The Evening paper is the paper of Today, the morning paper is the paper of Yesterday.

DESERET EVENING NEWS.

5 O'clock -EDITION.-

TRUTH AND LIBERTY.

NO. 240. THURSDAY, SEPTEMBER 14, 1893. SALT LAKE CITY, UTAH. VOL. XXVI

REPEAL BILL TALK.

Voorhees Determined to Press the Measure to an Early Vote.

EXPLAINING HIS TACTICS.

Two Weeks Will Close the Debate.—No Amendments Likely to Pass.

WASHINGTON, Sept. 14.—Voorhees said to a representative of the Associated Press today that he is still determined to press the repeal bill to as early a consideration as possible. It, however, is necessary, he said, to observe the courtesies required by the traditions and rules of the Senate, and I really believe by showing due regard to those points we shall be able to make greater progress than if we violated them. Senators who oppose the bill must soon come to see that we have been acting with exceptional liberality and I am sure that sort of conduct will have its effect upon them. There is undoubtedly scope yet left for considerable legitimate debate, and there is no means, if there were the disposition, of pressing the question to a vote before every senator has had an opportunity to say what he may wish to say. We have not really consumed as much time in the discussion of the question as the country seems to think, and I have every reason to believe that we shall be able to reach a vote in a comparatively short time.

Pressed to say how long time it would be, he named two weeks as the limit of the debate. After that, if the speech making is continued it would indicate a purpose to filibuster, and he did not believe the tactics for simple debate could be long pursued, nor did he think there would be any disposition among the opponents of repeal, save probably from the senators of silver producing state, to consume the time of the Senate unnecessarily and those senators could not expect to continue the contest long without the assistance of the senators from other sections of the country.

Replying to a question as to how he expected to bring the matter to a close, Voorhees said that with legitimate speech making out of the way, the question would soon resolve itself into one of physical endurance, and he expected soon to ask the Senate to hold longer daily sessions and indeed continue them into night. He thought this course would be justified after this week and would move in this direction, and with this specific end in view within the next three or four days.

Asked what he thought to be the disposition of the Senate to compromise on the line of the Faulkner amendment, Voorhees replied he did not believe there would be any amendment of the bill and he was of the opinion that the silver men would show greater strength in their vote in opposition to the straight repeal bill than upon any other proposition which could be brought before the Senate in connection with the present legislation.

THE WORLD'S FAIR.

Ohio Celebrates—A Monument Dedicated—Warm Weather.

CHICAGO, Sept. 14.—The day was bright and warm. It was Ohio day at the World's Fair. It is estimated that 50,000 citizens of the Buckeye state throng the grounds. At 10 o'clock Governor McKinley, mounted, led a procession into the grounds, including the Third and Fourteenth Ohio infantry, state officials, commissioners and other prominent citizens. After parading through the grounds the procession drew up in front of the Ohio building. The exercises of the day, included a number of speakers, and one by Governor McKinley, took place, and a monument of granite with bronze figures of the illustrious sons of Ohio standing on the lawn in the Ohio grounds was appropriately dedicated. At the conclusion of the exercises Governor McKinley held a public reception. This morning Governor Lewelling of Kansas and staff made a tour of all the state buildings.

The Detroit for Rio.

FORT MONROE, Va., Sept. 14.—The United States cruiser Detroit this morning sailed for Rio Janeiro to protect American interests.

Coal Miners Strike.

PARIS, Sept. 14.—It is reported that in a few days work will be entirely suspended throughout north France and four Belgian colliery districts.

THE STRUGGLE FOR HOMES.

The Warm Weather and Distress Continue.

ARKANSAS CITY, Kans., Sept. 14.—The hot weather which is causing home seekers so much suffering continues. The sun is blazing hot, the winds, and lack of water and shelter, are causing increased sickness and prostration.

Six more registration clerks were engaged this morning, and the work is proceeding somewhat faster. The men in line have been there since Monday evening and are literally exhausted. Hundreds are afflicted with throat and lung diseases, caused by breathing dust laden with lime. Many are obliged to drop out and secure the services of physicians. Several strippers were prostrated during the night and this morning.

