for the meeting had been signed by 140 ladies. Officers were chosen as follows: President, Mrs. Edna L. Smith; first vice-president, Mrs. Sarah Smith; second vice-president, Mrs. Anna Adams; third vice-president, Mrs. Juliette Doherty; secretary, Miss Katherine Farmer; treasurer, Mrs. Rachel Miller.

The following declaration of principles was promulgated:

We believe in free silver, free speech, free press and equal suffrage. We believe in free silver but not in free trade. Silver is a high product, free trade is the bane of every Utah enterprise and we believe would close Utah mines. If Democracy, with its free trade platform, has contributed to the welfare of Utah in 1894, we believe it to be injurious to the welfare in 1896.

We believe in free speech, in American institutions, and we pledge ourselves to work for the restoration of the tariff as it was established by the Democratic administration. We pledge ourselves to work for the restoration of the tariff as laid on Utah, which by the free trade platform of the Democratic party is now reduced to $15 per ton, the lowest in our history.

We endorse the present administration for not keeping faith with the sugar producers of the United States, and we favor some protection as will look to the production on Utah soil of the sugar consumed in Utah.

We pledge ourselves to work for such legislation as will enable the silk industry to prosper in Utah, and we believe this can be done only by a high tariff on raw silk which now comes tariff-free from China and Japan free of duty.

We ask Congress to remove the tariff on cattle so our cattle and sheep will not be compelled to compete with Mexican labor.

We ask the mine owners and the mine labor operative unions in Utah to dinner as the representatives, or some who work in mines, the units that they will advance their wages when the tariff on lead and the tariff on silver is changed so the price of it is 1.

MANY POLITICAL SURPRISES.

Men Are Changing Their Views on the Money Question with Lightning Speed Apparently.

S. S. Moffett, in his "Week's Politics" column in the New York Journal, pungently says:

One of the most startling features of the present extraordinary campaign has been the fluidity of old convictions among mineral men. Changes of party associations were to be expected; they always happen when parties join battle on new issues, and they are themselves the best testimony to individual consistency. But when a man of mature years, after thirty-odd years of association simply mutters epithets he does not utter between times. If Mr. McKinley should declare himself a free trader or Henry George should take to demanding the single tax, there would be more or less surprise. Things of precisely this nature are happening in connection with this silver question every day. Old and apparently immovable convictions are crumbling like lumps of sugar in a cup of coffee. You do not know what your most intimate friend thinks about the silver question, unless you are talking with him at this moment. If a man who has made a life study of economic questions, with all the advantages of undergraduate and post graduate courses in the best universities at home and abroad, told you a week ago that he thought free coinage a dangerous delusion, you have no assurance that he is one a few days later. I know, because I have had just such experiences within the past week.

Just before the nomination of Mr. Cleveland, four years ago, silver was an extremely live issue at Washington. The House was divided exactly in the middle on the question of free coinage. At that time Mr. W. D. Bynum used to fill about the corridors of the Capitol, looking for a crack to fall through. Not finding any he had to go into the House and vote. He had always been a free silver man, but at that time he was beginning to feel sticky. However, when the pinch came, he took no medicine and voted silver straight, with Bland and Bryan, to say the least well. The most enthusiastic and indefatigable of the fighters on the other side was George Fred Williams, of Massachusetts. He was one of the three Massachusetts Democrats that refused to vote for the regular Democratic nominee for Speaker, because they could not conscientiously support a free silver man. He furnished the brains, energy and industrialism and probably contributed the heavy of the gold contribution. New Brunswick is boiling the good standard Democracy in the house of Infidelity, and Williams is preaching free silver with amazing success in a state that put the interest of its loans in gold when legal tender paper was worth forty cents on the dollar.

Political Pointers.

John Jameson is the latest candidate for county clerk on the Republican ticket.

A number of vacancies in the Democratic county committee will be filled at tomorrow's meeting.

Judge Jean W. Harlan is prominently mentioned as a candidate for county attorney on the Democratic ticket.

Chairman Powers of the Democratic state committee will come down from Salt Lake on the Rio Grande Western this evening.

Washington Post: There are some unemployed men who would rather have a 65-cent dollar than no dollar at all.

