THE INSANE ASYLUM.

The Public Institutions of the Territory Must Retrench.

NEW WAY OF AUDITING CLAIMS.

The Sugar Factory—The Brigham Young Academy Admired—Proceedings Today.

Two impressions at least seem to have been made upon the minds of members of the Legislature in regard to the insane asylum at Provo, as a result of their visit and inspection of that institution. One was that the asylum is well conducted and in excellent condition; the other is that the expense of maintaining it ought to be cut down if possible. Members are free in expressing approval of the buildings, and their adaptability to the purposes intended, and in giving the management credit for the neat, cleanly and orderly appearance which the premises, in every part, presented; but the necessity of reducing the expenses of the institution is being insisted upon. The board of directors will be an opportunate of something over $100,000 for the maintenance of the asylum for the next two years, but it is doubtful if the Assembly will give so large a sum.

The visit of the legislators to the Brigham Young Academy was almost a revelation to some of them, and that institution excited the unqualified admiration of all of the visiting party. The large number of students in attendance, the excellent, thorough and positive organization of the academy, and particularly the manners who which it is conducted in comparison with the excellence of the work done, were incessant spoken of in high praise. The use of educating students there was compared with the use of the University and Agricultural College, with a result highly creditable to the academy. One example will serve as an illustration: An instructor in a certain branch at the Brigham Young Academy, who receives only a part of the city in his classes, assignments to other employment the rest of the day, is paid $75 per month. He is a thoroughly excellent instructor, and gives extensive satisfaction. The instructor in the beauty of the Agricultural College, who does precisely the same work, acting as a student (we make per day, is paid $100 per month.

The work that has been made by the legislators in this asylum, and the investigations and the expenses of maintaining them, are giving the effect of creating a retrenchment sentiment among members of the Assembly. Further investigation in this line, and into the general financial condition of the Territory and of the people who pay the taxes, will, it is thought, strengthen this sentiment. Every statute, adopted in terms times, will continue to cut down, and the necessary to economy will be brought home to public officers, and the management of public institutions. Such is the talk among members of the Assembly.

An innovation in the method of auditing and passing upon claims against the Territory has been devised by Mr. Sears, chairman of the House committee on claims and public accounts. His committee has a sub-committee with a sub-chairman, and the two parts of the committee divide up the work between them. Claims are coming in rapidly, creating much work. An arrangement has been effected between the claims committees of the two houses under which both meet conjointly and consider and pass upon all claims amounting to $200 or more. Those a claimant whose amount is for $200 or over, and who is granted a hearing, appear before the claims committees of both houses at the calling, instead of waiting until the time of each successively. Claims of less than $200 may be passed upon by the committees of either house, and included in the general appropriation bill or in recommendations, but after being passed upon and inserted in the general appropriation bill, any claim is exempt from any member of the Assembly, and liable to be stricken out.

Mr. Eldredge is chairman of the claims committee in the Council, and with he and Mr. Sears show a disposition not to let a dollar leave the treasury which is not justly due a claimant.

The members of the Assembly did not derive as much satisfaction from their inspection of the sugar factory, where they spent half an hour while it rode at Provo, as they would have done had it been in operation. This institution is a bone of contention between Democrats and Republicans, and they seem to view it from the same standpoint.

Following is the text of the bill introduced this afternoon by Tyler:

No. 1. Be it enacted, etc. That every landlord or other person who has either furnished or furnished rooms shall have a lien upon the furniture, household effects and other personal property of the tenants for the amount that may be due from any such tenant, for rent, and is hereby authorized to hold and retain possession of such furniture, household effects or other personal property until the amount so due for rent shall be paid.

Sec. 2. Any person who shall remove or dispose of the furniture, household effects, or other personal property from any rented premises without first paying any rent due may be due the landlord or other person for the use of said premises, shall be guilty of a misdemeanor.

TODAY'S PROCEEDINGS.

COUNCIL.

The minutes of the two previous sessions were read, amended and adopted after some discussion.

H. E. Booth presented the claim of A. L. Heaton, as county sheriff.

The claim of A. Kimball Hook. Referred to committee on claims.

The following bills were introduced:

By Williams: C. B. 61, relating to the insurance companies, filed for second reading.

By Williams: C. B. 62, defining the powers of cities and villages regarding of taxes for sprinkling streets.