Santa Fe trains arrived late last night in five crowded sections. This morning crowded trains came in over all the lines. There are fully forty thousand strangers in and about town. As the day progresses the wind gets hotter.

THE OHIO CAMPAIGN.

The Democratic Candidate for Governor Makes a Speech.

NEWARK, Ohio, Sept. 14.—Hon. Lawrence T. Neal, the Democratic candidate for governor of Ohio against Hon. Wm. McKinley, opened the Democratic campaign here this afternoon in the presence of a large and enthusiastic gathering of Democrats of this section of the state. After referring to the existing financial depression the speaker declared the McKinley and Sherman laws the cause of the trouble, and said the Democratic party was pledged to invest of bimetallism and the repeal of the purchasing clause of the Sherman act. McKinleyism was the greatest foe of the prosperity of the people. The McKinley protection means taxation favoring the rich. For several years the government receipts exceeded the expenditures a hundred million dollars. The burden falls on the poor people. He declares the agricultural interests the principal victims of protection. In 1860 the farmers owned almost half the property of the country. Now they own less than a quarter. The difference is the measure of the farmers' loss and the manufacturers' gain. The defeat of the Republican party in Ohio will affirm the judgment of the people of the entire country, enlisted at the Presidential election last year and there will be a final decision of the American people. The speaker appealed to the people to vote for Democracy, the party of the people, the guardian angel of their rights and liberties, and thus secure the destruction of the monopolies and unjust taxation.

INFANTS CRUELLY SLAIN.

How Fiends in Human Form Dispose of their Offspring.

Two Bohemian Women Arrested.—A Large Number of Guilty Parents Arrested.

VIENNA, Sept. 14.—A sensation was caused by the arrest of two women living in separate villages in the district of Kuttenburg, Bohemia. It seems they were engaged systematically in the business of murdering children whose parents desired to have them out of the way for any reason. They contracted to dispose of the bodies effectually, and guaranteed secrecy; they did a thriving business at five florins per child.

The discovery was made by accident. One of the women actually kept account books, in which she entered the sums received, and from whom; the age and description of the child and date disposed of. By the help of this horrible record, the authorities expect not only to convict the women, but also a large number of guilty parents.

German Corvettes for Rio.

BUENOS AYRES, Sept. 14.—The German corvettes Arcona and Alexandrine got up steam hurriedly last evening and left for Rio Janeiro.

Another Bank Resumes.

PORTLAND, Sept. 14.—The Ainsworth National bank, which closed July 29, reopened for business this morning under orders of the comptroller.

The Plea for Tariff.

WASHINGTON, Sept. 14.—The ways and means committee heard representatives of cement, cutlery, sheet iron and caustic tile, glass and steel manufacturers on the subject of tariff duties on these articles.

ANOTHER REMEDY.

A Proposition to Issue a Special Silver Dollar.

AUSTIN, Texas, Sept. 14.—Governor Hogg has been requested to call a council of the governors of the silver states with the object of suggesting that each state pass a law that a silver dollar weighing one ounce be legal tender in payment of the debts of the mines and to have the money coined in Mexico. Some lawyers say the plan is constitutional.

Chinamen Arrested.

RIVERSIDE, Cal., Sept. 14.—The United States marshal arrested ten Chinamen who failed to register under the Geary law. The arrests were made upon warrants issued by Judge Ross of United States District court at Los Angeles. The Chinamen will be taken there for trial. The arrests caused consternation in Chinatown. The celestials are keeping out of sight.

ASKING FOR PARDON.

David A. Sanders Applies for Amnesty.

WASHINGTON, Sept. 14.—On the 24th of last July, David A. Sanders, Plymouth, Utah, filed an application with the department of justice for amnesty for violating the laws relating to unlawful cohabitation. Applicant says he did not receive the benefit of President Harrison's amnesty proclamation for the reason that his unlawful relation did not cease until a few days after the time mentioned by the proclamation as the limit, November, 1890. He says he has not violated any law of the country except that relating to cohabitation, and that he has not violated this law for more than two and a half years. President Cleveland is in doubt whether he can properly grant pardon and before acting on it has referred it back to the attorney general for his opinion.