State Senator Cardwell is among the Republicans who have arrived to attend tomorrow's conferences of the State convention.

Chicago Dispatch: If it comes to a place where people speak in the dominant tone of Rothschild's officer to sound money or a free coinage throughout.

Detroit Tribune: They don't go at the silver idea right. Tilley have to be treated with the ground law of logic rather than the hot compress of vituperation.

Eureka Democrat—A silver club will be organized at Robinson on Saturday evening. There is a large amount of Bryan enthusiasm apparent at the Mill City.

Lehi Banner—The Ogden Standard is off when it takes upon the responsibility of Senator Frank J. Cannon the idea that Mr. Cannon's name is not better than from date of taking office.

There are six Republican journals left in Utah. They are: the Ogden Standard, Provo Enquirer, Logan Republican, Nephi Times, Box Elder County News and Richfield Advocate, so says the not dismal paper.

Hon. Presley Denny, speaker of the lower branch of the territorial legislature is up from his Beaver home to attend the meeting of the Republican State committee tomorrow. He says the politics is about "equally divided" in the south.

Pittsburg Chronicle-Telegraph: Business—"The college which will educate the most students this year does not possess a football team." Uncle—"Oh, nonsense, "it's a fact." "What college is you talkin' 'bout?" "The electrical college."

Ephraim Enterprise: Tooit are a good many offices to fill in this country this fall but up to date we have not heard of a single prospective candidate. It looks as though the office would have to seek the men this year.

The Argus which was founded by James R. Boyd a couple of years ago and which has been conducted by that gentleman during the whole of that time, passed into new hands last evening. The new business manager is Alma Kats, formerly of the Herald reportorial staff. The editor has not yet been decided upon but are the names of the backers of Mr. Kats given to the public. The paper will continue to expound Republican principles. Mr. Boyd will either go to Colorado or Montana to rest and regain his health which has been more or less impaired for some time.

Hammonds, Ark., Aug. 24.—Congressman Wilson (colored) the highest authority a recent statement of Senator Fairbanks. He says:

Gov. Fuller, in a speech at Columbus, Ga., on Saturday, was reported to have prepared for the press in advance, made the remarkable statement that "the reason silver dollars are unloaded as quickly as gold is because silver dollars and every other form of United States money are redeemable in gold."

I put upon the statement of Gov. Fuller the following official letter from the treasury department:

Washington, D. C., Aug. 9, 1896.—Hon. Thomas H. Malloy, Fort Smith, Ark.—In reply to your letter of the 5th inst., I have the honor to inform you that this department does not redeem either standard silver dollars or silver certificates in gold. Its sole redeemable fund is for the use of the United States, for silver certificates are redeemable only in stamped silver dollars, and the latter, being standard coins of the United States, are not redeemable in any other form of money.

Respectfully yours,
W. E. CURTIS,
Acting Secretary.

Know Nothing of Them.

Several reports of hostilities have been given publicity in recently of white men shooting at the Utes for no apparent reason. A serious man and lady are said to have been relieved of a watch each and $8 in cash the other evening, but not to the present writing are such cases satisfactorily explained to the proper authorities, who say they are somewhat dubious as to the correctness of the reports.

Sleep

Induced by the use of coca, opiate or narcotic compounds is bad, decidedly bad. They undermine health and shatter the constitution and the patient is usually growing into a worse condition—often resulting in the terrible misery and misery of the morphine and opium habit. Sleep induced by the use of Hood's Sarsaparilla does not perhaps come as quickly, but it comes more surely and more permanently. Hood's Sarsaparilla makes great nerve tonic and invigorating cleanser—purifier, vitalizer and creator of blood. This feeds the nerves with life-giving energy and builds up the system and constitution from the very foundation of all health and the whole blood—pure, rich, red blood.

Hood's Sarsaparilla

Hood's Pills

MINES AND MINING.

No Improvement in the Market But Better Business on 'Change.

TODAY'S SALES IN THE PIT.

Swansea and Yellow Creole Burst—Pollock's Weekly Review—Cable News and Gips and Spots.

While there is still no improvement in the local mining stock market, and none is expected for some months to come, the trading on 'change today was better than it has been since the bottom dropped out of the market.