By J. E. Booth: C. B. 63, relating to free schools. Ordered printed and filed for second reading.

The following bills were referred:

H. B. 31, requiring the employees of city councils to elect a temporary speaker.

H. B. 34, securing control of elections to the county courts.

H. B. 42, repealing the time at redemption of real property.

H. B. 43, relating to the payment of jurors and witnesses, etc.

Kimball's amendment resolution was then taken up, relating to building or improving structures on lands to which the Territory has not a perfect title, and was unopposed.

H. B. 23, relating to the duties of the county assessor, designed to take an ambiguity in the present law relating to the time when the work of assessing property was needed, and at length failed to come up with Warner's revenue bill.

HOUSE.

Opening exercises.

Neither mover a brief argument in opposition to the wool memorial. It thought the measure had been introduced for political effect only. This closes the wool debate which occupied so much time on Friday, and the memorial passed by a party vote.

The following bills were introduced:

By Varian: H. J. M. 18, in relation to surveying and work in Utah.

By Allen: H. B. 78, providing for the appointment of women from the boards of certain public institutions.

By McBride: H. B. 76, relating to county weeds of assessors.

By Tyler: H. B. 77, relating to fees of the recovery of the Territory.

By Haws: H. B. 78, amending the civil code.

By Lyne: H. B. 79, a bill to secure intellects, and give them a lien on property of lessees.

The following claim was presented: S. U. C. assay, for services rendered to sum.

The committee on enrollment reported that the sugar bounty memorial had been engrossed and sent to the governor.

The committee on counties reported adversely on the bill to divide part of Box Elder county and give it to Grant county, for the reason that it would leave the resources of the former too small to support a county government.

SENATE.

All the members of the Council were present today except Harris who has been absent for three days.

Councilor Jensen has been appointed the Weber Depot the Council, from the date issued, so he is over on the west for every quorum is needed.

Quite a number of Cache county's citizens were here yesterday in the Council for the past week. Tony Asers Farr, L. H. Mariness and others were among them.

Mayor H. S. Rickle, W. G. Van Horne, Prof. F. W. Nelson, Hon. James Sharp, Hon. Eric A. Smith and E. A. Merrimel were among the visitors in the Council today.

BUSINESS AND MINES.

For a Coalville Paper—The Heavy Resolution—Road and Tariff.

This evening a citizens' meeting is to be held at the city hall in Coalville, Summit county, to choose the proposition of a popular subscription to a stock company which is to publish a newspaper in the county capital. There seems to be a strong public sentiment in favor of the movement.

GOLD HILL OPERATIONS.

Special to the NEWS.

BARNUM, Wyo., Jan. 26.—Active mining operations have been commenced at Gold Hill. A company was recently organized to work the Arme group of mines in that district. Considerable work has already been done on the Arme claim. It has a 170 foot tunnel which intersects the vein 150 feet from the surface. Gold bill is one of the most promising places camps in the state.

THE SUGAR MOUNTAINS.

The outlook for large developments in the Uinta mountains this summer is good, says the Eastern Utah Telegraph. From the reports of several who have been in the mountains lately, it appears that the indications are good for a large emigration there this summer. The mineral strike made in the Uinta mountains will cause more prospecting to be done there. Taken as a whole, the prospects for the Uinta mountains have a bright outlook, and with the melting of the snow increased work will be the rule.

ON VARIEP.

At a non-partisan meeting of citizens of Ogden, held on Wednesday evening, the following was adopted unanimously: "Resolved, That we the citizens of Weber county, Utah, representatives of political affiliations, in mass meeting assembled, most earnestly protest against the passage of the Wilson bill, and urgently request that the county of Logan be not reduced, and the only one west, east and south of Logan be not removed or reduced."

SECRIAN "PICKERTIN" BITS.

The long Niagara tunnel is now in about one thousand feet and is being driven ahead at the rate of twenty-five feet per day.

Bonds and Garland continue to extract ore from the Ziegler-Nugget and are also doing considerable development work.

Watson and Mayberry are excavating work on their Pennsylvania, forwarding their working force this week. They are taking out some nice ore.

Work, we understand, has been resumed on the Sampson mine. Mr. James Savedge having taken a lease on the mine. The Sampson has been idle since the beginning of the panic, and we are glad to hear it is to be worked again.

