PATENTS

obtained for new inventions, or for improvements on old ones, for patents for other components, trade-marks and labels, Caveats, Assignments, Interferences, Appeals, and for Infringements, and all cases arising under the Patent Laws, promptly attended to—Inventions that have been REJECTED by the Patent Office may still, in most cases, be patented by us. Being opposite the U. S. Patent Department, and engaged in Patent business exclusively, we can make close researches, and secure Patents more promptly, and with broader claims, than those who are remote from Washington.

INVENTORS send us a model or sketch of your device, we make examination and advise as to patentability free of charge. All correspondence strictly confidential. Prices low, and NO CHARGE UNLESS PATENT IS SECURED.

We refer in Washington, to Hon. Postmaster General D. M. Key, Rev. F. D. Power, The German-American National Bank, officials in the U. S. Patent office, and to Senators and Representatives in Congress, and especially to our clients in every state in the Union and in Canada. Address

BEAUTY:

OR, THE

Secret of a Fair Face

An Item of Interest to Every Lady who Desires to be More Beautiful than she now is.

Unfortunately not one woman in a hundred, subjected to the whims of an American climate possesses that basis and starting point of real beauty—a pure and clear complexion.

What Nature has thus denied, art must be called upon to furnish.

It can be done; it is done daily. Prof. W. E. Hagan placed beauty within the reach of every unfeatured daughter of Eve when he discovered that surprising article known in fashionable circles as the true secret of beauty, and called

MAGNOLIA BALM

The MAGNOLIA BALM is a sure device for creating a pure and blooming complexion.

It conceals all natural blemishes in the most surprising and effective manner.

It removes all roughness, eruptions, redness, blotches, freckles, and tan with magical power.

It drives away all evidences of fatigue and excitement.

It makes the girlish face beautiful.

It gives the complexion a dazzling purity and makes the neck, face, and arms appear graceful, rotund, and plump.

It makes a matron of 35 or 40 look not more than 20 years old, and changes the rustic maiden into a cultivated city belle.

The Magnolia Balm removes all blemishes and conceals every drawback to beauty; and, while it is as harmless as water, it is a life-like in its effects that the closest observer cannot detect its use.

Ladies who want to make themselves attractive can make an absolute certainty of it by using HAGAN'S MAGNOLIA BALM, and we know of no other way. It is the cheapest preparation in the world, all things considered, and may be had at any drug store.

Last Night's Dispatches.

EASTERN.

The Champion shooters.

NEW YORK, 21.—A correspondent interviewed Captain Bogardus to-day. He had two grievances. The trophy he won in England the custom authorities will not allow him to take away without paying duties, perhaps $80. This he refuses to do and will allow it to remain as a monument of the illiberality of the American government. In the second place he claims to have won much money in the recent matches and does not propose to shoot Carver for a hundred or so dollars. If Carver wants to match himself for a thousand or five thousand Bogardus is always ready.

Capital and Labor.

The congressional labor committee resumed its session to-day. The first witness was W. Goodwin Mody, of Boston. He said he could not discover that there was any conflict in theory between capital and labor, but he found there was an artificial conflict growing out of the relations between them by both parties. The direct causes he thought, were that the laboring classes could not understand why capitalists should be in affluence and they in poverty. He had no sympathy with the hostility against capital on the part of labor. One was to a great extent dependent on the other. He believed that in the mass they were living in as much harmony as they could in the present condition of things.

Death of Wm. Niblo.

William Niblo, the veteran theatrical manager and founder of Niblo's garden, died to-day, aged 89.

The Potter Investigating Committee.

Butler asked why Burke had omitted the filibustering paragraph from his synopsis, for his Associated Press report, of the Wormley hotel conference. Witness replied from prudential reasons, and to permit the Louisiana members to express views on the floor of the House, that an agreement might be fully understood by the country. Hayes' assurances were agreed upon by the Nicholls government and afterwards endorsed by Sherman and Matthews. Witness never said that Hayes, in person, had authorized the guarantees or assurances.

A drunken sailor of the navy yard insisted on talking and his yelling caused considerable excitement. Burke promised further documents to-morrow.

The Yellow Fever Calamity.

NEW YORK, 21.—Two thousand dollars has been contributed so far to the yellow fever sufferers. A Grenada dispatch says: "Times are awful; send money by express to pay nurses and bury the dead. Four persons have just died. Twelve died yesterday."