The bulls and bears paid little or no attention to the listed stocks, but when the other class was reached, Swansea assumed a business-like aspect, and one transaction was noticed, 100 shares finding a buyer at $1.02½ per share. Dalton was the next to come to the front with sales, and before hostilities closed on this particular stock, 4,000 shares had changed hands at figures varying from 1½ to 1½ cents. Rex, Richmond, Alpha, Ontario and Hackett at Dalton were also sellers for, but neither developed sufficient strength in the way of quotations to cause business, consequently they closed without sales.

The closing figures were as follows:

POLLOCK'S WEEKLY REVIEW.

The Condition of the Local Market Remains Practically Unchanged.

James A. Pollock says in his weekly mining stock market letter under date of today:

Conditions in the mining stock market remained practically the same for the week just closed as during the previous week or two. The feeling of depression was not at all unbroken for and the declining prices are due entirely to lack of support to the market. The time to buy is always when sellers are most numerous, if conditions at the mines are as favorable as at present, and with the exception of a few instances should not be afraid to take on any of the dividend payers as well as several of the prospectives. Buy and hold for the rise that will certainly come, seems to be good advice.

Alta is making a very good record of production, but the stock did not display the anticipated strength. There seems to be no good reason for its low price. Alliance, Anchor and the West Mountain mines, Bullion Beck was somewhat shaken, the only apparent reason being its grouping with the rest. The mines in the Eureka district are doing well, the latest reports some there to be looking very well indeed. Hogan is making good development work, but the stock stays down far below its real mine value.

Centennial Eureka is only being offered in small amounts and the general quotation continues strong. Only odd blocks are being traded in. Dalton was not stronger. Write up in the Wednesday issue of this review the Dalton was not strong. The Wednesday issue of this review the Dalton was not strong. Dalton & Lark reports heavy shipments but the stock was fascinating. Even with dividends resumed, Daly does not display any of its old time strength. Everything at the properties is in the best of shape, but it is now quite generally understood that the dividend of twenty-five cents per share will be quarterly. Daly West was in last week at about last week's price.

Note of it now was done in either Hot Springs Gate or Four Aces, the stock in the East Gate—there are not working just now on account of breakages, so it is unfounded speculation as to resumes at once. The bottom of the drill hole is not yet in ore, although it has penetrated nearly eight hundred feet below the last one. Galena was repeatedly in the market with high grade ore and the stock maintained strong. Horn Silver was heavy.

Mammoth will pay its August dividend of five cents per share in the Rio. The stock was slightly traded in, which it is expected that adjustments will be materially increased within the next ten days. It is announced that the September dividend on the Mammoth will be paid on the regular date and except in the case of a catastrophe the disbursement will be regular as clockwork. The properties are in admirable condition. Only a limited amount of business was done in the stock, the offerings continuing light. Ontario was quiet.

Silver King was in fair demand at the usual strong quotations. Sioux Consolidated sold for cash, but no sales were reported. Sunshine is looking extremely well and the mill is making a good record. Swansea continues quite active, but at somewhat shaded figures, although a slight recession came at the close. Dividend expectations are said to have created the new interest. The properties are developing heavy shipments. Tetro continues to look encouraging. South Swansea has its own mill in operation and is looking well. The ore shipments are taking increased. Utah is doing nicely and has a good amount of ore in sight. Utah Consolidated is also looking well.

OPERATIONS IN TINTIC.

Weekly Sales of the Eureka Democrat for Week Ending.

U. S. Deputy Surveyor T. S. Mathis has been engaged in surveying the West Cable claim, adjoining the Cable.

A contract has been let to drive the present tunnel on the White Cloud mine, a well known property lying west of Dragon, an additional twenty-five feet. It is thought the ledge will be reached within that distance.

The Mammoth shop of the Southern Eureka Mining company, with its entire contents, including a supply of candles and explosives, was burned last afternoon just at 6. The loss, however, was not serious.

The new Storm marine boiler for the Mammoth mine, safely delivered at the mine railroad on Saturday, is now in place. This is the largest boiler of its kind yet brought into the district. It is 8 feet in diameter, 11 feet in length, weighs 19 tons and is rated 150-horse-power capacity. This will give the Mammoth plant 300-horse-power capacity, making it, with one exception, the largest mine plant in the State.

