MINING, BUSINESS AND STOCKS.

FELL UNDER A HALF MILLION

The Ore and Bullion Settlements For the Fiscal Week.

METALS BROUGHT $400,900.

Report of McCornick & Co.—Output of The Independent Concerns Not Included in Totals.

The ore and bullion settlements made during the fiscal week, ending last night, were not as heavy as usual. The total sum paid through McCornick & Co., for the products of the mines amounted to $400,900. Quite a neat sum, to be sure, but lacking considerable of being the usual amount, which most always cuts close to $500,000 and often times very much more. Of the sum mentioned $197,300 was paid for ores; $142,900 for base bullion and $60,700 for gold bars.

The business of each day was as follows:

	Ores.	Base bullion.	Gold bars.
Saturday	$ 31,100	$ 20,500	$.....
Monday	12,800	17,800	10,700
Tuesday	89,200	44,600	.....
Wednesday	25,900	55,900	.....
Thursday	9,100	26,200	25,000
Friday	29,200	28,500	25,000
Totals	$197,300	$142,900	$60,700

As usual, the output of the independent mines and plants is not figured in the above totals. If they were, the receipts of the week would exceed $500,000 by a whole lot.

The independent smelters report the shipment of about the usual amount of bullion to the eastern refineries. Twelve cars were forwarded, aggregating 60,000 pounds each, or 720,000 pounds. From the Highland Boy plant was sent out five cars; from the United States, three cars, or 182,770 pounds; the balance from the Bingham Consolidated.

THE METAL MARKET.

As to metals, copper and lead have remained stationary, the former at 14⅝ cents per pound, the latter at $3.90 per 100 pounds. Silver has fluctuated. On Monday it was quoted at 48½ cents per ounce; Tuesday, the same; Wednesday and Thursday it was up to 48⅝; Friday, found it at 49¼, and today the price dropped back to 49 cents flat.

add Concentrates

COBALT IN IDAHO.

Ore Found in Lemhi County is Very Rich.

Some information has heretofore been given respecting cobalt properties found in the Blackbird district in Lemhi county, says the Boise Statesman. W. P. Carter of Nampa is one of the owners of the group of claims in which the metal is found. He said yesterday they had an immense deposit of the ore. It carried from 7 to 12 per cent cobalt, some nickel, and from $2 to $3 in gold.

The character of the ore was detected by a man—now a stockholder in the company—who was searching for supplies of cobalt. He brought it to the attention of Mr. Carter and others and they purchased the claims.

Orders were being received for shipments of the ore, Mr. Carter said. Two companies had sent for a carload each, and there seemed to be an impending demand for all that could be produced. The price offered was 70 cents a pound for the cobalt, with current prices for other metals. This gave the ore a value of from $100 to $180 a ton in cobalt.

NEW YORK HOIST.

Finishing Touches Being Put On Park City Plant.

F. C. Richmond, at the head of the mining machinery department of the Salt Lake Hardware company, said today that the new hoisting plant at the New York Bonanza mine, at Park City is nearing completion.

The brickwork in which the boilers are encased was completed yesterday. The engines will be ready "to steam up" by Monday night.

Application for Patent Survey.

Application has been made for a patent survey in the office of the surveyor-general for the Excelsior No. 2 lode mining claim, located in the West Mountain mining district. Application made by J. Fewson Smith, Jr., deputy mineral surveyor. Date march 27.

Capital Stock Increased.

The capital stock of the Annie Laurie Extension Mining company, operating near Kimberly, has been increased to 1,000,000 shares of a par value of $1 each. The original incorporation was for 1,000,000 shares of a par value of 25 cents each. The officers of the company are: L. H. Gutzen, president; Floyd Weed, vice president; Alex Russell, secreatry and treasurer; and Chas. SKougaard, James Long, Jr. H. G. Snyder, Aaron Thurber and Angus M. Cannon, directors.

NEW YORK METAL PRICES

Lead quiet, 4.67½.
Copper quiet, unchanged.

ORDER FOR CAR OF TUNGSTEN

Ores of the Ima Consolidated May Prove Profitable.

METAL BRINGS TEN CENTS.

Per Pound, Net, to the Company—Developments at Mine Are Very Satisfactory.