Parties broke into the warehouse of Marquart Lindbeck a few nights ago and succeeded in getting away with about a wagon load of provisions. Petty thieves seem to be getting to their work quite regularly in Brighton of late, and if they are apprehended it will certainly go hard with them.

The Deseret says of the measure introduced into the Legislature by Mr. Haws, regarding mining locations: "The bill is a direct injection to miners, in that it says they can but the placing injection in the claim abolishing the office of mining recorder and letting over the recorder of mining records to the county recorders, thereby not only requiring miners to attending to themselves a competent man to take care of their records, but compelling them to go to the expense of making a trip to the county seat whenever they wish to examine the records of their districts or record locations."

THE ADMISSION QUESTION.

Cleveland Said to be Opposed to the Admission of the Territories.

Word has just been received from the special correspondent of the News in Washington that President Cleveland is sure to indorse the Democratic platform, which is to the admission of new states during his term.

A "Serious" Offence.

C. H. Lotelle is arrested by a Mr. Clark itself of "malicious mischief," i.e., of breaking a lock on one of the doors of his residence on Fort West and Sixth South streets. He is to have a hearing before Commissioner Norrell.

Assigned.

On Friday night the Mount Pleasant Equitable Cooperative store made an assignment, the liabilities being $15,[illegible], assets $14,[illegible].

Home Missionaries.

A full attendance of home missionaries of the Salt Lake Stake of Zion is requested at the usual regular monthly meeting, commencing Wednesday, January 31st, 1894, at 7:30 p. m.

JAMES D. FISHBURN, Clerk.

Closed Up Till March 19th.

The Judges of the Territorial Supreme Court sat this afternoon for about three quarters of an hour, but does not appear to have transacted any business. They adjourned until March 19.

John Farrell et al. vs. Griffiths et al. (Appeal from the Fourth District.)

James Anderson, Sheriff, etc., vs. Joseph, vs. the Yosemite Mining and Milling company. (Appeal from Third District.)

George Naylor vs. the Juvenile Mining company, Salt Lake City and the Salt Lake City Bullion company. (Appeal from Third District.)

Percy A. Thomas adm. Lorenzo Thomas vs. Springville city. (Appeal from Second District.)

In each case the judgment of the lower court was affirmed.

W. F. Rogers, of Tooele, Carroll county, was appointed a U. S. commissioner, in the place of Capt. J. H. Moriarty, the latter in Lincoln county.

Notaries Public.

The following were commissioned notaries public today by Governor Wells, all for Salt Lake county: Grant Thompson, Cass A. Cates and Jack Hodges.

Attorneys Admitted.

Chief Justice Merritt will commence morning, beginning at ten, with a call of the law and motion calendar—cases to be heard at the February term.

It is the intention of Judge Smith to hold a civil term this week.

PRESIDENTIAL NOMINATIONS.

Probate Judge of Emery County, Utah.

WASHINGTON, Jan. 27.—The President sent the following nominations to the Senate:

Collector of customs, John T. Gidley, Los Angeles, Cal.

Commissioner John G. Walker, to be commissioner, Tom Moonlight, Lemay, minister to Bolivia; L. to Uruguay, postmaster, Pittsburg, Montana; Wm. H. Webster, surveyor-general, Washington; John Y. Terry, trustee of public lands at Seattle, Washington; Receiver of land office, Thomas J. Holton, Los Angeles, Cal.; Benjamin S. Parker, Visalia, Cal.; Herbert Gallagher, at Chico, to be judge of the probate court of Emery county, Utah.

LOGAN.

LOGAN, UTAH, - JAN. 29, 1894.

Fire Department Items.

A few evenings since, the members of the fire department held a social at the hall, for the purpose of helping their good cheer. J. C. Kimball, presiding, and having a good time together. Mr. Kimball has been a great favorite with the boys, and many speeches were made testifying to their appreciation of his methods. At the close of the proceedings Mr. Kimball was presented with a handsome upholstered patent rocking chair.

The new city council has resolved to reduce the number of firemen, and has appointed W. C. Cairo as chief. A team has been purchased, and one or two men will be employed exclusively.

A Laundry.