The East Tintic railroad has begun hauling freight over its line to the miner above, and in a week or ten days will be moving the product of the Mammoth mine to the mill and smelter. A year or two ago this would have been looked upon as a wild forecast to have predicted that the iron horse would be today hauling the ores down Mammoth hollow and that a prosperous and happy community with churches and schools, commodious hotels and residences with all modern improvements, well-stocked stores and a newspaper to make its wants and opportunities known, would cover the sage-covered mountain sides near Eureka. But such is the history of the mining industry.

The work of widening and lowering the floor of the Running tunnel is being pushed where it is now in operation by two shifts of eight men, and it is expected this week will be completed and the property ready to begin an extension of the tunnel by the time the work in the mine is completed. The contractor is confident this can be done inside of twenty days. The work has been done in the form of the tunnel at upon the ledge for the past two weeks, but there is so far exposed full 25 feet of the ledge, all good shipping ore, with a six-foot vein that assays very high in gold and silver. From present appearance the Running is destined to soon become one of the big ship-pers of famous Tintic.

Renewed interest has been awakened in what is known as the Halpener mine, lying in the same vicinity as Goshen and Mona, about twenty miles east of Eureka. The deposit, or mine, was looked by George Eldridge of the place several years ago, but little has been done upon the property aside from the annual assessment work. Joseph Chase of this place, who was formerly employed by the Santa Cruz Powder company, knowing the large amount of nitrate used in the manufacture of powder, decided to send a sample of the material to the company and ascertain its commercial value if any, and was promptly informed by the company to express them at least 50 pounds, at their expense, which he did on Monday. It seems that the mine is determined if the material carries a sufficient per cent of the nitrate of potash to pay to mine at a profit. The sample shows no lime, no carbonate properties and would indicate it to carry a high per cent of either salts or potash. The material is large matter is claimed to be about 20 per cent water, and the decomposed matrix and rock thoroughly impregnated with the alkaline substance.

Richfield Advocate Notes.

The tin discovery near Pangultch is a fake. Dr. Hartert says the ore is the tin of commerce, known as tin pyrite, a mineral often found with the ores.

Dr. Warren and Tom Gillan, two pilgrims to Mesa Heaven and well known mining men of Utah, whose interests are mostly centered in the Ophir district, are at Marysvale, left Richfield Monday for a week of inspection in the Sevier Lake range. If they see a good thing they will first nail it and then make sure of it.

Another rich strike has been made in the Horse Heaven section of Mt. Baldy, nine miles southwest of Marysvale. The latest prospect discovery above the Dalton was owned by Sheriff J. C. Sargent and Dr. F. J. Lyons, both of the Vale. The property was then sold to Chicago parties ago but little was ever done there until last week Mr. Sargent set about some development work and came upon a pocket of silver. Wednesday he had gone $120 in gold and carried 50 ounces of silver, time worth $154.40 to the ton. The Wedge's owners are transported with joy at their lucky find and will go right ahead with immediate operations.

Gips and Spots.

A strike of ore running from 40 to 52 per cent is reported in the Hopeton, located in the Ophir district, at a depth of 135 feet.

A large body of low grade ore is said to have been encountered in the Dalton mine in Big Cottonwood, it was discovered in the face of the 500 foot tunnel.

On Labor Day, a rock-rolling contest will take place at Saltair to which Utah's expert miners are invited to participate. It promises to be quite interesting.

Colonel Wall of the Brickyard is reported to having said that the building of a smelter plant to treat the company's ores would be commenced within thirty days.

A shipment of 142 tons of ore came from the Dalton and Lark yesterday. Manager Simmons is authority for the statement that not much will be going on at the Bingham business until after the present silverbowing question is settled.

Mr. W. L. N. Allen graced the pit of the stock exchange with his presence today. Mr. Allen has been walking away the past two months of his time, at his old home in Ohio. He says the Eastern people are greatly agitated over politics.

Colonel Dorsey and Judge Sherman were out at the American Journeying yesterday viewing the landscape o'er. The former looked over properties in Mercur, while the latter went to the Sunshine district. They report everything flourishing.