Rate of Discount Reduced.

LONDON, Sept. 14.—The Bank of England directors today reduced the rate of discount to 4 per cent.

The Navahoe Got the Cup.

COWES, Isle of Wight, Sept. 14.—The Navahoe has been awarded the prize in the race for the Brenton Reef cup, which, according to the first calculations, was thought to be won by the Britannia by two seconds, according to time allowance.

Pension Agent at Topeka.

WASHINGTON, Sept. 14.—The President has nominated ex-Governor Geo. W. Glick, Kansas, pension agent at Topeka.

FAIRBAULT SCHOOL PLAN.

The Catholics Object to Protestant Teachers.

FAIRBAULT, Minn., Sept. 14.—The formal announcement of the failure of the Fairbault school plan will be made. Father Conry went before the board of education and said the Catholics would not consent to the assignment of two Protestant teachers to a school which had been Catholic in the time of the union. He said the order was from Archbishop Ireland at the request of the Pope. The school now becomes parochial.

SENATOR VEST EMPHATIC.

He Says He Has Not Changed His Position as to Repeal.

WASHINGTON, Sept. 14.—Regarding the published statement in New York that he has changed his position and would vote for unconditional repeal, Senator Vest said to an Associated Press reporter today and emphasizing the statement with considerable warmth, that it was a lie, manufactured out of whole cloth.

NAME DECIDED ON.

Ruth's Baby Sister Will be Called Esther.

WASHINGTON, Sept. 14.—The name of baby Ruth's sister has been decided on. The President announces that it will be christened Esther.

The little one will be christened as soon as Mrs. Cleveland is able to take her to church. The name is understood to be Mrs. Cleveland's choice.

BOMBARDMENT OF RIO JANEIRO.

Yesterday's Cables of the Affair Confirmed Today.

BUENOS AYRES, Sept. 14.—Dispatches received here announce that the bombardment of Rio Janeiro began yesterday. The city is in a state of panic. The overthrow of the Piexoto government is anticipated.

LONDON MERCHANTS ANXIOUS.

LONDON, Sept. 14.—It is now admitted here that the news exclusively cabled by the Associated Press of the proposed bombardment of Rio Janeiro, and the fact that the forts are in sympathy with the insurgents, was correct in every particular. The points of the Associated Press story were cabled back to this country and extensively used. The attack on the forts, as already reported, began at 9 o'clock and the garrison of the largest and strongest fort at once declared for the rebels. The bombardment of the town began at 11 o'clock. The town has a desolate appearance. Only those who cannot get away remain. All business is at a stand still. The air is full of alarming rumors. The merchants of London have similar news and the admiralty is besieged by anxious inquiries from the people who have large interests in Rio.

AN OFFICIAL DENIAL.

PARIS, Sept. 14.—The Brazilian delegate to this city announces that he has received an official dispatch from Rio dated at 4 p. m. yesterday, saying there is no truth in the report that the insurgent war ships have succeeded in leaving the bay of Rio and that last evening they bombarded the town of Nictheroy. The dispatch does not tell the result. The message adds that the capital and state of Rio Janeiro are loyal to the government and the garrison at Rio resisted all attempts of the rebels to make a landing; that the garrison can be counted upon to repulse any attack by land, by sailors from the warships and that the land forces of the army and the national guard are ready to defend it and are unanimous in condemning the revolt. The delegate in giving the dispatch to the Associated Press points out the fact that it does not mention the bombardment of Rio and expressed the belief that the city has not been fired on.

Later dispatches say the garrison at Nictheroy succeeded in repulsing the attempt of the rebels to land in its neighborhood; that the garrison is loyal and can be counted on to beat off the rebels.

MINISTER THOMPSON'S REPORT.