The local shareholders of the Ima Consolidated Mining company, Lemhi county, Idaho, are very much encouraged over the progress made in the development of that splendid property.

President Taylor is in receipt of a report from Supt. Smith in which he declared that splendid headway is being made in driving the lower tunnel where electric drills are in operation.

The creek, or lower tunnel, has been driven into the mountain for a distance of 250 feet. Assays taken from ore exposed in this tunnel shows values of 7½ to 60 ounces silver, $10 gold and 10 per cent copper, besides the values in tungsten ores, which are of considerable value. At the 140 foot station in the upper workings, ore has been exposed running 50 ounces silver with traces of copper and gold.

Manager Taylor said this forenoon that he had received an order for a car load of tungsten ores from an eastern concern, which is to be shipped shortly. This metal will net the company 10 cents per pound net, after extraction from the rock and Mr. Taylor believes will prove to an important source of revenue in the future.

WEEK ON 'CHANGE.

Shares Sold Brought the Sum of $230,777.50 — Today's Call.

The week closes with stocks inclined to recover from the slumpish condition which has prevailed since last Saturday. Today an improvement was noted in a good many of the local traders. The volume of business transacted consisted of 244,144 shares of the value of $236,777.50.

The principal transfers of the week were made in Daly-West and the stock closed 57½ cents higher than the last bid registered at the end of Monday forenoon's call. Daly-Judge is found 50 cents lower while Daly quit 39 cents down.

Consolidated Mercur also ended weaker. While May Day has been transferred extensively the stock closed but a shade higher. On Monday the first bid was quoted at 19¼, while the last one today was posted at 19⅝. More than 18,000 shares were sold this forenoon. New York sold as low as 23½ cents on Monday; todays quotations show that the stock was offered at 25½, with 24¾ bid. Star Consolidated picked up during the week, fully 3 cents per share. Silver Shield entered the pit and displayed more or less activity, the attraction for it was lost when the Directors met and levied a 2 cent assessment.

Some business was done in the industrials; the sugar stocks being the sellers.

Today's quotations and sales were posted as follows:

TO CURE DANDRUFF.

It is Necessary that the Dandruff Germ Be Eradicated.

"Destroy the cause, you remove the effect." Kill the germ that causes dandruff, falling hair and baldness, you will have no more dandruff and your hair must grow luxuriantly. Herpicide not only contains the dandruff germ destroyer, but it is also a most delightful hair dressing for regular toilet use. No other hair preparation is on this scientific basis of destroying the dandruff germ, and none other claims to be, for the simple reason that it is only recently that a destroyer of the germ has been discovered—Newbro's Herpicide, the only hair preparation that actually kills dandruff.—Sold by leading druggists. Send 10c in stamps for sample to The Herpicide Co., Detroit Mich. For sale at Z. C. M. I. Drug Dept.

MINES OF TINTIC.

Shipments of Ore Light This Week — Roads in Bad Shape.

Special Correspondence.

Eureka, March 27.—The bad condition of the wagon roads leading to many of the mines has made quite a decrease in the week's shipments. The Martha Washington, La Clede and Dragon Iron mines have a large amount of ores in the bins ready for the smelters. It will be severl days yet before the freighters will be able to use their teams on account of the snow and mud.

The following is the list of shippers for the week, 121 carloads of ore being sent to the valley smelters: Bullion-Beck, 7; Centennial-Eureka, 26; Dragon Iron mine, 12; Grand Central, 24; La Clede, 1; Gemini, 13; Lower Mammoth, 4; May Day, 2; Mammoth, 16; Martha Washington, 1; United Sunbeam, 2; Yankee Con., 10.

The shaft of the Manhattan has been sunk another 50 feet since the new electric hoist has been placed in position. This week drifting on the 100 level was commenced to tap the ore body. The vein on this level will be tested and if good signs are shown the shaft will be sunk another 50 feet and another drift run from that depth by Supt. Thomas Fairchilds.

The delinquent stock of the Apex mine was sold Tuesday. Assessment No. 22 has been levied on the stock payable on the 27th of next month, and the delinquent stock thereon will be placed on the market on the 18th day of May.