Logan is to have a fully equipped steam laundry, with all of the labor saving machinery. Mr. L. B. Newman, of Ogden, Ill., is the projector. The gentleman has entered his machinery and will arrive in Logan on the first of next month, ready to commence operations. At present most of the finer classes of laundry work is sent to Salt Lake laundries, several of which have agencies here.

Broke Her Arm.

An elderly lady named Johnson had the misfortune to fall heavily on a slippery sidewalk, breaking both bones of her right forearm. These were properly set, and the knitting together will most likely occupy a long time, as the lady is seventy-six years of age.

Quarterly Conference.

The quarterly Stake conference commenced yesterday. Chas. Jeremy F. Smith, Elder F. M. Lyman, S. B. Young, Seth Morgan and other brethren from Salt Lake are attending, and the instructions given are particularly adapted to existing conditions.

Notes.

Mr. and Mrs. A. Geddes lost their little fourteen months old son Earl, who died from convulsions on Sunday morning, Jan. 21st. The funeral services on Tuesday.

The Philomathic Literary society, composed of students of the B. Y. College, will continue to hold their interesting meetings in the College building, on each Friday evening.

A number of Logan's young people visited Hyrum last Wednesday evening for the purpose of attending the masquerade ball there. It is always a pleasant occasion when the Logan people visit Hyrum, and consequently the boys and girls are on the tiptoe of expectation for some time before the event.

CASTORIA

for Infants and Children.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me." H. A. ARCHER, M.D., 111 So. Oxford St., Brooklyn, N. Y.

"The use of 'Castoria' is so universal and its merits so well known that it seems a work of supererogation to endorse it. Few are the intelligent families who do not keep Castoria within easy reach." CARLOS MARTYN, D. D., 77 Street and 7th Ave., New York City.

"For several years I have recommended your 'Castoria,' and shall continue to do so as it has invariably proved beneficial to children." EDWIN F. PARDEE, M. D., 125 Street and 7th Ave., New York City.

THE CENTAUR COMPANY, 77 MURRAY STREET, NEW YORK CITY.

PARK CITY.

PARK CITY, - JAN. 29, 1894.

Among the Scottish.

Snow, snow, snow. Nothing but snow fell in the entire week, and prospects are good for a continuation for sometime yet. At present there is more snow in the Park than at any time during the past six years. Indications are that the roads and side tracks will be in very good condition for the coming season. Last Sunday the Utah Central was over about three inches in depth as it laid in Salt Lake City, and by now or the Sunday for one or two days well open, but a sufficient number has to be kept in service snowplows getting to deep on the main for three days, and consequently the mail at the time arriving many.

Ore Shipments.

The shipments of ore go on at a fresh rate from the Ontario, Silver King and Anchor mines, but happens to be only a question of a very short time when all will have to shut down, as the recent falling in prices during the past week of both silver and lead is very discouraging to the various companies. The miners by now will be fortunate to obtain that none of the mines have yet making any money for their hard work.

The Consort has stopped during the week fairly run of fine class ore and several cars of concentrates.

Notes and Personals.

The Union Pacific pay car made its regular monthly trip last Tuesday, distributing checks to the various employes of the road at this point.

An unusual number of commercial men have been in the city during the week. They report only fair success in taking orders, but all look forward to better times in the very near future, and then expect to receive orders in good to large quantities as in former years.

H. C. Chambers came up from Salt Lake Sunday, and six days later all the week distributing checks to the men employed at the Ontario mine, mill and tunnel. Mrs. Chambers, Mrs. Marion left for other places. She will remain in the camp a few days longer.

Secretary McDonald, of the World's Fair commission, and John Dyer, have been in the camp the week as guests of H. C. Chambers at the Ontario mine.

Mrs. W. S. Hedge and sons Benjamin and Emery, and Miss Emeline Wells were visitors to the Park on Saturday.

The tax companies up here are doing a large amount of work for individual and public use. Most all the outlines have gone their own tax and are pushing up an excellent quality.

Friday night at the Opera house, the Park City Gleaners club celebrated Robert Burns's birthday by a well rendered and attractive program, ending with a grand ball. The evening was a great success with its attendance and enjoyment.

Mr. J. J. Daly spent two days during the week at the Deseret Mine.

CHAMPAGNE AND BOTTLED.

All connoisseurs recommend at $1.00 per M. Boswell & Co. exclusively.