WASHINGTON, Sept. 14.—Secretary Gresham has received the following from Minister Thompson at Rio:

At 11 this morning the revolutionary forces bombarded the forts commanding the entrance to the harbor, and also the arsenal on the wharf on Center City. A few shells were fired into the city and one woman was killed. Commercial telegrams are forbidden. The cruiser Charleston has not arrived. The dispatch practically disposes of the hopes at the navy department that the cruiser Charleston has reached Rio. It is now believed she went direct to Montevideo without touching at any Brazilian point.

A WOEFUL STORY.

Charges Preferred against President Gage.

CHICAGO, Sept. 14.—James Philip Gage, president of the Farmers' National bank, Clinton, Iowa, was arrested yesterday, on the complaint of Mrs. J. W. Barton, charging him with drugging and assaulting her daughter. He was arraigned in the police court this morning. The case was continued. Gage was released on bond. Mrs. Barton is from Washington and claims social prominence. They alleged that Gage made their acquaintance and took them to the theater, the mother sitting separate from the others; that he started to take the daughter to Milwaukee to marry her. No train being found, he promised to marry her here the next day and gave her a drugged drink, and induced the girl to go to his room where the night was spent. He drove around the city the next day. The girl escaped and went to her mother. Gage refuses to explain. He denies the charges.

The Lake Shore Train Robbers.

HUNTINGTON, Ind., Sept. 14.—A posse of citizens at Kelseyville have just had a fight with a gang of five men believed to be the Lake Shore train robbers. One of the robbers is believed to be wounded.

SAFE CRACKERS IN OGDEN.

They Break Into the Tithing Office and Blow Open the Safe.

Special to the DESERET NEWS.

OGDEN, Sept. 14, 1893.—The tithing office at this place was burglarized some time during last night. After affecting an entrance, the burglars drilled a hole in the safe and blew the latter open. There was $15 in cash which the thieves secured. They then departed, without having been observed by any one. No clue has been found yet that would lead to their capture.

FORWARD MOVEMENT

Wheat Suddenly Advances to a Higher Figure.

PROPOSED JEWELRY FACTORY.

Colorado's Souvenir Coin Plan.—The Alice Directors.—Mining and Business Notes.

The farmers of Utah and Southern Idaho have been prompt to act on the advice of Bishop W. B. Preston, as given through the NEWS and copied generally by the press. Wheat is no longer obtainable at the low price of 35 to 40 cents per bushel, even in outlying country places, but has made a rapid movement upward in price, and is still going. The increase has not come from any special demand for the article, but from the fact that the farmers have realized to some extent at least the wisdom and force of the advice that was given.

The lowest quotations that could be obtained today from country points for good wheat was 50 cents per bushel—a marked change from the condition of two weeks ago. Even at the last named figure the grain could be secured only in limited quantities, and the quotations were liable to a change for a higher figure at any time. The movement is a healthy one and indicates that breadstuffs are being held back from the free outward flow to which they were subjected. Wheat buyers are paying the advanced prices, and as a result the flour market, which yet remains low, is likely to soon experience a rise. The effect of the whole situation is indicative of better times.

CONTEMPLATED CONTRACTS.

This month will witness the completion of several large contracts in this city by the Silver Iron works. In these the iron and steel work which has been done by the Silver Brothers indicate that a large amount of improvements has been going on in the business part of town. Five of the contracts will aggregate about $60,000 in the iron and steel work alone that has been done here, exclusive of the other material which it was necessary to ship in. The parties making the improvements are also deserving of credit for giving the contracts to home workmen. The five contracts referred to as amounting to the sum named are the Continental Market building, about $6000; the R. Y. Trust company building on First South street, $17,000; same company's building on Commercial street, $5000; Harmon building on Second South, $10,300; and Salt Lake City Street Railway company, $22,000.

FOR THE ALICE.

