WEEKLY CROP BULLETIN.

Report of Climate and Crop Service, Weather Bureau.

Weather In Utah the Past Week, and Reports From the State of the Condition of Crops.

SALT LAKE CITY, Utah, July 20, 1897.

During the first five days of the past week the weather was generally favorable to the growth of irrigated crops. Light scattering showers in a few districts did much good to grain and vegetables. On Sunday and Monday a cold wave passed over the State, and it is feared that considerable damage will be done to garden and field crops by the abnormally low temperature.

Harvesting hay and grain is progressing in all sections with generally fair crops in most districts.

The first crop of lucern has been about about all gathered and the cutting of the second is under way in the southern portion of the State.

Early apples and peaches are ripe and corn is beginning to tassel out; lights and cutworms are still very troublesome and are doing much damage in several localities.

REPORTS BY COUNTIES.

Beaver—The past week has been favorable for growing crops. Cutworms reported in some districts.

Box Elder—Haying progressing nicely; the weather favorable for growing crops; cool nights and warm days. Apricots and early peaches ripe; grain heading out; lucern nearly all in; cutting winter wheat.

Iron—The past week has been warm, and where there has been plenty of water growing crops have made good progress; harvesting commenced.

Cache—Very warm days and cool nights; several nice showers did much good to crops and fruit; wheat nearly all headed out; haying well under way; second crop lucern about half grown; respective ripe and planting fall crop generally good.

Grand—Warm and dry; plows and peaches ripe, apricots about all picked, second crop of alfalfa ready to cut; spring grain ready to harvest.

Iron—Warm, with two nice showers during the week; crops in good condition; grain heading out, corn growing fast; early apples getting ripe, some damage from codlin moth.

Millard—The past week characterized by warm and dry weather. Crops doing nicely where irrigation is accessible, otherwise suffering from the drouth. The first crop of lucern has been harvested; second cutting rye; Wheat all headed out.

Piute—The past week has been exceptionally fine for growing crops. Harvesting about completed, some beans, new potatoes and sugar beets progressing nicely.

Rich—Very fine growing week. Harvesting of hay being rapidly pushed. Squirrels have done considerable damage to small grain.

Salt Lake—Weather warm and dry and generally favorable to irrigated crops; wheat all out in head and crops in general looking good.

San Juan—First crop of alfalfa all in stack and good prospects for second crop; Water short, gardens look well; grain growing slowly; good crops expected.

Sanpete—Dry land wheat ripening; other grains and fruits doing nicely; water supply is getting low; fall grain being cut.

Sevier—Alfalfa and corn growing fine; garden vegetables doing well with the exception of cabbage which is being damaged by worms; Weather during week hot and sultry.

Tooele—Harvest in full blast. High winds doing considerable damage to fruit; corn poor and backward generally, watered lucern showing well for second crop.

Utah—Irrigating corn and potatoes; sugar beets and lucern growing well; grain crops looking good; weather very warm with light shower of rain Friday evening. Wheat and oats in full head and nearly ready to cut; wild hay cut and baled; corn tasseled out and in silk; potato and beet crops good.

Wasatch—Weather past week warm with some light showers which were not heavy enough to do much good. Water on uplands very scarce and much grain will be a total loss unless a good rain comes soon.

Weber—Harvesting winter wheat commenced; the crop is poor but the wheat is first class; potato crop good; apples and peaches are in market; cantaloupe is first class; early corn ready for roasting ears.

Wayne—Weather past week warm and favorable for the growing crops; corn beginning to tassel; wheat doing much damage to cabbage and potatoes; garlic peas and carrots ready for use.

Washington—Weather warm and rainless past week; crops doing fairly well but need rain badly; apples and peaches ripe; harvesting grain and hay general; crops generally good and growing nicely. J. H. SPENCER, District Director.

NEWS OF THE NORTH.

Interesting Local News in and About Cache Valley.

FRANKLIN, Idaho, July 19th, 1897.

To The Editor:

The Oneida Stake of Zion is one of magnificent distances, and it is necessary yet to hold the quarterly conference at different points so that all can have an opportunity once a year to attend. On Sunday, July 25th, the conference will be held at Marsh Center in Marsh valley about forty miles from home.

It is wonderful how these Stakes of Zion have increased and the borders of Zion lengthened. Not many years ago all the northern part of this country was Cache Valley Stake of Zion, which extended even to Cardston, Canada. Oneida, Bannock and two or three other Stakes have been taken out of Cache and now Oneida has furnished one more, on the west side around Malad. Yet it is from 60 to 70 miles or more from one part of Oneida to the other.

The people up here live on their farms or ranches, as they are called here. In asking the ploughers or teamsters with them among the grain, they say they are very busy this time of year. Yet some of them stopped a team of wheat a little while ago and now they are of the opinion they were in too much of a hurry, as speculators are going through the land offering 70 cents a bushel for the grain yet in stack. If our farmers are wise they will not sell their old grain or contract their now for some time at least. This is my advice, as I labor some in farm, and I feel that the WEEKLY NEWS, which is ever on the watch for the interest and protection of all our people will continue to warn them against all sharpers whether they are seeking to mortgage their crops or homes or to work any other scheme to get the hard earnings of these sons of toil. If you had followed me around for the last three years and seen the sharpers among the people you would not be surprised that I utter this warning through your valuable paper, which is found in all the Stakes and wards of Zion. There are more judgments and swindlers, also foreign thieves than who pry their calling under the cloak of night. It is the daylight thread that is the most dangerous.

Preston is building up fast with a new hotel and store, also dwelling houses; and in the near future will be the county seat of Oneida county as a division thereof, as this part of the county is becoming of too much importance to have a county seat forty miles away, and about two-thirds of the year the roads almost impassible.

Franklin has secured a village marshal and has a president, board of trustees, justices and constables, but not before they were needed. The streets have ceased to be here grounds for cows and horses, and improvements are seen on every hand. For the last Mercantile company has built a new creamery, and it is now under way and a great blessing to the people, it is well known that Oneida county is a splendid section of country for butter and cheese. The eight creameries and skimming stations up and down Cache valley bring in now from thirteen to fifteen dollars per day and yet there is room.

Another home industry is the Franklin Woolen mill, now owned by Mr. Kimball Stoker. Its manufactures yarn, blankets and cloth and our ladies are making homemade suits for the people—they are good ones to boot.

There is also a woolen mill at Hyrum. Thus one after another home industry is springing up here and there in this country.

The health of the people is very good and they are prosperous, contented and happy.

The nights are cool for this season of the year, but no frosts. SALOP.

DIAMONDVILLE WINS.

Salt Lake Boys Cannot Stand against Wyoming.

The Diamondville Wyo., boys secured a victory from the Salt Lakers in the game of association football at Stock's athletic track yesterday afternoon by a score of 5 to 0. The game was a hard fought one and in evening through at.

The game began with the Salt Lake boys facing a good stiff breeze and it was comparatively easy for the Wyoming boys to score. Two goals were made during the half by the winners, when half time was called and the sides changed giving the wind and advantage and it was not so noticeable the Salt Lakers as it had been to their opponents. The winning team scored in the second half.

Of course the Diamondville boys did superior playing, and considering that association football is about the only game or at least the important game of this much maligned world not have been expected. Our boys, however, put up a good strong game and were prevented from scoring several times only by the signal offside.

Today the winners will play the Park City players, are unless indications are misleading the game is more to the nature of rugby than association games commonly are.

Pratt Family Reunion.
