WHAT CAPTAIN WASH YOUNG SAYS.

Sick Men Rapidly Recover at the Recuperation Camp at Pablo Beach.

Florida Times-Union and Citizen: Captain Young of the Second volunteer cavalry, who was detailed in charge of the recuperation camp for convalescents at Pablo at the time that it was started several weeks ago, was in the city yesterday, and spoke most enthusiastically of the success of the camp.

"Why, nearly every day men are brought from the train on stretchers, being unable to walk," he said, "and in a week or ten days time they will move to be around and are feeling all right, except having that brownish pale, which, of course, we can't cure them of. So far, on my part, no deaths occurred, however, it is in good condition in every way, and the men are getting all they can eat and of the right kind of food. The trouble at first is, of course, that they want to swim, the little lagoon is the right place at Pablo. He comes from Salt Lake City, and is grandson of Brigham Young.

WATER QUESTION AGAIN

City Fathers Still Grapple With an All Important Matter.

NO DEFINITE ACTION FOR RELIEF TAKEN

Recommendations of Board of Public Works on Various Matters—Utah Power Co. Cited to Show Cause.

The water question was again made the principal theme for discussion at last night's Council meeting, but nothing definite was done, the resolutions on the subject were referred to committees for further investigation. The rest of the business was nearly all routine matter. A number of petitions were offered and given due consideration.

The board of public works recommended to the Council that the following matters be referred to report their portion of some block paving and that the wooden spouts used by residents to conduct surface water from the sidewalks and return curbs be constructed instead, at the expense of the abutting property. Adopted.

The board further recommended that the sidewalks of the city be roughened so as to prevent people from slipping and came the city to be liable in damage suits. This matter was referred to the street committee. It was also was the recommendation of the board that authority be given it to expend no money in repairs to street crossings for the Citizens-Jennings Paving company.

The board also recommended that action be taken on the laying of new sidewalks at various places. Referred back to ordinance committee with instructions to report a resolution advertising whether the property owners would consent to repair the sidewalks when notice required it, and at their own expense.

Committees Sidaway and Fox-strong introduced a resolution relative to enforcing the ordinance regulating the use of steam boilers and providing for the examination of engineers in charge of or operating steam engines or boilers or passenger elevators. The bill was read and laid over for one week, when it will come up for the appointment of a board of examiners and prescribe certain duties and powers. Adopted.

Councilman Callister's resolution, introduced two weeks ago, requiring the Utah Power Company to show cause why its franchise should not be forfeited, was passed. Failure to appear and show cause will be considered a forfeiture of the franchise. The resolution was introduced by Councilmen Sidaway and Fox-strong.

A communication from J. M. Thomas and H. B. Cox asking a lease of land from to sell the city a reservoir site at the mouth of Little Cottonwood was received. The offer included land in lakes and power flumes of Little Cottonwood creek. It was suggested that a dam 200 feet long at the top, 64 feet at the bottom and 70 feet high could be built so it would inclose a reservoir of forty-five acres area and sixty feet in depth.

It was also represented that the lakes would refill the reservoir as the water was used from it. The title to the reservoir site is by deeds on patented land and to the lakes by government titles under the reservoir act. The communication was referred to the special committee on water supply.

The appointment of Silas T. Smith as fire engineer at the police station, vice Charles Ashton, resigned, was confirmed.

A letter from N. S. Ballou & Son, asking that $14,000 of their $20,000 check, given as a guarantee that they would take the recent bond issue, be refunded, was read. The firm stated that $12,000 of the bonds have already been delivered and that $2,000 of old bonds were or ruble in Salt Lake, and will probably been delivered and sold for before the date of the communication. The the firm said would make a total of $12,000, and a refund of $14,000 would still leave a good equitable margin in the hands of the Council. Referred to the finance committee.

E. A. Hutchinson asked for a remale of $1.75 on a sod machine license, or that he be allowed to run the machine until Sunday, instead of the 20th. Granted.

J. Riley & Co., S. Booth, H. K. Brookmeyer, George J. Bullock, the Wood, Albert Sharp, W. H. Malvey, Frank A. Anderson, The New Grand saloon and Mrs. Johnson filed a petition for Attorney M. A. Breslin's appointment as a notary public. Referred to the license committee.

Councilmen Howe introduced a resolution providing that the services of the Liberty park band can be dispensed with after September 15th. Adopted.

Councilman Banks introduced a resolution authorizing the placing of warning signs at street crossings on Saturday nights, when the crossings and the sidewalks are closed to bicycles. Adopted.

A request from the Utah Implement company for permission to use a portion of the street and sidewalk on State street between First South and Second street for the construction of a three-story business block was granted, subject to the usual conditions.

Police Court Clerk Dunn reported that 36 cases had been tried during the month of August in the criminal court. Fines and forfeitures resulting therefrom aggregated $1,324. Filed.

H. E. McGonagle and others filed a petition asking that Q street be cut down from Brigham to First street to the established grade. The petition was referred to the street committee.

Councilman Sidaway introduced a bill for an ordinance providing for license for the sale of spirituous and vinous liquors for medicinal, sacramental and culinary purposes only by drug stores. The druggists will be required to pay $50 quarterly into the city treasury. Should they sell liquor as a beverage or allow any to be drunk on their premises they lay themselves liable to a fine of from $25 to $100 or imprisonment not to exceed 90 days in jail, or both, in the discretion of the court. Referred to committee on license.

Bill of Lagoon.

For the past week Lagoon has been somewhat quiet, but on Friday evening the resort will take on a livelier spirit. It has been determined to give a grand ball on that evening, and as it will be the last one of the season the dancers will be given a good time. For the occasion Professor Hambrecht's orchestra will be increased to ten pieces.

PUBLIC SCHOOLS.

The board of Education recently adopted a rule which will require all pupils in the public schools who are issued books belonging to the Board to provide themselves with a satchel to carry such books to and from their homes. To enable pupils to comply with this rule we have added to our large stock of stationery a complete line of school bags and satchels from 15 cents to $1.25 each.