Last night's Union Pacific for Butte, Montana, carried from this city M. H. Walker, Boyd Park, H. W. Walker, W. L. Pickard and H. W. Lawrence, of the directorate of the Alice mining company. The gentlemen were going to Butte to hold a meeting today, and to decide upon steps in the further operation of the company's great mines. Mr. Pickard expressed it as his opinion that a large number of men would be added to the force employed at present.

SOUVENIR AS COIN.

In petitions that are being sent to the governor of Colorado, asking him to convene the state legislature in special session to bring relief to the people by increasing the circulating medium, the following plan for effecting the purpose is proposed: That the state by law should establish and maintain a souvenir stamp, issued without limit, in silver and gold souvenirs and fractional souvenirs, as in detail hereinafter expressed, to-wit: Silver souvenir—Souvenir 412½ grains, 900 fine; half souvenir, 206¼ grains, 900 fine; quarter souvenir, 103⅛ grains, 900 fine; tenth souvenir, 41¼ grains, 900 fine. Gold souvenir—Souvenir, 516 grains, 900 fine; half souvenir, 258, 900 fine; quarter souvenir, 129 grains, 900 fine; and that said law stamp act shall give and grant authority for the treasurer of the state of Colorado to fully execute same and to receive upon deposit gold and silver bullion by grain system of weights and a fine—see basis of 1000 fine bullion, and for such products and metals received said treasurer shall issue, in the name of the state of Colorado, certificates of deposit for gold and silver for silver, wherein shall be stated that the same is redeemable in gold and silver souvenirs of the state of Colorado stampage and issue, upon demand, to the holder thereof, such certificates of deposits to be in denominations of 5 souvenirs, 10 souvenirs, 20 souvenirs, 100 souvenirs, 500 souvenirs, 1000 souvenirs, 5000 souvenirs, and we recommend for stamp devices, to-wit: For face of all these souvenirs their number of grains and denominal souvenir character and the words "Liberty of the People;" reverse side, the great seal of the state of Colorado, 1876-1893.

MANUFACTURE OF JEWELRY.

J. C. Leibel, formerly of New York, and J. H. Knickerbocker, of Michigan, but recently of Aspen, Col., arrived in this city last night and today were looking about for a business location. The gentlemen are both experienced manufacturers of jewelry and have given considerable attention to cutting and polishing precious stones. Their purpose here is to organize a company with a capital stock of about $25,000 and commence business at once. They have a complete plant and outfit of tools at Aspen which they propose to bring to this city at an early date. They are of the opinion that they will be able to work up a good trade in this region as Utah jewelers are compelled to send east to have the work done that these gentlemen propose to do right here.

Mr. Leibel claims to have been in the business twenty-three years, and says that he was connected with Tiffany's celebrated New York jewelry establishment for fourteen years. Messrs. Leibel and Knickerbocker say they want no bonus, but expect to go right to work without delay.

NOTES.

Nephi Courier: A decided increase in business was expected by a great many of our citizens as a result of this session of the First district court, but some of them were greatly disappointed. William W. Jenkins, one of our leading tonsorial artists, is making a vigorous "kick" because a majority of the strangers around the court house wear beards, the hotel people are "roaring" because everyone seems to be boarding with private families, and the saloon men are "howling" because the people are all total abstainers.

The Hale and Norcross Mining company is again involved in litigation. An assessment on its stock has been levied by the board of directors, the amount being fifty cents per share. H. Smith and other shareholders have filed a suit against the directors and ask that the assessment be declared invalid on the ground that it was made in pursuance of a conspiracy on the part of the directors to injure the stockholders. It is claimed that, as a matter of fact, the mines of the company have been operated at a profit, but that the income has been misappropriated by the directors.

Denver News: Franklyn Ballou, manager of the Bi-Metallic smelter, Leadville, is in the city at the Brown Palace hotel. He expects to blow out his furnaces in about ten days, as the supply of ore is almost exhausted. In the Leadville districts the miners still refuse to make any concession in the matter of wages. They insist upon $3 per day or nothing—and they are getting nothing. Every day's delay complicates the situation. About all the ore taken out there at present is raised by leasers, and even they are hampered by the wages problem. The failure of the Leadville miners to furnish fluxing ores will cause several properties in Idaho and Utah to increase their output.