Hon. Presley Denney is up from his home in Beaver to look after business matters demanding his personal attention. He says there is little mining going on down below, but that the south, the leading property in the district, has been shut down for some time past on account of litigation.

Broker E. G. Woolley Jr., leaves this evening to visit his parents in St. George, Washington county. He will be absent from the city for about two weeks, during which time his business partner Mr. James A. Pollock will attend to the firm's interests on the exchange.

Manti Messenger: A traveling man showed us a three ounce bottle of black sand yesterday which carried strong traces of gold. He said it was found in the Sanpete mountains, and the sample was the result of a single washing. Considering the return from the south he will look after the locality of the claim; intimate he can do no less than to say where the yellow metal was found. He believes it will be a rich find and if the sample put as well as the sample washing, he will have good cause for quitting the road.

To Be Tried for Battery.

E. M. Best will stand trial before Justice Wenger tomorrow afternoon for battery. Best is charged with showing his pugilistic qualifications by pounding an old gentleman living in the neighborhood of Ninth East between Tenth and Eleventh South streets. The whole trouble was caused by Best having tied his horse in front of his neighbor's residence.

A Bogus Check Circulator.

Detectives Sheets and Janney arrested a man giving the name of J. H. Murphy last evening on a charge of obtaining money under false pretenses. It appears that Murphy has been doing a flourishing business here for some time past, and among his victims are several saloon keepers who have cashed checks of his own make for different sums, which some were not paid when presented, when the instruments were presented at the banks for payment. Murphy is now in the custody of Sheriff Hardy.

Throwing Lads.

Three young lads giving the names of Harry Ball, Doss Carr and Will Arnold were arrested by Officer Shannon today, charged with stealing iron and throwing it through the boys, when arrested before Justice Wenger, pleaded guilty, and after the honor had given them a thorough talking to, he suspended sentence and they were each set at liberty.

MINOR MENTION.

Gamblers forfeited $200 in cash deposits in the police court today.

The rises in the transcontinental relay rates who were due here today are several hours late and will not reach here until tomorrow morning. Cloudburst in the desert made it necessary for them to vary their course by way of Ogden.

Butte Inter Mountain: Mr. Holmes of Salt Lake was before the school board to recommend the use of building stone and brick in the new high school building. He said he could furnish it 20 per cent cheaper than out granite, and stated that the board to send a committee to Salt Lake, at his expense, to examine it. The invitation was accepted, and Trustees Lynns, Hall and Gray will leave for Salt Lake tomorrow.

Personal Paragraphs.

Y. Rapp of Logan is a guest at the Cullen.

A. C. Kingle of the D. & G. W. is a guest at the Cullen.

H. C. Shurtliff Jr. is in from Evanston and at the Walker.

The Hon. Presley Denney of Beaver is domiciled at the Walker.

Dr. Charles B. Snyder of Provo is stopping at the Walker.

J. E. Johnson, a resident of Price, Utah, is at the Walker.

F. P. Dowling and family of Comet, Mont., have rooms at the Cullen.

J. S. Parker is on arrival from Cleveland, Ohio, at the Templeton.

David L. Haight and Harold Russell Griffith are New Yorkers at the Kinsler.

The Knotsford has James Paxton of Omaha and Mrs. F. Cornelius of San Francisco.

Henry Doyle of the New York Journal is pleasantly domiciled in the city and stopping at the Knotsford.

M. W. Dunne of Omaha and Miss E. Eaves of Chicago are among the guests at the Templeton.

Mr. and Mrs. T. S. Tabulous Jr. of Green River, Wyo., registered at the Knotsford today.

F. Washburn of the Union Pacific hotels at Ogden and Garfield Beach, is registered at the Knotsford.

D. A. Valentine of Kansas is temporarily located at the Cullen, as is also J. J. Thornton of Helper, Utah.

Miss Lou Ellerbeck is down from Montana, Mont., visiting her sister. Her name is on the Templeton register.

BIRTHS.

HUMPHREY—In this city August 27, 1896, Mary Elizabeth, daughter of Henry and Anna H. Hoar, and wife of Henry Humphrey, aged 21 years and 3 months.