Drifting is being pushed in the shaft at the Spy, to tap the Carisa vein below the old incline shaft and when this is accomplished, the ores will be taken out through the Sioux-Ajax tunnel. The new compressor at the Carisa is giving entire satisfaction and three machine drills have ben put in operation this week. It is expected that a shipment of some fine ore will be made in the next 60 days.

Fred Bettles Returns.

Fred Bettles, at the head of the metallurgical department of the Newhouse mines, returned today from a pilgrimage to Tonopah. The purpose of his trip was to make an inspection of the Honnapah mine, which is being developed under the superintendency of Frank B. Work.

Mr. Bettles came home ready to verify all the flattering reports previously sent out from that property and reports wonderful progress being made in the development of the mines in that part of Nevada. Tonopah is growing rapidly and is destined to become a great big mining camp.

Eutonia Looks Good.

Manager O'Donnell of the Eutonia mine in West Tintic reports conditions looking favorable at that property. A force of seven men being employed at the present time.

CONCENTRATES.

H. C. Brownlee, manager of the St. Louis-Ontario mine, is expected home from a trip east today.

Walter G. Filer is in Idaho, looking after the Twin Falls irrigation enterprise.

Word has been received from Deep Creek, telling of the arrival of Supt. Crismon at the Utah mine.

Frank L. Wilson, the well known Deep Creek operator, expects to depart for the east in a few days.

W. D. Higginbotham has returned to Elko. He is getting ready to start up work on the White Rock placers.

The Columbia mine, Bingham, of which Frank B. Cook is manager, is in the market today with a carload of concentrates.

The first electric drill ever operated in the Silver City, Ida., district, has been installed at the Alta Vista property.

In order to encourage mining at Neihart, says a Butte paper, the Great Northern road has announced a reduction in the freight rate on low grade ores from that camp to the East Helena smelter of the American Smelting & Refining company. The reduction of the freight rate combined with the recent advance in the price of lead will materially help developing the camp. The former rate on ore from Neihart to East Helena was $4 per ton, while the new rate will be $2.50 per ton.

The best pill 'neath the stars and stripes;
It cleanses the system and never gripes.
Little Early Risers of world repute—
Ask for DeWitt's and take no substitute.
A small pill, easy to buy, easy to take and easy to act, but never failing in results. DeWitt's Little Early Risers arouse the secretions and act as a tonic to the liver, curing permanently. Z. C. M. I. Drug Store, 112-114 Main Street.

Salt Lake Bank Clearings

Salt Lake clearings for the past week as compared with the same week a year ago were as follows:

	1903.	1902.
March 23	$ 562,040.02	$ 705,241.33
March 24	544,112.14	593,954.88
March 25	399,989.93	654,981.78
March 26	510,509.53	547,687.91
March 27	475,244.46	431,936.70
March 28	325,095.34	408,695.52
Totals	$2,816,991.42	$3,342,498.12

Decrease, $525,506.70.

GOOD OUTLOOK FOR BUSINESS

Col. Donnellan Says the Prospects Are Unusually Bright.

HE REVIEWS CONDITIONS.

What the Sugar Industry Has Done For This Section—The Mining and Railroad Situations.

Cashier J. W. Donnellan of the Commercial National bank is one of the careful and intelligent observers of business and industrial conditions in the west, and what he has to say at any time is worthy of attention. In a pleasant talk this morning, on conditions obtaining in this part of the country, Colonel Donnellan said:

"The business prospects for the current year seem to me unusually bright. The snows in the mountains and the precipitation in the valleys have not been so great for many years, and this insures us an abundant yield of all kinds of agricultural products, affording also, the best and most abundant range feed for livestock. We no longer produce a surplus of wheat, potatoes and the like, which heretofore served to reduce the prices of such products to a figure ruinous to the farmer. All of the surplus acreage is now taken up in the production of sugar beets. The new sugar factory being built in Box-elder county will, when in full blast, require about 10,000 acres of beets. There is no danger of an excess of sugar production, as sugar will bear transportation to Missouri river points. Utah will soon be an exporter of sugar to other states, the production of last year amounted to nearly 2,000 car loads, which will be largely exceeded this year. Salt Lake continues to dominate the sugar business of the intermountain region, and Salt Lake capitalists associated with Mr. T. R. Cutler and the old Utah Sugar company people are the controlling element in the Greeley factory in Colorado, the factory at Baker City Ore., and the new factory at Idaho Falls. They own the great factory at Lehi, and the new Bear River factory, and besides are largely interested in the factories at Ogden and Logan.