SALT LAKE CLEARING HOUSE.

Today's clearing house exchanges amounted to $114,813.

TODAY'S QUOTATIONS.

New York — Silver, 73¼; lead, $3.80.

London—Silver, 33⅞.

ORE AND BULLION.

Wells, Fargo & Co. received today: Mingo bullion, $3551.

McCornick & Co. received today: Gold bars, $1000.

T. R. Jones & Co. received today: Bullion, $2200; ores, $5400. Total $7600.

Will Accept City Warrants.

County Collector F. J. Leonard announced today that he will accept city warrants in payment of the city portion of the tax, or five mills of the total amount of assessment, in accordance with the ordinance passed by the City Council.

The Baby Passes Away.

General sorrow will be felt for Mr. and Mrs. William Allison in the death of their only child, whose illness has been frequently referred to in these columns the last few days. The sad event occurred at 12:30 this morning and is made doubly severe by reason of the circumstances connected with the little one's sickness and demise. The blow has been especially heavy to Mrs. Allison, whose grief is overwhelming and has resulted in her complete prostration.

The NEWS extends sympathy to the bereaved parents in their irreparable loss and trusts that they may find true consolation from Him who alone can give it in the terrible affliction that has overtaken them.

The funeral will take place at 3 p. m. tomorrow (Friday) from 77 Peach street.

Land Office.

Elias P. Morris, of Granger, Salt Lake County, filed with Receiver Sherman today an application for a homestead entry to the north-east quarter of the south-west quarter of section 4, township 2 south, range 1 west.

Thomas J. Caldwell, of Vernal, Uintah county, made application in the land office this afternoon for homestead entry to the south half of the southeast quarter of section 2 and the north half of the northeast quarter of section 11, in township 3 south, range 19 east.

This afternoon Andrew Niels Olsen, of Castle Dale, Emery county, made cash entry of the northeast quarter of the southeast quarter of section 2, township 19 south, range 8 east, 40 acres.

Application for desert entry was made in the land office this afternoon by Christen J. Bang, of Salt Lake City, for the whole of the south half of section 29, township 1 north, range 2 west, 320 acres. The applicant asserts that the water to irrigate said land can be obtained from the North Point Consolidated Canal company, Salt Lake county.

A Ninety Days' Note.

William Moss this afternoon brought suit in the Third district court against O. W. Benson and O. P. Hatch, seeking to recover $300 on a promissory note of ninety days, executed and delivered by defendants to plaintiff at Bountiful, Davis county, on April 12th, 1892, with interest at 10 per cent per annum.

J. H. Moyle is the plaintiff's attorney.

WHERE WERE THEY?

August Edler and His Attorney Failed to Show Up After All.

Two o'clock this afternoon had been set for the hearing in Commissioner Norrell's court of the charge of burglary preferred against August Edler by Mrs. Gertie Newton, on behalf of the Patriotic Daughters of America, from whose room in the Union block the defendant is alleged to have stolen "certain property" belonging to the Order. Assistant County Attorney Eichnor and the witnesses for the prosecution—quite a number of them—were promptly on hand, but neither the defendant nor his attorney (Mr. Condon) seemed likely to put in an appearance. After waiting patiently for them, but in vain, until 2:30, Mr. Eichnor asked for a further continuance of the case until next Monday at 2 p. m. He said he thought it strange on the part of Attorney Condon to act in this way, especially after the great anxiety he all along seemed to display to have the case pushed to an early hearing.

The commissioner granted the continuance and directed all the witnesses on both sides to be present next Monday, without further notice.

The Charity Ball.

The charity ball which occurs at Saltair tonight is the social event of the season, and many persons, it is said, will attend. The journey will be made comfortable, as Superintendent A. E. Welby of the Rio Grande Western, has kindly tendered the Young Ladies Aid Society closed cars.

A car load of young lady workers went out this morning to arrange the booths. Prof. Carelese went out at 2 o'clock, taking with him the full theater orchestra.