St. Louis, 21.—At the close of change to-day, President Balue called the merchants together and stated that numerous telegrams had been received from southern citizens asking aid for the fever sufferers and suggesting that the exchange take some action in the matter. Subscriptions were then called for and over $800 was subscribed in a few minutes. Other collections will be made as rapidly as possible.

New Orleans, 21.—A *Times* reporter visited a number of physicians with a view of learning the percentage of mortality from yellow fever among their patients and thus arrive at about a general percentage of deaths throughout the city. According to the published reports of the board of health the deaths are about 36 per cent., which is largely in excess of the actual proportion. The physicians interviewed on the subject while agreeing on the percentage of deaths, as appears by the reports, was greater than that which really existed, yet they were reticent as to revealing the secrets of their practice, as deaths under their treatment might be misconstrued by the public into incompetency. The actual percentage of mortality they, however, were unanimous in concluding at the maximum of not more than 25 per cent.

The Howard Association received the following telegrams:

Grenada—The relief committee send for 20 nurses. I did not want to crowd you. They want Howard nurses. Assist to get them if you can. No abatement of the fever.

(Signed) B. P. ANDERSON.

Grenada—Seven deaths. Negroes dropping down like sheep and will not help each other.

Ninety-two deaths up to date.

(Signed) W. R. MANDEVILLE.

In relation to the dead fish, supposed to be killed by the carbolic acid which literally covers the waters of the new basin from the head of Magnolia Bridge, the mayor has instructed Administrator Diamond to employ six men, with skiffs and seines, to gather the fish and burn them with sulphur on the banks of the basin, away from any habitation.

Vicksburg, 21.—It is estimated that there are 50 new cases of fever within the past 24 hours, and 24 deaths, 22 of them from yellow fever. The appeals of the Howard Association and Masonic Order for relief, are being responded to from all directions.

Jackson, Miss., 21.—The panic produced by yellow fever is unparalleled. People are fleeing from the pestilence in every direction. Jackson is almost deserted. The following appeal is from the grand secretary of the Grand Lodge of Masons:

Masonic Fraternity of the United States and Canada:

The Masons of Louisiana have sent unexpected and unsolicited contributions of $200 to their distressed brethren in Mississippi. We shall be glad to receive and disburse other contributions from the craft. The distress and destitution at Vicksburg, Grenada, and Canton is appalling. We are in hourly expectation of the pestilence in Jackson.

(Signed) J. L. POWER,
Grand Secretary.

Fever is reported at Bryam and Teery. All the towns near here are almost totally deserted. Nine cases at Canton with three deaths.

Chicago, 21.—In addition to the amounts mentioned to-day, which were subscribed for the yellow fever districts, the Sinai Literary Association has forwarded $50, and Carrie Watson, a well-known woman of the town, sent $206 to Memphis. A number of ladies voluntarily offered their services as nurses for the infected districts, and will start at once. The express companies and railroad companies will send goods for the sufferers free of charge.

Memphis, 21.—The hopes entertained yesterday, from the decrease in the number of new cases and deaths, that the fever was abating, were dispelled to-day by the increase of over 100 per cent., both in the number of deaths and new cases, there being 12 of the former and 53 of the latter reported for the 24 hours ending at 5 p.m.

Aid continues to reach us from all parts of the country, and is sadly needed.

Little Rock, 21.—The committee appointed by St. John's Church, to day collected and forwarded to Memphis a large quantity of benefit of fever sufferers.

Grenada, 21.—Five per cent. of the whole population have died. Seventy-five negroes taken down to-day. New Orleans doctors are dumbfounded at the malignity of the disease. Our efforts are paralyzed for want of proper remedies. We are short of lotions, ice, beef, tea and in fact all kinds of nourishment for the sick. As yet there is not much increase.

Meeting of Railroad Managers.

SARATOGA, 21.—There was a full attendance of the railroad managers at a meeting held to-day. The following resolutions were adopted unanimously:—

Resolved, That the practice of paying commissions on the sale of railroad tickets is demoralizing to employer, and should be discontinued.

Resolved, That the best interests of the companies will be served by the abolition of the payment of such commissions.

Resolved, That it is recommended that all outside agencies for the sale of tickets be abolished.

Resolved, That a circular embodying the above be sent to all companies, asking for their assent, and containing a clause to the effect that it will not be binding on them unless and until all competitors have agreed thereto, and asking the companies to name such competitors.

The question of live stock difficulties was left unsettled.

A Fight Among the Indians.

YANKTON, Dakota, 21.—An arrival from Spotted Tail agency, yesterday morning, says: That just previous to his departure a half-breed came in from the moving Indians, who were then 125 miles out, reporting that serious trouble had broken out among them and they had commenced exchanging shots. Two Indians had been killed when the runner left. He also reported that about 800 young Indians had left the main body and were traveling north.