FARM PRODUCTS.

"The creamery business has also had a wonderful development in Utah in the past few years, and we are now large shippers of choice creamery butter to San Francisco and other California points. These, together with cattle, sheep, horses and wool, constitute the products of our farms which are shipped to distant markets. So that our farmers are gradually growing rich, they are paying off old mortgages, and have money to spend on their families, and for the improvement of their farms.

OUR MINING INTERESTS.

"Our mining interests were never so prosperous as at present, and the output of the various markets was never so great. A few years ago Utah was not known as a producer of copper, but this year we will ship at least 40,000,000 pounds of pig copper, containing large values in gold and silver. We now have five large smelting works in operation near Salt Lake. The Boston Consolidated has developed sufficient ore in its mines at Bingham to supply a smelter of the first class, and the company is about ready to commence its construction. The Yampa mine at Bingham has ore for another smelter, the plans for which are now being prepared. This will make of Salt Lake the largest smelting center in the country. Our lead and silver mines are employing more men and producing more ore than at any previous time, and we will this year add zinc to the metal products of the state. This has heretofore been waste material, the presence of which added to the smelting charge of the ore containing it. The Leadville district produced about $3,000,000 in zinc the past year, and our zinc ores were quite as rich and extensive as those at Leadville.

THE RAILROAD SITUATION.

"Our railroad situation is certain to be greatly improved the coming summer. The Moffat road will undoubtedly commence operations at this end as soon as the season opens; and it is confidently believed that a basis of settlement has been reached between the Short Line interests and Clark's San Pedro project, which will result in the resumption of active work on the Los Angeles line, with the opening of spring.

PLENTY OF MONEY.

"Our banks are well supplied with money. The eastern stringency does not affect us in any way; and the superb condition of our mines, and their heavy dividends will insure an active and profitable season on our stock exchange. Our merchants are alert and enterprising, and are all well equipped to meet the heaviest demands upon their stocks.

IMPROVEMENTS NEEDED.

"In one thing alone we are as a city antiquated and subject to just criticism; and that is a lack of public interest in the proper improvement and adornment of the city. We should insist on an immediate cleaning up of the streets, areas and yards. The trees should be trimmed and unsightly objects removed. The paved area should be extended as rapidly as possible. The organization of street improvement associations should be encouraged in every ward. The water system should be brought under efficient control. The repainting of many houses is a crying necessity. In short, the town needs a general cleaning up; and above all, a suppression of the smoke nuisance. With the accomplishment of these suggested reforms, we would have one of the most attractive cities in the United States, with the result that large accessions of wealth and population would immediately come our way, and remain with us."

Danger of Colds and Grip.

The greatest danger from colds and grip is their resulting in pneumonia. If reasonable care is used, however, and Chamberlain's Cough Remedy taken, all danger will be avoided. Among the tens of thousands who have used this remedy for these diseases we have yet to learn of a single case having resulted in pneumonia, which shows conclusively that it is a certain preventive of that dangerous disease. It will cure a cold or an attack of the grip in less time than any other treatment. It is pleasant and safe to take. For sale by all druggists.

SHOE THE GIRL AND BOY.

MARKET SHOWED NERVOUSNESS.

Recent Conspicuous Stocks Took Contrary Courses.

TRADERS BECAME CONFUSED

Could Not Determine Ultimate Trend of Business—Unloaded and Bought In at Same Time.

