be used, it is said, as a basis
for an effort on the part of Walter Pul-
itzer, the publisher's son, to break
his father's will. Young Pulitzer was
left \$60,000 in the will, while the estate
is said to be worth several million dol-
lars.

Among those whose affidavits will be
taken in the case, it is said, is Ger-
trude Albritton, the novelist. On one
of his visits to the Tavern on the Green,
said of Mount Tamalpais, with a party
of friends, Mr. Pulitzer, it is said, an-
noyed Miss Albritton by trying to show
his friends the place where she was
writing. She had a tiff with him and
with the hotel management over the
noise he made.

Pulitzer's former valet, George Schindler
of Oakland will be called upon to
testify that between the years 1889 and
1892, Pulitzer treated Europe and Asia
with a member and other strange
companions.

While in San Francisco Pulitzer was
a subject of interest. He spent at 2

BABY'S VOICE

Is the joy of the household, for
without it no happiness can be
complete. Angels smile at
and commend the thoughts
and aspirations of the mother
bending over the cradle.
The ordeal through which the expectant mother must pass is such that
she looks forward with dread to the hour when she shall feel the thrill
of motherhood. Every woman should know that the danger and pain
of child-birth can be avoided by the use of **MOTHER'S FRIEND**, which
renders pliable all the parts,
