DESERET EVENING NEWS.

Tuesday, - - February 6, 1894.

FRAGMENTS.

THIS is the regular meeting night of the City Council.

THE Carter trial attracted a goodly number of spectators in Judge Merrill's courtroom.

THE grand jury have been in session today, with Assistant District Attorney Richards in attendance.

DURING adjourning yesterday afternoon the county court made appropriations aggregating $7,[illegible].

THE King Daughters' social club will give a valuable list on the evening of March 6th, in the G. A. R. hall.

THE county collector has paid over to the city $7,[illegible] taxes collected. Mr. Leonard has likewise turned over to the school board the sum of $7,[illegible].

THERE has been quite a heavy demand for jury purses yesterday and today, owing to the great difficulty in obtaining the requisite men to try the case of George Taylor, charged for murder in the first degree.

THE subject of the lecture in the light science course at the Church University on next Friday evening will be "Astronomy and Methods of the U. S. Weather Bureau. The lecturer will be George H. Salisbury, observer U. S. weather bureau.

THE call for the fire department received late yesterday afternoon was to extinguish a blaze at the Taylor residence at No. 61 north State street. The fire originated in a flue and was extinguished by the use of the chemical engine. The loss will not exceed $100 and is fully covered by insurance.

THE sale of the Press club charity lecture tickets commenced today, when they were distributed among the members. In all there will be six Sunday evening entertainments in the Theater, commencing next Sabbath. The popular admission fee will be 25 cents, or $5.00 for the season.

AT the annual election of the Veteran Firemen's association of Ogden, held last evening, the following officers were elected for the ensuing year: President, James Wotherspoon; vice-president, J. H. Paine; second vice president, L. J. Wright; secretary, James Allen; treasurer, Orson Rice.

"HOW far," asked an old gentleman in helpless tone, as he hailed Cassie street car the other morning, "will I have to go in this direction before I get to Eleventh East?" "You will not get to Eleventh East at all in this conveyance if you continue your route northward, my friend," responded the person to whom the query was addressed. "Which then, where is the street?" "Why, eleven blocks east of here," was the answer. Whereupon the old man wheeled his horse and car about and drove off whistling a merry air.

A MORMAN smooth guy has been arrested in Chicago on a charge of swindling and is now in the Cook county jail. His method of operation and the general description given point to the conclusion that he is no less a personage than the notorious Joseph Vancrosbie who worked his respective poetry establishment racket so successfully in this city a few weeks ago. In this instance he gave his name as Joseph Carl Hart. Foster and records that he is a consul general of the Hawaiian government and that he is on an important business mission to the United States from that country.

CHEMISTRY CLASS.

Phosphorus, Arsenic, Antimony and Bismuth Considered Last Night.

Promptly at 7 o'clock last night the fourth lecture in the Church University evening class in chemistry was commenced, the session enjoying the usual large attendance. Dr. James E. Talmage briefly reviewed the various group of elements, which had been considered and taking up the nitrogen group, proceeded with phosphorus.

The occurrence of phosphorus was referred to, many specimens of crystals, etc., being produced upon the occasion. In the preparation of phosphorus several hours are used, it having been charged by Instructor Sacrison to produce, when cooled, the phosphorus from the ash. Pure phosphorus is an almost colorless translucent waxlike solid. Because of its diffusibility and poisonous properties it commanded great care in manufacturing, filtering illustrations of its chemical and chemical properties were made before the class and its uses explained as in the manufacture of matches. Diagrams and charts, which were submitted for the students' study added to make the subject clear.

Of the compounds of phosphorus the phosphorous oxides and acids were explained and also the discovery of the class a large number of specimens injected in the chemistry quiz room, where a most beautiful experiment with hydrogen phosphid was successfully performed.

Arsenic, also antimony and bismuth, with which it is closely connected, were next considered, Mr. Sacrison then given a interesting special and careful attention, by impressive illustrations. A table of metallic metals placed on the board was explained in what and experiment on the analogies in composition and properties of the corresponding compounds of the members of the nitrogen group shown as being very significant.

Mineral, Etc., Patents.

Final mineral entry No. 1,902 has been filed in the land office by the American Eagle Mining company by its secretary, B. Critchlow, in the West Mammoth mining claim in the Tintic district.