New York, March 28.—The market displayed a good deal of nervousness in the early dealings, owing to the wide and contrary course of some of the recently conspicuous stocks. St. Paul and Manhattan, after a steady opening declined a point below yesterday's close on their next transactions. Meanwhile Pennsylvania was lifted a point above its first price and New York Central, after declining slightly, rallied a point also. Traders became confused in trying to determine the ultimate course of the market and bid up some stocks, while unloading others. Southern Pacific and United States Steel preferred were down a sharp fraction. Amalgamated Copper recovered sharply 1. Later St. Paul, Northwestern and Manhattan wiped out their losses, the market grew steadier for a time, but the unloading of high-priced stocks was resumed again shortly before 11 o'clock. St. Paul dropped to 161. Southern Pacific touched 58⅛, Union Pacific 88½, and the whole market broke badly. There was a continuance of urgent liquidation into the second hour, which carried many prominent stocks a point or more under last night. United States Steel preferred broke 1¼. A rise in Manhattan to a point over last night and fractional gains were established in other prominent stocks. With the demand of the shorts satisfied, the market became quiet and prices slipped back again. The close was dull and steady.

BANK STATEMENT.

New York, March 28.—The statement of averages of the clearing house banks of this city for the week shows:

Loans	$904,599,200
Decrease	6,948,200

Union Pacific Railroad Lands,

UNION PACIFIC RAILROAD LANDS, Uinta County, Wyoming—Splendid spring and summer range. Also still have desirable shee range in Utah. This will be the last chance to secure good range at low prices and on easy 10-year payments. For particulars write or call on E. J. Wills, Local Agt., 15 W. Second South St., Salt Lake City, Utah.

STOCKHOLDERS' MEETING.

THE UTAH SUGAR CO.—Notice is hereby given that the annual meeting of the stockholders of The Utah Sugar company will be held in the assembly hall of the Salt Lake Business College, Templeton building, Salt Lake City, Utah, on Monday, April 6th, 1903, at 5 o'clock p. m. The purpose of the meeting will be the hearing of the reports of the company's operations for the fiscal year ending March 31st, 1903, and the transaction of such other business as may lawfully come before it.

HORACE G. WHITNEY,
Secretary.
Salt Lake City, Utah, March 19, 1903.

NOTICE.

The Idaho Sugar company, a corporation organized and existing under the laws of Utah, hereby announces that it will set apart for distribution, and will distribute, among the beet-growers of Idaho, ten per cent of the aggregate amount that may be received by said company from the State of Idaho as bounty upon the sugar manufactured by the same; such distribution will be pro rata to the total number of tons of beets accepted under contract and grown by the company, and will be made promptly upon receipt of the bounty by the company.

By resolution of the board of directors made at Salt Lake City, Utah, on the 16th day of March, 1903.

JOS. F. SMITH,
President.
H. G. WHITNEY,
Seretary.

NOTICE.

NOTICE IS HEREBY GIVEN, THAT there will be a meeting of the members of "The Corporation of the Members of the Church of Jesus Christ of Latter-day Saints, residing in the Tenth Ecclesiastical Ward of the Salt Lake Stake of Zion," in the County of Salt Lake and State of Utah, at the Meeting House of said Ward, on Thursday, the Ninth day of April, 1903, at 7:30 o'clock p. m., for the purpose of authorizing the Board of Directors of said Corporation to transfer the legal title to all the real property belonging to said Corporation to Adam Speirs, as Bishop of the Tenth Ward of the Church of Jesus Christ of Latter-day Saints, in the County of Salt Lake, and State of Utah, also, for the purpose of electing a vice president of said Corporation.

Dated March 24th, 1903.

ADAM SPIERS,
President of said Corporation.
James T. Strong, Secretary.

"The Rocky Mountain Limited."

Is all the name signifies. Leaves Denver 1:00 p. m. and Colorado Springs 1:20 p. m. every day; reaching Chicago in time for dinner next day.

Serves delicious table d'hote luncheon on dining car leaving Denver for 50 cents. Breakfast and dinner en route a la carte.

The new observation dinners are exquisite, and the service is perfect.

Burlington Route

For Chicago.

No. 6—that is what they call the Burlington Chicago Special.

It is the fastest as well as the finest of the three great trains for the East which leave Denver Daily over the Burlington Route.

It's a big train, too—mail-car, baggage-car, two chair-cars, diner, two sleepers, and a buffet-smoking-library car, with observation platform.

Leaves Denver 4:15 p. m.; arrives Omaha next morning, Chicago next evening.

R. F. NESLEN, Gen. Agent,
79 W. Second South Street,
Salt Lake City.

P. S.—Thro' sleeper for Chicago leaves Salt Lake City 3:15 p. m. daily.