VETERAN FIREMEN.

Laddies of California En Route to the Rockies.

WILL STOP OVER AT SALT LAKE

The Local Veterans Will Entertain the Visitors in This City and at Saltair.

The Veteran Firemen of California are about to start on a trip to the World's Fair and the leading cities of the United States. The first contingent will leave Los Angeles on Monday next, and join with the main body, which starts eastward from San Francisco at 7 a. m. on Tuesday next, Sept. 19. They will come direct to Salt Lake, reaching here late on the evening of the 20th.

The veteran firemen of Salt Lake, with Colonel George M. Ottinger at their head, determined to entertain the visitors royally while here, and extended to the excursionists an invitation to stop over in our beautiful valley for a few hours. To this the following reply was received today:

SAN FRANCISCO, Sept. 11, 1893.
George M. Ottinger, Esq., President Veteran Firemen's Association, Salt Lake City:

Dear Sir:—In reply to your letter of September 5th, relative to the Veteran Firemen's trip east and your reception of the Veterans on their arrival at Salt Lake, we shall be in Salt Lake on the night of the 20th of September. We arrive by the Denver & Rio Grande road and will remain in our sleeping cars at the depot that night. We shall stay over one day at Salt Lake City, to-day of the 21st, leaving there about 4 p.m. in the afternoon of the 21st. From present appearances we shall have about 100 in our party. Anything that the old Salt Lake Veterans can do to make it pleasant for the Veterans of the Pacific Coast will be highly appreciated by them.

Yours truly,
J. G. McCALL,
Secy. V. F. W. F. Com.

The program for the reception of the visiting firemen has not been arranged in all minor details, but a general outline has been agreed upon as follows:

On the morning of Thursday, September 21, the Veteran Firemen's Association of this city will march to the Rio Grande Western depot and welcome the California Veterans. There a procession will be formed, in which the visitors will join, and proceed to the Tabernacle, where an organ recital will be given. At the conclusion of the visit to the Tabernacle the whole party will return to the railway depot and take train for Saltair Beach, the management of the Salt Lake & Los Angeles generously tendering free transportation on the occasion. At Saltair a bounteous lunch will be provided and those who are so disposed may enjoy a bath in the lake. The party will then return to this city, and will take a street car ride through the chief portions. At 4 p. m. they will be escorted back to the excursion train, which will then depart.

In the reception of the excursionists, Chief Engineer Stanton and the regular fire department will unite with the Veterans' association, and will take part in the parade and in the duties of entertainment.

Upon leaving Salt Lake for the East, the Californians will proceed to Glenwood Springs, Pueblo and Kansas City. From there they will go to Washington, Baltimore, Philadelphia and New York. Returning they will travel via Niagara Falls to Chicago, then to Denver and back to this city and Ogden on October 16, and to San Francisco two days later.

The program for Saltair will be arranged for the perfect entertainment of the guests, and an invitation is extended to the public to engage in the festivities of the day.

THE ALLEGATIONS DENIED.

The Officers of the Salt Lake Building and Loan Association on Their Mettle.

Joseph C. Davis, through his attorney, E. W. Tatlock, has filed a suit against the Salt Lake Building and Loan Association, in the Third district court, asking that a sale made by the defendants last August be set aside owing to alleged irregularities. The officers of the organization are charged with mismanagement of the society's affairs, and allegation is made that they have diverted the funds of the association.

Those at the head of affairs give an absolute and indignant denial to the assertions contained in the complaint, and have issued a circular to the stockholders in which they state that all the books and records of the society are open to the inspection of stockholders at all times, and invite the closest investigation.

POLITICAL CIRCLES.

The Liberal City Committee Installed in New Quarters Today.

TERRITORIAL DEMOCRATIC CALL.

Meeting of the Republican League Clubs To Be Held Soon.—Candidates for Office.—Notes.

The Liberal city committee formally opened headquarters in the O'Meara block on Second South street this morning and flaunted that fact in the face of the public by stretching long colored streamers over the entrance to their new abode, which was thronged with visitors throughout the day.

