# HIGH SCHOOL BOND ELECTION JAN. 8

## Board of Education Decides Upon Date for Passing Matter Up to People.

## SITE TO BE ON EAST SIDE

**George M. Bridwell, Superintendent of Buildings and Grounds, Tenders Resignation.**

The board of education selected Saturday, January 8, 1910 last night as the day on which to vote on a bond issue of $500,000 to build a new high school building which is badly needed. A tax receipt for 1909 will qualify the elector to cast his vote for or against the bond issue. The money is to be used to purchase ground, erect a high school building and equip it with the most modern apparatus. Some of the bond money will be used to equip the present high school building as a trades school.

As specified by the board, the bonds will draw 4 per cent interest, payable semi-annually and will run twenty years. The denomination of the bonds will be $1,000 each.

The site for the new building will be on the east side, and the board proposes to erect one of the finest high school buildings in this part of the country. The present high school is overcrowded and the equipment is inadequate. For several years Salt Lake has needed a new high school and the board feels that it has put the matter off as long as possible. The board has several sites in view on the east side, but none of them have been decided upon. The school will be located as near the center of population on the east side as can be.

When the bond issue was presented to the board last night Mathonihah Thomas suggested that the issue be raised to $700,000 on account of the need of two or three more grammar grade schools. After his suggestion was discussed by the members of the board it was decided to wait until the schools were needed before the additional money was asked for.

SUPT. BRIDWELL RESIGNS.

George M. Bridwell, superintendent of buildings and grounds, tendered his resignation last night to the board of education. By a unanimous vote the board accepted his resignation after Oscar Moyle made a brief talk in which he upheld Mr. Bridwell in the manner in which he had discharged his duties and conducted the affairs of his office. The text of the resignation was as follows:

To the honorable board of education, Salt Lake City, Utah—Gentlemen: I hereby tender my resignation as superintendent of buildings and would like this resignation to take effect as early in December as my successor can be appointed.

I have held the position of superintendent of buildings for four and one-half years, during which time I have conscientiously discharged the duties of my office to the best of my ability.

I thank the members of the board for the confidence reposed in me.

Respectfully, G. M. BRIDWELL.

MOYLE'S ENCOMIUM.

Mr. Moyle said that he would vote to accept his resignation but that before he voted he wanted to make a few remarks:

"I wish to testify to the integrity of the man," said Mr. Moyle. "From all I have seen and from the investigation, I feel that Mr. Bridwell dealt honestly with the board of education and was true to his trust. I feel that we should have gone through with the investigation and finished the matter ourselves, just to let the public know our stand on the matter. But from the fact that he had lost the confidence of any members of the board, I suppose it was best for him to resign."

CHANGES IN COMMITTEES.

President James T. Hammond made a number of changes in the standing committees last night on account of the recent additions to the board and the vacancies caused by the death of Judge Henderson, Joseph Oberndorfer, and the resignation of Dean Byron Cummings. L. M. Bailey was chosen to succeed Dean Cummings on the teachers' retirement commission. The standing committees are as follows:

## DRAMATICS AT UNIVERSITY.

**Several Casts Rehearsing for Production of "Trelawney at the Wells."**

Tryouts for the production of "Trelawney at the Wells," which is to be produced by the University Dramatic club under the direction of Miss Maude May Babcock, are being arranged for. On Wednesday the fifth cast will rehearse the second act.

Students of the university are interested in University of Chicago fellowships, for which they have been asked to compete. The Illinois institution, in connection with the Rush Medical school, is offering four scholarships each year for the best theses on medical research. There is one graduate fellowship, carrying $180, and three for undergraduates, graded $189, $120 and $60.

The girls of the university will be hostesses at their big annual dance on Nov. 19. It is one of the notable events of the university year.

Parliamentary discussion was the topic at the meeting of the Order of the Gleam yesterday afternoon with Lloyd Hamren, a leading debater of the university, acting as chairman of the meeting.

Railroad construction and excavation, with estimates, have been under discussion in the mining classes since Prof. R. B. Ketchum took up this end of Professor Overstrom's work.

The railroad extending from Parley's canyon to Emigration has been almost completed by the class in railroad surveying. The traverse of the road has been run and most of the leveling done with the topography the only remaining feature. The office location will be made during the bad weather and in the spring the students will be ready to begin work on the final field location.

## L. D. S. BUSINESS COLLEGE TERM

The young man who will not take advantage of this opportunity is—not wise. We send catalogues on application.

## DEATH OF DR. JAS. DAVIDSON.

**Well Known Contributor to Medical Press Dies of Lung Trouble.**

Dr. James Davidson, died yesterday morning at 8 o'clock at the family residence, 243 east First South street, from lung trouble and asthma. The family and immediate friends were at the bedside when the end came. He was 48 years of age.

In the matter of abdominal surgery Dr. Davidson was considered an authority and he wielded a powerful influence for good in this line in his profession. He was a regular contributor for years to the medical and surgical press of the country.

Dr. Davidson was born in Ireland, but spent his boyhood and early manhood in Scotland, where he received his education at the University of Edinburgh. He came to this country in 1876 and took a post graduate course at the University of Minnesota. Early in his career he evinced a marked liking for abdominal surgery and after a short activity in practising, left for Heidelburg and Vienna, where he studied for several years in the great hospitals. On his return to this country he built up a great reputation in St. Paul, Chicago, and the middle west, removing to Salt Lake seven years ago because of his health.

The dead man is survived by a widow and two sons, John Davidson, 21, and Fred, 16 years of age.

The following letter was received by Chief of Police Barlow this morning from Mrs. C. C. Riley, widow of the special officer who was shot to death by a holdup whom he was taking to the police station, on the night of Nov. 5.

"To the friends of Mr. Riley—Some two or three days ago, the fund which has been in the hands of Chief of Police Barlow was handed over to me. In my bereavement, I feel very grateful to the many friends of Mr. Riley for their liberal contributions, which will certainly be a very great help to me and my child. I thank each one for anything he has done to help me."

Mrs. Riley earnestly expressed her gratitude to Chief of Police Barlow for his kindness and consideration toward her during her trouble. The chief has received about $800 for the Riley fund, to help Mrs. Riley and her 6-months-old baby.

He was made a major in 1906, so it will not be long before promotion to a lieutenant-colonelcy. The major was a prominent member of the University club while here, and for a year was its president. ## THINK SHE WAS ROBBED.

**Relatives of Emma Rogers Do Not Believe She Attempted Suicide.**

Salt Lake relatives of Emma Rogers, the young woman who was found shot in a Los Angeles building Monday and is believed by the police of the California city to have attempted suicide, do not believe that she shot herself but that there was robbery behind the incident. They have expressed this opinion to the Los Angeles police who have been asked to investigate thoroughly.

A. H. Rogers, father of the woman, and F. M. Baer, an uncle, say that Miss Rogers was accustomed to carry about her a money belt which always contained a considerable sum. It is not known that this has been found and the Los Angles police have been telegraphed as to its whereabouts. The father of the woman will leave today and institute a thorough investigation.