Funeral notice will be sent Sunday, August 30, at 1 p. m. from the Westminster church, at Fourth West between First and Second South streets. All members of the Knights of Pythias and Rathbone Sisters invited to attend. Friends are respectfully invited to attend.

NOTICE.

Comparative ex-petrionals carried on in all the western states during the past year have proved that from one to one and a half pounds more wool is yielded by sheep dipped in Cooper Dip than those dipped in lime and sulphur. Moth will not enter Cooper Dipped wool however long stored.

ERWIN FOUND GUILTY

A Stay of Fifteen Days Granted for Motion for New Trial.

SWIGERT ON TRIAL FOR BURGLARY.

New Cable Entered in the Third District Court—News from Between Canyons and the Police Office.

Thomas Erwin was today found guilty by a jury in Judge Hiles's court this morning. His honor charged the jury at the opening of court and after having been out a short time the jury returned a verdict of guilty of grand larceny as charged in the indictment.

Attorney Hamilton requested a stay of judgment to allow him to file a motion for a new trial and fifteen days were allowed for that purpose.

Swigert for Burglary.

W. S. Clawson, John Gallacher Sr., Phillip J. Stone, Brigham L. Little, Charles Gilmer, William Keyting, Frank B. Shelley and William Everett compose the jury which is trying Albert Swigert who is on trial in the Third district court on a charge of burglary. The defendant is alleged to have been an accomplice of Gray, who was found guilty, in burglarizing an implement house on State street last June.

Officer M. E. Park was testifying for the prosecution this afternoon. T. C. Johnson appeared as attorney for the defendant.

THE GREEN BAG.

The county commissioners will meet tomorrow.

The perjury case against James A. Lake has been set for Monday.

Secretary Walton of the State land board was expected at the office today.

An information charging Albert Bennett with Mayhem has been filed in the Third district court.

Judgment was today rendered in the Third district court against A. J. Orem and in favor of W. S. McCornick.

The Brigham Young Trust company has instituted suit against the Salt Lake Grain company and H. E. Miller, judgment for over $500 rent.

County Attorney Whitemore has filed in the Third district court an information charging Bob Thompson, the jaguilist, with murder in the first degree.

Charles Sampson will be required to face a charge of larceny in the Third district court, on information having been filed in the clerk's office yesterday by County Attorney Whitemore.

Miss Hattie Richards, daughter of the State auditor, is improving very perceptibly in health now. At first the young lady's recovery was very slow but the News is pleased to chronicle now a decided turn for the better.

Allen G. Campbell today commenced suit against A. F. Holden, Philip P. Morse, E. R. Wicks and Matthew Cullen for an accounting and profits from workings of the Mary Ellen, Live Yankee and Live Yankee Extension mines in American Fork canyon.

Charles Backman today entered suit against the People's Forwarding company for $653.85 and interest original to be due for services performed for the company by the plaintiff while acting as foreman of the salt works of the contendant between April 1, 1895, and September 1, 1896. Wilson & Wilson are attorneys for the plaintiff.

The supreme court yesterday handed down an opinion in the appeal case of James Mathews against the Silver King Mining company, dissolving the temporary injunction. In his opinion Justice Miner says that the digging of a tunnel and taping of a vein lies across the plaintiff's lots, which are alleged to be "rocky, barren, vacant and comparatively valueless to not such an irreparable injury as to justify this extraordinary remedy by injunction when taken in connection with all the other facts in the case."

STOCKS AND MARKETS.

New York Stock Market.

NEW YORK, Aug. 28.—Stock market opened fractionally higher, with gains of most importance in Sugar, Lead and Western Union. Other improvements were made toward a higher range in most stocks after this, with decided inquiry for some industrial properties, particularly Sugar, which sold up to 107 per share in 15 minutes. Purchases are being made in the belief that dividends will be declared on some among the industrial stocks.

The industrial company was favorably influenced by a report of Erie, the important gold bond issue of which is selling at a premium on the Dutch exchanges, and Western Union and Northern trading.

Omaha Live Stock.

Special to the News.

South Omaha, Neb., Aug. 28.

Cattle receipts, 1,200; market active, strongest. Western steers, $2.60@3.75. Cows and heifers, $2.00@3.75. Feeders, $2.50@3.85.

Chicago Live Stock.

CHICAGO, Aug. 28.