J. F. Axton, city committeeman of the Fourth precinct, and J. L. Franks, the Liberal labor champion, are in charge of the new quarters and are now preparing to lay their plans for the coming campaign. Jake Moritz and Jake Green would will also lend tone to the place by their presence and will administer crumbs of consolation and advice to the faint-hearted and weary.

REPUBLICAN CLUBS.

Hon. Sam J. Kenyon, of Salt Lake, president of the Republican League of Utah, says the Ogden Standard of today, announces his intention of calling a convention of the Republican clubs of the Territory to meet at Salt Lake early in October.

The exact date has not yet been fixed, but it will soon be made known through these columns. In the meantime, every club should be making its preparations to be represented.

TERRITORIAL DEMOCRATIC CALL.

Chairman C. C. Richards and Secretary E. A. Smith have issued the following explanatory call:

A meeting of the Democratic Territorial committee of Utah is called for Thursday, the 21st day of September, 1893, at 2 o'clock p.m., at the parlors of the Union club, Hotel Templeton, in Salt Lake City. All members of the committee are requested to be present.

POLITICAL POINTERS.

The return of Judge Powers from Beaver is anxiously awaited by his political associates. He is expected home tomorrow.

While other persons are talked of as candidates for city marshal on the citizens' ticket, Arthur Pratt still continues to lead all competitors in the race for that official plum.

The Y. M. C. A. Literary society will on Tuesday evening next discuss the question: Resolved, That the financial panic of 1893 was not due to the Democratic administration.

The Wasatch Democratic club met in the Sixteenth ward last night and authorized the Third precinct campaign committee to push the interests of the Democracy in that district from the time on until after the election.

The Republicans of the First precinct will meet in the south wing of the Exposition building at 8 o'clock this evening to discuss the mixed condition of local politics and determine upon if possible, a course to be pursued during the coming campaign.

Orson Hamel, receiving teller of the Deseret National Bank is spoken of by some of his friends as a possible candidate for city treasurer on the Democratic ticket. The name of Frank Kimball is being urged for the same office by persons interested in the citizens movement.

Signor Samuel Gallozzi is industriously at work marshalling the Liberals of the Third precinct under his banner with a view to receiving substantial recognition at the hands of the party. His ambition for the office of chief executive of the city is still undaunted.

William Showell, of garbage collection fame has a confidence in himself that is remarkable. He still insists, it is said, that the people of the First precinct will not receive thorough and complete representation in the next City Council unless he shall be one of three wiseacres elected from that district.

Fire Chief Stanton is reported as having given up the idea of reappointment under the new order of things to be instituted at the November election. He is undecided as to whether he will again become a real estate broker or a hay and grain dealer a business that he understands better than some persons imagine.

Councilman Kelly, his friends say, has never considered himself a full fledged solon on account of receiving his official title through appointment, as Mr. Ewing's successor. He is a great believer in the power of the ballot box and is anxious to go before his constituents for their suffrages that he might say as is his wont: "I am the people's choice. Behold my work!"

Chairman R. C. Lundy and A. C. Emerson, secretary of the Liberal central committee at Ogden, have issued a call for a mass meeting of Liberal voters to be held in Ogden this evening at 8 o'clock, for the purpose of acting on the resignations of the central committee and transaction of other business.

Salt Lake's city councilmen are still complaining of the bitter dose prepared for the public—and themselves incidentally—by the citizens' committee in address and refuse to swallow it. Notwithstanding the scorching arraignment they received several of them are anxious to be "returned" for a second term and are pulling their strings and trimming their sails accordingly.

One of the deputy registrars in his rounds a few days ago came across a house which heretofore has turned out a remarkable number of Liberal voters. The officer inquired of the lady of the house as to the whereabouts of the owners of some of the names. The lady replied that she did not know, but assured the gentleman that if he would call around in three weeks she would have 250 men for him. He thanked the fair volunteer, doffed his hat, smiled and went away.