Major Pollock hurried to the scene of the trouble, but the Indians indignantly declined to receive any counsel from him, and plainly told him to let them alone. The cause of the trouble is not given, but may have grown out of a difference of opinion existing among the Indians in regard to the move. A large number were in favor of remaining on the river, but through the efforts of the leading chiefs were compelled to submit to the decision of the minority. This, together with the trouble about rations, is supposed to have been the cause of the outbreak.

A Narrow Escape of a Horse Thief.

Moses McGurk, confined in the United States jail in this city on a charge of having been unlawfully in the Indian country, and who escaped from that Bastile, was detected in a horse stealing scrape in Bonhomme County, and captured by Sheriff Benedict last night. A squad of indignant citizens took him away from that officer and hung him on Match Creek bridge. Before life became extinct he confessed, and was let down and will recover.

The Clark Murder Case.

CHICAGO, 21.—The inquest was continued at Lagrange to-day over the body of A. B. Clarke, and additional evidence obtained. The jury retired this evening, and soon found a verdict that Joseph St. Peters is guilty of the murder, and should be held, without bail, to await the action of the grand jury.

The Missing Secretary.

It having been stated in specials published in eastern papers that later developments have increased the loss to the Pullman Palace Car Company through Charles W. Angell, the missing secretary, inquiry has been made of George W. Pullman which proves such statements incorrect. He has made to the Honorable Fred Billings, stockholder, Woodstock, Vermont, the following statement: There are no indications of a loss in excess of my statement to the press and that amount is now reduced over $5,000 by the return of money which he had given to his father-in-law and brother. All books and accounts, including my own personal matters in his charge, appear perfectly correct. It is a case of robbery, not defalcation. If our effort to apprehend him prove successful, I have faith that we will recover a large portion of the amount taken. There is no truth in the rumor that Angell was previously a defaulter to the company.

WESTERN.

Fatal Accident.

SAN FRANCISCO, 21.—Ferdinand T. Brewster, the dramatic critic of the *Daily Alta*, and son of ex-Attorney General Brewster, of Pennsylvania, died, to-day, from injuries received by a collision of a ferry steamer with the wharf at Alameda, lying off the Dumbarton Railroad, last Sunday.

The Stolen Jewelry.

A Portland dispatch says: The valise containing all the jewelry taken from O'Brien's pawnbroker shop, yesterday, was recovered. The robbers are still at large. The pursuit is active. The amount of money is supposed to be several hundred dollars.

Aid for the Yellow Fever Sufferers.

In response to an application from the officers of the Touro Infirmary, New Orleans, F. A. Haber, to-day, telegraphed $1,000. He expects to duplicate that amount to-morrow. St. John's Church, to-day, appointed a committee to solicit subscriptions for the same purpose.

FOREIGN.

AUSTRIA.

Insurgent Hostilities.

VIENNA, 21.—Hafiz Pasha has passed over to the Austrian camp and been sent to Bood.

Hostilities broke out on Tuesday between the Turks and Montenegrins near Podgoritza.

Five thousand insurgents have been defeated near Stalatz with heavy loss.

Negotiating for a Convention.

Negotiations between Austria and Turkey for a convention are still proceeding, but the Turkish demands are exhorbitant and unacceptable. The comprehensive mobilization measures agreed upon in the last cabinet council are being rapidly carried out. Six hundred Turkish prisoners have arrived.

CONSTANTINOPLE, 21.—The Turkish commander at Batoum has informed the inhabitants that the Russians will enter the city August 27th. Vessels will arrive to take away the inhabitants not wishing to remain.

A Proclamation.

A Belgrade dispatch says: Prince Milan, of Servia, has issued a proclamation announcing the independence of Servia and the reduction of the army to a peace footing.

WEST INDIES.

Liberty of Speech.

HAVANA, 21.—The Captain-General has issued a circular directing the governors of the provinces to allow meetings for electoral purposes with liberty of speech, but prohibiting attacks upon the integrity of the nation, and to allow newspapers ample liberty of discussion upon all subjects.

FRANCE.

Commerce and Industry.

PARIS, 21.—The congress of commerce and industry adopted a resolution urging that treaties of commerce be concluded between all the nations, upon the basis of liberal reciprocity. The *Opinions Nationale* says: Though the government has left the question of the Franco-American treaty of commerce to private initiative, it will act at the proper moment.