Hogs—

The Brigham Young Trust company has instituted suit against the Salt Lake Grain company and H. E. Miller, judgment for over $500 rent.

County Attorney Whitemore has filed in the Third district court an information charging Bob Thompson, the jaguilist, with murder in the first degree.

Charles Sampson will be required to face a charge of larceny in the Third district court, on information having been filed in the clerk's office yesterday by County Attorney Whitemore.

Miss Hattie Richards, daughter of the State auditor, is improving very perceptibly in health now. At first the young lady's recovery was very slow but the News is pleased to chronicle now a decided turn for the better.

Allen G. Campbell today commenced suit against A. F. Holden, Philip P. Morse, E. R. Wicks and Matthew Cullen for an accounting and profits from workings of the Mary Ellen, Live Yankee and Live Yankee Extension mines in American Fork canyon.

Charles Backman today entered suit against the People's Forwarding company for $653.85 and interest original to be due for services performed for the company by the plaintiff while acting as foreman of the salt works of the contendant between April 1, 1895, and September 1, 1896. Wilson & Wilson are attorneys for the plaintiff.

The supreme court yesterday handed down an opinion in the appeal case of James Mathews against the Silver King Mining company, dissolving the temporary injunction. In his opinion Justice Miner says that the digging of a tunnel and taping of a vein lies across the plaintiff's lots, which are alleged to be "rocky, barren, vacant and comparatively valueless to not such an irreparable injury as to justify this extraordinary remedy by injunction when taken in connection with all the other facts in the case."

STOCKS AND MARKETS.

New York Stock Market.

NEW YORK, Aug. 28.—Stock market opened fractionally higher, with gains of most importance in Sugar, Lead and Western Union. Other improvements were made toward a higher range in most stocks after this, with decided inquiry for some industrial properties, particularly Sugar, which sold up to 107 per share in 15 minutes. Purchases are being made in the belief that dividends will be declared on some among the industrial stocks.

The industrial company was favorably influenced by a report of Erie, the important gold bond issue of which is selling at a premium on the Dutch exchanges, and Western Union and Northern trading.

LOSS OF VOICE
After Acute Bronchitis
CURED BY USING
AYER'S Cherry Pectoral

A PREACHER'S EXPERIENCE.

"Three months ago, I took a violent cold which resulted in an attack of acute bronchitis. I put myself under medical treatment, and at the end of two months was no better. I found it very difficult to preach, and concluded to try Ayer's Cherry

Pectoral. The first bottle gave me great relief; the second, which I am now taking, has relieved me almost entirely of all unpleasant symptoms, and I feel convinced that one or two bottles more will effect a permanent cure. To all ministers suffering from throat troubles, I recommend Ayer's Cherry Pectoral."—E. M. Downey, D. D., Dist. Secretary, Am. Bap. Publication Society, Petersburg, Va.

PRICES: 45 cents, 65 cents, 85 cents, and $1.10.

SUMMONS.

In the District Court of the Third Judicial District of the State of Utah, County of Summit.

Mary E. McKenna, Plaintiff,
vs.
Hugh McKenna, Defendant.

The State of Utah sends greeting to Hugh McKenna, defendant:

YOU ARE HEREBY REQUIRED TO APPEAR and answer the complaint filed in the above named plaintiff in the District Court of the Third Judicial District of the State of Utah, and to answer the complaint filed therein within ten days (exclusive of the day of service) after the service on you of this summons if served within this county, or if served out of this county, but in this district, within twenty days; otherwise within forty days—or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to obtain a decree of the court dissolving the bonds of matrimony existing between plaintiff and defendant, that plaintiff be awarded the custody of the minor child, the issue of these marriages, that defendant be compelled to pay into court a sufficient sum to defray the expenses of plaintiff in this action, and for counsel fees, and that plaintiff be awarded as to the court may seem proper, and for other relief as specified in plaintiff's complaint on file herein.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will apply to the court for the relief demanded therein.

Witness, the honorable Judge, and the seal of the District Court of the Third Judicial District, in and for the State of Utah, this eighteenth day of August, in the year of our Lord one thousand eight hundred and ninety-six.

(SEAL.) M. F. NORTHCOTT, Clerk.
